"If you are Coming, Why don't you Come along?"

THAT is the "mot" now-a-days. Every locomotive on every Railroad shrieks it. It is daily rapped out on every Telegraphic Line in the country. The echoing blows of our Ship Carpenters hourly exemplify it. The smith at his anvil hammers it out. The clanking Press with breathless haste, sends the cry home to every family—"If you are coming, why don't you come along?" It is uttered in an hundred tongues in a hundred lands. It has sounded like a sigh on through the political world, and the "Old Fogies" are creeping along among the baggage wagons and the wounded. Thought, that moved at a funeral pace, now rushes on a tremendous charge; and all the old remedies for Liver Complaint have given way for

HOLMAN'S SPRING BITTERS.

"*If you are coming, why don't you come along.*"—Six paces to the front, is the word to everybody and everything that wants to be listened to or looked at. If you have anything to do, *do it:* if you wish anyperson to see anything, *show it;* if you have anything to be cured, CURE IT WITH

HOLMAN'S SPRING BITTERS.

"*If you are coming, why don't you come along?*"—If you have a bottle of Holman's Bitters in your house, you need not suffer from

Biliousness, Weakness at the Stomach, Indigestion, Heartburn, Lowness of Spirits,

Nor any of the diseases incident to the season.

It used to take six men to make a pin; now one boy, a pull, a clip, and two strokes, and that's the way the pins are made. Once it took a Physician, lots of precious time, and quantities of nauseous drugs to cure some simple disease of the Blood.—Now, a quarter expended in

HOLMAN'S SPRING BITTERS

Brings Life and Health, flowing spirits and rosy cheeks.

"*If you are coming, why don't you come along?*"—If you are sick and weak, why don't you cure yourself? Hereby offer you the article that will do it—there is no mistake about it. Every body knows about HOLMAN'S BITTERS; they have been tried and have "toed the mark straight."

They are a *good* medicine; they are *better* than anything else for all Spring Complaints; they are just the *best* Bitters that can be bought—and that's the best thing we can say about them. "*If you are coming, why don't you come along,*" before they are all gone?

Room Papers.

JOHN S. HARVEY & SON, No. 7 Exchange Buildings, have received a splendid assortment of Room Papers of the latest and newest styles, with bright and beautiful colors, direct from Boston, New York and Philadelphia, which are selling at the very lowest prices.

Also, a lot of Remnants at Cost.

A great variety of Shades, Curtains, Fixtures, Tassels and Cord.

Please call and examine. ly4

LOCAL.

☞ For a day or two past a trio of strolling performers have enlivened our thoroughfares with street-music of the first order; the tanta-ra of the tambourine, the clashing of the cymbals, and the tin-tin-nabulation of the bells blended agreeably with the boom of the drum, the vibration of the triangle and the pleasing melody of a deep toned barrel-organ, while far above the whole rose the clear wild notes of the Pandean pipes, an instrument worthy of a wider sphere of action than that which it graces at present. †

ISSUES—THE LAW'S DELAY.—By an advertisement it will be seen that the "successful clairvoyant physician and phrenologist" who has been in Portsmouth for a week past, has gone off in so great a hurry as to forget to pay her board-bill. She is supposed to be "looking after lost property" or "tracing absent friends," down east.

In connection with this "stepping-out" case, occurred an incident which well illustrates one of the holes in the law through which rascals may escape. This doctress and her husband left the house where they had boarded, in a hack—stating that they were going to a hotel, as a more public place, and would soon pay their bill. Their landlady learning, shortly after, that they were at the Eastern Depot, sent a man to have them stopped. The City Marshal delined arresting them without a warrant, however;—while the document was being made out, the cars left, conveying our hero to a place where Gov. Wells's requisition will be necessary to his arrest. Well, who can blame an officer for not putting his head in the noose of informality, when he may get pinched as one of our Assistant Marshals did last year.

By the way, the fact that a boarding-house keeper in this city, has been swindled out of $400 board money within a year, proves that there are more rascals than these.

☞ A Grand Democratic pic nic is to come off at Rice's Grove in Kittery, on Saturday afternoon, at 1 o'clock, when Gov. Wells, Mr. Clifford and other distinguished orators will advocate the salvation of the constitution and the union, by means of voting for Mr. Buchanan and the platform.

IS IT SO?—The Boston Telegraph informs its readers that the temperance movement is onward in the city of Lowell. We wish we could believe it. Facts seem to deny such a statement. Those who know, tell us that there is more rum sold than ever. And we believe it. The law is broken openly and shamefully. Not long ago, a city official, as we are informed, went to one of the vilest and most notorious grog-sellers in the city, and said to him, "There is a fuss just now; don't sell for a few days; these temperance chaps (using a dreadful oath) are kicking up a row, but it will be all over soon." It was soon over, and a week or two since a drunken frolic occurred in that grogery, and one poor creature came near losing his life. Our City Government are shamefully remiss in duty; the law is not executed; justice is not done the guilty, and rum flows, mingling with the tears of widows and orphans. The trouble is not with the people, but with those whose duty it is to execute the law. Our Sunday evening temperance meetings are doing more harm than good, and we are unable to see any particular progress being made. Rum is sold: temperance men let their premises for the traffic; men high in the community are directly and indirectly connected with the sale, and the woe rolls on unchecked.—*Lowell News.*

"What do you think will become of you?" said Mrs. Partington to Ike, as they were going from church. The question related to the young gentleman's conduct in the church, where he had tipped over the cricket, peeped over the gallery attracting the attention of a boy in a pew below by dropping a pencil tied with a string upon his head, and had drawn a hideous picture of a dog upon the snow white cover of the best hymn book. "Where do you expect to go?" It was a question that the youngster had never before had put to him quite so closely, and he said he didn't know, but he thought he'd like to go up in Mons. Godard's balloon. "I'm afraid you'll go down, if you don't mend your ways, rather than go up. You have been acting very bad in meeting," continued she, "and I declare I could hardly keep from boxing your ears right in the middle of the lethargy. You didn't pay no interest, and I lost all the thread of the sermon through your tricks." "I didn't take your thread," said Ike, who thought she alluded to the string by which the pencil was lowered upon the boy, "that was a fishing line." "Oh, Isaac," continued she earnestly, "what do you want to act so like the probable son for? why don't you try and be like David and Deuteronomy that we read about, and act in a reprehensible manner?—The appeal was touching, and Ike was silent, thinking of the sling that David killed Goliath with, and wondering if he couldn't make one.

JOHN BUNYAN'S FLUTE.—The flute with which John Bunyan beguiled the tediousness of his captive hours, is now in possession of Mr. Howells, tailor, Gainsborough. In appearance it does not look unlike the leg of a stool—out of which it is said that Bunyan, while in prison manufactured it. When the turnkey, attracted by the sound of music, entered his cell to ascertain, if possible, the cause of the harmony, the flute was replaced in the stool, and by this means detection was avoided.—*Lincolnshire Times.*

ANOTHER STRAW.—We notice that the cry of potato rot has arisen just as the chance of procuring cheap potatoes has appeared.—The public may be assured that the rumors are false, and that the editors who give currency to such reports are culpably verdant, and ignorant tools of speculators and scoundrels. We don't mince matters, and do not intend that the poor man shall be taxed a mill beyond what is just, if we can help it.—These has been no rot this year to speak of, and we defy proof of the contrary.—*Boston Times.*

STEAMER EMPIRE STATE.

Five more of the persons injured by the explosion on board the Empire state, died on Monday, leaving eight persons of those injured still living. The names of those who died are—Joseph Durman of New York, Joseph Richards, Bangor, Me., Henry Ketchum (master boiler works), Fall River, Timothy Mahony, deck hand, John Salters, head waiter.

At the coroner's inquest at Fall River, the testimony of Mr. Increase S. Hill, local inspector of steam boilers for the district of Boston and Charlestown, was to the effect that the boilers, when last examined by him, on the 27th of May last were in perfect order. He thought the immediate cause of the accident was in consequence of a defective sheet in the steam chimney. The appearance of this defective sheet shows imperfect welding of the mass, as it appears unsound. Such sheets are not always easily detected. It appears to me that these boilers have been gradually weakened by the over-heating of the steam-chimneys within the last two months. If there had been no defects in the iron, and the chimneys had been staid by rocket bolts and washers, I do not think they would have given way. The manner in which these boilers are staid is common; most steam boilers are made so. I do not think the heating alone would have caused the accident. The defective sheet I regard as the primary cause. There is no evidence that I can obtain from the engineers and firemen, and I have examined them also, that there was any excess of pressure at the time of the accident beyond what is allowed by the inspectors. I do not think the engineers had the slightest idea of danger or could have had.

Mrs. Douglas, who lived in the house with Mr. Ketchum, the engineer who was killed, testified that she had conversation with Mr. Ketchum in reference to the boat on Saturday last, and before that he had spoken to me several times; during conversation on Saturday, which was directed to both my aunt and myself, he said he had to go to New York that night, but did not want to; said he had been to the office twice that day, and Brockway wouldn't let him off. His wife said she would like to go. He said—"Woman, the boat is not fit for you or any human being to go in; if it was not for that you might go." He said there was a hole in the boiler as large as that, (indicating about four inches) and she wanted a patch as large as his table spread.—He said he did not want to go; he had rather give a month's pay; yes "I had rather give five dollars right out of my own pocket now than go." He said again before going out of his gate, I don't want to go at all, that boat will make a coffin box for us all. Witness never saw him so unwilling to go as he was on last Saturday night. At several previous times, he said the boat was not safe to go in, but gave no reason why she was unsafe. His wife was present all the time, but she did not manifest any fears of his going to the boat; had heard his wife say on Monday that she should always blame Mr. Brockway for the death of her husband, as he made him go; he would have been alive if he had let him off.

Miss Ruth Cook substantially corroborated the foregoing witness.

CONGRESS.

WEDNESDAY, July 30.

SENATE.—The Senate discussed Butler's bill regulating the compensation of members Congress.

Mr. Yulee from the Post office committee, reported the bill authorizing the Postmaster General to contract with Mr. Vanderbilt for carrying the mail between Southampton and New York, with the amendment making it the duty of the contractor to extend the trips to Bremen or Havre, or those places alternately, whenever requsted by the Postmaster General, without additional compensation for the round voyage; also providing that Antwerp may at any time be substituted for either of these places. Another amendment directs the Secretary of the Navy to give notice, provided in the act of June, 1852, to terminate the arrangement of the additional allowance for the transportation of the mail between New York and Liverpool in the Collins line of steamships. The bill was made the special order for Monday.

The bill continuing the improvements in the harbor of Newark, N. J., gave rise to an animated debate, involving the entire scope of such questions.

Without disposing of the bill, the Senate adjourned.

HOUSE.—The bill providing for settlement of the claims of officers of the Revolution, and the widows and orphans of those who died in service was passed.

The Kansas election case was postponed until to-morrow, Mr. Washburn of Maine, giving notice that he should then at 3 o'clock, move the previous question.

The bill expediting the issuing of patents for confirmed land claims of California, was debated and tabled by three majority.

The fortification appropriation bill was then taken up and discussed, pending which the House adjourned.

WASHINGTON, July 31.—Gen. Lane is preparing a reply to Mr. Burlingame's card, in defence of Mr. Brooks.

It is reported that the President has expressed himself favorable toward liberating Gov. Robinson and his companions in Kansas.

CINCINNATI, July 29.—A tornado passed over the city yesterday, accompanied by heavy rain, and uprooted trees, demolished fences &c. A building in Third street was blown down, killing one person, and wounding five or six others.

Gen. Tom Thumb's box of jewels and presents has been stolen. It was valued at $20,000.

LIBERIA EMIGRATION.—A bill has been introduced into the councils of Savannah, imposing a tax of $200 each, on all slaves or free persons of color brought or sent to that city for the purpose of being transported to Liberia, or any other foreign country. The Republican says "the tax is a high one, and we presume was intended to be prohibitory in its operation."

On Friday a small child, the son of Chas. McGrath, proprietor of a hotel in Lombard street, Philadelphia, while playing in a bathing room near the window, fell from it head foremost into the lap of a female domestic, who was sitting directly beneath in the yard. The child was but slightly injured.

A MAN KILLED BY HIS OWN COFFIN.—About a year since a resident of Twenty-ninth street, New York, a man of considerable wealth, entertaining the idea that when he should die his relatives would put his body into a cheap coffin, bought a handsome rosewood one, lined with white satin and trimmed with silver, for $75, and had it taken to his bed-room. He was found on Sunday morning dead on the floor, and the coffin beside him, and it was thought that he had got up in the night, and by some means capsized the coffin, which fell upon him, crushing his skull and causing instant death.

So far as can be ascertained the number of persons lost by the burning of the Northern Indiana, or known to be missing is 26. The number saved is 147—104 passengers and 43 of the crew.

Mr. Dewitt, Catholic priest in Philadelphia, has married and has ran away with the funds of several benevolent associations of which he was banker.

SECTIONALISM.—A German newspaper at San Antonio, Texas, was lately suppressed by the Democratic party for expressing anti-slavery sentiments.

COLUMBIA, S. C., July 30.—The elections in Messrs. Keitt's and Brook's districts, have resulted in the unanimous re-election of both. A very large vote was cast.

SERMON IN PRESS.—Messrs. Jewett & Company, Boston, have in press the Sermon of the Rev. Dudley A. Tyng, of Philadelphia, which caused such a fluttering among the worshipers at the Church of the Epiphany during its delivery. It is said to be a very able discourse on our country's troubles.

In Cecil county, Md; near the head of Susafras river, two men patrolling to prevent the escape of slaves, met a negro, whom they stopped and were questioning, when, by a powerful back-handed blow with a knife he struck one of the men and cut his head completely off. The other was too much horrified to pursue, and the negro escaped.

From the Boston Saturday Evening Gazette.

A PERFUMED BREATH.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A BEAUTIFUL COMPLEXION may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and roseate hue. Wet a towel, pour on two or three drops, and wash the face night and morning

SHAVING MADE EASY.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," run the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

W. P. Fetridge & Co. Proprietors, 328 Pearl street New York, and 100 Washington street, Boston. For sale in Portsmouth by William R. Preston. 6mje16

DYSPEPTICS, READ!—The Oxygenated Bitters have proved more successful than all other remedies known, in cases of Dyspepsia and General Debility. Those who doubt this statement can find ample proof in one trial of the medicine.

OXYGENATED BITTERS.

From the Boston Daily Evening Traveller.

TO DYSPEPTICS.—We would call the attention of those who are afflicted with this terrible complaint to a remedy, which from the modest way its merits are set forward, might be overlooked by many. It affords great relief, and in almost every instance, a certain cure. We allude to the Oxygenated Bitters, sold by Messrs. Seth W. Fowle & Co. 138 Washington street. This is not heralded by a mass of unmeaning certificates from persons unknown to the public, but a few well chosen testimonials from members of congress, and some of our first merchants and city officers who have been cured by its use, and whose names are familliar to every Bostonian, are a sure evidence of its efficacy. For dyspepsia, debility and weakness, it is a most excellent medicine. It may be had at any of the apothecary stores.

SETH W. FOWLE & CO. 138 Washington st. Boston, Proprietors. Sold by their agents everywhere.

MASSASOIT SALVE ALLEVIATES PAIN.

Any Antidote for the sufferings of flesh, should be received as a blessing. The 'Massasoit Salve' cures many ailments, and may be had for 25 cts. per box. J. P. SULLIVAN, Proprietor,

a2 2w Boston, Mass.

Secured by Royal Letters Patent in England and by Patent in the United States.

THE Subscribers, having been for a long time desirous of securing to the public a Needle that will not only be a superior article, but perfect in the Eye, recommend their "*Patented Gold Inlaid Needle.*" They are justly celebrated, and preferred above all others, the eyes being inlaid with gold and burnished, which renders the cutting or chafing the thread utterly impossible.—They are manufactured from the best steel, and tempered according to the most approved plan.—We therefore offer with confidence these Needles to the public, having secured them against all frauds or imitations either in Paper, Label or Needle. We desire all parties purchasing these Needles to be cautious in the selection of them, as unprincipled persons have sought to imitate our style, and thus palm off an inferior article, notwithstanding the heavy damages we have recovered from various parties; and a reward of $500 will be paid for such information as shall will lead to the detection and conviction of any person or persons thus engaged. None are genuine except those labelled on the back, "*Warranted by R. Crowley.*" A liberal discount will be allowed to dealers who purchase in large quantities.

WILLIAM CROWLEY & SON,
Oversly Mills, Alcester, England.

Having made arrangements with the Manufacturers of the above brand of Needles (which I earnestly recommend as the best Needle in the market,) I am prepared to sell them

A STEAM ORGAN.—"Belle Britain," the Newport correspondent of the New York Mirror, thus speaks of a new invention exhibited at that place:

"We had a little bit of excitement here yesterday, occasioned by a steam organ on board of a boat in the harbor. It seemed as if the whole forenoon, was filled with hurdy gurdies. It played Yankee Doodle with terrific variations, and spluttered waltzes all over sea and shore. But a gentleman who went to see it, says it is nothing very wonderful after all. It has keys and is played upon like any other organ, only steam is used instead of wind. Every time a key is touched, and a note produced, a certain amount of steam is let off, which is very exhausting to the engine. It will probably take the place of a band of music, when steamboats go out on dancing excursions; and perhaps it will be introduced as a "motive power" into churches, to play the organ."

THE PHILOSOPHY OF KEEPING COOL.—The Philadelphia Inquirer ventures the statement that "the clear of conscience, the well regulated in mind, and the temperate in habit, are the only persons who really understand and practice the philosophy of keeping cool."

DELUSION.—Sir J. Nicholl has defined delusion as "a belief of facts which no rational man would have believed;" extended by Lord Brougham into "a belief of things as realities which exist only in the imagination of the patient."

AYER'S Cathartic Pills,

(SUGAR COATED,)

ARE MADE TO

CLEANSE THE BLOOD AND CURE THE SICK

Invalids, Fathers, Mothers, Physicians, Philanthropists, read their Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach.

PITTSBURGH, PA., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will cure others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. PREBLE,
Clerk of Steamer Clarion.

Bilious Disorders and Liver Complaints.

DEPARTMENT OF THE INTERIOR, WASHINGTON, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them.

Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

POST OFFICE, HAZELHURST, LIV. CO., MICH., NOV. 16, 1855.

DR. AYER: Your Pills are the purgers of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORGRIDGE

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawkes, of the Methodist Episc. Church.

PULASKI HOUSE, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

SENATE CHAMBER, BATON ROUGE, LA., 5 Dec., 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that had afflicted me for years. VINCENT SLIDELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a Dinner Pill, they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even **Deafness,** and **Partial Blindness,** have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN CIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized country in this continent without some personal experience of its effects; and fewer yet the communities any where which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous disease of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe the CHERRY PECTORAL saves more lives by the consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are curable, nor neglect them until no human skill can master the inexorable canker that, fastened on the vitals, eats your life away. All know the dreadful fatality of lung disorders, and as they know too the virtues of this remedy, we need not do more than to assure them it is still made the best it can be. We spare no cost, no care, no toil to produce it the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their cure.

PREPARED BY DR. J. C. AYER,

Practical and Analytical Chemist, Lowell, Mass

AND SOLD BY

DR. LANGLEY'S

Root and Herb Jaundice Bitters.

The Great Spring and Summer Medicine.

THIS Medicine, composed of the best roots, herbs and barks in the world, has constantly increased in public favor for six years, until by a wonderful success, it is acknowledged to be the best and cheapest medicine in the world. It acts with magic like power upon the strong holds of disease, restores the bowels, purifies the blood gives vitality to an inactive, torpid liver, cures Jaundice in all its forms, Dyspepsia, Costiveness, Indigestion, Headache, Dizziness, Piles, Heartburn, Languor, Weakness, Pain in the Side and Bowels, all Bilious Diseases and Foul Stomach, and especially Humors of the Blood and Skin; strengthening, healing, purifying, building up, and keeping in order the whole system. All persons ought to use them during the spring and summer.

Only 25 cents for a pint, and 37½ cents for a quart bottle. Office 99 Union St., Boston. Sold by all dealers in medicine, everywhere. mh13eod

Whalebone Skirts.

THE only object of a Whalebone Skirt is to give a proper, graceful and elegant form to a lady's dress. Unless this is accomplished, the article is entirely worthless. The Ladies, by referring to Frank Leslie's Gazette of Fashions for April, will notice that E. & J. HOLMES have from actual experience been successful in producing this most desirable article, and that their IMPROVED SEAMLESS SKIRT meets the unanimous approbation of the ladies. They are light, pliable, and easily adjusted, and the only Skirt which is equally adapted to the stout or the slender crowd; are made in one piece for breadth, and in our opinion, and in the opinion of thousands of ladies who have bought them, the most reliable goods of the kind in the market. We were the first to introduce a Whalebone Skirt, and from our experience in the manufacture and retail of these goods, we have found that all kinds of cotton cord, and nearly all kinds of cord, and all starched goods, cannot be used satisfactorily, as they will not recover their place when pressed out of shape. We consider all

WHALEBONE SKIRTS

as worthless, of whatever material made, unless there is something of sufficient strength and elasticity, and at the same time yielding and pliable, to keep the dress in proper shape below the bones. To accomplish this we have our cord made under our own direction, and expressly for our goods, and from the only material that can be used that will recover its proper place when pressed out of shape, and are so twisted to prevent kinking, and are tested by a machine for strength, and warranted to wash without injury. The public are cautioned against all worthless goods, as the market since our goods have become popular and extensively known, has been flooded with goods of all kinds, and put together without form or comeliness, or any other object but to sell, and these are called Whalebone Skirts. Some imitators, in their efforts to profit by our reputation, have gone so far as to copy almost exactly our trade mark upon their goods.

Please Notice.—Every genuine article stamped, *E & J. HOLMES'S IMPROVED SEAMLESS WHALEBONE SKIRT,* and may be found by the trade in many of the largest Jobbing Houses in New York and Boston, and at retail in the principal Dry Goods stores.

June 6, 1856. eo2m E. & J. HOLMES, Boston.

Great American and Foreign Office

For Securing Patents for Inventions.

Agency for business with US Patent Office, Washington

R. H. EDDY,

No. 76 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages in applying for Patents superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington.—Patents secured in Great Britian, France, and other foreign countries, through Agents of the highest respectability. R. H. EDDY.

Solicitor of Patents.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

CAPITAL, $106,100.

J. W. DANIELS, Sec'y. NATHAN ALLEN, Pres.

INSURES against loss or damage by Fire on Stocks of Goods, Stores, Dwelling Houses, Furniture and other property upon as favorable terms as other sound companies, not exceeding five thousand dollars on one risk.

Marine Insurance.

THE subscriber is authorized to receive applications for Marine Insurance in one of the first Boston Offices, on Vessels, Cargoes, and Freights, by special or open policies not exceeding $15,000 in any one risk.

JOHN SISE, Insurance Agent.
j1 5 Market Square, Portsmouth, N.H.

Marine Risks.

THE subscriber is prepared to make INSURance upon approved Vessels, Cargoes and Freights. J. P. BARTLETT.

Cochecho Mutual Fire Insurance Co.

THE subscriber having been appointed Agent for the above named Company, will receive applications for Insurance of Real or Personal Estate. The risks are divided into Three Classes, viz: 1st, or Farm Class; 2d, or Village Class; 3d, or Union Class. The average assessment in the Farm Class from April 1850 (the time of the Classification) to Jan. 1856, has been less than ¼ of 1 per cent. annually on the amount insured. In the Village Class for the same the average yearly assessment has been less than 1 10 of 1 per cent. on the amount insured. In the 3d, or Union Class, from Oct. 1846 to Jan 1856, the yearly average of assessments has been less than 1-6 of 1 per cent. on the amount insured.

H. F. WENDELL, Agent,
Office No. 70 State street.

New Store.

He hopes to merit a share of public patronage, by strict attention and fair dealing, to his patrons. Orders promptly attended to.

Please give me a call, at 21 Daniel st.

A. C. MANN.

FARM LANDS FOR SALE.

The Illinois Central Railroad Company

IS NOW PREPARED TO SELL

OVER TWO MILLION ACRES

OF

FARMING LANDS,

In Tracts of 40 acres and upwards, on long credits and at low rates of interest.

THESE lands were granted by the Government to aid in the construction of this Railroad, and include some of the richest and most fertile Prairies in the State, interspersed here and there with magnificent groves of oak and other timber. The Road extends from Chicago, on the northeast, to Cairo at the south, and from thence to Galena and Dunleith, in the north-west extreme of the State, and as all the lands lie within fifteen miles on each side of this Road, ready and cheap means are afforded by it for transporting the products of the lands to any of those points and from thence to Eastern and Southern markets. Moreover, the rapid growth of flourishing towns and villages along the line, and the great increase in population by immigration, etc. afford a substantial and growing home demand for farm produce.

The soil is a dark, rich mould, from one to five feet in depth, is gently rolling and peculiarly fitted for grazing cattle and sheep, or the cultivation of wheat, Indian corn, etc.

Economy in cultivating and great productiveness are the well known characteristics of Illinois lands. Trees are not required to be cut down, stumps grubbed, or stone picked off, as is generally the case in cultivating new land in the older States. The first crop of Indian corn, planted on the newly broken sod, usually repays the cost of plowing and fencing.

Wheat sown on the newly-turned sod is sure to yield very *large profits.* A man with a plow and two yoke of oxen will break one and a half to two acres per day. Contracts can be made for breaking, ready for corn or wheat, at from $2 to 2.50 per acre. By judicious management, the land may be plowed and fenced the first, and under a *high state of cultivation* the second year.

Corn, grain, cattle, etc. will be forwarded at reasonable rates to Chicago, for the Eastern market, and to Cairo for the Southern. The larger yield on the cheap lands of Illinois over the high priced lands in the Eastern and Middle States, is known to be much more than sufficient to pay the difference of transportation to the Eastern market.

Bituminous coal is mined at several points along the Road, and is a cheap and desirable fuel. It can be delivered at several points along the Road at $1.50 to $4 per ton; Wood can be had at the same rates per cord.

Those who think of settling in Iowa or Minnesota, should bear in mind, that lands there of any value, along the water courses and for many miles inland, have been disposed of;—that for those located in the interior, there are no conveniences for transporting the produce to market railroads not having been introduced there. That to send the produce of these lands, one or two hundred miles by wagon to market, would cost much more than the expense of cultivating them; and hence Government lands thus situated, at $1.25 per acre are not so good investments as the lands of this company at the prices fixed.

The same remark holds good in relation to the lands in Kansas and Nebraska, for although vacant lands may be found near the water courses the distance to market is far greater, and every hundred miles the produce of those lands are carried either in wagons or interrupted water communications, increases the expense of transportation, which must be borne by the settlers, in the reduced price of their products; and to that extent precisely are the incomes from their farms, and of course on their investments, annually and every year reduced.

The great fertility of the lands now offered for sale by this company, and their consequint yield over those of the Middle and Eastern States, is much more than sufficient to pay the difference in the cost of transportation, especially in view of the facilities furnished by this Road, and others with which it connects, the operations of which are not interrupted by the low water of summer, or the frosts of winter.

PRICES AND TERMS OF PAYMENT.

The Price will vary from $5 to $25, according to the quality, location, &c. Contracts for Deeds may be made during the year 1858, stipulating the purchase money to be paid in five annual installments; the first to become due in two years from the date of contract, and the others annually thereafter. The last payment will become due at the end of the sixth year from the date of the contract.

Interest will be charged at only 3 per ct. per ann.

As a security to the performance of the contract the first two years' interest must be paid in advance, and it must be understood that at least one tenth of the land purchased shall yearly be brought under cultivation. Twenty per cent. from the credit price will be deducted on cash. The Company's construction bonds will be received in cash.

READY FRAMED FARM BUILDINGS,

Which can be set up in a few days, can be obtained from Responsible Persons.

They will be 12 ft. by 20 ft. divided into one living and three bed rooms, and will cost complete set up on ground chosen anywhere along the road $150 in cash, exclusive of transportation. Larger buildings may be contracted for at proportionate rates. The Company will forward all the materials for such buildings over the Road promptly.

Special arrangements with dealers can be made to supply those purchasing the Company's lands with fencing materials, agricultural tools, and an outfit of provisions in any quantity, at the *lowest wholesale prices.*

It is believed that the price, long credit, and low rate of interest, charged for these lands will enable a man with a few hundred dollars in cash and ordinary industry, to make himself independent before all the purchase money becomes due; in the mean time, the rapid settlement of the country will probably have increased their value four or five fold. When required an experienced person will accompany applicants, to give information, and aid in selecting lands.

Circulars containing numerous instances of successful farming, signed by respectable and well known living in the neighborhood of the Railroad lands, throughout the State—also the cost of fencing, price of cattle, expense of harvesting, threshing, &c. by contract—or any other information—will be cheerfully given on application, either personally or by letter, in English, French or German, addressed to

JOHN WILSON,
Land Commissioner of Ill. Central R. R. Co.,

Office up to the 1st of May, 52 Michigan Avenue, Chicago, Ill.; after that date in the New Stone Passenger Depot, So. Water st. a8 6m

SATURDAY, AUGUST 2, 1856.

STEAMBOAT INJURIES. — The statement that the smoke-pipe of the steamer John Jay was foul and choked, thus causing that sad and fatal disaster, if confirmed, (says the Boston Courier,) will reflect strongly upon the captain and managers of the boat. A despatch from S. C. Thwing, merchant of Boston, and a resident of Roxbury, announces that he is on his way home with the bodies of his wife and her sister, Mrs. Belknap of New York, both of whom lost their lives by this sad disaster. Her name was telegraphed Erving. Mrs. Thwing has for several years been confined to her house by debility, and had recovered sufficiently the present summer to undertake the pleasure excursion which has had such a fatal termination. The baggage of all the passengers is all lost. Mr. T. had two children with him, who were saved.

The inquest on the bodies killed on the Fall river steamer is continued, and some of the evidence is of such a character as to excite surprise and indignation in the community. Still, the public should wait for the publication of the whole testimony before it makes up its decision. A boiler maker testifies that the boiler was not very bad, not very *good*.

A DESCRIPTION.—Of John W. Gerry, who has been appointed Governor of Kansas Territory, the Charlestown Advertiser says, after leading the Pennsylvania volunteers in the Mexican war, he was subsequently postmaster in California, then first Alcalde, and the first mayor of San Fransisco. As Alcalde he was instrumental in exterminating the "Hounds," that gang of land pirates that appeared in San Fransisco at the breaking out of the gold fever. He was the first to take steps for establishing the Vigilance Committee there, and during his stay in the country he enriched himself and went away generally respected, as a man of unimpeached character. He is a spare man, 40 years of age, and stands six feet in his stockings.

If he will exercise himself like a true man in Kansas, to correct abuses and defend the right, he will deserve the thanks of the Republic, and will doubtless have his reward.

NEW YORK.—The conventions of both sections of the democratic party of New York, which assembled at Syracuse on Wednesday, were 'fused' upon the same day, and united in nominating Amasa J. Parker, ('soft,') for Governor. Next day, J. Vanderbilt was nominated for Lieutenant Governor, and a series of resolutions endorsing the Cincinnati platform, and denouncing other political parties, was adopted.

KEEPING COOL.—Not many days ago, the Charleston, Mass. Advertiser, which had all along sailed under the Fillmore and Donelson flag, hauled it down, and gave as a reason for so doing, the fact that there was an overwhelming pressure of public opinion and feeling all in one direction, (i. e. as we suppose, in Massachusetts for Fremont.) It has put up no other nomination yet, but on the 30th of July, it says:

"Those who agitate themselves excessively upon the political matters during this uncommon ardent weather, are not the philosophers we have supposed them to be. Every right-minded person, instead of getting into a perspiration in upholding any particular candidate should put a piece of ice in his mouth, keep cool, and direct his attention solely to the staving off of cholera morbus, which goes about now seeking whom it may devour."

FEMININE COURAGE AND MASCULINE TIMIDITY.—The following incidents are related of the recent burning of the steamboat Northern Indiana, on Lake Erie:

"An Irish woman named Bridget Clynn, with four children, was on board the burning boat. She threw her children, the youngest of whom was a nursing infant, into the water, and then followed them. She maintained the most admirable presence of mind, and even while sustaining herself from sinking, she preserved all four little ones from drowning, instructing them how to keep up, and raising them as often as they sank. One was drawn under and passed over by a small boat from the Mississippi. The mother as soon as the boat passed by, caught sight of a head, and grasping at the hair, drew up the child, her eldest. The mother and four children are among those saved. They were on their way to join husband and father at Chicago.

Incidents partaking of the humorous, occurred even in the midst of this awful scene. One man came upon deck, with his hands full of money, and his watch hanging by its guard chain upon his arm. He was in great distress to know what he should do with those things? "Do tell," he cried, "what shall I do with my money?" He was told that he must not think of having his hands burthened with his gold, or he would be lost. Finally he threw his watch overboard, and put his gold in his pocket. A young lad who had stripped to jump in, saw the watch flying, and sprang after it, catching it on his arm before it reached the water. He hung it around his neck, and being a good swimmer, kept afloat until taken up. He was rewarded by the owner, who was saved, with $10.

☞ Hon. J. Pike has our thanks for a copy of the volume containing the documents relating to Central American affairs and the Enlistment question. It is accompanied by a large, and we suppose, accurate map of Central America.

During the last seven years fourteen hundred murders, it is said, have been perpetrated in and about San Francisco, and the city itself has been burned down seven times.

The Baltimore Sun says upon the Brooks and Burlingame affair:

Mere animal courage is worth $10 a day in the United States, a shilling a day in England, six sous per diem in France, five kreutzer a day in Germany, and something like a dollar a month in Russia! The model courage of a bulldog requires nothing but raw meat, and a certain mutilation of ears and tail, which all versed in dog craft admit improves the animal's ferocity. If we must have some more duels, let the parties defer the fight till the cool weather sets in, and in the meantime, prepare for it, by eating raw beef, drinking oil of vitriol, and—spending their spare time in some menagerie. The nearer they approach the admirable points of the bulldog, the greater will be the popular applause, but it is to be hoped the ladies will not join in it.

PARIS CORRESPONDENCE.—The Paris correspondent of the Boston Atlas, says under date June 1:—

It has not been long since four or five Americans became beastly drunk at a ball in the Tuilleries, and forced their way to the Emperor's table at supper, making the greatest uproar, and indulging in liberties which might be pardoned only at the penultimate hour of a political clam bake. The annoyance a "scene" would cause, and the fact that two of the party were——and——, prevented them from being extruded from the precincts of the palace by the imperial menials. But the disgust and astonishment raised by their degraded misconduct, persuaded the Court Chamberlains that there must be some mistake somewhere; they believed these brutes had surreptitiously obtained their tickets and uniforms; several detective police officers were summoned, and ordered to observe these persons during the remaining period of the ball, and to dog them home when they retired, that they might ascertain if indeed these persons were the people they represented themselves to be. To the astonishment of the French the police discovered that there was no manner of fraud. You will not be surprised, after this, when I tell you that these persons regard this whole occurrence as a "good joke," and the circumstance of their being attended home by the detective officers, as "decidedly rich." With the exception of a forcible entrance into the Emperor's supper saloon, disgusting incidents of this nature occur whenever the Emperor or the Prefect of the Seine gives a ball; Americans regard the invitation to these palaces as a *carte blanche*, on which they may write any "spree" they please. At the last ball given at the Tuilleries, two Americans went in full court costume from the palace to the Maison d'Or, where they exhibited their state of beastly intoxication to the large throng until a late hour of morning! Drunkenness is a vice which here is confined to the most degraded of the lowest classes. American Ministers fail to exert the influence which belongs to them, and which, if used, might altogether put an end to these disreputable scenes.

THE YOUNG AMERICAN.

We must have kings, and we must have nobles. Nature is always providing such in every society,—only let us have the real instead of the titular. Let us have our leading and our inspiration from the best. The actual differences in personal power are not to be disputed. In every society some men are born to rule and some to advise. Let the powers be well directed, directed by love, and they would everywhere be greeted with joy and honor. The chief is the chief all the world over, only not his cap and his plume. It is only their dislike of the pretender, which makes men sometimes unjust to the true and finished man. If society were transparent, the noble would everywhere be gladly received and accredited, and would not be asked for his day's work, but would be felt as benefit, inasmuch as he was noble. That were his duty and stint,—to keep himself pure and purifying, the leaven of his nation. I think I see place and duties for a nobleman in every society; but it is not to drink wine and ride in a fine coach, but to guide and adorn life for the multitude by fore-thought, by elegant studies, by perseverance, self devotion, and the remembrance of the humble old friend, by making his life secretly beautiful.

I call upon you, young men, to obey your heart, and be the nobility of this land. In every age of the world there has been a leading nation, one of a more generous sentiment, whose eminent citizens were willing to stand for the interests of general justice and humanity, at the risk of being called, by the men of the moment, chimerical and fantastic. Which should be that nation but these States? Which should lead that movement, if not New England? Who should lead the leaders but the Young American? The people, and the world, is now suffering from the want of religion and honor in its public mind. In America, out of doors all seems a market; in doors an air-tight stove of conventionalism. Everybody who comes into our houses savors of these precious habits; the men of the market, the women of the custom. I find no expression in our state papers of legislative debate, in our lyceums or churches, specially in our newspapers, of a high national feeling, no lofty counsels that rightfully stir the blood, I speak of those organs which can be presumed to speak a popular sense. They recommend only conventional virtues, whatever will earn and preserve property; always the capitalist; the college, the church, the hospital, the theatre, the hotel, the road, the ship, and the capitalist,—whatever goes, to secure, to adorn, enlarge these, is good; what jeopardizes any of these is damnable.—[R. W. Emerson.

KANSAS.—The boat in which Gen. P. Smith, commanding the U. S. troops in Kansas, ascended the Missouri River, was stopped and searched by the borderers who have constituted themselves inspectors of emigration to that territory. The General took notes of these occurrences, and will probably circulate the truth. The borderers have taken Delaware City, and have two cannon planted where they can sweep the river, and compel boats to stop until searched. [Charlestown Ad.]

A LIVING VICTIM.

The story given below was related to us in May last, by the friends—one a blood connection—of the subject of the narrative. A young man of good family, good mind, good morals, good education and address, commenced the practice of the Law, a few years since, with a fair amount of professional knowledge, in a flourishing village of this state, and in copartnership with an acquaintance, who had the same birth-place with him, and such a temperament and talents so diverse, and yet so available, as to promise speedy and great success to both members of the firm. Our friend who is now fallen was then in decent health, but occasionally felt languid, and purchased a half-ounce phial of brandy to take by the drop, "to give a little tone to his system." He took some half dozen drops a day of the liquor. When this course of treatment commenced, his partner gave him a very gentle admonition. It was received in perfect good humor. Nay more. It was received with a hearty laugh. The thing seemed so absurd and preposterous, that the appetite and habits with all the terrible fruits of intemperance, could follow from the practice of taking a few drops of brandy once a day as a medicine, that the patient could not repress his merriment, nor the full exercise of all his risible faculties. So thinking himself safe and the warning not only uncalled for, but ludicrous, the tonic was continued.

But, what the temperance reformers have so often elaborated and made as clear and irrefragible as any problem in Euclid, proved true in the case now before us. Some sort of tone to the system was secured, it is true, by the young lawyer, and all seemed safe and well for many months, nay years. At length, however, an appetite for intoxicating liquors was found to have supervened, and shortly the habit of drinking freely and excessively was fastened, and the victim is now residing in the centre of the State—one of the most loathsome, hopeless drunkards that ever lived. He has not the slightest control over his appetite, nor has he the least regard to decency. He is equally the grief and shame of his family and friends, and the pest and nuisance of the town he lives in. Any one can see, that there are abundant materials in this brief sketch, from which to manufacture a tale to thrill and harrow the soul of the reader.

But we write with no such aim. We write simply to revive and illustrate one of the most important truths connected with the temperance reform. We see in this story the connection not only of antecedent and consequent, but cause and effect, between the use of intoxicating drinks, in the smallest quantity and even for medicine, and indeed under circumstances attended with the least danger—embracing that most efficacious of all preserving elements, friendly counsel, and downright incurable drunkenness! We relate the facts and frame the conclusion they warrant, that the case may be fairly looked at; that young men may be effectually warned against the least indulgence whatever in the use of the fiery poison, and we must add, that persons using this deadly stuff for a medicine, even have need,—let it be ever so fully approved by custom and by law—to be watchful. They should never use it when other remedies—as air, exercise and bathing (which would have both cured and saved the subject of this notice) or any other medicine will answer the purpose,—"give strong drink to him that is ready to perish"—(and to no body else)—then with all the care in the world as to time and quantity, and finally discontinue its use the moment it is fairly tried.—[Vt. Standard.]

MAN DROWNED.—About nine o'clock on Tuesday evening, a man named William Doherty, a blacksmith employed in Strand's shop on Water street, jumped from Devens' Wharf and was drowned. There were a number of laborers upon the wharf at the time, but they did not rescue him, and he disappeared without making any cry for help. He had not been at work that afternoon, and when he fell into the water was probably intoxicated.—Search was being made this morning to recover the body. This occurrence will probably have to be placed under the catalogue of suicides, as he told some of his acquaintances that he intended to jump overboard.—*Charlestown Adv.*

WASHINGTON, July 31.—The nineteen river and harbor bills, passed by the Senate today, contain appropriations of an aggregate of half a million dollars. They each received more than a two-thirds vote.

The Senate confirmed, without opposition, to-day, the appointment of Col. Geary as Governor of Kansas.

NEW YORK, July 31.—*Lightning and Fires.*—St. Luke's Church, in Brooklyn, was struck by lightning last evening, and the spire and tower so much shattered that it will have to be rebuilt.

The Fashion House, a large and costly hotel, at Newton, (L. I.) was burnt during the storm last night. It is said to have been struck by lightning.

BRUTAL SIGHT.—On Monday while riding through East Boston, we saw a drunken Irishman staggering through the Eastern Avenue with a coffin on his shoulder. Every one turned shocked from the spectacle, and the children gazed upon the brutal sight with wonder depicted upon their countenances. —*Charlestown Adv.*

There is a family of nine persons in Bourbon county, Ky., whose united height is 70 feet, and whose aggregate weight is 2,298 lbs. Martha, the belle of the family, could put an English grenadier in her apron pocket.

The Deleware peach crop has already been killed off by the newspapers. Where are the "Jersey" editors. If they don't look out they will have a crop in that state.

PORTLAND, Aug. 1.

RAILROAD ACCIDENT.—James Taylor, a resident of Cape Elizabeth, was killed at the railroad junction in that place, this morning, while trying to jump upon the freight train.

Conversation:

ITS FAULTS AND ITS GRACES; or the best manner of Speaking, Writing, and Pronouncing the English Language correctly. Compiled by Rev. Andrew P. Peabody, D.D. New Edition, revised, with additions. 16mo, cloth stamped, marbled edge, pp.150. 50 cts.

"This is an exceedingly interesting little volumne, and one which deserves to be carefully read and studied. It is not only a very interesting publication, but a very timely one. There is a tendency, even with people who know better, to use phrases which are far from correct, at first by way of fun, but gradually they become incorporated into general use. Dr. Peabody's Address is very beautiful and sensible, and treats of the principle and sentiment of conversation from a high point of view. It is a very valuable compilation, and should have a wide circulation."—*Boston Daily Adv.*

"We cannot too earnestly commend this Address to the consideration of readers of all ages. The compilation is most judiciously made, and should be widely circulated. We welcome this little volume as indicating the gravest dangers which threaten sometimes to make conversation more of a hindrance than a help, and also as one which in a lively manner will suggest to young people the absurd errors into which so many unconsciously fall."—*Salem Gaz.*

Secured by Royal Letters Patent in England and by Patent in the United States.

THE Subscribers, having been for a long time desirous of securing to the public a Needle that will not only be a superior article, but perfect in the Eye, recommend their "*Patented Gold Inlaid Needle.*" They are justly celebrated, and preferred above all others, the eyes being inlaid with gold and burnished, which renders the cutting or chafing the thread utterly impossible.—They are manufactured from the best steel, and tempered according to the most approved plan.—We therefore offer with confidence these Needles to the public, having secured them against all frauds or imitations either in Paper, Label or Needle. We desire all parties purchasing these Needles to be cautious in the selection of them, as unprincipled persons have sought to imitate our style, and thus palm off an inferior article, notwithstanding the heavy damages we have recovered from various parties; and a reward of $500 will be paid for such information that will lead to the detection and conviction of any person or persons thus engaged. None are genuine except those labelled on the back, '*Warranted by R. Crawley*' A liberal discount will be allowed to dealers who purchase in large quantities

WILLIAM CROWLEY & SON,
Oversly Mills, Alcester, England.

Having made arrangements with the Manufacturers of the above brand of Needles (which I earnestly recommend as the best Needle in the market,) I am prepared to sell them

Wholesale at $1.60 per M.
Retail at 6¼ cts. per paper of 25.
Assorted or separate numbers, sharps and betweens.
HENRY PEYSER,

"If you are Coming, Why don't you Come along?"

THAT is the "mot" now-a-days. Every locomotive on every Railroad shrieks it. It is daily rapped out on every Telegraphic Line in the country. The echoing blows of our Ship Carpenters hourly exemplify it. The smith at his anvil hammers it out. The clanking Press with breathless haste, sends the cry home to every family—"If you are coming, why don't you come along?"

It is uttered in an hundred tongues in a hundred lands. It has sounded like a slogan through the political world, and the "Old Fogies" are creeping along among the baggage wagons and the wounded. Thought, that moved at a funeral pace, now rushes on a tremendous charge; and all the old remedies for Liver Complaint have given way for

HOLMAN'S SPRING BITTERS.

"*If you are coming, why don't you come along.*"—Six paces to the front, is the word to everybody and everything that wants to be listened to or looked at. If you have anything to do, *do it:* if you wish any person to see anything, *show it;* if you have anything to be cured, CURE IT WITH

HOLMAN'S SPRING BITTERS.

"*If you are coming, why don't you come along?*"—If you have a Bottle of Holman's Bitters in your house, you need not suffer from

Biliousness, Weakness at the Stomach, Indigestion, Heartburn, Lowness of Spirits,

Nor any of the diseases incident to the season.

It used to take six men to make a pin; now one boy, a pull, a clip, and two strokes, and that's the way the pins are made. Once it took a Physician, lots of precious time, and quantities of nauseous drugs to cure some simple disease of the Blood.—Now, a quarter expended in

HOLMAN'S SPRING BITTERS

Brings Life and Health, flowing spirits and rosy cheeks.

"*If you are coming, why don't you come along?*"—If you are sick and weak, why don't you cure yourself? Here we offer you the article that will do it—there is no mistake about it. Every body knows about HOLMAN'S BITTERS; they have been tried and have "hoed the mark straight."

They are a *good* medicine; they are *better* than anything else for all Spring Complaints; they are just the *best* Bitters that can be bought—and that's the best thing we can say about them. "*If you are coming, why don't you come along,*" before they are all gone?

A great variety of Shades, Curtains, Fixtures, Tassels and Cord.

Please call and examine. ly4

BADGER'S ISLAND.

First in order of age is the Ship Yard on Badger's Island. This island was, at the time of the Revolution, owned by Gov. John Langdon, and from the circumstance of the line-of-battle ship America and several U. S. vessels being built there, it bore the name of Continental Island. Col. James Hackett was the master-builder there during the Revolution, and for many years after. After him, the office was filled by William Badger, who, up to the year 1830, (when he died,) had built about a hundred vessels. His son, Samuel Badger, Esq., then took the business of the yard, and Messrs. Pray & Neale, we think, were his successors. After being in other hands, Messrs. Fernald and Petigrew took it and entered upon building merchant ships of a size unthought of by the preceding generation.—They did a large and successful business. The Yard has the present year passed into the hands of John Yeaton, Esq. and others. Under his immediate superintendence the business is now carried on. The master builder is Charles W. Stimpson, Esq. who has had long experience in the business.

There are now on the stocks two ships of 1200 or 1300 tons each, of beautiful model, and the most substantial frames and workmanship. A visit to the yard at the present time gives a better opportunity to inspect the strength of ships than when ready for launching. One of these vessels is owned by Wm. Jones & Son and others; and the other is for sale. They will be launched in six or eight weeks. Some movements of the old buildings in the Yard have been made—the contemplated changes will add much to the beauty of the Yard as seen from the wharves.

Before the purchase of the present Navy Yard by Government the above Island was under consideration for the purpose. It contains about 18 acres, and the price asked was $25,000. Fifteen acres of this Island was afterwards bought by Mr. Willey, who recently died, for $1700. Mr. Yeaton's Yard contains about three acres.—*Journal.*

HOT WEATHER.—See the record of the week: four days in the *Nineties.* You need not fear such another week this season. It was refreshing in those days to look in to the window of Mr. J. H. Thacher's store, where two China palmleaf fans were displayed—each fan measuring eight feet in circumference, with a handle four feet long. Oh the luxury of the Mandarin, seated under a shady tree, with a Cooley on each side swinging these huge fans to and fro, on a hot day. The name *Cooley* not inaptly might come from slaves being so occupied.—*Journal.*

ROGERS' NURSERY AND GARDENS.—About a couple of miles from Portsmouth Bridge in Kittery is a cultivated spot of several acres, which will reward those who pass that way for making it a visit. Mr. Rogers has in cultivation a great variety of garden and pot plants and flowers—which in their season are a rich treat. He devotes his whole attention to horticulture, and ere long will present the most inviting grounds to be found within three miles of our city.—*Journal.*

FLOWERS.—When we praised last week our old neglected acquaintance the common *Hollyhock*, we were not aware that the modern varieties were so various and beautiful as we have evidence from some fine specimens kindly forwarded to us by Mrs. C. H. Ladd. On one stalk, for a foot in length, the stalk was so compactly covered with the double flowers, that it strongly resembled a gaudy plume. Some varieties had within the oute large leaves of the flowers perfectly formed resemblances of the rose—both white and red. They were raised from seeds imported and distributed by the Patent Office.—*Journal.*

THE FESTIVAL OF BEAUTY at the Temple on Thursday evening, the third which Mr. Pennell has given, was, like the other two, of a very interesting character. Mr. P. deserves much credit for his endeavors to furnish such an entertainment, and has doubtless conferred a lasting benefit upon many of his 150 pupils. Some of the songs evinced an inate talent on the part of the young performers, which if cultivated would develop excellent singers.—*Journal.*

HUNTING.—Our good neighbor of the Gazette has gone into the wilds of Lake Champlain to hunt deer. Our advice to our bachelor friend is, that he would do better to hunt some *dear* at home.—*Journal.*

A REMARKABLE YEAR.—Mr. E. Meriam writes to the New-York papers that—

The present year has been remarkable for long continuance of intense cold in winter, and for the long continuance of great heat in summer. Meteorites have been more numerous than usual this year in many parts of the globe, but earthquakes have been far less numerous than for many years past.

There is nothing on our record for sixty-eight consecutive years, either in cold, or heat, as to intensity and long duration which equals that of the year 1856.

ELOPEMENT.—Another of those startling incidents, that will sometimes occur in the best regulated societies, happened last Sunday evening, in the vicinity of Sixth and John streets. It seems that a Mrs. R, the wife of a merchant residing in that locality, was seen by the neighbors to leave her house about dusk with a gentleman who drove up in a buggy. No attention was paid to the circumstance until the inquiries of the husband, after returning from church, gave a clue to the affair; and through him it was also ascertained that a note has been found upon the table, bidding him adieu and beseeching him to take care of the little one, of whom she insisted he was really the father, notwithstanding doubts which existed in his own mind, and to withdraw finally from the house.—This was the tenor of her note. The husband, it is said, after the shock of the moment, expressed himself indifferent as to her return, and has since then taken no measures to capture the guilty fugitives.

One of the many incidents in connection with the affair current in the vicinity is, that a gentleman, an intimat acquaintance, was knocked down by the indignant husband for expressing sympathy with him because of his recent bereavement.—*Cincinnati Enquirer.*

LOCAL.

CITY COUNCIL.

IN BOARD OF ALDERMEN, July 31.—A Petition of Nath'l. Dennett and others for the "appointment of a Police Officer at Christian Shore," was referred to a Special Committee.

The Committee on the Fire Department, reported in favor of purchasing 50 feet of hose of Engine Co. No. 4. Report adopted.

The Committee on Streets reported against granting side-walk to Capt. J. C. Smith on Middle St. Adopted.

The Committee appointed to draw up an Ordinance in relation to the additional duties of the City Marshal, in collecting fines and costs of the Police Courts, reported an Ordinance which was read first time and laid on the table.

Ordered—That George Thompson be and hereby is appointed Agent for the purchase and sale of spirituous and other liquors, on account of the City, under the existing regulations, at $200 per annum for compensation.

Common Council.—A. J. Beck in the Chair. N. K. Raynes offered an ordinance prohibiting further burials in the Burying Ground on Elm Street, also permitting the burial of the deceased bodies of strangers in the Cotton Burial Ground. Also an Ordinance in relation to the moving of buildings through the streets of the city.

Received message from Board of Aldermen, and petition from citizens of Christian Shore, accompanying the same, for the appointment of a policeman, asking the Council to confer with them in referring to Special Committee. Concurred in.

☞ We understand that the new ship "Ella E. Badger," lying at Pier Wharf, has been disposed of to Messrs. James N. Tarlton Horton D. Walker and others, and is to be commanded by Capt. Lewis Tarlton.

☞ We are very sorry to learn that Capt. Moses Ricker, of this city, master of ship Colorado, of this port, has been sun struck at Calcutta.

☞ Rev. A. Caverno will preach at the Old South Meeting House to-morrow.

CONGRESS.

THURSDAY, July 31.

SENATE.—The bill directing the manner of payment of the California bonds was passed.

The following bills were passed: To continue the improvement of the Des Moines rapids in the Mississippi River; to continue the improvements in the harbors of Newark, N. J., Conneaut, Huron, Fairport, Ashtabula, Sandusky, Cleveland, and Black River, Ohio; Buffalo, Dunkirk, Oak Orchard Creek, Big Sodus and Little Sodus, N. Y. Also the bill making an appropriation for a "stear drench," on Lake Ontario; also the bill for the completion of the break-water at Burlington, Vt.; bills for the improvement of the Missouri and Arkansas Rivers; bill to continue the construction of the break-water on the east side of Ready Island. Adj.

HOUSE.—The Kansas contested election was taken up.

Mr. Washburn of Me. contended that the election of Mr. Whitfield was without authority of law, and he comes here only as the choice of the minority of the resident citizens of Kansas; therefore he is not entitled to the seat. The election under which Mr. Reeder claims was equally without authority of lew, but inasmuch as he is the choice of a larger number of residents than those who voted for Whitfield, the Committee recommend that he be admitted to a seat. To deny to Kansas the right to the true choice of her resident citizens, merely because the choice was manifested outside of legal forms, and necessarily so, because the law-making power was destroyed by foreign violence, is to deny Kansas the right to be heard on the floor of the House.

Messrs. Savage, Oliver, and others, opposed the views of Mr. Washburn.

Mr. Savage insisted that the whole transaction in its origin was an assault upon the Constitution and laws of the United States, and in its process was an assault upon justice and truth.

Mr. Oliver of Mo. contended that under the resolution providing for the Kansas Investigating Committee, they had no authority to inquire into the validity of the Legislative Assembly.

After considerable debate, a statement from Mr. Reeder was introduced, but before the reading had been concluded the House adj.

The special correspondent of the Boston Advertiser says, under date of Thursday evening:

The vote on the Kansas contested election case will be taken tomorrow morning. Mr. Whitfield will be ousted by a large vote.

It is the general supposition that Mr. Reeder will be admitted by a close vote. My own impression is that he will be defeated.

FRIDAY, Aug. 1.

Mr. Brooks, re-elected Member of Congress from South Carolina, was sworn in.

The Kansas contested election case was then taken up, and the reading of Governor Reeder's letter finished.

From the Boston Saturday Evening Gazette.

A PERFUMED BREATH.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A BEAUTIFUL COMPLEXION may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and roseate hue. Wet a towel, pour on two or three drops, and wash the face night and morning.

SHAVING MADE EASY.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," run the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

W. P. Fetridge & Co. Proprietors, 323 Pearl street, New York, and 100 Washington street, Boston. For sale in Portsmouth by William R. Preston. 6mje16

LAWS OF NEW-HAMPSHIRE.

PASSED JUNE SESSION 1856.

AN ACT in amendment of chapter 1667 of the Pamphlet Laws.

Be it enacted, &c.—SECTION 1. The Supreme Judicial Court of this state, and the officers and functionaries of said Court, shall herafter hold, have and exercise the same jurisdiction in the administration of the laws of Congress, commonly known as the naturalization laws, as is now possessed and exercised by the Court of Common Pleas, and the functionaries of said Court under the act to which this is an amendment.

SEC. 2.—Section three of the act to which this is an amendment, shall be, and hereby is, so modified and amended that when any person otherwise qualified, who shall claim the right to vote by reason of naturalization papers, issued to him by any court in the United States, shall present his said naturalization papers thirty days at least before the day of election, to the selectmen of the city, ward, town or place in which he resides and has his home, and the said selectmen are satisfied that said papers are in due form, and were issued by a court having jurisdiction in such matters, and that the party producing them, is the party to whom they were issued; such persons shall have a right to vote in such city, ward, town or place, and said selectmen shall cause his name to be entered on the check list of such city, ward, town or place, and be continued on said list so long as he shall remain a resident of such ward, town or place, and entitled to vote therein.

SEC. 3.—Neither this act or the act to which this is in amendment shall be construed as affecting the right of any person to vote in any city, ward, town or place, whose name had been on the check list of such city, ward, town or place, and who had been allowed to vote therein before the passage of the act to which this act is an amendment.

SEC. 4.—All acts and parts of acts inconsistant with this act, are hereby repealed.

SEC. 5.—This act shall take effect from its passage. Approved July 12, 1856.

AN ACT to regulate the duties of County Commissioners and for other purposes.

Be it enacted, &c.—SECTION 1. It shall be the duty of the County Commissioners to attend, for the discharge of the duties of their offices as long as may be necessary, during the first week only, of the term or terms of the court of common pleas, in the respective counties at which pauper claims against such county have usually been presented for allowance.

SEC. 2.—The seventh section of an act entitled an act to establish the terms of the superior court, and to alter the organization thereof, passed July 4th, 1851, is hereby repealed.

SEC. 3.—All authority conferred upon the justices of the court of common pleas or any one of them, to perform acts in vacation, is hereby in like manner conferred upon the justices of the present court of common pleas, or any one of them.

SEC. 4.—The sixth section of chapter 245 of the compiled statutes, shall be, and the same is hereby so amended that parties in actions, shall not be allowed for more than twelve days attendance in any action pending in the supreme judicial court, or court of common pleas, except at the term at which such action shall be tried by the jury.

SEC. 5.—All acts and parts of acts, inconsistent with the provisions of this act, are hereby repealed.

SEC. 6.—This act shall take effect from its passage. Approved July 12, 1856.

m29 FRANKLIN O. BADGER.

HEALTH OF THE IRISH.—There has lately gone the rounds of the papers an item headed "A Puzzle for Doctors," which took the ground that the Irish in their filth were longer-lived than the English in their cleanliness. In Ireland the climate, diet and free ventilation of peasants' cabins, must promote the health of the lower classes, but their higher average age is due to the fact that a large part of their young population has come to this country; of course the average age of the old folks left behind will be greater than that of the English whose children are all at home. In this country the longevity of the Irish is not to be compared with that of the natives, the habits of living adopted by the former, fearfully increasing their mortality. The "Puzzle" &c. is no puzzle at all.—*Lowell News.*

Samuel Cornwell alias Fat Sam, a noted highway robber, died on Monday, at the Brooklyn hospital. He was one of the most desperate characters which ever infested this country, and his boldness at times was astounding. He appeared to take no account, pecuniarily, of his victim, knocking him down and robbing him with the same satisfaction, whether he obtained a dollar or five hundred.

In Stratford, Vt., on Friday, 23rd ult., Mr. Bacon attempted to cross Mr. West's premises, which he had been forbidden to do, when the quarrel between them came to a deadly crisis, and they went into each other knife and pitchfork. They were both alive on Saturday morning, but not expected to survive.

The two American hotel thieves, Oscar Kingston and Benjamin Allen Howard, have been sentenced to five years penal servitude in England.

I. D. RICHARDS & SONS.

Established 1820.

"Try me, and I'll do you Good."

DR. LANGLEY'S

Root and Herb Janndice Bitters.

The Great Spring and Summer Medicine.

THIS Medicine, composed of the best roots, herbs and barks in the world, has constantly increased in public favor for six years, until by its wonderful success, it is acknowledged to be the best and cheapest medicine in the world. It acts with magic-like power upon the strong holds of disease—cleanses the bowels, purifies the blood gives vitality to an invalid, and torpid liver, cures Jaundice in all its forms, Dyspepsia, Costiveness, Indigestion, Headache, Dizziness, Piles, Heartburn, Languor, Weakness, Pain in the Side and Bowels, all Billious Diseases and Foul Stomach, and especially Humors of the Blood and Skin; —strengthening, healing, purifying, building up, and keeping in order the whole system. I put you ought to use them during the spring and summer.

Only 25 cents for a pint, and 37½ cents for a quart bottle. Office 99 Union St., Boston. Sold by all dealers in medicine, everywhere. mh136m9

Whalebone Skirts.

THE only object of a Whalebone Skirt is to give a proper, graceful and elegant form to a lady's dress. Unless this is accomplished, the article is entirely worthless. The Ladies, by referring to Frank Leslie's Gazette of Fashions for April, will notice that E. & J. HOLMES have from actual experience been successful in producing this most desirable article, and that their IMPROVED SEAMLESS SKIRT meets the unanimous approbation of the ladies. They are light, pliable, and easily adjusted, and the only Skirt which is equally adapted to the street and the crowd; are made in one piece or breadth, and in our opinion, and in the opinion of thousands of ladies who have bought them, the most reliable goods of the kind in the market. We were the first to introduce a Whalebone Skirt, and from our experience in the manufacture and retail of these goods, we have found that all kinds of cotton cord, and nearly all kinds of cord, and all starched goods, cannot be used satisfactorily, as they will not recover their place when pressed out of shape. We consider all

WHALEBONE SKIRTS

as worthless, of whatever material made, unless there is something of sufficient stiffness and elasticity, and at the same time yielding and pliable, to keep the dress in proper shape below the bones. To accomplish this we have our cord made under our own direction, and expressly for our goods, and from the only material that can be used that will recover its proper place when pressed out of shape, and are so twisted in manufacturing that they will not roll or curl when wet, and warranted to wash without injury. The public are cautioned against all worthless goods, as the market since our goods have become popular and extensively known, has been flooded with goods of all kinds, and put together without form or comeliness, or any other object but to sell, and of course are called Whalebone Skirts. Some imitators, in their efforts to profit by our reputation, have gone so far as to copy almost exactly our trade mark upon their goods.

Please Notice.—Every genuine article stamped, *E & J. HOLMES'S IMPROVED SEAMLESS WHALEBONE SKIRT*, and may be found by the trade in many of the largest Jobbing Houses in New York and Boston, and at retail in the principal Dry Goods stores.

June 6, 1856. eoim E. & J. HOLMES, Boston.

Great American and Foreign Office

For Securing Patents for Inventions.

Agency for business with US Patent Office, Washington

R. H. EDDY,

No. 76 State st. oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages in applying for Patents superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey so Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington—Patents secured in Great Britian, France, and other foreign countries, through Agents of the highest respectability. **R. H. EDDY,**

Solicitor of Patents.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,

Commissioner of Patents.

Boston, Jan 11 1858 d7eodtr

FARM LANDS FOR SALE.

The Illinois Central Railroad Company

IS NOW PREPARED TO SELL

OVER TWO MILLION ACRES

OF

FARMING LANDS,

In Tracts of 40 acres and upwards, on long credits and at low rates of interest.

THESE lands were granted by the Government to aid in the construction of this Railroad, and include some of the richest and most fertile Prairies in the State, interspersed here and there with magnificent groves of oak and other timber. The Road extends from Chicago, on the northeast, to Cairo at the south, and from thence to Galena and Dunleith, in the north-west extreme of the State, and as all the lands lie within fifteen miles on each side of this Road, ready and cheap means are afforded by it for transporting the products of the lands to any of those points and from thence to Eastern and Southern markets. Moreover, the rapid growth of flourishing towns and villages along the line, and the great increase in population by immigration, etc. afford a substantial and growing home demand for farm produce.

The soil is a dark, rich mould, from one to five feet in depth, is gently rolling and peculiarly fitted for grazing cattle and sheep, or the cultivation of wheat, Indian corn, etc.

Economy in cultivating and great productiveness are the well known characteristics of Illinois lands. Trees are not required to be cut down, stumps grubbed, or stone picked off, as is generally the case in cultivating new land in the older States. The first crop of Indian corn, planted on the newly broken sod, usually repays the cost of plowing and fencing.

Wheat sown on the newly-turned sod is sure to yield very *large profits.* A man with a plow and two yoke of oxen will break one and a half to two acres per day. Contracts can be made for breaking, ready for corn or wheat, at from $2 to 2 50 per acre. By judicious management, the land may be plowed and fenced the first, and under a *high state of cultivation* the second year.

Corn, grain, cattle, etc. will be forwarded at reasonable rates to Chicago, for the Eastern market, and to Cairo for the Southern. The larger yield on the cheap lands of Illinois over the high priced lands in the Eastern and Middle States, is known to be much more than sufficient to pay the difference of transportation to the Eastern market.

Bituminous coal is mined at several points along the Road, and is a cheap and desirable fuel. It can be delivered at several points along the Road at $1.50 to $4 per ton; Wood can be had at the same rates per cord.

Those who think of settling in Iowa or Minnesota, should bear in mind, that lands there of any value, along the water courses and for many miles inland, have been disposed of;—that for those located in the interior, there are no conveniences for transporting the produce to market, railroads not having been introduced there. That to send the produce of these lands, one or two hundred miles by wagon to market, would cost much more than the expense of cultivating them; and hence Government lands thus situated, at $1.25 per acre are not so good investments as the lands of this company at the prices fixed.

The same remark holds good in relation to the lands in Kansas and Nebraska, for although vacant lands may be found nearer the water courses the distance to market is far greater, and every hundred miles the produce of those lands are carried either in wagons or interrupted water communications, increases the expense of transportation, which must be borne by the settlers, in the reduced price of their products; and to that extent precisely are the incomes from their farms, and of course on their investments, annually and every year reduced.

The great fertility of the lands now offered for sale by this company, and their consequent yield over those of the Middle and Eastern States, is much more than sufficient to pay the difference in the cost of transportation, especially in view of the facilities furnished by this Road, and others with which it connects, the operations of which are not interrupted by the low water of summer, or the frosts of winter.

PRICES AND TERMS OF PAYMENT.

The Price will vary from $5 to $25, according to the quality, location, &c. Contracts for Deeds may be made during the year 1856, stipulating the purchase money to be paid in five annual installments; the first to become due in two years from the date of contract, and the others annually thereafter. The last payment will become due at the end of the sixth year from the date of the contract.

Interest will be charged at only 3 per ct. per ann.

As a security to the performance of the contract the first two years' interest must be paid in advance, and it must be understood that at least one tenth of the land purchased shall yearly be bro't under cultivation. Twenty per cent. from the credit price will be deducted for cash. The Company's construction bonds will be received as cash.

READY FARMS AND IMPROVED BUILDINGS.

Which can be set up in a few days, can be obtained from Responsible Persons.

They will be 12 ft. by 20 ft. divided into one living and three bed rooms, and will cost complete set up on ground chosen anywhere along the road $150 in cash, exclusive of transportation. Larger buildings may be contracted for at proportionate rates. The Company will forward all the materials for such buildings over the Road promptly.

Special arrangements with dealers can be made to supply those purchasing the Company's lands with fencing materials, agricultural tools, and an outfit of provisions in any quantity, at the *lowest wholesale prices.*

It is believed that the price, long credit, and low rate of interest, charged for these lands will enable a man with a few hundred dollars in cash, and ordinary industry, to make himself independent before all the purchase money becomes due. In the mean time, the rapid settlement of the country will probably have increased their value four or five fold. When required an experienced person will accompany applicants, to give information, and aid in selecting lands.

Circulars containing numerous instances of successful farming, signed by respectable and well known farmers living in the neighborhood of the Railroad lands, throughout the State—also the cost of fencing, price of cattle, expense of harvesting, etc., etc., and by contract—or any other information—will be cheerfully given, on application, either personally or by letter, in English, French or German, addressed to

JOHN WILSON,

Land Commissioner of Ill. Central R. R. Co.,

Office up to the 1st of May, 52 Michigan Avenue, Chicago, Ill.; after that date in the New Stone Passenger Depot, So. Water st. a8 6m

JOB AND CARD PRINTING promptly executed.

Morning Chronicle.

THE HERRING PIE.

It was a cold winter evening; the rich banker Brounker had drawn his easy chair close to the corner of the stove, and sat smoking his long clay pipe with great complacency, while his intimate friend, Van Grote, employed in exactly the same manner, occupied the opposite corner. All was quiet in the house, for Brounker's wife and children were gone to a masked ball, and, secure from fear of interruption, the two friends indulged in a confidential conversation.

"I cannot think," said Van Grote, "why you should refuse your consent to the marriage. Berkenrode can give his daughter a good fortune, and you say that you son is desperately in love with her."

"I don't object to it," said Brounker.—"It is my wife who will not hear of it."

"And what reason has she for refusing?"

"One which I cannot tell you," said his friend, sinking his voice.

"Oh! a mystery—come out with it.—You know I have always been frank and open with you, even to giving you my opinion of your absurd jealousy of your wife."

"Jealousy of my wife? nonsense! Have I not just sent her to a masked ball?"

"I don't wonder you boast of it. I should like to have seen you do as much when you were first married. To be sure, you had reason to look sharply after her, for she was the prettiest woman in Amsterdam. Unfortunately, she has taken such advantage of your love, that the grey mare has become the better horse, and you refuse an advantageous match for your son to gratify her caprice."

"You are quite wrong, my good friend. I never allow any one to be master here but myself; and in the second place I cannot blame Cotilda. The secret of her refusal lies in a herring pie."

"A herring pie!" exclaimed Van Grote.

"Yes, a herring pie. You may remember it was a favorite dainty of mine, and that my wife could not endure even the smell of it. Well, during the first years of my marriage, I must confess that I was a little—a very little—jealous of Clotilda. My situation obliged me to keep open house, and among the young sparks who visited us, none gave me so much uneasiness as the handsome Colonel Berkenrode. The reputation that he had already acquired for gallantry was enough to create alarm, and the marked attention he paid my wife convinced me it was well founded. What could I do? It was impossible to forbid him the house, for he had it in his power to deprive me of the government contracts; in other words, to ruin me.—After pondering deeply on the subject, I decided on doing nothing until the danger should become imminent; all that was necessary was to know how things really stood. Having just purchased this house, I caused a secret closet to be made behind the stove here. It communicates with my private room, and from it I could overhear everything that passed in this apartment without risk of being discovered. Thank God! I have had no use for it the last twenty years, and indeed I do not even know what has become of the key. Satisfied with this precaution, I did not hesitate to leave Clotilda when any of her admirers paid her a visit, though I promise you that some of the colonel's gallant speeches made me wince."

"Upon my word," interrupted his friend, "you showed a most commendable patience. In your place I should have contented myself with forbidding my wife to receive his visits."

"There spoke the old bachelor. But as I did not want to drive her headlong into his arms, I went a different way to work. Day after day I was forced to listen to the insidious arguments of the seducer. My wife—I must own she made a strong defence—at one time tried ridicule, at another entreaty, to dissuade him from his pursuit of her. He began to lose hope in proportion as I gained it, till one day he bethought himself of threatening to blow out his brains if she would not show him some compassion. Moved at this proof of the strength of his passion, she burst into tears, and pleaded that she was not free—in short, she gave him to understand that I was the obstacle to his happiness. Berkenrode was too well skilled in the art of seduction not to see that he had gained a point. He raved, cursed me as the cause of his misery, and tried to obtain a promise from her in case she should become a widow. She stopped him preremptorily; but I never closed an eye that night, and Clotilda, though she did not know that I watched her, was as uneasy as myself.—On the following day a circumstance occurred that increased her agitation. While at breakfast, a message came from the cook, asking to see me alone. I desired him to come in (as I was not in the habit of interfering in domestic affairs) and communicate his business in my wife's presence.

When the man entered he was pale as a ghost, and scarcely seemed to know what he was about. At last he told me that he had received a packet containing a small bottle, three hundred guilders, and a note in which he was requested to put the contents of the former into the first herring pie he should prepare for me. He was assured that he might do so without fear, as the contents of the bottle were quite harmless, and would give a delicious flavor to the pie. An additional reward was promised if he complied with the request and kept his own counsel. The honest fellow, who was much attached to me, said he was convinced there must be something wrong in the affair, and should not be happy till bottle and money were out of his hands. I poured a few drops of the liquid on a lump of sugar, and gave it to my wife's lap-dog. It fell into convulsions, and died in a few minutes. The case was now plain, there had been an attempt to poison me. Never shall I forget Clotilda's pale face as she threw herself weeping into my arms—"Poison! A murderer!" she exclaimed, clasping me as if to shield me from danger; "Merciful Heaven protect us both!" I consoled her with the assurance that I was thankful to my unknown enemy, who was the means of showing me how much she loved me. That day Berkenrode came at the usual hour; but in vain did I take my seat in my hiding place. He was not admitted. I afterwards found that she had sent him a letter, threatening if ever he came again that her husband should be informed of all that had passed. He made many attempts to soften her resolution, but to no purpose, and a year afterwards he married. No acquaintance has ever existed between the families; and now you know why my wife refuses her consent to our son's marriage with Berkenrode's daughter."

"I cannot blame her," said Van Grote. "Who would have thought that Berkenrode, a soldier, and a man of honor, could have been capable of such a rascally deed?"

"Ha! ha! ha!" laughed Brounker; "and do you really think it was the general who sent the poison?"

"Why, who else?"

"Myself, to be sure! The whole was my own contrivance, and it cost me three hundred guilders in a present to my cook; but it was money well laid out, for I saved my wife, and got rid of her troublesome lap-dog at the same time."

"Do you know, Brounker, I think it was rather a shabby trick to leave Berkenrode under such an imputation; and now that your son's happiness depends on your wife's being undeceived——."

"I am aware of all that, but to undeceive her now is not so easy as you think. How can I expect her to disbelieve a circumstance in which for the last twenty years she has put implicit faith?"

He was interrupted by the entrance of Vrow Brounker. Her cheeks were flushed, and she saluted Van Grote rather stiffly.

"What! not at the ball, Clotilda?" asked her husband.

No! I had a bad headache," she replied, "and Maurice has promised to take charge of his sisters. But I have come to tell you that I have been thinking over his marriage with Mina Berkenrode, and have altered my mind on that subject. In short, I shall withdraw my opposition to the match."

The friends looked at each other in astonishment.

"By the bye," she continued," here is a key I found some time ago. I think it must belong to you."

"Well, Clotilda," said her husband, striving to hide his confusion as he took the key, "this is good news about the marriage——"

"Suppose you and your friend celebrate it by a supper. There is a herring pie in the house, and you need not fear it is poisoned."

She left the room. Brounker looked foolish, and Van Grote rubbing his hands as he exclaimed, "Caught in your own trap! He who digs a pit for his enemy, shall fall into it himself!"

"Nevertheless," replied Brounker, "I think I have got well out of mine."

Morning Chronicle.

MONDAY, AUGUST 4, 1856.

THE PULPIT INVADED.

Rev. Thomas Whittemore, editor of the Trumpet & Universalist Magazine, is an editor and preacher of about 30 years standing.—He has so far as we know, never been accused by his brethren, of being fanatical or ultra on moral topics. And he is certainly, from observation both wide and deep, competent to give an opinion on matters directly within his own sphere.

The Trumpet of Aug. 2, contains a communication "from a brother in Pennsylvania," in which he says:

I am well nigh disgusted with the course of our denominational papers, and feel comparatively little interest in them. Some have got to be such complete political vehicles, that they are hardly distinguishable from mere partizan journals. * * *

Preachers and Editors of religious papers, have an equal right, with all other citizens, to their opinions upon political questions, and as freely express them on all proper occasions, times and places. But I hold that they have no right to publish them in the pulpit, or through the chair editorial.

* * * Let the Pulpit ever be free *as a Pulpit*, but let the sanctuary of the Most High never be converted into a mere lecture-room, where the thousand and one outside questions may be discussed, on the holy Sabbath, the day specially appointed by all Christendom for the Worship of the "One Living and True God."

To this, and more like it, the editor replies:

The question is, shall the pulpit and the religious press discuss political subjects? We reply by asking, shall they discuss any subjects? May they discuss moral and religious subjects? May they speak on great points of human duty? We are ready to take the ground, that the pulpit should not discuss subjects that are solely political, that have no relation whatever to human duty. But it is somewhat of a nice point to determine what subject of politics is so completely isolated from human duty, as to absolve a man from the obligation of the inquiry, what does my duty to God and my fellowmen require?

There may be faults on both sides. If the pulpit has sometimes invaded the dominion of politics, have not politics sometimes invaded the dominion of the pulpit? Let us look now at that question without blinking. Take for instance the subject of temperance. It is as clearly a subject of pulpit instruction as any other. How much does the Bible say against drunkenness? Moses and the prophets, Jesus and the apostles, all believed it proper for them to inculcate right doctrines on the subject of temperance. The work of temperance went on, and finally a sufficient number of legislators being converted, they passed stringent laws on the subject. Then, the political parties looked on with a curious eye and said, how can we make political capital out of this? And one said, our side shall go for the repeal of the temperance law, for in that way we shall get the most votes, and they cried, "repeal, repeal." The other side said, we go for the law; and they shouted "the law, the law;" and now the whole subject of temperance has got to be political, and the mouth of the preacher of righteousness must be sealed up. But judicious people inquired, has the pulpit invaded polities here? or have political men invaded the pulpit?

Again, we are soon to have a controversy in this country on the subject of polygamy, or the many-wife system, which a certain class of sinners, self-styled saints, do very much approve. They say polygamy is a Bible institution, as is sometimes said Slavery is. Well, they will demand to be admitted into the Union, as a State, with the peculiar institutions of polygamy attached. Some one political party will take up on the one side, and some one on the other. Then polygamy will become a political subject, and no minister will be allowed to preach against that sin, without danger of being ejected from his parish. If he should say a word against a man having more than one wife, he would be accused of being a political priest, and some leading politician would rise in his pew and bid him stop his ranting. Now, our correspondent in Pennsylvania is a reasonable man, and never would permit himself to be carried to the point here described; but there are those who we fear will go there, whenever the interest of their favorite political party (whichever it may be) shall require.

Can there be any rule for the pulpit or the religious press but this, to go against all sin, without having the slightest respect to any political party under heaven. That some who have undertaken to preach on the reforms and follies of the age, have made mistakes, we do not doubt; and have not politicians sometimes made mistakes too? There can be in our opinion, no greater mistake than to join hands with men for some political end, who set at defiance the eternal law of God.

In all their preaching, let clergymen forget not the gospel, as revealed in the New Testament. Preach it in all its beauty, all its fullness, all its efficacy. Surrender it not for any system of human inventions; but declare the word of God faithfully.

We have thus sought to express our opinion in love and kindness to all men.

☞ The Boston Musical Journal states that when Prof. B. F. Baker became connected with that paper, one year ago, its circulation was six hundred—now it is thirty-five hundred. Mr. Baker is a glorious fellow, and we had rather hear him talk than even read his paper. He holds no Musical Convention in Boston this Summer—his Boston School for Music Teachers having taken the place of it. The School closed with an Exhibition on Friday evening, Aug. 1.

☞ A correspondent, who has been visiting at the Senter House, Centre Harbor, requests us to "declare the vote" taken there, on the Presidential question, July 31st. He says it was for Fremont 55, Buchanan 11, Fillmore 2.

Four bears, two full grown and two cubs, were killed in Machias, Me., on Thursday, the 24th ult. These "varmints" have been very plenty in that vicinity.

WHAT AN IDEA!

The editor of a respectable paper says that a very intelligent Catholic, remarked the other day,

"I am a Catholic, I was born and educated as such, and such I intend to die; it is my religion—my consolation in life and my hope in death; but the man who was born and educated a Protestant, and sees the advantage that Protestantism has been to the world, and then becomes a Catholic, is a knave or a fool.'

Now it is worthy of a question, what ideas such men have of religion. He sees protestantism to be better than his own catholicity, in its effects—and blames the man for leaving the former for the latter—yet he does not himself leave the inferior for the superior. Why? because it is his *old* religion, that of his parents, wherein he was born—not because it is true—not because it is good;—but because he will stick to it.

How much this is like thousands of people, in regard to sects, parties and usages.

Really and truly we have no doubt there are multitudes of good men in all churches, and in nations too, without the pale of any visible church.

But that any man should sacrifice his own ideas and preferences, as a burnt offering at the shrine of a fancied and outward consistency, always savors of weakness and dishonesty.

State of Things in California.—We are amazed at the readiness with which many respectable persons assent to the course of the Vigilance Committee, as under the circumstances correct. Do not such men see that exactly the same principle would justify the worst part of the community, as well as the best, (if they only happened to be the majority,) in arresting, imprisoning and executing other citizens according to their own pleasure, silencing the laws and the Courts, defying the government, and resisting its officers by force of arms? Surely, then, this Vigilance Committee usurpation is a vast public wrong. It strikes at the foundation of all government and law. It brings disgrace upon republican institutions.

The Executive of California could not, in justice to his oath, do less than attempt to put it down. Unfortunately his efforts thus far have been unsuccessful. And it is rumored that he has called upon the general government for assistance. If so, will it be rendered? This will depend upon the judgment of the President whether the exigency has arisen upon which the general government is bound to interfere, according to the Constitution.—*N. Y. Journal of Commerce.*

The Journal of Commerce cannot be ignorant that this same *government* of California was composed of as great scoundrels as ever were hung—and that the form of *law* in their hands was a mockery of justice and an instrument of oppression.

We see, though, where the shoe pinches, viz. if the most barefaced wickedness, (according to a statute which the J. of C. calls *law*) may be put down in California, by a rising and combination of the people—then it may be attempted by a similar rising to put down other wickedness nearer home!

That's exactly where the shoe pinches.

☞ We are under repeated and continued obligations to friends in California, for supplies of papers of all sorts, which at this time possess peculiar interest, especially to students of political economy. Pictorials abound there, and present startling illustrations of every day life, too—fighting, stabbing, hanging, forts, likenesses of banished scoundrels, &c. Among others, is a representation of the boarding of the schooner Mariposa, by members of the Vigilance Committee of San Francisco, and the seizure of arms belonging to the state of California—in which we notice by the papers, our former townsman, Mr. C. E. Rand, was concerned.

Herbert, the Congressional murderer, is loose—he is said to have left Washington—we do not hear of him in his seat. What action his fellow members of the House will take remains to be seen. That the slavocracy will endorse him to the end seems to be certain. He stands on their peculiar principle and has done nothing more than to vindicate it. The Charleston Standard claims distinctly that "white menials" in such a case have no right to resent such a provocation as Herbert offered to Keating, and that being killed in consequence, they are served right. It says:

Any provocation that may have been given for the assault upon him by a body of waiters, was at the most a provocation of words, and such a provocation as a servant should not have the right to resent; and if white men accept the office of menials, it should be expected that they will do so with an apprehension of their relation to society, and the disposition quietly to encounter both the responsibilities and liabilities which the relation imposes.

Boston Police.—During the quarter ending June 30, there were arrested, 4302; committed, 2146: males, 3313; females, 991;—Americans, 959; foreigners, 3345; nonresidents, 807; minors, 753. The great army of drunkards leads all others in the statistics of crime, the number of arrests for this offence being 1601; noisy and disorderly conduct, 719; simple larcenies, 356; assault and battery, 328; disturbing the peace, 236; common drunkards, 207; larcenies from persons and buildings, 146; pickpockets, 26. 358 stores have been found open and cared for; 161 persons assisted home; 214 lost children restored; 26 stray teams put up; 12 houses found open; 49 injured persons provided for; 32 insane persons provided for; 11 persons rescued from drowning; 25 fires extinguished without alarm.

CONGRESS.

Friday, Aug. 1.

Senate.—Mr. Cass and Mr. Stuart presented petitions from the citizens of Michigan, praying for the admission of Kansas with the Topeka Constitution.

On motion of Mr. Seward, a resolution was adopted directing the Committee on Commerce to inquire whether it is expedient to require that the fire-rooms of steam vessels be constructed of fire-proof material. Adjourned to Monday.

House.—Mr. Brooks, re-elected Member of Congress from South Carolina, was sworn in.

The Kansas contested election case was then taken up, and the reading of Governor Reeder's letter finished.

The first resolution reported by the Committee on Elections, that Mr. Whitfield was not entitled to a seat as delegate from Kansas, was adopted by yeas 110, nays 92.

The second resolution, that Mr. Reeder be admitted to the seat, was rejected—yeas 88, nays 113.

Mr. Washburn of Maine asked (but was denied) a unanimous consent to pay Mr. Reeder mileage and per diem to date.

The House then considered, but passed no private bills. Adj.

Who Fought the Battles of the Revolution?—The New York Times gives the following statement, showing the number of troops, both regulars and militia, furnished by each State during the war. It was prepared under the authority of Congress soon after the close of the contest, and is conclusive upon this point:

	Regulars.	Militia.
New Hampshire	12,496	2,093
Massachusetts	68,007	15,145
Rhode Island	5,903	4,284
Connecticut	32,029	7,702
New York	13,331	3,304
New Jersey	10,725	6,055
Pennsylvania	25,322	7,327
Total Free States	172,818	45,910
Delaware	2,317	377
Maryland	13,912	4,127
Virginia	25,886	5,620
North Carolina	7,563	—
South Carolina	2,417	—
Georgia	2,079	—
Total Slave States	53,256	10,123

☞ A telegraphic despatch from Washington, on Saturday evening, to the New York Tribune, says, "Mr, Geary has not yet accepted the Governorship of Kansas. He has returned home to Baltimore, and will not accept the office until he has another interview with the president—which will be on Tuesday next."

The Paris journal Le Pays says that all the difficulties in the way of the construction of the canal across the Isthmus of Suez have been surmounted, and that more than the capital required for the execution of the works—which are already in progress—has been subscribed.

A Life of Fremont.—The New York Mirror comes to us with a marked notice of the "Life of John C. Fremont, and his Narrative of Adventures and Explorations," issued by the enterprising firm of Miller, Orton & Mulligan, Park Row, New York.—We know they are enterprising publishers, and doubt not the book will sell—but we have not seen it..

☞ Putnam's Monthly for August, from A. Williams & Co., Boston, via J. F. Shores jr. of this city—contains among its 18 articles a life-like sketch in homely language, entitled "Betsey Clarke—an Old Story." We trust this story teller will tell some more.

Captain Molly.—Before the two armies, American and English, had begun the general action of Mammouth, two of the advanced batteries commenced a severe fire against each other. As the warmth was excessive, the wife of a cannonier constantly ran to bring him water from a neighboring spring. At the moment when she started from the spring, to pass to the post of her husband, she saw him fall, and hastened to assist him; but he was dead. At the same moment she heard an officer order the cannon to be removed from its place, complaining that he could not fill his post by as brave a man as had been killed. "No," said the intrepid Molly, fixing her eyes upon the officer, "the cannon shall not be removed for the want of some one to serve it; since my brave husband is no more, I will use my utmost exertions to avenge his death." The activity with which she performde the office of cannonier during the action, attracted the attention of all who witnessed it, finally of General Washington himself, who afterwards gave her the rank of Lieutenant, and provided her half-pay during life. She wore an epaulette, and every body called her *Captain Molly.*

St. John's Day.—The Mexican population throughout the State celebrate this festive day with a great deal of gusto. We are not posted as to the special requirements of their patron saint exactly, but can testify that there was any quantity of horse-racing on that day about the city. The senoritas, decked in their gayest colors, attended *fiestas*—the men contented themselves with beating time while the women danced. This, besides horse-racing, drinking *aguadiente*, and going through the fandango, wound up the amusements of the day.—*California Paper.*

What is a "Stear Drench?"—Night before last the telegraph to the associated morning press put through, plain as a pike staff, an appropriation for a "stear drench" on Lake Ontario. The Atlas took all the poetry out of it by printing it *steam dredge.*—The rest of us, as in duty bound, followed copy.—*Boston Chron.*

Two Girls Drowned.—*Bangor, Aug.* 1.—Two girls, aged about 20, known by the names of Hannah Armstrong and Harriet Williams, said to have lately arrived from Portland, or that vicinity, were drowned in Kenduskeag stream to-day, while bathing.—They were boarders at a house in the suburbs.

THE EXCELLENT MAN.

BY H. HEINE.

They gave me advice and counsel, a store;
Praised me and honored me, more and more;
Said that I only should "wait awhile;"
Offered their patronage, too, with a smile.

But with all their honor and approbation,
I should, long ago, have died of starvation,
Had there not come an excellent man,
Who bravely to help me along began.

Good fellow! he got me the food I ate,
His kindness and care I shall never forget;
Yet I cannot embrace him—though *other* folks *can*,
For I am myself this excellent man.

Portsmouth, August 4th, 1856. sátf

HUDSON'S SHAKESPEARE.

THE WORKS OF SHAKESPEARE; the text carefully restored according to the First Editions, with introductions, Notes, Original and Selected, and a Life of the Poet, by Rev. H. N. Hudson, A. M. 11 vols., 16mo. Price, $1.00 each.

"Readers are so familiar with announcements of new editions of Shakespeare that they may overlook the peculiar claims of this. They consist, first, in the conscientious labors of the editor, in restoring the original text; secondly, in the discrimination and judgment manifest in the notes; and, thirdly, in the legibility, clearness, and beauty of the type, and the convenient size and shape of the volume. This edition is, therefore, not only intrinsically of superior value, but it is the most readable ever published. It is also an American edition, the first where thorough justice is done the great bard."—*Home Journal.*

"On reading Mr. Hudson's admirable preface, I was much struck with the high tone and spirit in which he has entered upon his task. The style in which the edition is brought out pleases me extremely; it is a remarkable, comfortable, cosy, readable form of volume,—just such a one as we take up with delight and lay down with regret,—one that can be held for hours without inconvenience, lounging about in-doors over the fire, or carried without incumbrance out into the fields and this is a strong recommendation A book, the contents of which make it our favorite and constant companion."—*Extract of a Letter by Mrs. Mary Cowden Clarke, Author of the Concordance of Shakespeare.*

Conversation:

ITS FAULTS AND ITS GRACES; or the best manner of Speaking, Writing, and Pronouncing the English Language correctly. Compiled by Rev. Andrew P Peabody, D.D. New Edition, revised, with additions. 16mo, cloth stamped, marbled edge, pp.150. 50 cts.

"This is an exceedingly interesting little volumne, and one which deserves to be carefully read and studied. It is not only a very interesting publication, but a very timely one. There is a tendency, even with people who know better, to use phrases which are far from correct, at first by way of fun, but gradually they become incorporated into general use. Dr. Peabody's Address is very beautiful and sensible, and treats of the principle and sentiment of conversation from a high point of view. It is a very valuable compilation, and should have a wide circulation."—*Boston Daily Adv.*

"We cannot too earnestly commend this Address to the consideration of readers of all ages. The compilation is most judiciously made, and should be widely circulated. We welcome this little volume as indicating the gravest dangers which threaten sometimes to make conversation more of a hindrance than a help, and also as one which in a lively manner will suggest to young people the absurd errors into which so many unconsciously fall."—*Salem Gaz.*

a2 For sale by JOSEPH H. FOSTER.

Grand Pic Nic at Kittery.

Postponed to Monday, August 4th, 1856.

AN invitation is extended to all persons, without respect to past political differences, to assemble at the GROVE IN KITTERY, near the house of Wentworth Fernald, on MONDAY, 4th Aug. at 12 o'clock, M. to listen to Addresses from Hon. HANIBAL HAMBLIN, Hon. F. O. J. Smith of Portland, and other distinguished speakers from Maine and New Hampshire, on political subjects now agitating the country. Ladies respectfully invited.

Arrangements are being made for tickets by the cars at reduced rates. The regular train leaving Portland at 8½ will arrive at the Grove about 11 A M.; returning, leave the Grove at 7.40 P. M.—An extra train will run from Portsmouth and Kittery Depots at 12½, and return about 7 P.M.

Fare from Portsmouth 15 cts. out and back.

Leave your work for one day, and hear and see the man who is to be the next Governor of Maine.

"If you are Coming, Why don't you Come along?"

THAT is the "mot" now-a-days. Every locomotive on every Railroad shrieks it. It is daily rapped out on every Telegraphic Line in the country. The echoing blows of our Ship Carpenters hourly exemplify it. The smith at his anvil hammers it out. The clanking Press with breathless haste, sends the cry home to every family—"If you are coming, why don't you come along?"

It is uttered in an hundred tongues in a hundred lands. It has sounded like a slogan through the political world, and the "Old Fogies" are creeping along among the baggage wagons and the wounded. Thought, that moved at a funeral pace, now rushes on a tremendous charge; and all the old remedies for Liver Complaint have given way for

HOLMAN'S SPRING BITTERS.

"*If you are coming, why don't you come along.*"—Six paces to the front, is the word to everybody and everything that wants to be listened to or looked at. If you have anything to do, *do it;* if you wish any person to see anything, *show it;* if you have anything to be cured, CURE IT WITH

HOLMAN'S SPRING BITTERS.

"*If you are coming, why don't you come along?*"—If you have a Bottle of Holman's Bitters in your house, you need not suffer from

Biliousness, Weakness at the Stomach, Indigestion, Heartburn, Lowness of Spirits,

Nor any of the diseases incident to the season.

It used to take six men to make a pin; now one boy, a pull, a clip, and two strokes, and that's the way the pins are made. Once it took a Physician, lots of precious time, and quantities of nauseous drugs to cure some simple disease of the Blood.—Now, a quarter expended in

HOLMAN'S SPRING BITTERS

Brings Life and Health, flowing spirits and rosy cheeks.

"*If you are coming, why don't you come along?*"—If you are sick and weak, why don't you cure yourself? Here we offer you the article that will do it—there is no mistake about it. Every body knows about HOLMAN'S BITTERS; they have been tried and have "toed the mark straight."

They are a *good* medicine; they are *better* than anything else for all Spring Complaints; they are just the *best* Bitters that can be bought—and that's the best thing we can say about them. "*If you are coming, why don't you come along,*" before they are all gone!

LOCAL.

City Liquor Agency.—The appointment of a City Liquor Agent, last week, by our city fathers, was to many a matter of wonder—no attempt being now made to prevent the sale of liquors in this city, and no regard having heretofore been paid by the present authorities to the evident wishes of those who would rather buy legally, than at a store where every sale was a violation of law. By some it was thought that this step was taken to prevent an indictment of the City by the Grand Jary—but it is hinted that the movement was made only to dispose of the liquors belonging to the late City Agency, and which were depreciating.

A Want.—Amid all the beauties of our city, and in sad contrast to the inviting walks with which our suburbs abound,—there is one desolate path which most of all needs shade—one street which, above all others, should be supplied with a row of trees. Several attempts have been made to ornament Auburn street with shade trees, but at present, not a tree is standing except in front of the houses at the upper end of the street.

Now we have no doubt, there are citizens enough interested in the matter, who would gladly contribute towards this object, providing they could be satisfied of its being attained. We believe there have been several attempts to root trees here, but they have been miserable failures, because of their inefficiency.

What we would like to see, would be a contract with an experienced man, to set a row of trees from the compact part of the street to the burying-ground; and to supply the places of any which might die—and take charge of the matter till all were well growing. We are informed that about sixty-five trees would be sufficient, and that the expense would be between $100 and $150. With this blank filled, the walk to the South Road Cemeteries would be one of the most inviting. Who will move in the matter? It should be attended to at once.

☞ The Daily Chronicle may be had of our Carriers, at 8 cents per week. Single copies 2 cents. $4 per year in advance.

The Social Political Pic-Nics.—The Democratic gathering took place per the announcement, in Rice's Grove, near Eliot Depot, on Saturday. We have heard the attendance variously estimated, at from three to six hundred, by persons who were present. Addresses were made by Ghvernor Samuel Wells, of Maine; Hon. John H. Clifford, (who we believe is Attorney General of that State,) Hon. Mr. McDonald, and others.

By their advertisement, it will be seen that the Republicans hold a similar gathering in a Grove ar Kittery, this afternoon,—cars to leave the Eastern Depot at half-past twelve.

☞ The funeral of Mrs. Caroline L. Belknap and Mrs. Annie S. Thwing, was attended in Roxbury, on Saturday morning, at the church of Rev. Dr. Putnam. They were natives of Portsmouth, daughters of Capt. Thomas Haven, formerly of this city; and were drowned from the steamer John Jay, which was burat on Lake George last week.

☞ At the Advent Chapel, during the forenoon service, on Sunday, a man arose and poured forth a torrent of abuse on the preacher; who accounted for it by saying that he had known the man several years, and that he was considered insane. †

From the Boston Saturday Evening Gazette.

A Perfumed Breath.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A Beautiful Complexion may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and roseate hue. Wet a towel, pour on two or three drops, and wash the face night and morning.

Shaving Made Easy.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," rub the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

W. P. Fetridge & Co. Proprietors, 323 Pearl street, New York, and 100 Washington street, Boston. For sale in Portsmouth by William R. Preston. 6mje16

From the New York Spirit of the Times.

INDIAN HUNTING IN WASHINGTON TERRITORY.

Porter's Prairie, W. T., May 28, 1856.

Dear "Spirit"—I promised to give you some of our experience in hunting Indians—a kind of game not often treated of in your journal—and as the sport has become rather universal on this coast, every bit of experience will be of service to the amateur or professional hunter. We have few works on the subject, and those who know most of the nature and habits of the Indian, have not belonged to a class capable of recording their experience. Boone, perhaps, was as well posted as any one on the species that inhabited the early West; but as the character of the animal changes very materially with locality, his experience, if intelligibly recorded, might not be of much service here. The rules laid down in Wayne's life apply tolerably well, but most people find it very difficult to follow them; a charge requires more nerve than is usually possessed by the majority of Indian hunters on this coast.

The Indian of this locality is of two kinds—the "Stick" Indian, or those that live in the woods and in the hills away from the waters, living upon game, roots, berries, and the salmon and trout that inhabit the streams; and the "Chuck" Indian, or those living on the waters of the Sound, feeding upon fish of all kinds, clams, &c., and who travel principally in canoes on the water. The former is much the wildest, and most difficult to capture, being possessed of greater courage, powers of endurance, and sagacity. The former, ever on the alert, can rarely be entrapped, or taken by surprise, and the hunter is frequently caught in a snare himself whilst preparing one for his prey.—Living in thickets and swamps, the pursuer may receive a bullet from an apparently harmless hazle bush; and the experienced hunter regards "each bush as an enemy," and approaches it accordingly. The "Chuck" Indian trusts to flight, and his speed in moving over the trackless waters in his light canoe. They are mostly peaceable, or tame; and the Stick Indian has been the principal object of our excursions. The game has, however, been driven out of this immediate country, and the captures have been comparatively few, not greatly exceeding in numbers the hunters that have been killed in making the captives. A large herd crossed the mountains last winter, and I am here watching their return. I think, however, they are too sagacious to return at present. We have caught a great many females or squaws and young, but the bucks have generally made their escape. I don't know whether in obedience to some game law for perpetuating the species, or perhaps a hunter's superstition, but the females and young have generally been spared and sent over to the Reservations among the tame Indians, who are expected to retain them, and keep them from running away.

The Buck Indian of this country is a long-haired animal, not at all cleanly in his appearance, though he washes daily when water can be had. When hunted, lives anywhere in temporary brush houses, but undisturbed builds himself a more substantial habitation on some prairie or stream, and prefers a point having the advantage of both. When put at bay, he not unfrequently is almost naked, and painted with streaks of red and black paint, and a fancy head dress. On gala occasions he rigs out in the most fanciful dress he has of beads, many colored ribbons, red blanket, &c. For ordinary comfort, however, he is careless, and adopts whatever dress he can obtain conveniently; and I have seen a full grown buck with nothing on except a broadcloth dress coat, and a small buck with a large man's waistcoat, through which his naked arms and legs protruded without any show of modesty; and a young female is as vain as any belle, if she can get a new red flannel shirt. They are not noted for much grace or beauty among them, though some fine specimens exist.

The most noted, perhaps, for physical superiority is Kit-sap, a Ki-ha-tat by descent, possessing a tall, elegant, and athletic frame, a prepossessing countenance, and great courage. He is, perhaps, one of their greatest warriors. He has great influence as a leader among his followers, not so much on account of any of these qualities, as some supernatural powers that he has made them believe he possesses. After a battle he returns to his camp with his blanket pierced full of holes, and out of which he shakes the bullets in the greatest profusion. He says that he cannot be killed by a bullet, and to prove it he discharged a musket upon his own person, the ball piercing entirely through his chest, from which he recovered without any serious illness.—As I was not present at the performance I cannot vouch for the truth of the above, but the Indians believe it implicitly, whether your readers will or not. Kit-sap, in consequence, rules his people with an arbitrary power; makes them pay tribute to him, and cuffs and knocks them about at his pleasure. They believe he cannot be killed, and dare not resent his persecution. To increase this influence, in some fight with the volunteers he was shot in the forehead with one of Allen's revolvers, and the ball did not even penetrate sufficiently to remain in the wound. He, however, is very careful and prudent, and I have not heard of his ever having exposed himself very greatly.

Kan-es-ket was another of their chiefs, who exercised a similar influence among his followers, with less prudence, however; for he advanced a little too close to our camp on the morning of the 29th of Feb., and received a Minie ball through his back that was too much for his "Te-man-a-wus," as his supernatural influence is called. It is said that he did not anticipate the Minie ball. His death had a very depressing influence on the Indians. With four or five followers he approached within very few yards of the picket guard, and did not see them. He was levelling his rifle to fire into the camp, and had turned and was motioning to his followers to stop, when young Kale, a private in cmp. D., 9th Infantry, who had seen his approach and patiently bided his time, proved that the Minie ball was not fallible, however ineffectual the round balls may have been. He fell apparently dead, but a couple of men seized him by the heels and dragged him to camp so roughly that he came to life again.—"'Tis Kan-as-ket," said some of the men, as they came up. "Yes, I am Kan-as-ket, and I hate you," and he sang his death song. His brains were blown out to put an end to his sufferings.

Several grand contests have been had with these inhabitants of the forest, at which the usual number have been killed, viz., thirty, and thirty-five wounded. I have been in several of these fights, and though I have never yet seen a dead Indian, I presume there is a formula to which every fight must correspond, if it cannot exceed. Nearly every fight in the two territories, correspond to these numbers. It is well that our friends are so far away, for many of the glorious conflicts we have had might lose much of their eclat by more modest representations of the affairs. The number of Indians that were engaged in the attack on Seattle, exceed in number three times the amount known to be actively hostile in this vicinity.

It requires a peculiar talent to gain glory in an Indian war. You must be able to detect Indian signs, whether there are any about or not; you must let no howl of wolf, or whistle of bird, or bear track, pass for what it really is. When you come upon the enemy, you must see a great many more Indians than can possibly be in the country; — every woman, boy and girl must be a warrior. You must not endanger your command by leading them into a close engagement with such an overpowering force; but keep a long way off, and blaze away at every moving twig and bush, all day until night, or for two or three days, if they don't haul off to rest or get something to eat. Give them plenty of time to carry off the dead and wounded; and in summing up the results, every hat or blanket that was stuck out from behind a tree or log, and that disappeared suddenly on being fired at, must be called a dead Indian;—those who get out of sight more slowly, are reported wounded. After the fight you call up each man of your command, and take their statement separately; the sum total will give you the killed and wounded. In this way you will never get less than the thirty killed and thirty-five wounded; and, if your command is large, a great many more, perhaps—as no doubt quite a number of different men saw and fired at the same Indian that fell. Then as you prudently kept your command beyond range, scarcely any are killed and but few wounded;—the loss of your enemy will thus exceed your own by an enormous proportion. Thus you will have a tremendous victory; and a little judicious praise of the men, particularly of those who hung back to guard the rear against a flanking movement, and to take care of the wounded; and if you have one or two men who are not influenced by truth at all, are who are in some way connected with the nearest newspaper press,—your reputation is made. Everybody in the command will write letters home, that of course were 'not intended for publication;' but by some carelessness on the part of their friends, the items if not the original, get into the hands of some editor.

As big fights, however, are rare, individual reputations may be gained more readily by individual acts. You must have hairbreadth escapes when alone, make your way into camp under the most dangerous circumstances, and report that you were set upon by a large band of Indians, had your horse shot under you, your clothes all pierced with bullet-holes, killed half-a-dozen in a hand to hand fight, and wounded as many more. You must vow vengeance against every Indian you meet, but never molest any except peaceable Indians, who are unarmed and expect no danger;—this is a very gallant thing, when done in the face of public opinion, law and order. If an Indian is a prisoner and charged with some offence, you go up to him and say, very fiercely, 'You scoundrel, why did you steal my pantaloons?' The Indian does not understand a word of English, but he thinks it is something terrible, looks much scared, and shakes his head. This is proof positive of his guilt, and you haul out your revolver and blow his brains out. He can't help himself, for his hands and feet are tied. You have done a determind thing, and are benceforth a made man.

Hans.

Portsmouth, July 24, 1856.

Self-Sealing Cans for Preserves.

THESE Cans are especially designed for the preservation of such vegetables as require to be cooked, as Tomatoes, Corn, Beans, Peas, Pears, Apples, Rhubarb, Plums, Berries, &c. They are easily sealed up or opened, and will keep their contents in a perfect state in any climate. No family should be without a supply of these invaluable articles. The price is put so low as to bring them within reach of all. For sale at wholesale and retail at No. 46 Market st. by

jy25 E. A. STEVENS.

Patent Self-Heating Smoothing Irons.

JUST received a large lot of the above named Irons, for which the subscriber has been appointed sole agent. All are invited to examine this valuable article, which should be in the hands of every family, being cheaper than any other Iron in use. One cent's worth of charcoal is ample fuel for a day's ironing.

je20 FRANK JONES, 61 Market st.

Self-Heating Smoothing Irons.

ON account of arrangements lately made by the Manufacturers, we are enabled to offer these Irons at a much reduced price.

je21 RAYNES & NEIL, 59 Market st.

Patent Self-heating Charcoal Iron.—Price Reduced.— Great Economy.

EVERY House Keeper should have one. With this iron three bushels of Charcoal are sufficient to do the ironing of a family twelve months. Once filled the iron can be used five hours without refilling. They are used with much less labor than the common iron, as less pressure is required to produce the same result. Directions for use, accompany each iron. For sale by the dozen or single, at greatly reduced prices, by

je26 G. N. CARLETON, 15 Daniel st.

Preserving Kettles.

JUST received an invoice of English Enameled Kettles—suitable sizes for Preserving purposes, for sale low at 46 Market street, by

jy26 E. A. STEVENS.

Secured by Royal Letters Patent in England and by Patent in the United States.

THE Subscribers, having been for a long time desirous of securing to the public a Needle that will not only be a superior article, but perfect in the Eye, recommend their "*Patented Gold Inlaid Needle.*" They are justly celebrated, and preferred above all others, the eyes being inlaid with gold and burnished, which renders the cutting or chafing the thread utterly impossible.—They are manufactured from the best steel, and tempered according to the most approved plan.—We therefore offer with confidence these Needles to the public, having secured them against all frauds or imitations either in Paper, Label or Nedle. We desire all parties purchasing these Needles to be cautious in the selection of them, as unprincipled persons have sought to imitate our style, and thus palm off an inferior article, notwithstanding the heavy damages we have recovered from various parties; and a reward of $500 will be paid for such information that will lead to the detection and conviction of any person or persons thus engaged. None are genuine except those labelled on the back, '*Warranted by R. Crowley.*' A liberal discount will be allowed to dealers who purchase in large quantities.

William Crowley & Son,
Oversly Mills, Alcester, England.

Having made arrangements with the Manufacturers of the above brand of Needles (which I earnestly recommend as the best Needle in the market,) I am prepared to sell them

Wholesale at $1.60 per M.
Retail at 6¼ cts. per paper of 25.
Assorted or separate numbers, sharps and betweens.

W. SIMES & CO.

SONS OF TEMPERANCE—MORTALITY.—By the statistical tables of the Order for the year ending Jan. 1st, 1856, the number of contributing members appears to be only *one hundred thousand*, although full returns would show a larger number. New Hampshire, Mississippi, Iowa, Nova Scotia, Texas, Arkansas, Cherokee Nation and Oregon made no returns. Canada West has the largest number of Divisions and the largest membership. This Grand Division reports 362 Divisions and 10,822 members under its jurisdiction. The number of deaths during the year in the Order is 720, or one out of 134. The statistics of the Order from the beginning shows a remarkably small mortality. The smallest ratio of mortaity has been in Vermont, having lost only one member out of 640. Rhode Island has lost but one out of 348, New Brunswick one to every 358. The largest ratio of deaths is in Georgia, having lost one member out of every 17. In most of the jurisdictions, the average is nearly the same, showing that temperance, in all climates, promotes health and longevity.

B. F. DALTON.—The sentence of this young man expires on Tuesday next. During the five months that he and Edward O. Coburn have been incarcerated in the Suffolk county jail they were permitted to remain in the society of each other, and the liberation of Dalton will cause the remaining five months of Coburn's imprisonment to be doubly irksome and monotonous.—*Boston Post.*

Quite likely. Perhaps it was irksome to the victim to be beaten and bruised to death.

AYER'S CHERRY PECTORAL,

FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.

BRIMFIELD, MASS., 20th Dec., 1855.

DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, Esq., of UTICA, N. Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

SPRINGFIELD, MISS., Feb. 7, 1856.

BROTHER AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of *Whooping Cough, Croup*, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.

HIRAM CONKLIN, M. D.

AMOS LEE, Esq., MONTERRY, IA., writes, 3d Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

WEST MANCHESTER, PA., Feb. 4, 1856.

SIR: Your CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years. HENRY L. PARKS, Merchant.

A. A. RAMSEY, M.D., ALBION, MONROE CO., IOWA, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1856

DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no aid we could procure gave her much relief. She was steadily failing, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. God bless his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.

Yours with gratitude and regard,
ORLANDO SHELBY, OF SHELBYVILLE.

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bespeak the high merits of its virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy Heartburn, Headache arising from a Foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER,
Practical and Analytical Chemist, Lowell, Mass

"Try me, and I'll do you Good."

DR. LANGLEY'S

Root and Herb Janndice Bitters.

The Great Spring and Summer Medicine.

THIS Medicine, composed of the best roots, herbs and barks in the world, has constantly increased in public favor for six years, until by its wonderful success, it is acknowledged to be the best and cheapest medicine in the world. It acts with magic-like power upon the strong holds of disease—cleanses the bowels, purifies the blood gives vitality to an inactive, torpid liver, cures Jaundice in all its forms, Dyspepsia, Costiveness, Indigestion, Headache, Dizziness, Piles, Heartburn, Languor, Weakness, Pain in the Side and Bowels, all Bilious Diseases and Foul Stomach, and especially Humors of the Blood and Skin; —strengthening, healing, purifying, building up, and keeping in order the whole system. All persons sought to use them during the spring and summer.

Only 25 cents for a pint, and 37½ cents for a quart bottle. Office 99 Union St., Boston. Sold by all dealers in medicine, everywhere. mh13 6mp

Whalebone Skirts.

THE only object of a Whalebone Skirt is to give a proper, graceful and elegant form to a lady's dress. Unless this is accomplished, the article is entirely worthless. The Ladies, by referring to Frank Leslie's Gazette of Fashions for April, will notice that E. & J. HOLMES have from actual experience been successful in producing this most desirable article, and that their IMPROVED SEAMLESS SKIRT meets the unanimous approbation of the ladies. They are light, pliable, and easily adjusted, and the only Skirt which is equally adapted to the street and the crowd; are made in one piece or breadth, and in our opinion, and in the opinion of thousands of ladies who have bought them, the most reliable goods of the kind in the market. We were the first to introduce a Whalebone Skirt, and from our experience in the manufacture and retail of these goods, we have found that all kinds of cotton cord, and nearly all kinds of cord, and all starched goods, cannot be used satisfactorily, as they will not recover their place when pressed out of shape. We consider all

WHALEBONE SKIRTS

as worthless, of whatever material made, unless there is something of sufficient stiffness and elasticity, and at the same time yielding and pliable, to keep the dress in proper shape below the bones. To accomplish this we have our cord made under our own direction, and expressly for our goods, and from the only material that can be used that will recover its proper place when pressed out of shape, and are so twisted in manufacturing that they will not roll or curl when wet, and warranted to wash without injury. The public are cautioned against all worthless goods, as the market since our goods have become popular and extensively known, has been flooded with goods of all kinds, and put together without form or comeliness, or any other object but to sell, and of course are called Whalebone Skirts. Some imitators, in their efforts to profit by our reputation, have gone so far as to copy almost exactly our trade mark upon their goods.

Please Notice.—Every genuine article stamped. *E & J. HOLMES'S IMPROVED SEAMLESS WHALEBONE SKIRT*, and may be found by the trade in many of the largest Jobbing Houses in New York and Boston, and at retail in the principal Dry Goods stores.

June 6, 1856. eo3m E. & J. HOLMES, Boston.

Great American and Foreign Office

For Securing Patents for Inventions.

Agency for business with US Patent Office, Washington

R. H. EDDY,

No. 76 State st. oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of scientific and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington—Patents secured in Great Britian, France, and other foreign countries, through Agents of the highest respectability. **R. H. EDDY,**
Solicitor of Patents.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in advising inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

Boston, Jan 11 1856. d1eodtw

Hartford Fire Insurance Co.

HARTFORD, CONN.
INCORPORATED IN 1810.
Capital $300,000—all paid in and invested.

THIS long established and well known Institution, has transacted a most extensive insurance business for more than forty years, throughout the United States and the British North American Provinces. It has aimed to secure public confidence, by an honorable and faithful fulfilment of its contracts; and owners of property are assured that all fair claims for loss under its policies will be liberally adjusted and promptly paid. Public Buildings, Manufactories, Mills, Machinery, Dwelling Houses, Stores, Merchandise, Household Furniture, Vessels on the Stocks or while in port, &c. will be insured as low as the risk will admit. He hopes to merit a share of public patronage, by strict attention and fair dealing, to his patrons. Orders promptly attended to.

Please give me a call, at 21 Daniel st.
may 24 aw6m A. C. MANN.

FARM LANDS FOR SALE.

The Illinois Central Railroad Company
IS NOW PREPARED TO SELL
OVER TWO MILLION ACRES
OF
FARMING LANDS,

In Tracts of 40 acres and upwards, on long credits and at low rates of interest.

THESE lands were granted by the Government to aid in the construction of this Railroad, and include some of the richest and most fertile Prairies in the State, interspersed here and there with magnificent groves of oak and other timber. The Road extends from Chicago, on the northeast, to Cairo at the south, and from thence to Galena and Dunleith, in the north-west extreme of the State, and as all the lands lie within fifteen miles on each side of this Road, ready and cheap means are afforded by it for transporting the products of the lands to any of those points and from thence to Eastern and Southern markets. Moreover, the rapid growth of flourishing towns and villages along the line, and the great increase in population by immigration, etc. afford a substantial and growing home demand for farm produce.

The soil is a dark, rich mould, from one to five feet in depth, is gently rolling and peculiarly fitted for grazing cattle and sheep, or the cultivation of wheat, Indian corn, etc.

Economy in cultivating and great productiveness are the well known characteristics of Illinois lands. Trees are not required to be cut down, stumps grubbed, or stone picked off, as is generally the case in cultivating new land in the older States. The first crop of Indian corn, planted on the newly broken sod, usually repays the cost of plowing and fencing.

Wheat sown on the newly-turned sod is sure to yield very *large profits*. A man with a plow and two yoke of oxen will break one and a half to two acres per day. Contracts can be made for breaking, ready for corn or wheat, at from $2 to 2 50 per acre. By judicious management, the land may be plowed and fenced the first, and under a *high state of cultivation* the second year.

Corn, grain, cattle, etc. will be forwarded at reasonable rates to Chicago, for the Eastern market, and to Cairo for the Southern. The larger yield on the cheap lands of Illinois over the high priced lands in the Eastern and Middle States, is known to be much more than sufficient to pay the difference of transportation to the Eastern market.

Bituminous coal is mined at several points along the Road, and is a cheap and desirable fuel. It can be delivered at several points along the Road at $1 50 to $4 per ton; Wood can be had at the same rates per cord.

Those who think of settling in Iowa or Minnesota, should bear in mind, that lands there of any value, along the water courses and for many miles in land, have been disposed of;—that for those located in the interior, there are no conveniences for transporting the produce to market, railroads not having been introduced there. That to send the produce of these lands, one or two hundred miles by wagon to market, would cost much more than the expense of cultivating them; and hence Government lands thus situated, at $1 25 per acre are not so good investments as the lands of this company at the prices fixed.

The same remark holds good in relation to the lands in Kansas and Nebraska, for although vacant lands may be found nearer the water courses the distance to market is far greater, and every hundred miles the produce of those lands are carried either in wagons or interrupted water communications, increases the expense of transportation, which must be borne by the settlers, in the reduced price of their products; and to that extent precisely are the incomes from their farms, and of course on their investments, annually and every year reduced.

The great fertility of the lands now offered for sale by this company, and their consequent yield over those of the Middle and Eastern States, is much more than sufficient to pay the difference in the cost of transportation, especially in view of the facilities furnished by this Road, and others with which it connects, the operations of which are not interrupted by the low water of summer, or the frosts of winter.

PRICES AND TERMS OF PAYMENT.

The Price will vary from $5 to $25, according to the quality, location, &c. Contracts for Deeds may be made during the year 1856, stipulating the purchase money to be paid in five annual installments; the first to become due in two years from the date of contract, and the others annually thereafter. The last payment will become due at the end of the sixth year from the date of the contract.

Interest will be charged at only 3 per ct. per ann.

As a security to the performance of the contract the first two years' interest must be paid in advance, and it must be understood that at least one tenth of the land purchased shall yearly be broken under cultivation. Twenty per cent. from the credit price will be deducted for cash. The Company's construction bonds will be received as cash.

READY FRAMED FARM BUILDINGS,
Which can be set up in a few days, can be obtained from Responsible Persons.

They will be 12 ft. by 20 ft. divided into one living and three bed rooms, and will cost complete set up on ground chosen anywhere along the road $150 in cash, exclusive of transportation. Larger buildings may be contracted for at proportionate rates. The Company will forward all the materials for such buildings over the Road promptly.

Special arrangements with dealers can be made to supply those purchasing the Company's lands with fencing materials, agricultural tools, and an outfit of provisions in any quantity, at the *lowest wholesale prices.*

It is believed that the price long credit, and low rate of interest, charged for these lands will enable a man with a few hundred dollars in cash, and ordinary industry, to make himself independent before all the purchase money becomes due. In the mean time, the rapid settlement of the country will probably have increased their value four or five fold. When required an experienced person will accompany applicants, to give information, and aid in selecting lands.

Circulars containing numerous instances of successful farming, signed by respectable and well known farmers living in the neighborhood of the Railroad lands, throughout the State—also the cost of fencing, price of cattle, expense of barr harvesting, threshing, &c. by contract—or any other information—will be cheerfully given, on application, either personally or by letter, in English, French or German, addressed to

JOHN WILSON,
Land Commissioner of Ill. Central R. R. Co.,
Office up to the 1st of May, 52 Michigan Avenue, Chicago, Ill; after that date in the New Stone Passenger Depot, So. Water st. a8 6m

We Challenge the World!

A DOG STORY.

We stepped into the telegraph Office in Portland, Oregon, soon after it was first established; fortunately, just in the nick of time to witness the following amusing scene;

While the operator was explaining to us the mysterious working of the galvanic current, and the *modus operandi* of its application, in transmitting intelligence between distant places, a tall and particularly ungainly specimen of the *genus homo* stalked into the office. He was a muscular, brawny fellow, of the species *Pike*, and, to judge by his brusque manners and uncouth appearance, had always dwelt on the frontier, or somewhere near sundown, outside the pale of civilization. He showed the symptoms of a rapid walk, and hastily inquired:

"Telegraft office, heh?"

"It is, sir," replied the operator, politely.

"Runs from here to Dayton?"

"Yes."

"Good! I hev got a right smart job fur ye. I left thar afore sun up this morning, in sich a all-fired splutter that I clean forgot my dog at the tavern. He's a mighty powerful good dog, stranger, I tell ye—a cross betwixt a Newfoundlander an' a regular bull—smart as a mountain cat, and stout as a grizzly bear. He kin whip his heft in wild cats every day, an' is wuth *hi-u chickomin* to hunt Injins, an' that's jest whar I'm gwine. Now I want you to telegraft him down here in double quick short meter, for the steambote is gwine to leave in a hour, an' I wouldn't lose the critter for a heap."

We observed a comical expression flit over the operator's countenance as he pretended to note down a description of the missing quadruped, and answered—"all right, sir," to an assurance on the part of his excited customer that he "would drap in arter the dog in half a hour."

When he returned, the first object which attracted his attention was a stump-tailed pug of the most diminutive proportions, which was tied to the leg of the operating table, and saluted him, as he entered, with a shrill *bow, wow, wow*,

"You are just in time, sir; here is your dog; all O. K., only a little out of breath, owing to the rapidity of his journey," said the operator, blandly.

"Whar?" interrogated Pike, striking an attitude expressive of astonishment which was too pregnant for words.

"Here, sir, tied to this table."

"W-h-a-t! that teenty sprinklin' uv fizzled har my dog? You don't mean to say that that thar short-legged, little, squint eyed, lop-eared, mangy beast is *my dog? no sir*; that ain't my dog; mine is the best dog in Oregon—a wallopin' big suplendid animile—a reglar beauty—a two hundred pounder, sir. Phew!" At this point the speaker having exhausted his vocabulary, stopped to take breath.

"Very singular! extraordinary singular, I may say. Has your correspondent made a mistake, and forwarded the wrong animal?"

"Mistake be blowed. It's a regular swindle, sir. That tavern keeper up thar has stole my dog, an' sent me this little runt in his place." "What's the damage?"

"Nothing, sir, as you failed to get the right animal," replied the operator, who joined us in an uproarious burst of merriment as Pike left the office, swearing "he was gwine up to Dayton to *sculp* that dog-stealing tavern keeper.—[San Francisco Town Talk.

A stage coach broke down near Salem, N. C.; Mr. Urquhart, a Virginian on his bridal tour, was killed; and twenty other passengers were hurt, several seriously.

The main trunk of the South Carolina Railroad, one hundred and thirty-five miles long, has been in operation twenty-three years, and no passenger has ever been killed.

MADAGASCAR.—That the French will conquer Madagascar we do not believe.—What they can want with that remote island it is hard to understand. They already hold the island of Bourbon, and perhaps England might be prevailed upon to give the Mauritius back to them. It was lost by Napoleon the uncle, the English capturing it; and it might be got back by Napoleon the nephew, the English surrendering it. The English are now in such a mood of surrendering up every thing to the Emperor of the French, their "august ally," that they might be found ready to give up to him a place that by its very name—the Isle of France—shows that it ought to belong to him. With that island, and Bourbon, perhaps the imperial gentleman would be content, and so leave the poor creatures of Madagascar to peace and heathenism, instead of conferring upon them the combined blessings of piety and powder. Madagascar is a very large island, some eight hundred miles long by two hundred and twenty broad—"more or less."—It is supposed to contain about two millions of people, but as the modes of taking the census there are not of the most reliable character, nothing definite is known on the subject. Statistics, as a science, are not yet appreciated by the colored aristocrats who rule over the great island. The soil is rich, and altogether it is a very captivating place, so that it is by no means strange that the French should have made up their minds to steal it, seeing that it was their destiny to steal something. Perhaps they will say that they are not stealing, only "re-annexing," for they have now a sort of claim on Madagascar; just such a claim, reader, as a man might have to your horse, because his grandfather had stolen him when he was a colt.

PRACTICAL PREACHING.—Here is a delicious paragraph from Henry Ward Beecher:—

We have no doubt that a rigorous landlord, having sharked it all the week, would be better pleased on Sunday, to doze through an able Gospel sermon on Divine mysteries, than to be kept awake by a practical sermon that, among other things, set forth the duties of a Christian landlord. A broker who has gambled on a magnificent scale all the week, does not go to church to have his practical swindling analyzed and measured by the "New Testament spirit." A merchant whose last bale of smuggled goods was safely stored on Saturday night, and his brother merchant, who, on that same day, swore a false invoice through the custom-house—they go to church to hear a sermon on faith, on angels, on the resurrection! They have nothing invested in these subjects; they expect the minister to be bold and orthodox. But if he wants respectable merchants to pay ample pew rents, let him not vulgarize the pulpit by introducing commercial questions.

A rich Christian brother owns largely in a distillery, and is clamorous against letting down the pulpit to the vulgarity of temperance sermons. Another man buys tax titles, and noses about all the week to see who can be slipped out of a neglected lot. A merchant that plies his craft with unscrupulous appliance of every means that win: he too wants "doctrine" on the Sabbath, not those secular questions.

Men wish two departments in life; the secular and the religious. Between them a high wall and opaque is to be built. They wish to do what they please for six long days. Then stepping the other side of the wall, they wish the minister to assuage their fears, to comfort their consciences, and furnish them a clear ticket and assurance for heaven. By such a shrewd management, our modern financiers are determined to show that a Christian can serve two masters, both God and mammon, at the same time.

STRANG AND THE MORMONS.—We learn from gentlemen who came down upon the Propeller Globe, that the Mormon nest upon Beaver Island is likely to be broken up. The long course of law breaking which culminated in the shooting of Strang, has so roused the people in the neighborhood, sufferers by the performances of the Mormons, that they have taken such measures as will result in the total disruption of this out-law gang. The two men who committed the assault upon Strang were taken to Mackinac, where the people refused to hear any charges against them, and they were therefore allowed to go at large. Strang has been removed to some point on the main land, but cannot live long. His wounds are said to be in a shocking state, caused by neglect and improper surgery.—The squatting fanatics have been chiefly removed from the island and scattered along the shores of Lake Michigan, while the premises lately occupied by them have been searched and found to contain stolen goods in abundant variety and astonishing amount. Oxen, horses, boats, fishing tackle, barrels—in fact all sorts of property which was within their reach has been stolen by them and secreted upon the islands. We trust that the miserable thieves will leave the country, and either become decent citizens or join the band of saints in the Salt Lake settlement, where they must one day be proceeded against with force and arms, as noxious vermin.—[Buffalo Express.

A boy recently died in Nantucket from standing on his head. A dangerous practice, boys.

R. B. MARSH,
BOOK-SELLER AND BINDER,

W. SIMES & CO.

Morning Chronicle.

TUESDAY, AUGUST 5, 1856.

GOOD FROM THE SOUTH.—The most intelligent portion of the South have always felt that slavery was an evil—even slaveholders have felt so and said so; but they saw no feasible way of ridding themselves of that evil, and it has continued:—and they look upon the northern supporters of slavery with the deepest contempt. A hundred times more abhorrent to them is a northern volunteer for slavery than an abolitionist.

Said the eccentric John Randolph of Edward Everett, when the latter proposed to shou e musket to defend slavery—"I ewy neither the head nor the heart of that man." So they think of thousands for whom they have no words for utterance. So they will respect the New Englander that is true to freedom; and so despise the recreants that wallow in the slime to please them.

¶ Some northern papers, and among them the New York Day Book, have been simple enough to think the whole people would abandon Bennett's Herald, because it supports Fremont for the Presidency. Just as though a Journal that was a good *newspaper*, maintaining generally correct principles, was to be made or unmade by its favoritism for a particular individual. The South Carolina Times replies, showing the true state of feeling at the South, as follows:

The opinion of the Day Book, as expressed above, will receive very little countenance in the South, and especially in South Carolina. The readers of the New York Herald will continue to patronize it, without any regard to the shifting or abolition sentiments which may appear in its columns against the institutions and people of the South. *The truth is, we have more abolitionists at heart residing at the South than most persons are aware of.* Let them feel that they will be safe, and many that are now regarded good and true friends of the South and her institutions, would be found not only constant readers and devoted patrons of the Herald, but ready to espouse its teachings and advocate its principles, purely in opposition to the present seeming prevailing sentiment of the South.

We have very little, if any confidence in northern politicians, journalists or preachers. They are not to be trusted, and we doubt not that the New York Day Book would, if a sufficient sum were offered, soon take position and lead in the unholy war which is being waged against the South and her institutions, notwithstanding its efforts to impress upon her people that it runs with the hare.

☞ The following answer was received from Hon. James Buchanan, to the telegraphic message addressed him by the President of the Nominating Convention, informing him of the union of the Democratic party of the State of New York.

To Wm. C. Crane, Esq., President of the Consolidated Democratic Convention of the New York Democracy: Mr. Buchanan has received the resolution of the Consolidated Convention of the New York Democracy. Their union at this eventful crisis, is one of the grandest events in our history. Our car will now weather the storm of fanaticism, and the Union must and shall be preserved. The whole Southern country will hail this reunion as a rainbow in the clouds, promising a return of the peace and harmony which prevailed in the good old time among the sister States.

(Signed) JAMES BUCHANAN.

LOOK OUT.—The Democratic Standard, the new Buchanan paper published at Concord, N. H., with which Hon. Edmund Burke is reported to be connected—in its last issue accuses somebody of trying to prejudice the people of New Hampshire against that paper; and threatens, that when Buchanan is President, they will turn out all postmasters who work against the circulation of the Standard!

17TH OF SEPTEMBER IN BOSTON.—The statue of Franklin is to be inaugurated on Wednesday the 17th of September, with appropriate ceremonies and an oration from Hon. Robert C. Winthrop. That date is the anniversary of the settlement of Boston and of the adoption of the Constitution of the United States by the Convention of 1787. The City Council first met in the Old State House, Sept. 17, 1830; the first Horticultural Hall, Sept. 17th, 1845; the corner stone of the City Library was laid Sept. 17th last year, and there have been various other public services on that date, including Mayor Quincy's Centennial Oration and Charles Sprague's Centennial Ode. The Boston folks propose to make this a holiday hereafter.

BROOKS AND KEITT.—*Columbia, S. C., Aug.* 1.—Hon Preston S. Brooks received seven thousand nine hundred votes upon his re-election to Congress, and $600 was contributed towards the fine imposed on him. The Governor of South Carolina sent certificates of election to Washington in advance. The vote for Mr. Keitt was also large.

These advance certificates, (which of course were simply lies on paper with a big seal,) account for the promptness with which the former gentleman presented himself in the House.

☞ The Dover Enquirer says that on Friday last, Mr. Charles Henderson, in the employ of John Trickey, Esq. in that city, while at work with a Mowing Machine, accidentally got his right foot caught in the teeth of the cutter, and before he could extricate it he received several bad gashes across the ankle bone, so that a piece of it came out. It is probable that it will render Mr. Henderson lame for life.

☞ We have received from Senator Hale, a Map of Central America, 1856,—a Senatorial document, bound.

POLITICAL ITEMS.

It is understood that Senator Toombs, the only man who voted against Col. Geary for Governor of Kansas, did it because the appointment was urged by Gen. Pomeroy and other Free State men of the territory.

In the re-election of Preston S. Brooks he received all the votes in his district but six.

The Boston Pilot, in a late number, charges Thomas D'Arcy McGee, editor of the New York Celt, with being in favor of Fremont.—Mr. McGee replies that his paper will be neutral in the present Presidential contest. Mr. McGee, it will be remembered, sent a letter to the Cincinnati Convention, requesting them to expel Mr. Herbert of California.

A lady tells the editor of the Boston Post that she does not want to be an honorary member of the Fremont Club of Somerville. She says she wants to keep step to the music of the Union!

Mr. Buchanan thinks Brooks' attack upon Sumner was *"very inconsiderate."*

THE USE OF OIL.—In this country, says an exchange, children are "perpetually watered" as though they were amphibious animals. In the East Indies, children are rarely washed in water,—but they are oiled every day. A child's head can be kept much cleaner if oiled, than without it, and many young persons with hectic cheeks would probably never know the last days of consumption if their parents would insist on having the chest, back and limbs anointed with sweet oil two or three times a week. The Hebrew physicians seem to have considered oil as more efficacious than any other remedy.

Although we have some faith in the application of sweet oil, sometimes,—we think people generally go dirty enough now, and don't need to be cautioned about too much washing—children or adults.

☞ Dwight's Boston Journal of Music states that one of the Boston oratorio societies is in treaty with Madame CLARA NOVELLO for the coming season. She is always spoken of as the greatest living oratorio singer in England. There have been intimations of some intended combination of forces on the part of the oratorio societies of Boston, New York and other cities, with Mme. Novello for prima donna, to hold one or more musical festivals like those of Birmingham, Norwich, &c., in England. Her first appearance will probably be in Boston in October or November.

"A QUIET MORNING"—"Carl Benson," the humorous correspondent of the N. Y. Spirit of the Times, recently arrived at the Pavillion House, Glen Cove, late in the evening, after a light canter of sixteen miles. He meets some old friends, and sits up talking politics till 12. He likes to sleep eight and a half hours on a stretch—*when he can.*

10 minutes before 7, A. M., waiter wakes up our correspondent by mistake. Our correspondent requests him to go to—South Carolina. 5 minutes before 7, Child cries. 7, Grand flourish on the gong, *a la* Beauvallet. 7:5, Child cries. 7:10, Child yells. 7:15, Child screams for about five minutes consecutively. 7:20, Mother (or other female) performs a solo on the child's reverse. Child cries more than ever. 7:25, Industrious young lady, who is an early riser, begins to practice on the piano. 7:30, Second edition of gong. Our correspondent decides that it is a bad case, and gets up, in a very *devotional* frame of mind.

THE REIGN OF DISORDER.—The following is from the Louisville Journal of Tuesday:—

"We learn from the Cincinnati Enquirer that about three hundred citizens of that place, instigated by the failure of the jury to find a verdict of murder in the case of Arrison (the infernal machine man), held a secret meeting last Wednesday evening to organize a Vigilance Committee. There was great excitement in the meeting. The question was whether they should proceed at once to take vengence in their own hands, or await further events. The consideration suggested in favor of waiting was that Arrison, who now stands arraigned for the murder of Mrs. Arrison, may yet be convicted of murder, and executed. The vote was taken by ballot, and the meeting decided by 160 to 112 to wait. It was evidently the understanding, that if the next jury should fail to convict of murder, the Vigilance Committee would take the life of Arrison, and probably undertake to punish the jury. We have no doubt Arrison deserves to be hung, but the adoption of such extraordinary means for securing real or supposed justice, is at the best of most questionable propriety."

WEST INDIA EMANCIPATION.—We learn that the celebration of the twenty-second anniversary of this great and noble act took place Aug. 1, at the Grove in Abington, and that it was of an unusually interesting character. The throng of persons present was very large, and the interest never greater. Most unexpectedly to the audience, Mrs. Jane Johnson and her two children (whom Judge Kane of Philadelphia endeavored to re-enslave and deliver up to John H. Wheeler, U. S. Minister to Nicaragua, and in whose behalf Passmore Williamson suffered an imprisonment of many months) appeared at the Grove and were introduced to the company, who made a collection of thirty dollars in their behalf.—*Boston Journal.*

Something strange is reported to have occurred on Pea Bridge, in Lincoln county, Tenn., a few weeks ago. A horse and plough (so the story goes) which a farmer was using in his field, sunk and disappeared in the earth, leaving a hole to which no bottom has yet been discovered, and into which the farmer himself came near falling. His neighbors were called to the place, who, by mea s of ropes, let him down in search of the horse and plough, to the depth of 30 or 40 feet; but the farther he went the larger the hole appeared, and he called to his friends to pull him up, which they did. Several unsuccessful attempts were afterwads made to fathom the hole. The horse and plough have "gone the way of all the earth."

CONGRESS.

SATURDAY, Aug. 2.

The House, after passing several private bills, went into Committee on the Fortification Appropriation bill.

The Fortification Appropriation bill was reported back to the House with a recommendation to strike out the enacting clause. This was refused, and after debate the bill was passed.

Mr. Herbert made an unsuccessful effort to introduce a resolution authorizing an intervention of the U. S. land and naval forces in San Francisco affairs. The House then went into Committee of the Whole, on the bill to defray the expenses of the legislative, Executive and Judicial departments of the government. Mr. Herbert made a personal explanation, saying that various charges had been made against him from both the Pacific and Atlantic coast. He branded them as falsehoods, and declared that not one of his accusers could compare with him in point of purity, honor, and integrity! The charges, he said, came from political enemies, and he considered them complimentary rather than disgraceful.

[Herbert's praises of himself are peculiarly valuable at the present time.]

In the evening session Mr. Lumpkin denounced the black republican party, and said its success would be the commencement of a revolution, for that party would conduct the government in accordance with the views of the triumphant majority, and no Southern man could accept office under it.

[This looks as if he thought there was going to be something of a shower.]

Mr. Wade answered—and Mr. Letcher called Mr. Wade's speech a disunion effort.

Messrs. Valk, Petit, Pelton, Reade, Branch and Underwood, gave notice that they should print their speeches without consuming the time of the committee in delivering them.—Mr. Ruffin spoke of Fremont as a mere adventurer and land grabber, and as the fit exponent of the republican party. The people had not sunk so far as to elect a manikin, moved by wires, in the hands of political mountebanks. These abolition disorganizers are plotting the destruction of the government while they act the part of land sharks, marauders and political gamblers. He said that the conduct of the black republicans was revolutionary and iniquitous; that know nothingism was a failure; that Fillmore had no chance, and that Mr. Buchanan was nationally sound. Adj.

FARMING AT THE WEST.

The corn and grain crops in some of the Western states are immense; and as laborers are comparatively few, and wages high, machines for reaping, threshing and shelling, are greatly beneficial.

It would be utterly impossible to save the grain in Illinois but for these machines. The people here tell me, (says a letter writer from Chicago,)—the difficulty of gathering the crop being remedied,—that an equally great one stares them in the face. They fear the want of sufficient accommodation by railroad to enable them to transport their immense productions to market.

The crop of corn in Northern Illinois is excellent. In many fields it was ten feet high, of a deep green and of strong growth. The crop in Indiana, New York, and elsewhere, may be light, as is expected, but be assured, the quantity held over in Illinois, added to what will be produced this season in that State, if unforeseen accident does not happen, will be sufficient for all practical purposes.—There is never a total failure of this crop. Even in the year of the great famine, many parts of the United States came very near to the usual production. In going through the military tract, one is struck with the number of well filled corn cribs. Farmers do not readily yield to low price, and hence the quantity stored. There is a strong probability that high prices for their productions will not be maintained, considering the vast numbers who have opened new farms in the West; emigrants from quarters which consumed more than was produced. Lands will consequently not continue to increase in price for the present, as they have done for the last few years. I suppose there is not a country in the world in which the principal articles of food are produced with as much facility as in Northern Illinois and other parts of the West. The soil will not need manuring for many years, inasmuch as it is formed of the ashes deposited when the prairie grass is burned. In many places it is four feet deep. It is also nearly free from weeds, which is very important, inasmuch as the growing corn is not hoed, but only ploughed. Stones and roots are not met with to impede cultivation, but the land is tilled with an ease unknown in other localities. The population of such a country must ultimately be very large, inasmuch as it is a general rule that mouths go to the food, and not food to the mouths. Manufactures will be established on the prairies equal to the necessities of such a population and a city grow up in some favorable locality, that will rival the great cities of the coast. I felt like locating in the great West, until the exclamation of an old resident of the prairies, who had lived in an Atlantic city, came to my recollection, "Oh! for an oyster. Oh! for a smell of salt air."

DROWNED.—The Dispatch states that two Englishmen, of middle age, were bathing at Chelsea Beach, Saturday afternoon, when one of them was observed to be beyond his safety in the deep. The other went to his rescue, and both were drowned. The one thus nobly sacrificed his life in attempting to rescue his comrade.

WATER-TIGHT BULKHEADS.—A letter from Callao, dated July 4th, says the steamer Santiago, while running down the coast, struck a rock which knocked her whole bow in. Had it not been for her water-tight bulkheads, she would have gone down with all hands. As it was, she returned safely to Callao.

REV. JOHN HOLMES, who until recently was a preacher in the town of Eden, has abducted a young female of sixteen—daughter of a lone widow—and fled to parts unknown, leaving a wife and two children in very destitute circumstances.—*Bangor Journal.*

Messrs. Wm. Seward and J. Wild, cotton manufactures, Shuttleworth, England, have been fined for employing thirty-eight young persons during a portion of the dinner hour. They made the poor creatures begin fourteen minutes too soon by the right time, arranging their own clock to suit.

☞ Peterson's Magazine, for September, contains a fine engraving of Children in a Storm, as the frontispiece, and a valuable list of contributions.

A horrible suspicion is afloat that many of the fashionable uptown dwellers in Gotham, who are supposed to be spending the summer at the watering places, are actually shut up in their back parlors at home.

Mrs. George Blakesly, of Bath, N. Y., was bitten on the ankle by a rattlesnake, while picking berries, and died the next day, the physician being unable to do anything for her relief.

WORTH KNOWING.

Prof. Wood, of St. Louis, has discovered a remedy for the grey and bald, which is at once practicable and cheap. It requires no dyeing, no wig, no extraordinary trouble. There can be no doubt whatever of its efficacy We have seen testimonials almost without number, and from men of great intelligence, high standing and moral worth.

Those who have been bald for years are now wearing their own hair, and appear ten years younger than they did six months ago. As in most cases grey hairs and bald heads are both premature and unnatural, it is a duty to remedy them by the natural and undoubted means which Prof. Wood has invented, and now kindly offers to the afflicted. Try his wonderful remedy, and give the Professor a new testimonial.—*Memphis Wig.*

HUDSON'S SHAKESPEARE.

THE WORKS OF SHAKESPEARE; the text carefully restored according to the First Editions, with introductions, Notes, Original and Selected, and a Life of the Poet, by Rev. H. N. Hudson, A. M. 11 vols., 16mo. Price, $1.00 each.

"Readers are so familiar with announcements of new editions of Shakespeare that they may overlook the peculiar claims of this. They consist, first, in the conscientious labors of the editor, in restoring the original text; secondly, in the discrimination and judgment manifest in the notes; and, thirdly, in the legibility, clearness, and beauty of the type, and the convenient size and shape of the volume. This edition is, therefore, not only intrinsically of superior value, but it is the most readable ever published. It is also an American edition, the first where thorough justice is done the great bard."—*Home Journal.*

"On reading Mr. Hudson's admirable preface, I was much struck with the high tone and spirit in which he has entered upon his task. The style in which the edition is brought out pleases me extremely; it is a remarkable, comfortable, cosy, readable form of volume,—just such a one as we take up with delight and lay down with regret,—one that can be held for hours without inconvenience, lounging about in-doors over the fire, or carried without incumbrance out into the fields and this is a strong recommendation. A book, the contents of which make it our favorite and constant companion."—*Extract of a Letter by Mrs. Mary Cowden Clarke, Author of the Concordance of Shakespeare.*

Conversation:

ITS FAULTS AND ITS GRACES; or the best manner of Speaking, Writing, and Pronouncing the English Language correctly. Compiled by Rev. Andrew P. Peabody, D.D. New Edition, revised, with additions. 16mo, cloth stamped, marbled edge, pp. 150. 50 cts.

"This is an exceedingly interesting little volumne, and one which deserves to be carefully read and studied. It is not only a very interesting publication, but a very timely one. There is a tendency, even with people who know better, to use phrases which are far from correct, at first by way of fun, but gradually they become incorporated into general use. Dr. Peabody's Address is very beautiful and sensible, and treats of the principle and sentiment of conversation from a high point of view. It is a very valuable compilation, and should have a wide circulation."—*Boston Daily Adv.*

"We cannot too earnestly commend this Address to the consideration of readers of all ages. The compilation is most judiciously made, and should be widely circulated. We welcome this little volume as indicating the gravest dangers which threaten sometimes to make conversation more of a hindrance than a help, and also as one which in a lively manner will suggest to young people the absurd errors into which so many unconsciously fall."—*Salem Gaz.*

"If you are Coming, Why don't you Come along?"

THAT is the "mot" now-a-days. Every locomotive on every Railroad shrieks it. It is daily rapped out on every Telegraphic Line in the country. The echoing blows of our Ship Carpenters hourly exemplify it. The smith at his anvil hammers it out. The clanking Press with breathless haste, sends the cry home to every family—"If you are coming, why don't you come along?"

It is uttered in an hundred tongues in a hundred lands. It has sounded like a slogan through the political world, and the "Old Fogies" are creeping along among the baggage wagons and the wounded. Thought, that moved at a funeral pace, now rushes on a tremendous charge; and all the old remedies for Liver Complaint have given way for

HOLMAN'S SPRING BITTERS.

"If you are coming, why don't you come along."—Six paces to the front, is the word to everybody and everything that wants to be listened to or looked at. If you have anything to do, *do it;* if you wish any person to see anything, *show it;* if you have anything to be cured, CURE IT WITH

HOLMAN'S SPRING BITTERS.

"If you are coming, why don't you come along?"—If you have a Bottle of Holman's Bitters in your house, you need not suffer from

Biliousness, Weakness at the Stomach, Indigestion, Heartburn, Lowness of Spirits,

Nor any of the diseases incident to the season.

It used to take six men to make a pin; now one boy, a pull, a clip, and two strokes, and that's the way the pins are made. Once it took a Physician, lots of precious time, and quantities of nauseous drugs to cure some simple disease of the Blood.—Now, a quarter expended in

HOLMAN'S SPRING BITTERS

Brings Life and Health, flowing spirits and rosy cheeks.

"If you are coming, why don't you come along?"—If you are sick and weak, why don't you cure yourself? Here we offer you the article that will do it—there is no mistake about it. Every body knows about HOLMAN'S BITTERS; they have been tried and have "toed the mark straight."

They are a *good* medicine; they are *better* than anything else for all Spring Complaints; they are just the *best* Bitters that can be bought—and that's the best thing we can say about them. *"If you are coming, why don't you come along,"* before they are all gone?

LOCAL.

THE CHRONICLE.

OUR ENLARGEMENT, PRICES, &c.—For two years we had been contemplating and preparing for the change in the size and price of the Daily Chronicle, which we made last week. At the start, we designed to keep out of the ranks of the penny papers; but thought we could hardly charge more than three dollars per year for our sheet. And ere long we were induced by various representations, to reduce our price for single copies from two to one cent. And now having tried the experiment four years, we are satisfied we should have been better off to-day, had we put our starting price at $4 yer year, and two cents per number. And so believing, we shall henceforth act accordingly.

A few, very few of our subscribers have bid us adieu (for a season,) among them one or two of our original patrons. And nearly all of the seceders are men who could well afford to pay twenty times our price for the Chronicle, if they chose, and never know it afterwards. Poverty or wealth is not always in the real state of things,—only comparative and ideal. We pity any man, who, while attached to and gratified with a visitor that comes to see him upwards of three hundred times a year—feels so poor that an extra third of a cent for each welcome call, is begrudged. Poor indeed must such a man be. We certainly wish no man to have our paper, who does not want it—but we should like to have the patronage of all who do.

Our change has worked well—is working well—must work well: for us and our readers. We shall be enabled to give a better paper, and, we have no doubt, get a little better remuneration for our work. One-third of a cent daily will not be much considered by those who are willing to pay the laborer his hire.

Among the many agreeable notices bestowed upon us by our brethren of the press, at home and abroad, we copy only the following from our neighbor of the Journal, who is well acquainted with newspaper publishing in this latitude:

The Morning Chronicle of Friday, enters upon its fifth year and comes to us in an enlarged form, bearing marks of thrift, which give assurance of prosperity. The enlargement of its size has a corresponding increase of its price, to which those who know the expenses of printing cannot object. A daily paper is a very desirable accompaniement of the breakfast table, and for the labor of collecting the record of passing incidents, the publishers should be better rewarded than by receiving only a penny a sheet.

☞ The Daily Chronicle may be had of our Carriers, at 8 cents per week. Single copies 2 cents. $4 per year in advance.

☞ There is no better machine for printing Cards, small labels, &c., than Foster's Card Press; and as we keep one running at the Chronicle Office, the best thing for those who have jobs in this line to do, is to bring 'em on.

DEATHS IN PORTSMOUTH.—Mr. Bell's record of mortality in this city, for the past month, is:

Males ten—aged 1 month, 21 years, 25, 27, 30, 32, 50, 70, 86, 86.

Females four—aged 9 months, 1 year, 6 years, 31.

Total for the month, fourteen. Of these four were drowned from a boat in the harbor, and one committed suicide at Gravelly Ridge.

NEW MUSIC.—Messrs. J. S. Harvey & Son, have laid on our table quite a portfolio of new piano pieces, songs, &c.,—samples of a large lot they have just received from the enterprising publishers, G. P. Reed & Co., Boston. Among them we find the popular Song and Chorus, "When I saw sweet Nelly home," as sung by Perham's Troupe; "Blue-Eyed Bell," a Song sung by the Avondales; "The truest friend is God," a sacred Song for contralto, baritone or base voices; and Durant's comic Song, "Spiritual Rappings," as sung at the N. E. Bards' concerts. Also the Cordelia Polka; two selections for young pianists, from Beethoven; and The Traviata Waltz, on Verdi's celebrated Opera.

Messrs. Harvey & Son are always up with the times in their business,—and among other good things, keep an excellent assortment of musical instruments, books, sheet music, &c.

☞ In Dwight's Boston Journal of Music, last week, we find the following notice of Mr. Meinerth's new composition for the piano-forte:

Un Soir sur le Alpes: Nocturne, pour le piano. By CHARLES MEINERTH. pp. 5.

Quite a sweet and graceful little Nocturne, which indicates a refined musical feeling, as well as careful, conscientious writing, it being a regular piece of four-part harmony. It is not difficult, but must be played with expression, and due attention to the four parts.

MACKEREL.—These little shiners now abound in and off our harbor; though, at the rate our amateur and professional fishermen are hauling them in, we don't know how long the supply will hold out so plenty. We are under obligations to a neighbor, on Hanover street, for an opportunity of testing the quality of some of his catch, on several occasions, of late. Glad he is so fortunate—and we too.

☞ It will be seen by his "liberal and judicious" advertisement, that Mr. George W. Jenness offers great inducements to purchasers of Lumber of every description, at his new Yard at the South End. Mr. Jenness is well known as an experienced dealer in lumber, and is fully prepared to suit old customers and new.

THE DEMOCRATIC PIC-NIC.—For the purpose of correcting a few "slight inaccuracies" in our Monday's notice of the Democratic Pic-Nic, held in Kittery last week, we refer to the subject again. In the first place, the grove wherein the gathering was, is near Kittery, not Eliot Depot; then the Mr. Clifford who spoke was not John H., but Nathan Clifford, of Maine—not Attorney-General either; and Mr. O'Donnell spoke, in place of our reporter's Mr. McDonald. So much for accuracy. Now we give below another item concerning this important event, from the pen of one of the Democracy, who was instrumental in getting the people together on the occasion:

On Saturday the people of Kittery and vicinity assembled in Rice's Grove, and were addressed by Hon. Samuel Wells, Governor of Maine, Hon. Nathan Clifford, and James O'Donnell, Esq., of Portland. The number present was estimated to be from eight to twelve hundred. The addresses were eloquent, spirited, and embodied the principles and political faith of the Democratic party, and were listened to by an interested and enthusiastic audience. T.

REPUBLICAN PIC-NIC.—The Republican and Fremont pic-nic came off near Eliot Depot on Monday P. M., when our streets were deserted, and a great crowd were assembled.—Mr. Hamlin in his address remarked that it was the largest audience he had ever addressed.—Before such an audience he spoke with earnestness, and was received with enthusiasm.

We did not attend, but the number present we hear estimated from four to six thousand, a large proportion of whom were ladies. The extra train from this city carried about 600 persons; which number was increased by at least 100 more in the regular 2 1-2 o'clock train. Several hundred also entered the train at Kittery depot. The trains from the east were crowded.

The meeting was organized by electing Hon. Jere. S. Putnam of York, President,—He was assisted by 12 Vice Presidents, and 2 Secretaries.

Soon after the arrival of the extra train from this city, the large multitude gathered around the tables, well filled with substantial food, to which ample justice was done. At the close of this proceeding the people again assembled around the foot of the stand, where after a few remarks by the President, they were addressed by Hon. F. O. J. Smith, Hon. Hannibal Hamlin; I. Goodwin and Jas. W. Emery, Esqrs., of this city, and others. The greatest enthusiasm prevailed among the immense crowd.

The exercises were interspersed with singing by a choir of gentlemen from this city; and by music from the Salmon Falls and South Berwick Bands, both excellent companies of musicians.

☞ A prettily-uniformed company of very young American Republicans, accompanied with music, and having handsome banners, on their way to the Pic-Nic at Eliot, Monday noon; drew up in front of the Chronicle Office, and gave three hearty cheers, for somebody or something—we didn't learn exactly what, whether for the Chronicle, for the ex-Commissary General below us, or for Fremont. Let them laugh who win, boys.

A MAN ABOUT TOWN.—Mr. George Runnells pretty well exemplifies the Yankee trait of character, in turning his hand to whatever comes along. Now he is setting types for somebody—and in a style and at a speed hard to beat, too—then he is tending livery stable or driving hack for somebody else; now sticking types again, as fast as ever—then concerting with a troupe of Ethiopian melodists; now helping out some of the printers again—then exposing the mysteries of Shakerism, in public entertainments—then keeping fish market—and at odd intervals, among the whole, running a foot-race, or training some runner. Last, we see he turns up in our marine report this morning, master of a mackerel-fishing schooner. Full fares of No. 1s, we wish him—if indeed it *is* he who "goes skipper;" of which last we are a little doubtful, on reconsideration, as we don't think he can be so well acquainted with navigating where no footprints or wheelmarks are left.—However, as we know all 's correct but this, we'll let it go, as we hate to spoil the item.

THE MORMONS.—Theo. Olshausen, of St. Louis, has published, in German, a history of the Mormons, or Latter Day Saints, in North America; from which it appears that America contains 68,700 of the sect, of whom 38,000 are in Utah; 5,000 in New York; 4,000 in California; 5,000 in Nova Scotia and Canada, and 2,000 in South America and the Islands. Europe contains 39,000; of whom 32,000 are in Great Britain and Ireland: 5,000 in Scandinavia; 1,000 in Germany and Switzerland; 500 in France, and 500 in the rest of Europe. In Asia there are said to be 1,000; in Africa 100; in Austrailia and Polynesia 3,400; on travel 1,800. There are besides 8,500 schismatier, including Strangites, Rigdonites, and Wightites. These numbers amount in the aggregate to 116,500, and it is suposed that the whole sect cannot exceed 120,000.

Wagon for Sale.

A FIRST-RATE Buggy-wagon, painted and trimmed in fancy style, will be sold cheap, on application to
jy18 ALFRED EMERY, Warren Street.

WAGONS.

j18 tf WM. C. HATCH.

ASSAULT.—Lloyd W. Lamos of this town, visited Dan Rice's Show, at Dover, on Monday last, and while standing on the steps of a saloon, a young man named Webster, with whom Lamos had had some trouble, came up behind him and dealt him a blow on the head which nearly knocked him down; before he had fairly recovered from that, some other person in the crowd struck him another blow, which knocked him down. Lamos drew a jack knife and told them to keep off, which they did not heed, and in the scuffle which ensued, Lamos inflicted a wound in the side of Webster about three inches long. Webster got into his wagon soon after the affair and went home, and we understand is doing well.—*Great Falls Jour.*

MAN AND WIFE BURNT TO DEATH.—At Newboro', Canada, morning of July 19, Mr. McAnally and his wife were aroused from sleep by the alarm of flames in the house, and endeavored in vain to quench them; but succeeded in saving a large portion of their furniture, &c., after which Mrs. McAnally rushed into the house, it is supposed to save some money which she had privately laid up; but she could not get out again. Mr. McAnally tried to get her out through the window, he being outside; the fire surrounded him also, and during his attempt to save her life the roof fell in and precipitated her from his grasp into the burning ruins of the building. A woman succeeded in dragging him out of the flames, and was seriously burned in the effort. She shen removed the burning particles of his night dress, but he appeared to be no more than a mass of matter.

HIGH-LIFE SNOBBERY.—We are constantly hearing of the "palatial dwellings" of New York, which are always spoken of with a degree of reverence and an air of triumph that seem to indicate that the honor and glory of the country mainly depend on them, and that we poor mortals, who simply live in *houses*, can never exhibit sufficient gratitude towards the "merchant princes" who rear those pretentious edifices. Now, these princely residences may be very fine things; we certainly cannot gainsay such a presumption, because we never lived in one of them; still, we think that when a "merchant prince" has built himself, or hired some one to build for him, a "palatial dwelling," he should be content to dwell in it quietly and unostentatiously, and that he should not advertise it in the papers, as though it were a Museum or a Hippodrome, nor engage a reporter to describe the architecture, the upholstery, the pictures, the statuary, the "princely host," and the "queenly mistress." It seems to us, that people who can resort to such "show tricks," must feel exceedingly out of place in a "palatial dwelling," and that they would be much more at home in a tent or a wigwam.

From the Boston Saturday Evening Gazette.

A PERFUMED BREATH.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A BEAUTIFUL COMPLEXION may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and roseate hue. Wet a towel, pour on two or three drops, and wash the face night and morning.

SHAVING MADE EASY.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," rub the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

W. P. Fetridge & Co. Proprietors, 323 Pearl street, New York, and 100 Washington street, Boston. For sale in Portsmouth by William R. Preston. 6mje16

Preserving Kettles.

JUST received an invoice of English Enameled Kettles—suitable sizes for Preserving purposes, for sale low at 46 Market street, by
jy26 E. A. STEVENS.

Secured by Royal Letters Patent in England and by Patent in the United States.

THE Subscribers, having been for a long time desirous of securing to the public a Needle that will not only be a superior article, but perfect in the Eye, recommend their "*Patented Gold Inlaid Needle.*" They are justly celebrated, and preferred above all others, the eyes being inlaid with gold and burnished, which renders the cutting or chafing the thread utterly impossible.—They are manufactured from the best steel, and tempered according to the most approved plan.—We therefore offer with confidence these Needles to the public, having secured them against all frauds or imitations either in Paper, Label or Needle. We desire all parties purchasing these Needles to be cautious in the selection of them, as unprincipled persons have sought to imitate our style, and thus palm off an inferior article, notwithstanding the heavy damages we have recovered from various parties; and a reward of $500 will be paid for such information that will lead to the detection and conviction of any person or persons thus engaged. None are genuine except those labelled on the back, '*Warranted by R. Crowley*' A liberal discount will be allowed to dealers who purchase in large quantities.

WILLIAM CROWLEY & SON,
Oversly Mills, Alcester, England.

Having made arrangements with the Manufacturers of the above brand of Needles (which I earnestly recommend as the best Needle in the market,) I am prepared to sell them

Wholesale at $1.60 per M.
Retail at 6¼ cts. per paper of 25.
Assorted or separate numbers, sharps and betweens.

LONG WHALEBONES for 10 cents. A large lot just received at PEYSERS, corner of Daniel street. jy24

KEEP HOUSE.—We are frequently addressed by parties who wish to know "the least sum on which a young married couple can live comfortably in New York;" and these couples always add, "We wish to board, not being able to keep house."—These inquiries reveal an unfortunate state of things. They show that the idea of a *home* is about as good as abandoned by most of our young people who are contemplating marriage. "What is the *least* we can *live* upon?" is the anxious inquiry: and then comes the mournful refrain—"in a boarding house." The sweets of the domestic hearth, the delights of the family circle, and all the dear and ennobling joys of *home* are ignored with a matter-of-course indifference, which shows that they no more enter into the hoped-for probabilities of young married people. Such a state of things cannot be otherwise than destructive of domestic peace, and in every way unhealthy, because it is unnatural.—Better is an humble dwelling where *home* is, than the most elegant boarding-house, and gossip and slander among the women therewith.—[N. Y. Ledger.

WASHINGTON, Aug. 2.—Col. Lee has been ordered to the command of the troops on the upper Missouri, and the two companies ordered to garrison at Fort Pierre are to be withdrawn, if circumstances will permit.

Inspector General Churchill renders a bad account of the volunteer force in Florida.—Most of their time is spent at their homes, and they are no more effective than if never mustered in the public service.

Indeed! and are we ever to get done paying for Florida?

I. D. RICHARDS & SONS.

Established 1820.

IMPORTERS AND DEALERS IN

DR. LANGLEY'S

Root and Herb Janndice Bitters.

The Great Spring and Summer Medicine.

THIS Medicine, composed of the best roots, herbs and barks in the world, has constantly increased in public favor for six years, until by its wonderful success, it is acknowledged to be the best and cheapest medicine in the world. It acts with magic-like power upon the strong holds of disease—cleanses the bowels, purifies the blood gives vitality to an inactive, torpid liver, cures Jaundice in all its forms, Dyspepsia, Costiveness, Indigestion, Headache, Dizziness, Piles, Heartburn, Languor, Weakness, Pain in the Side and Bowels, all Billious Diseases and Foul Stomach, and especially Humors of the Blood and Skin;—strengthening, healing, purifying, building up, and keeping in order the whole system. All persons ought to use them during the spring and summer.

Only 25 cents for a pint, and 37½ cents for a quart bottle. Office 99 Union St., Boston. Sold by all dealers in medicine, everywhere. mh18 3m

Whalebone Skirts.

THE only object of a Whalebone Skirt is to give a proper, graceful and elegant form to a lady's dress. Unless this is accomplished, the article is entirely worthless. The Ladies, by referring to Frank Leslie's Gazette of Fashions for April, will notice that E. & J. HOLMES have from actual experience been successful in producing this most desirable article, and that their IMPROVED SEAMLESS SKIRT meets the unanimous approbation of the ladies. They are light, pliable, and easily adjusted, and the only Skirt which is equally adapted to the street and the crowd; are made in one piece or breadth, and in our opinion, and in the opinion of thousands of ladies who have bought them, the most reliable goods of the kind in the market. We were the first to introduce a Whalebone Skirt, and from our experience in the manufacture and retail of these goods, we have found that all kinds of cotton cord, and nearly all kinds of cord, and all starched goods, cannot be used satisfactorily, as they will not recover their place when pressed out of shape. We consider all

WHALEBONE SKIRTS

as worthless, of whatever material made, unless there is something of sufficient stiffness and elasticity, and at the same time yielding and pliable, to keep the dress in proper shape below the bones. To accomplish this we have our cord made under our own direction, and expressly for our goods, and from the only material that can be used that will recover its proper place when pressed out of shape, and are so twisted in manufacturing that they will not roll or curl when wet, and warranted to wash without injury. The public are cautioned against all worthless goods, as the market since our goods have become popular and extensively known, has been flooded with goods of all kinds, and put together without form or comeliness, or any other object but to sell, and of course are called Whalebone Skirts. Some imitators, in their efforts to profit by our reputation, have gone so far as to copy almost exactly our trade mark upon their goods.

Please Notice.—Every genuine article stamped, *E & J. HOLMES'S IMPROVED SEAMLESS WHALEBONE SKIRT*, and may be found by the trade in many of the largest Jobbing Houses in New York and Boston, and at retail in the principal Dry Goods stores.

June 6, 1856. eo2m E. & J. HOLMES, Boston.

Great American and Foreign Office

For Securing Patents for Inventions.

Agency for business with US Patent Office, Washington

R. H. EDDY,

No. 76 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey so Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington—Patents secured in Great Britian, France, and other foreign countries, through Agents of the highest respectability.

R. H. EDDY.
Solicitor of Patents.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitatiou in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, atd the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

CHAS. MASON,
Commissioner of Patents.

Boston, Jan 11 1856 d7eodtr

Hartford Fire Insurance Co.

He hopes to merit a share of public patronage, by strict attention and fair dealing, to his patrons. Orders promptly attended to.

Please give me a call, at 21 Daniel st.

jy2 2awfm A. C. MANN

FARM LANDS FOR SALE.

The Illinois Central Railroad Company

IS NOW PREPARED TO SELL

OVER TWO MILLION ACRES

OF

FARMING LANDS,

In Tracts of 40 acres and upwards, on long credit, and at low rates of interest.

THESE lands were granted by the Government to aid in the construction of this Railroad, and include some of the richest and most fertile Prairies in the State, interspersed here and there with magnificent groves of oak and other timber. The Road extends from Chicago, on the north-east, to Cairo at the south, and from thence to Galena and Dunleith, in the north-west extreme of the State, and as all the lands lie within fifteen miles on each side of this Road, ready and cheap means are afforded by it for transporting the products of the lands to any of those points and from thence to Eastern and Southern markets. Moreover, the rapid growth of flourishing towns and villages along the line, and the great increase in population by immigration, etc. afford a substantial and growing home demand for farm produce.

The soil is a dark, rich mould, from one to five feet in depth, is gently rolling and peculiarly fitted for grazing cattle and sheep, or the cultivation of wheat, Indian corn, etc.

Economy in cultivating and great productiveness are the well known characteristics of Illinois lands. Trees are not required to be cut down, stumps grubbed, or stone picked off, as is generally the case in cultivating new land in the older States. The first crop of Indian corn, planted on the newly broken sod, usually repays the cost of plowing and fencing.

Wheat sown on the newly-turned sod is sure to yield very *large profits*. A man with a plow and two yoke of oxen will break one and a half to two acres per day. Contracts can be made for breaking, ready for corn or wheat, at from $2 to 2.50 per acre. By ludicious management, the land may be plowed and fenced the first, and under a *high state of cultivation* the second year.

Corn, grain, cattle, etc. will be forwarded at reasonable rates to Chicago, for the Eastern market, and to Cairo for the Southern. The larger yield on the cheap lands of Illinois over the high priced lands in the Eastern and Middle States, is known to be much more than sufficient to pay the difference of transportation to the Eastern market.

Bituminous coal is mined at several points along the Road, and is a cheap and desirable fuel. It can be delivered at several points along the Road at $1.50 to $4 per ton; Wood can be had at the same rates per cord.

Those who think of settling in Iowa or Minnesota, should bear in mind, that lands there of any value, along the water courses and for many miles inland, have been disposed of;—that for those located in the interior, there are no conveniences for transporting the produce to market, railroads not having been introduced there. That to send the produce of these lands, one or two hundred miles by wagon to market, would cost much more than the expense of cultivating them; and hence Government lands thus situated, at $1 25 per acre are not so good investments as the lands of this company at the prices fixed.

The same remark holds good in relation to the lands in Kansas and Nebraska, for although vacant lands may be found nearer the water courses the distance to market is far greater, and every hundred miles the produce of those lands are carried either in wagons or interrupted water communications, increases the expense of transportation, which must be borne by the settlers, in the reduced price of their products; and to that extent precisely are the incomes from their farms, and of course on their investments, annually and every year reduced.

The great fertility of the lands now offered for sale by this company, and their consequent yield over those of the Middle and Eastern States, is much more than sufficient to pay the difference in the cost of transportation, especially in view of the facilities furnished by this Road, and others with which it connects, the operations of which are not interrupted by the low water of summer, or the frosts of winter.

PRICES AND TERMS OF PAYMENT.

The Price will vary from $5 to $25, according to the quality, location, &c. Contracts for lands may be made during the year 1856, stipulating the purchase money to be paid in five annual installments; the first to become due in two years from the date of contract, and the others annually thereafter. The last payment will become due at the end of the sixth year from the date of the contract.

Interest will be charged at only 3 per ct. per ann.

As a security to the performance of the contract the first two years' interest must be paid in advance, and it must be understood that at least one tenth of the land purchased shall yearly be brought under cultivation. Twenty per cent. from the credit price will be deducted for cash. The Company's construction bonds will be received as cash.

READY FRAMED FARM BUILDINGS,

Which can be set up in a few days, can be obtained from Responsible Persons.

They will be 12 ft. by 20 ft. divided into one living and three bed rooms, and will cost complete set up on ground chosen anywhere along the road $150 in cash, exclusive of transportation. Larger buildings may be contracted for at proportionate rates. The Company will forward all the materials for such buildings over the Road promptly.

Special arrangements with dealers can be made to supply those purchasing the Company's lands with fencing materials, agricultural tools, and an outfit of provisions in any quantity, at the *lowest wholesale prices.*

It is believed that the price, long credit, and low rate of interest, charged for these lands will enable a man with a few hundred dollars in cash, and ordinary industry, to make himself independent before all the purchase money becomes due. In the mean time, the rapid settlement of the country will probably have increased their value four or five fold. When required an experienced person will accompany applicants, to give information, and aid in selecting lands.

Circulars containing numerous instances of successful farming, signed by respectable and well known farmers living in the neighborhood of the Railroad lands, throughout the State—also the cost of fencing, price of cattle, expense of harvesting, threshing, &c. by contract—or any other information—will be cheerfully given, on application, either personally or by letter, in English, French or German, addressed to

JOHN WILSON,
Land Commissioner of Ill. Central R. R. Co.,
Office up to the 1st of May, 52 Michigan Avenue, Chicago, Ill.; after that date in the New Stone Passenger Depot, So. Water st. a8 6m

CHAPTER I.

THE OLD TAVERN, AND A SUSPICION FOR ITS INMATES.

At the time of which we write, this Island Metropolis, the foremost city of America, was in its swaddling clothes—a dutch baby, small and weak, but of great promise—and bore the good old name of New Amsterdam. The Dutch West India Company held the charter, and William Kieft was the Governor of the Colony. The Indians were settled on all hands of the Dutch adventurers; and, under all the circumstances of the times, it is a wonder that there were not more troubles than there were. In the dark night the watchman of the pale-faces, who chanced to stand upon an eminence, could turn his gaze in no direction, without meeting the dim light of the Indian's camp-fire. And so on all hands, save to the sea-board, the fires stretched away—from vale to vale, and from hill to hill—like beacon-lights of a great nation, bounded only by the wave-lashed shores of the continent.

Thus were the affairs of New Amsterdam at the time when our story opens. Some noble men had settled there, and they had brought their virtues with them; but bad men had come; and so vice and crime reared their hydra heads in contrast.

It was a calm, pleasant day in July, in the year 1640. Close by the head of what is now known as Coenties-slip, stood the city tavern of New Amsterdam. It was a plain wooden building, roofed with bark and straw, with a sort of garden in front, within which Nannette, my good hostess, had supposed only flowers would spring up; but at the present time she was not a little surprised to observe that where she had planted a 'Queen's daisy' a huge pumpkin vine had made its appearance; and in the pretty beds where she had set her peony roots she had the mortification to see young cabbages springing up on all hands.—Ah—the good old burgher and host, Jacob Van der Dobck, had an eye to the profits of that bit of ground. And there he stood on this pleasant July day, with his hands clasped behind him, and his pipe in his mouth, complacently viewing the result of his gardening. He was a short, round bodied man, some forty years of age, with a broad, humorous face, and a calm, sly twinkle of the small grey eye, which denoted shrewdness and good nature when needed, and which at the same time seemed to indicate that he could be very severe if occasion should require.

"Jacob Van der Donck," uttered his wife, approaching him unobserved, "aren't you a pattern of sweetness and love?"

"Good Nannette," returned Jacob, with a smile, "it gives me pleasure to answer such questions when put by your own sweet lips. I am."

"Yes—you are! O—yes. Of course you are. It was very kind of you to pull up my flowers and plant these cabbages, and pumpkins, and turnips, wasn't it?—Very kind!"

"Certainly. What do we keep tavern for? Is it to see flowers? No. It's to feed the hungry—and what better sign, than food growing directly in front of our house? Plant thy flowers in pots, and set them in the window, and thou shalt see them often, for I swear thou art oftener at the window than anywhere else."

Nannette did not reply immediately, for she could not quickly make up her mind whether to be angry, or to laugh at her husband's wit. She was Flemish born, and of exceeding good nature; and, moreover, loved her liege lord with strong affection. However, she had just made up her mind to smile, and await her turn to put back the joke, when a person in the street attracted her attention to such a degree that she at once forgot the cause of dispute with her husband.

"Look, Jacob," she whispered, starting close to her companion's side. "There is Casper Geldorp again, watching our house. What can he want? He was here yesterday in the same way, and so, too, on the day before. I don't like it."

The host turned as his wife spoke, and he saw Geldorp standing upon the opposite side of the street, and seemingly intent upon gazing into the second-story windows of the tavern; but the latter, as soon as he saw that he was noticed, moved quickly away, and was soon lost to sight by the turn of the street.

"Nannette," spoke Jacob, after some moments of thought, "that looks suspicious.—What can he have to call him watching around here?"

"That's what I'd like to know," responded the good wife, with a shade of doubt upon her features. "If the governor did his duty he wouldn't be peeping around honest people's houses."

After this the worthy couple turned themselves to thinking, and at length Jacob said—

"Casper Geldorp doesn't come here for nothing—that's certain."

"Ay! what can it be, Jacob? He was watching the chamber windows," added the wife, with a touch of new intelligence in her tone. "And now I remember," she continued, with her head bent in thought, "that he was looking in the same direction yesterday."

"Then he may be watching our new guests."

"I think so, Jacob."

"And if he is watching them, it can't be for any good," continued the host, thoughtfully.

"Nobody ever heard of Casper Geldorp's doing any good yet," the wife returned, quite emphatically.

"True—true," uttered the host, at the same time thinking hard. "True, Nannette. He is only up to crime and mischief always; and if he has his eye fixed particularly upon anybody, it must be for evil. He's surely got his eye fixed now upon Van der Veer. Van der Veer is our guest and we must warn him. I'll to our guests at once, and if there is danger they shall know it."

Within one of the chambers of the City Tavern—for so the humble inn was called—sat Peter Van der Veer. He was a well-formed man, with a frame of medium size, and dressed in a garb which betrayed both wealth and good taste. In years he was past the first half century of life, and the silver touches were thickly sprinkled upon his head. His features were regular and well-defined, marked by a strong cast of intelligence, and softened by the light of kindness and humanity. He had been for some years engaged in the Dutch East India trade, and had amassed much wealth. Close by him, at one of the windows which overlooked the perverted garden and the street, sat his wife, Theodora. She was small in frame, with light hair and blue eyes, and retained much of the beauty of her youth. She had been one of the most beautiful maidens of Amsterdam, and she was now one of the handsomest matrons of the new town. She was not far from fifty years of age, though most people thought her younger. She was a warm-hearted, generous woman, and needed only to be known to be loved. Though she had only been a month in New Amsterdam, yet she had made some warm friends where most people more readily make enemies. She had taken two sick Indians to her own apartments and nursed them, and bestowed upon them food and clothing, and the result was, that all of the red men of the same tribe knew her and loved her.

There was one other person in the chamber, preparing to leave it—William Van der Veer—the only child the old merchant and his wife had left to love and care for. He was near 21 years of age—tall, stout, and well built, with light-brown hair and deep blue eyes, and well versed in all the athletic sports of the time. And his mental education was good, too. He had learned all the mysteries of trade, and made much proficiency in scholastic lore, and had thought some of accepting a place in the University of Amsterdam, when his parents concluded to move to America.

As William went out, Jacob came in and closed the door behind him, and then stood for some moments as if undecided what next to do. He twirled his huge hat upon his hand, and gazed first upon the merchant and then upon the lady.

"You will pardon me," he said at length, turning towards the old man; "but I thought I ought to come and acquaint you with a circumstance which my wife and myself have noticed. Perhaps you have seen a man standing on the opposite side of the street, who seemed to be watching your windows."

"My son noticed a man," returned Van der Veer, but before I reached the window he was gone; and he told me he saw that same man in the same place, yesterday."

"Yes, Sir," resumed the host, speaking more freely now that he observed his guest was interested, "my wife saw him yesterday and the day before, too."

"How?—Was he watching my windows on both those occasions?"

"Yes, Sir; and Nannette didn't like the looks of it, nor did I, either. The fellow isn't one who would be likely to be after much good, and we thought it right you should know."

"Of course—of course," said Van der Veer. "And yet I don't hardly think that any one would mean any harm to me, unless they imagine I have considerable money by me, and wish to steal it."

"Ah! I didn't think of that," uttered the host. "Yes, yes, he's just the man for that work. If any man in New Amsterdam would rob a helpless traveller, or steal the last silver from its sleeping owner, then I do really believe Casper Geldorp is that man."

"Geldorp!—Casper Geldorp!" exclaimed the merchant, starting to his feet and moving nearer to his host.

"Casper Geldorp!" gasped Madame Van der Veer, turning pale as death and trembling fearfully.

"Yes—I said Casper Geldorp," returned Jacob, gazing with astonishment upon the old merchant and his wife.

"How old a man is he?" the guest asked.

"I should say not far from fifty."

"And how looks he?"

"He looks villainously, Sir. His frame is stout; his face dark and ugly; and his eyes like snake's eyes."

"And does he halt in his step?"

"Aye—that he does; and most ungainly too. His right leg is shorter than it's mate."

"Does he live here in New-Amsterdam?" asked the merchant, who had now become extremely anxious and tremulous.

"Part of the time," returned the host. He owns a little house over on the other side of the fort, where his wife lives; but he has a sloop, in which he sails sometimes. He pretends to be an honest trader, but I believe he makes more bargains with cold leaden bullets and sharp steel than with money.

For some moments Van der Veer remained silent. He cast a look upon his wife and saw that she was very pale, and then he gazad down upon the floor.

"Jacob Van der Donck," he at length said, "you know this man, and I wish you would watch him. Let him not approach your house without being seen. Tell your wife to keep her eyes upon him if he comes upon the premises. Let me know all of his movements that you can possibly detect; and if you have in your employ any whom you can trust—any safe, honest people—set them upon the watch also. Of course your good wife must understand this, but I wish you would keep the secret of my interest in this matter from all others."

"Certainly, Sir, I will do all you wish," replied Jacob; and then, after a moment's silence, he added—"I suppose you knew this Geldorp in our Fatherland."

"Yes,—I did," said Van der Veer; "I knew him many years ago, and he was my enemy; at least, I think he was. But never mind that now. If you help me in this you shall not go unrewarded."

Jacob moved towards the door, saying—"Sir, if you, in your abundance of means, see fit to bestow of your bounty upon me and my good Nannette, we shall not refuse it."

For some time after their host had gone the merchant and his wife remained silent. They were both deeply moved, and seemed anxious and uneasy. Van der Veer took several turns up and down the room, and finally stopped in front of his wife.

"Theodora," he said, in a low, hushed tone, which seemed to have been assumed for the purpose of keeping back his own fears, "I did not think we should find that man here. I had hoped—or at least, I had thought—he might be dead. And yet I know not that we have any cause to fear him."

"I dont know," responded the wife; "but why should he be watching us thus? Ah! I would rather never have seen him again. He surely means us no good."

"True, true," added the old man. "But yet," he continued, assuming a hopeful smile, "we will not be under needless alarm. 'Sufficient to the day is the evil thereof.' We will have him watched, and in time we may know more of his intentions."

And so the matter rested for a while. But the worthy couple were not so easy as before.

They could not banish the simple fact that they had occasion for fear.

CHAPTER II.

THE GIANT.

Peter Vau der Veer brooded over the strange circumstance of Casper Geldorp's appearance for a long while, and the more firm he became in the conviction that some evil was hanging over him. He had a deep dread of that dark man—not such a dread as one who has dangerous secrets at stake may feel, but the dread which fastens upon the mind of a defenceless man in the presence of a cruel enemy. On the day following the events recorded in the preceding chapter, the old merchant resolved to watch for himself, and see if he could detect the enemy. Accordingly, after he had eaten his breakfast, he took his station in one of the lower rooms of the inn, and there he watched all the forenoon; but he saw nothing of his evil genius. In the afternoon he walked over to the fort, where he remained a couple of hours, and as he was coming out he saw a man passing alone the street towards the tavern. From the garb, and general appearance of the stranger, he thought it must be Geldorp, so he crossed over, and having drawn the rim of his hat over his face, and pulled up his vandyke, he followed on. The man slackened his steps as he approached the inn, and Van der Veer saw that he was watching the upper windows of the building. The old man saw the southern gate open, and having hurried over and entered that way, he gained a position behind some shrubbery by the fence, where he could not only watch the movements of the suspected man, but where he could gat a good view of his face. It was close by the corner of the inn.

Geldorp, for it was he, had now stopped behind a large buttonwood tree, where he no doubt fancied he should be free from observation, and there he stood and watched the windows. Van der Veer had no more doubts concerning the identity of the man, for he recognised in those dark features the face of the enemy he had feared. For half an hour Geldorp remained at his post, and during all that time he kept his eyes fixed quite steadily upon the inn. At length the front door was opened, and Willem Van der Veer came out. The youth gazed around a few minutes, and then started up the street toward the company's farm.

The moment Willem made his appearance, Geldorp was on the alert, and ere the former had moved many rods, the dark man started to follow him. The old merchant would have called upon his son to come back; but he wished not to attract the attention of the other, so he clambered over the fence and followed along after them—determined on no account to lose sight of the youth while Geldorp was near.

Willem had come out simply for a walk, and as he sauntered along, musing upon the peculiar circumstances by which he was surrounded, he heard a heavy footfall behind him, and on turning he beheld the very man whom he had noticed the day before gazing up at the windows of his father's room. He did not like the looks of the dark, coarse features, and he would have hurried on to get out of the way, but just as he had started to quicken his pace the man addressed him.

After indulging in a few commonplace though impertinent remarks, to which the gentle youth vouchsafed very brief replies, the intruder stated that he had lived in Amsterdam, and knew his (Willem's) father.

"Might I ask your name?" ventured the youth.

"O—certainly," said Geldorp, with a slight show of hesitation. "My name is Bronk—Cornelis Bronk."

Willem was not so blind but that he saw the room for doubt which the man's manner opened to him, and the first impression he received was, that that was not the individual's real name.

"Yes, yes," resumed the stranger, assuming a very familliar air, "I remember your father very well. Are you his only child?"

"Yes, Sir."

Willem could see no harm in answering those simple questions, so he did not hesitate.

A short silence followed, and then Geldorp resumed—

"Let's see—if I remember rightly, your mother's name is Theodora.

"It is," answered Willem.

"Well—I must make it in my way to call in and see your parents when I can spare the time. I suppose they will remain at the tavern for some time yet."

Willem said he thought it very likely, and then, as they had reached a point where a narrow alley turned off towards Mill street, Geldorp remarked that his way lay in that direction, and having bowed very politely he turned off. The youth gazed after him for a while, and would then have kept on, but he heard his name pronounced by a familiar voice, and on turning he saw his father. He joined the old gentleman at once, and related all that had passed between himself and the man who had just left him.

"I don't like his looks at all," he said, at the close of his account. "He is the same man that stood so long in front of our windows yesterday, and I am sure he did not give me his right name."

"He did not, my son," returned Van der Veer, after they had turned their steps homeward. "His real name is Casper Geldorp, and I'm sure he means us some evil. You must beware of him, and keep your eyes open."

"But why do you think so?" the youth asked, with some surprise. "What is he to you or you to him, that he should do thus?"

"Why," replied the old man, with some hesitation, "many years ago I had some dealings with him, and in consequence of his dishonesty it became necessary for me to expose him. He tried hard to injure me then, and I am sure he would readily do it again."

William knew from his father's manner that there was more than this, but he also knew that nothing would be kept from him which it was for his interest to know, so he asked no more questions.

When they reached the tavern the father and son went to their room, where Madame Van der Veer sat, and there the three talked the matter over. Willem was sorely tempted to ask some explanation of certain things which he saw. He would have known why his mother was so deeply moved at the recital of Geldorp's interview with himself, and why she trembled so at the bare mention of his name; but he contented himself with hearing what was said, and thus he learned that there might be occasion to fear the dark freebooter.

Mr. Van der Veer had been thinking of hiring a servant, and he resolved now that he would do so at once. He concluded to engage the services of some shrewd, faithful fellow, in whom he could confide, and who could help him, physically, in the hour of need.

"I will go at once," he said to his wife and son, "and secure the man if such an one can be found. I shall let no one outside know that he is my servant. If I can come across the one I should like, he may be of great assistance to us. I will go now, and in the meantime you remain here."

Van der Veer left the tavern and made his way to the fort, within which were the government offices. He was acquainted with the colonial secretary, Cornelis Van Tienhoven, and to him he went. Van der Veer stated his business, and at first Tienhoven shook his head, but at length he said, perhaps it might be done.

"What would you pay the company for the exclusive services of one of their best negroes?" he asked.

"If, on trial, he proves to be such a man as I want, I will pay whatever you say is right, or even what you wish," returned the merchant.

The secretary thought awhile, and then told the old man to call in the morning.

"I will see Kieft, and if he is willing, you shall have one; but mind you: You must not speak of this about the town, for if people knew that we would let out a slave thus, we should be flooded with applications."

Van der Veer readily promised this, for it was just the very thing he wished; and having chatted awhile on other topics he asked the Secretary if he knew "one Casper Geldorp, who lived in New Amsterdam."

Tienhoven seemed to hesitate at first, but he soon answered that he did.

"And what sort of a man is he?" the merchant resumed.

"Well—I can't say as to that. He has proved himself very serviceable in keeping off the Indians, and we haven't bothered ourselves much concerning his general habits. The Governor finds such men very handy now and then."

Peter Van der Veer went away with his opinion of William Kieft lowered a bit.—He was aware that the Governor was unscrupulous in some matters, but he had no idea that he would shield a real criminal for the sake of his services. However, perhaps Geldorf was not so bad as the landlord had represented; or, if he was, perhaps Kieft didn't know it.

On the following morning, the merchant went again to the Secretary's office, and he had the satisfaction of learning that he could have the man he wanted.

"I have done for you what I would have done for no other man," said Tienhoven. "I have persuaded the Governor to let you have Manuel de Reus. He is a faithful fellow if well treated, and will do all you could wish for one man to do. He has been at work very hard lately, and we have concluded to give him a respite, seeing that we can do it without loss. You can have him by paying the company four florins a week and keeping him well."

Van der Veer readily promised this, and his servant was brought in. The old gentleman fairly started with astonishment when he saw the individual who was to serve him. He had seen large men in his day, but never anything to come up to the man who now stood before him.

Manuel de Reus was a full blooded Ashantee, who had been taken from Guinea by the Spaniards when a mere child, having been brought in among a lot of prisoners from the interior. He had grown most astonishingly. He was now not far from 30 years of age, and was a very little over seven feet high, and large in proportion.—His head was broad; his neck like a bull's; his breast and shoulders massive and nobly rounded, and his limbs all swelling with cord and muscle. He was known in New Amsterdam by the appellation of "The Giant," and the name was most appropriate. As soon as Van der Veer had assured himself that the huge mass was really human he instinctively turned his gaze on the fellow's face; and he was pleased with the result. The skin was as black as black could well be, and the features were far more comely than those of most of the negroes whom Peter had seen. There was a kind, generous expression upon the sable countenance, and over all there gleamed a beam of intelligence which recommended him at once.

"Will you take him?" asked the Secretary, with a smile.

"Will you serve me?" asked the old gentleman, turning to the black.

"I shall have to if my masters say so," was the giant's reply, spoken low and cautiously.

"But I want no one to serve me who does it not from choice," added Peter.

"Then you shall find me ready and willing, sir." The negro spoke this quickly, for his nice ear had detected already the natural goodness which gave tone to the old man's character. He had been watching his proposed master narrowly, and he appeared to be well satisfied.

"Now mind you, Manuel," said Tienhoven, as the negro was about to follow the merchant from the apartment, "we give you this opportunity because you have been faithful, and you must remember that you are not to speak of your connection with Mr. Van der Veer about the town."

The giant promised to obey the injunction, and then followed his master from the place. When they reached the tavern the merchant gave directions to the host to have Manuel's name entered upon his book, and then led the way to the chamber.—The good matron was startled at the appearance of the ebony Hercules, and had she not seen her husband with him she would surely have taken him for one of the wandering genii of whom she had read in Oriental tales; but as it was she quickly recovered her assurance, and received her new domestic acquisition with a warm smile.

At the end of half an hour, during which the new made companions conversed freely, the giant said within himself that he would serve these people faithfully.

W. SIMES & CO.

Morning Chronicle.

WEDNESDAY, AUGUST 6, 1856.

RELIGIOUS SOCIETIES IN EPPING.—A letter from an attentive correspondent at Epping, informs us, for the sake of informing the public, that some representations recently made, in the Congregational Journal and elsewhere, of the religious destitution of Epping, are not correct; and that the erroneous impressions they might make, would be best counteracted by a brief statement of facts.

The erroneous representations appear to have been made by a missionary agent, from partial observation and exparte information; and to have been repeated by other Congregational ministers, relying on his information—to this purport—that only a few of the Epping people attended public worship,—and that they were in a state of religious destitution.

Our correspondent informs us, that in the town of Epping, containing 1600 people, there are probably 500 who attend public worship on the Sabbath; that there are three local or resident preachers there, and four meetings generally on Sunday, viz. one Friend or Quaker,—two Methodist, one of which now occupies the Universalist meeting house,—and one orthodox Congregational. The last mentioned, our correspondent suggests, is feeble and divided.

This last circumstance, to our mind, affords a key to the erroneous impression. A congregational missionary, with a picture of his own chosen church there in a state of depression, naturally represents the whole religious landscape in a cloudy aspect.

Besides the societies above named, our correspondent mentions the fact that some families living in Epping, attend meeting in South New Market, Brentwood and Lee: so that there seems not to be much religious destitution there, beyond the fact that the orthodox church has no settled pastor, and that the universalists having no preaching at all, have admitted the methodists to their house.

KANSAS AND WASHINGTON.—Advices from Leavenworth to the 30th ult., state that Gen. Lane and company had not then entered the territory of Kanzas, and Gen. Smith had threatened that if they attempted to enter he should proclaim martial law. The territorial authorities were commencing to levy taxes. Trouble was apprehended, as both parties refuse to pay.

The Washington dispatch to the Boston Advertiser, says:

Gen. Wilson's resolution for the release of the free state prisoners in Kanzas, was killed in the Senate. That of Mr. Purviance, for the same object, was killed in the House. This shows how much the Administration party care for the pacification of the territory.

The House progressed to-day in the bill for the executive and judicial expenses of government, as far as the Kanzas appropriations. With these will come the "tug of war."

☞ A correspondent at Great Falls informs us that the store of J. M. & E. A. Tibbets, hard ware dealers in that village, was entered on Monday night, by a burglar boring a circle of holes round the lock, cutting it completely from the door. A watchman of the Boston & Maine Railroad, passing the store at three o'clock, was attracted by seeing the chips that were scattered on the steps, and stopped; when the thief rushed from the store, and ran across the bridge into Berwick—leaving an old straw hat, and a bag partly filled with pistols, carpenter's rules, &c.

THE DELUGE.—In Boston, on Sunday last, as we learn from the Transcript, Professor Hitchcock, of Union College, New York, discoursed learnedly upon the Deluge, at the Park Street Church, forenoon and afternoon. Admitting the deductions of Geology, he very ingeniously contended that the flood of waters must have been confined to the immense Asiatic plains, where the human race was cradled. His discourses are usually marked by great force and directness of language, and these qualities shone forth conspicuously in Sunday's efforts.

CAUSE OF A FATAL FIGHT.—Monday was the 50th anniversary of the affray between Austin and Selfridge, in Boston, in which Austin was killed. Sigma, in the Transcript, says:

The fatal affray between young Mr. Austin and Mr. Selfridge, undoubtedly, had its remote cause, in political animosity, between the latter and the father of the former. But—in the words of Pope—

What direful contests rise from trivial things;

this sad affair arose, in reality, out of a dispute, between Mr. Benjamin Austin, and Mr. Eber Eager, keeper of the Jefferson Tavern, in Prince street, *about seven roast pigs, and ten bushels of green peas.*

STEAMER EMPIRE STATE.—The Coroner's Jury at Fall River have brought in their verdict, that—"this accident is to be regarded as one of those unforeseen casualties incident to steamboat travel, and for which no person or persons can be held accountable."

Rather a soft verdict, we think, considering the testimony.

☞ The General Association of Congregational and Presbyterian ministers of New Hampshire, will hold their next meeting in Exeter, (1st church) on the 4th Tuesday (26) of August, at 10 o'clock, A. M.

HEAVY TAX.—Taxes in St. Louis, Mo., [illegible] hundred dollars.

WESTERN STEAMBOATS.

A letter writer for the Boston Traveller, dating from Sault St. Marie, thus speaks of the steamboats on the Northwestern waters.

The accommodations on these boats are respectable; and that is about all that can be said. The order and neatness which we found on many of our eastern steamers have not reached Sault Ste Marie. The table is often supplied but indifferently. In the midst of the finest fish in the world, No. 2 mackerel and salt cod may be the only representatives of the finny tribe. One sometimes wishes, moreover, that the officers and men who have his life in keeping had attained a higher morality, and were more worthy of respect and confidence.

It must be confessed, however, that the example set by a portion of the passengers is by no means what it should be. Swearing is fearfully prevalent; drinking is quite too common; and gambling comes in to fill up the picture. My experience may have been strangely unfortunate; but I found myself in contact with a company of rowdies on the North Star, such as I have seldom seen.

There are many excellent people on these boats, and the majority are respectable, but six or eight "fast" men can do much to make a long voyage uncomfortable. The truth is, a reformation in certain respects is urgently called for. Quiet people cannot feel altogether at their ease amid too many "disagreeables."

It is very desirable that the "saloons" be closed on all the boats. The places known by this gentle term are a chief cause of the discomforts and perils of travelling on the lakes. Proprietors and managers have probably committed a financial mistake in opening the door so freely to the lovers of strong drink.—There may be a present profit from the bar, but in the "long run" the balance will be in danger of shifting to the other side. It is not a pleasant thing to hear, as I did, after a rough and troubled night, "Our mate was too far gone to be of any use!" Passengers will learn to be shy of such guardians, and owners may find that temperance is at least gainful.

CORRECTION.—Mr. Scheffer, formerly the owner of the slave girl Sarah, over whom Beecher made such a characteristic display in Brooklyn, New York, called on the editors of the Richmond Whig, Tuesday, and requested them to contradict the following statement, which is now going the rounds of the newspapers:

"A correspondent of the New York Daily News, says that the slave girl whose freedom was purchased by Mr Beecher's congregation, absconded lately, taking with her certain articles not her property. It was a trick, it is said, connected by the master and the girl to raise the $1,200. She returned to him, was quite happy, and getting along as well as could be expected."

Mr. Scheffer says that so far as this statement refers to him, it is a falsehood. He gave the girl her free papers in the usual form, and has since had nothing whatever to do with her actions. It is understood that she is now in Washington.—*Portsmouth, Va. Trans.*

Well: we thought it was a lie, at the time, and said so as gently as possible, without being personal,—adding that the New York News was very poor authority for any statement.

☞ The New Orleans Bulletin sensibly remarks on the assault of the South Carolinian upon Mr. Stanwood, at the Metropolitan Hotel, New York:

"We wish an embargo could be laid upon these quarrelsome Carolinians, so as to keep them within the limits of their own State until after the election. They have done, and are still doing, more to benefit the cause of Free Soil and Freemont than all other causes combined. They are obtaining a notoriety which is far from being an honorable or an enviable one."

☞ The Fortification Appropriation Bill, passed in Congress on Saturday, contains the following items: For Fort Knox, Maine, $66,000; Fort Winthrop, Mass., $10,000; Fort Warren, Mass., $20,000; fortifications at Alcatraz Island, San Francisco Bay, Cal., $200,000; Fort Point, San Francisco Bay, $350,000.

NEWPORT GOSSIP.—"Aquidneck," the Newport correspondent of the Providence Journal, in a letter dated on the 31st, has the following:

Punch says that scandal is a rank weed, which is generally found in great profusion near the sea shore. Here, then, it may be looked for, and the buds that have already shown themselves promise full fruitage. This week we have had abundant materials for small talk; the parties moving in "high life."

Here is an anecdote. A sickly looking man accosted another visitor by remarking, "you appear to be well; what do you visit this place for?" "To enjoy myself" "Are you ill?" "Oh, terribly so." "Then permit me to remark as a friend, that even if you were in the most robust health, you eat altogether too much." At this, sickly looked a little indignant, but the next moment he cooled down and replied, "I like your conversation very much, but what on earth is a man to do who is here paying two dollars and a half a day!"

"Belle Brittan," the Newport correspondent of the New York Mirror, says:—

I overheard a funny conversation last evening, between a gentleman and a lady who were promenading behind me, from which I learned the definition of a "fast woman."—The couple were discussing the attractions of a young lady, who receives a good deal of attention here from the beaux—(such as we have)—when the gentleman remarked that he had not been able to discover the charms of the fair one in question. "O,' said the lady, "she is *fast*, and that's what makes all the gentlemen like her." "But what does that mean?" inquired the gentleman, a little roguishly. "Why," said the lady, "a *fast* woman is one that you can say anything to." I thought I should have dropped.

☞ Hon. Edward Curtis died at New York, on Saturday night. He was a distinguished lawyer and politician, a great admirer of Daniel Webster. He was formerly a member of Congress, and was appointed Collector of New York by Harrison; but removed by John Tyler. He has been sick and insane for two or three years.

POLITICAL ITEMS.

A Fremont clock has lately been invented in Connecticut, which is warrented to run, without winding, until that gentleman is elected President, or no pay.

The Richmond Enquirer, Va., reads out of the party, the Democratic members of Congress, who voted for the passage of the improvement bills over the veto of the President.

The Washington correspondent of the N. Y. Journal of Commerce says "I see no reason to doubt the election of Mr. Buchanan, by the people; and any other result will it is feared, open a new and disastrous chapter in our history."

Mr. Buchanan says: "I have been placed upon a platform of which I most heartily approve, and that can speak for me. Being the representative of the great Democratic party, and not James Buchanan, I must square my conduct according to the platform of that party, and insert no new plank, nor take one from it."

An old line whig silver grey paper, of Worcester, Mass., called the National Ægis, always conducted with marked ability, has come out for Fremont & Dayton, and recommends that all straight out whigs should vote for him.—*Boston Post.*

The Worcester Palladium, Democratic, has done likewise.

CONGRESS.

MONDAY, August 4.

SENATE.—Mr. Wilson offered a resolution, (which lies over) instructing the Committee on the Judiciary to report a resolution authorizing the President to direct the District Attorney to enter a *nolle prosequi* on each indictment against the free state Kansas officials.

On motion of Mr. Seward, the River and Harbor bill was taken up and a debate ensued upon it, involving the general merits of the system.

The Senate then passed bills continuing certain public works in Massachusetts, for the improvement of the Mississippi river, and the harbors of Newcastle Del., and Erie, Pa.; also the bills to continue the improvement of the Rock River Rapids, and the improvement of the Tennessee River. Adj.

HOUSE.—Mr. Purviance asked for a suspension of the rules, to enable him to introduce a resolution instructing the Judiciary Committee to report by what authority the recent arrests in Kansas have been made, together with the offences with which they stand charged. The motion failed—106 to 74—two-thirds being necessary.

Among the yeas, are Messrs. Cragin, Pike and Tappan of New Hampshire. The nays were nearly a party vote, showing the Administration's strength,—among these, Messrs. Fuller, of Me., Herbert, the two Cobbs, Oliver, Ruffin, Savage and Shorter.

The House passed a bill providing for the appointment of a commission for running the boundary line between Washington territory and the British possessions, under the Oregon treaty.

The House again refused to suspend the rules, by 108 against 74, to enable Mr. Denver to report the Pacific Railroad bill from the Select Committee.

Mr. Grow made an ineffectual motion to have the House consider the Homestead bill.

The House then passed the Senate bill authorizing any two Judges of the Court of Claims to act as a quorum for the transaction of business, and providing for the appointment of a Solicitor and an additional Clerk.

On motion of Mr Zollicoffer, the Military Committee were instructed to inquire into the propriety of purchasing the Hermitage, in Tennessee, for a Branch Military Academy.

The House then went into Committee of the Whole on the bill making appropriations for the Judicial, Executive and Legislative expenses, heretofore authorized by law.

After acting on many of the items, the House took a recess until 7 P. M.

The evening session was devoted, as usual, to a political debate for Buncome, in the course of which Mr. Cobb of Georgia explained that the position he had taken was, that it would be dangerous to throw the election into the House, as it would result in the choice of Fremont.

WASHINGTON, Aug. 4.—Senator Benjamin of La., and Howell Cobb of Ga., will have Washington to-morrow, to address a buchanan meeting in Maine. Thirty thousand dollars will follow, to help the cause in that State.

The refusal of the House to consider the Pacific Railroad bill, it is thought, will operate as a postponement of the subject till next session, Nothing more than a wagon-road appropriation will be voted towards that object this session.

TAXES IN NEWBURYPORT.—The Assessors of that city estimate the value of Real Estate, $3,453,500, Personal Estate, $3,762,700; Total, $7,216,200. This is an excess of $213,100 over the valuation of 1855, when it stood Real Estate, $3,449,100, Personal Estate, $3,554,000; Total, $7,003,100. The number of Polls is 2,972, which is five less than last year.

The rate of taxation last year was $8 on the thousand; now it is $8.50. This is occasioned not so much by city expenditures, as by the rapid and terrible increase of county and state taxes, which the Herald says are worthy of particular attention. The highest individual tax, Mrs. Hale's, is $1,360, and the next, John Currier's, is over $1,100. These stand at the head of the list, as they did last year. We observe that Wm. H. Brewster, Esq., a native of Portsmouth, and for several years one of the publishers of the Herald, is taxed $222.50.

DRIVEN TO SUICIDE BY A WRONGFUL CHARGE OF THEFT.—On Sunday, a young girl jumped from one of the piers in the city of Racine, and was drowned. She had been accused of stealing money from her employers, which impelled her to this act of violence. After her death the money was found in the house where she had lived. It had been mislaid.—*Milwaukie, Wisconsin, 22d.*

PRESIDENT LORD.—Hon. Joel Parker of Cambridge, writes to the Atlas, contradicting the statement that President Lord of Dartmouth College, had forbidden the formation of a Fremont Club by the students. He does this on authority of a private letter from the President.

MISS I. T. HAVEN will resume her School on Monday, Sept. 1st., 1856. au6 2w.

WORTH KNOWING.

Prof. Wood, of St. Louis, has discovered a remedy for the grey and bald, which is at once practicable and cheap. It requires no dyeing, no wig, no extraordinary trouble. There can be no doubt whatever of its efficacy We have seen testimonials almost without number, and from men of great intelligence, high standing and moral worth.

Those who have been bald for years are now wearing their own hair, and appear ten years younger than they did six months ago. As in most cases grey hairs and bald heads are both premature and unnatural, it is a duty to remedy them by the natural and undoubted means which Prof. Wood has invented, and now kindly offers to the afflicted. Try his wonderful remedy, and give the Professor a new testimonial.—*Memphis Whig*

"If you are Coming, Why don't you Come along?"

THAT is the "mot" now-a-days. Every locomotive on every Railroad shrieks it. It is daily rapped out on every Telegraphic Line in the country. The echoing blows of our Ship Carpenters hourly exemplify it. The smith at his anvil hammers it out. The clanking Press with breathless haste, sends the cry home to every family—"If you are coming, why don't you come along?"

It is uttered in an hundred tongues in a hundred lands. It has sounded like a slogan through the political world, and the "Old Fogies" are creeping along among the baggage wagons and the wounded. Thought, that moved at a funeral pace, now rushes on a tremendous charge; and all the old remedies for Liver Complaint have given way for

HOLMAN'S SPRING BITTERS.

"If you are coming, why don't you come along?"—Six paces to the front, is the word to everybody and everything that wants to be listened to or looked at. If you have anything to do, *do it:* if you wish any person to see anything, *show it;* if you have anything to be cured, CURE IT WITH

HOLMAN'S SPRING BITTERS.

"If you are coming, why don't you come along?"—If you have a Bottle of Holman's Bitters in your house, you need not suffer from

Biliousness, Weakness at the Stomach, Indigestion, Heartburn, Lowness of Spirits,

Nor any of the diseases incident to the season.

It used to take six men to make a pin; now one boy, a pull, a clip, and two strokes, and that's the way the pins are made. Once it took a Physician, lots of precious time, and quantities of nauseous drugs to cure some simple disease of the Blood.—Now, a quarter expended in

HOLMAN'S SPRING BITTERS

Brings Life and Health, flowing spirits and rosy cheeks.

"If you are coming, why don't you come along?"—If you are sick and weak, why don't you cure yourself? Here we offer you the article that will do it—there is no mistake about it. Every body knows about HOLMAN'S BITTERS; they have been tried and have "toed the mark straight."

They are a *good* medicine; they are *better* than anything else for all Spring Complaints; they are just the *best* Bitters that can be bought—and that's the best thing we can say about them. *"If you are coming, why don't you come along,"* before they are all gone?

Also, a lot of Remnants at Cost.

A great variety of Shades, Curtains, Fixtures, Tassels and Cord.

Please call and examine. jy4

LOCAL.

☞ Is the Agent of the Aqueduct Co. aware that there is an extensive leak in front of house No. 72 Congress street? Soon after the great draft of water ceases for the day, it begins to ooze from the ground, and in a few hours, as it gathers head, its long snake-like trail may be seen extending as far as Vaughan street, rendering the crossing at Middle street rather disagreable to ladies. It should be rectified at once.

☞ Lieut. Paulding, who has been waiting orders at this naval station, has been ordered to the Steamer Wabash.

☞ A reply to "W." by "Spectator," is on our file for to-morrow's paper.

☞ Stevens says if you want a horse, advertise for one. He had twenty-three offers of quadrupeds, of all sorts, sizes and styles—at prices from $15 to $300. He's got one—so don't try to "sell" him.

☞ The Daily Chronicle may be had of our Carriers, at 8 cents per week. Single copies 2 cents. $4 per year in advance.

☞ There is no better machine for printing Cards, small labels, &c., than Foster's Card Press; and as we keep one running at the Chronicle Office, the best thing for those who have jobs in this line to do, is to bring them on.

A Bigamist Arrested.—On Sunday evening, says the Boston Chronicle, Lieut. Hunt of the Fourth Station arrested a man named David B. Edgerly, on the charge of bigamy, under the following circumstances:—It seems that the accused, about twenty-one years ago, married one wife in New Hampshire, and lived with her a number of years, when on some pretext or other he induced her to go home to her parents and take with her her three children. Somewhat over three years ago he married another woman in New York, and moved on again to this city, where he has lived ever since. The first wife knew nothing of his second marriage until Thursday last, when she came to the city, to find him, and going to his home found the new wife in possession. She applied to the police in the matter, and Edgerly was arrested on the Common on Sunday evening about nine o'clock.

The scene in the Station House between the two wives, was affecting in the extreme; but the last one tearfully gave up all claims to the man, bestowing upon him a fervent blessing as they parted. By the last wife he has one child. It is said at the present time he has a new engagement on foot, and would soon have added another to his list of victims. He is about fifty years of age.

A Counterman Drudged and Robbed.—On Thursday, says the Boston Traveller, a man named James Willard came from a neighboring town to Boston on a visit. In the evening he fell in with a man named John Carney, who was quite friendly, and volunteered to show him the sights.—They visited various places and drank together, until at last Willard became nearly insensible from intoxication; when Carney proceeded to strip him, taking his neck handkerchief and other articles of clothing, a breastpin, and all his money. The keeper of a shop in North street, who witnessed the operation, sent for the police, who arrested Carney, and accommodated Willard with a bed at the Station House, to sleep off the effects of his spree.

Old Folk's Party.—A few days since, a singular gathering took place at the house of Mr. Sevilie, the Spinner's Arms, Lower Moor, near Manchester. Upwards of 90 persons of both sexes, none of them under 60 years, sat down to dinner, the expense being defrayed by a number of gentlemen, who determined to give their old neighbors an opportunity of joining in the rejoicings upon the return of peace. Amongst the company was one woman, Mary Taylor, 100 years old; two twin sisters, Hannah Pollitt, and Jane Mills, aged 90; 11 above 80, 36 about 70, and all the remainder above 60 years of age. One old woman named Ann Kershaw, residing at Red Tan Nook, and who attained her 105th year on the 27th of March last, was expected to be present, but on the previous day had gone down to see the new market in Oldham, and was so much exhausted that the excitement and exertion of coming out to the dinner might have been dangerous to her. A party of musicians were in attendance, and to their cheering strains the old people joined in the dance with an alacrity and agility which would have done no discredit to a juvenile party.—*English Paper.*

High Price for Slaves.—There has been a greater demand for slaves in this city during the months of May, June and July, than ever known before, and they have commanded better prices during that time. This latter is an unusual thing, as the summer months are generally the dullest in the year for that description of property. Prime field hands (women) will now bring from $1000 to $1100, and men from $1250 to $1500. Not long since a likely negro girl sold in this city at private sale for $1700. A large number of negroes are bought on speculation, and probably there is not less than $1,000,000 in town now seeking investment in such property.—*Richmond Dispatch.*

Honor to a Son of New Hampshire.—We learn that at the recent Commencement at Dartmouth College, the Honorary degree of A. M., was conferred on Mr. Joseph Ames, the Artist. Mr. A. is a native of New Hampshire, a State to which Boston is indebted, in no small measure, for Art, as well as Science, and Literary and commercial enterprise and energy.—*Boston Traveller.*

LATER FROM EUROPE.

Sandy Hook, August 4.—The steamship Atlantic, Capt. Eldridge, from Liverpool July 23, has arrived.

England.—Parliament would adjourn about the 30th.

The large failures alluded to in the last steamer's news were John Munus, cotton broker, Liverpool; Jos. Wright & Co., spinners, Stockport; Lowe & Lane, commission merchants, Manchester; Baxter & Co., and four other houses. The liabilities were all large, and the assets small.

Serious riots occurred at Aldesshot camp on the nights of the 17th and 18th between the government troops and a part of the first regiment. Two Germans were killed, and several soldiers wounded on both sides. The immediate cause of the outbreak was not known, but there had been for some time an alarming state of excitement.

Italy.—Serious disturbances had broken out at Cassena, in the Papal states; also at Naples. At the latter place several persons were wounded, and numerous arrests were made.

A Republican conspiracy had been detected at Tarentum, in the Two Sicilies, and several arrests made.

The Russian Ambassador at Rome, it is said, has arranged all difficulties with the Holy See touching the nomination of Bishops for Poland.

Spain.—The news relates mainly to the outbreaks of civil war in Spain. The statements representing its progress and prospects are very conflicting. It appears that O'Donnell had previously prepared to crush any manifestation, and had assembled in and around Madrid 18,000 troops. Against this force the National Guard and citizens held their ground for thirty hours, and at length gave in, and were disarmed. Two hundred persons were killed in the emeute. At latest dates Madrid was tranquil. Espartero was supposed to be in the city, under arrest.

At Barcelona and elsewhere there had been smaller outbreaks, but they were speedily suppressed.

The headquarters of the insurrection were at Saragossa, where Espartero's friends had gained a victory over the garrison, and where it is reported more than a legal quorum of the Cortez had assembled, proclaiming Liberty and the Constitution.

The Emperor of France had ordered a French force to assemble on the Spanish frontier as a measure of precaution. Narvaez and other adherents of the ex-Queen Christina were also hastening to the frontier.

A New Toy.—The Gothamites are greatly amazed and amused with a new top, which is made to revolve on its axis horizontally, and at the same time revolve about its point of support. The same thing, in effect, has been done immemorially by spinning a common top, and then balancing it on the end of a stick, the top may be thrown into nearly a horizontal position, in which it will continue to revolve after the stick is brought to a standstill, and, while revolving about its point of support, will gradually right itself. All there is new in the new top is the means of starting the motion. The wonder is in the maintenance of a horizontal position, with only one pole of the axis supported, in spite of gravity; and this is not a new wonder but a very old one, which science has not yet, to our knowledge, succeeded in taking the romance out of, to the popular comprehension.—*Chronicle.*

From the Boston Saturday Evening Gazette.

A Perfumed Breath.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A Beautiful Complexion may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and roseate hue. Wet a towel, pour on two or three drops, and wash the face night and morning.

Shaving Made Easy.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," rub the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

W. P. Fetridge & Co. Proprietors, 328 Pearl street, New York, and 100 Washington street, Boston. For sale in Portsmouth by William R. Preston. 6mje16

Conversation:

ITS FAULTS AND ITS GRACES; or the best manner of Speaking, Writing, and Pronouncing the English Language correctly. Compiled by Rev. Andrew P Peabody, D.D. New Edition, revised, with additions. 16mo, cloth stamped, marbled edge, pp. 150. 50 cts.

"This is an exceedingly interesting little volumne, and one which deserves to be carefully read and studied. It is not only a very interesting publication, but a very timely one. There is a tendency, even with people who know better, to use phrases which are far from correct, at first by way of fun, but gradually they become incorporated into general use. Dr. Peabody's Address is very beautiful and sensible, and treats of the principle and sentiment of conversation from a high point of view. It is a very valuable compilation, and should have a wide circulation."—*Boston Daily Adv.*

"We cannot too earnestly commend this Address to the consideration of readers of all ages. The compilation is most judiciously made, and should be widely circulated. We welcome this little volume as indicating the gravest dangers which threaten sometimes to make conversation more of a hindrance than a help, and also as one which in a lively manner will suggest to young people the absurd errors into which so many unconsciously fall."—*Salem Gaz.*

a2 For sale by JOSEPH H. FOSTER.

HUDSON'S SHAKESPEARE.

THE WORKS OF SHAKESPEARE; the text carefully restored according to the First Editions, with introductions, Notes, (Original and Selected, and a Life of the Poet, by Rev. H. N. Hudson, A. M. 11 vols., 16mo. Price, $1.00 each.

"Readers are so familiar with announcements of new editions of Shakespeare that they may overlook the peculiar claims of this. They consist, first, in the conscientious labors of the editor, in restoring the original text; secondly, in the discrimination and judgment manifest in the notes; and, thirdly, in the legibility, clearness, and beauty of the type, and the convenient size and shape of the volume. This edition is, therefore, not only intrinsically of superior value, but it is the most readable ever published. It is also an American edition, the first where thorough justice is done the great bard."—*Home Journal.*

"On reading Mr. Hudson's admirable preface, I was much struck with the high tone and spirit in which he has entered upon his task. The style in which the edition is brought out pleases me extremely; it is a remarkable, comfortable, cosy, readable form of volume,—just such a one as we take up with delight and lay down with regret,—one that can be held for hours without inconvenience, lounging about in-doors over the fire, or carried without incumbrance out into the fields and this is a strong recommendation. A book, the contents of which make it our favorite and constant companion."—*Extract of a Letter by Mrs Mary Cowden Clarke, Author of the Concordance of Shakespeare.*

Preserving Kettles.

JUST received an invoice of English Enemeled Kettles—suitable sizes for Preserving purposes, for sale low at 46 Market street, by

jy28 E. A. STEVENS.

Secured by Royal Letters Patent in England and by Patent in the United States.

THE Subscribers, having been for a long time desirous of securing to the public a Needle that will not only be a superior article, but perfect in the Eye, recommend their "*Patented Gold Inlaid Needle.*" They are justly celebrated, and preferred above all others, the eyes being inlaid with gold and burnished, which renders the cutting or chafing the thread utterly impossible.—They are manufactured from the best steel, and tempered according to the most approved plan.—We therefore offer with confidence these Needles to the public, having secured them against all frauds or imitations either in Paper, Label or Needle. We desire all parties purchasing these Needles to be cautious in the selection of them, as unprincipled persons have sought to imitate our style, and thus palm off an inferior article, notwithstanding the heavy damages we have recovered from various parties; and a reward of $500 will be paid for such information that will lead to the detection and conviction of any person or persons thus engaged. None are genuine except those labelled on the back, '*Warranted by R. Crowley.*' A liberal discount will be allowed to dealers who purchase in large quantities.

William Crowley & Son,
Oversly Mills, Alcester, England.

Having made arrangements with the Manufacturers of the above brand of Needles (which I earnestly recommend as the best Needle in the market,) I am prepared to sell them

Wholesale at $1.60 per M.
Retail at 6¼ cts. per paper of 25.
Assorted or separate numbers, sharps and betweens.

"Buy me, and I'll do you Good."

DR. LANGLEY'S

Root and Herb Janndice Bitters.

The Great Spring and Summer Medicine.

THIS Medicine, composed of the best roots, herbs and barks in the world, has constantly increased in public favor for six years, until by its wonderful success, it is acknowledged to be the best and cheapest medicine in the world. It acts with magic-like power upon the strong holds of disease—cleanses the bowels, purifies the blood gives vitality to an inactive, torpid liver, cures Jaundice in all its forms, Dyspepsia, Costiveness, Indigestion, Headache, Dizziness, Piles, Heartburn, Languor, Weakness, Pain in the Side and Bowels, all Bilious Diseases and Foul Stomach, and especially Humors of the Blood and Skin; —strengthening, healing, purifying, building up, and keeping in order the whole system. All persons ought to use them during the spring and summer.

Only 25 cents for a pint, and 37½ cents for a quart bottle. Office 99 Union St., Boston. Sold by all dealers in medicine, everywhere. mh13 6mp

Whalebone Skirts.

THE only object of a Whalebone Skirt is to give a proper, graceful and elegant form to a lady's dress. Unless this is accomplished, the article is entirely worthless. The Ladies, by referring to Frank Leslie's Gazette of Fashions for April, will notice that E. & J. HOLMES have from actual experience been successful in producing this most desirable article, and that their IMPROVED SEAMLESS SKIRT meets the unanimous approbation of the ladies. They are light, pliable, and easily adjusted, and the only Skirt which is equally adapted to the street and the crowd; are made in one piece or breadth, and in our opinion, and in the opinion of thousands of ladies who have bought them, the most reliable goods of the kind in the market. We were the first to introduce a Whalebone Skirt, and from our experience in the manufacture and retail of these goods, we have found that all kinds of cotton cord, and nearly all kinds of cord, and all starched goods, cannot be used satisfactorily, as they will not recover their place when pressed out of shape. We consider all

WHALEBONE SKIRTS

as worthless, whatever material made, unless there is something of sufficient stiffness and elasticity, and at the same time yielding and pliable, to keep the dress in proper shape below the bones. To accomplish this we have our cord made under our own direction, and expressly for our goods, and from the only material that can be used that will recover its proper place when pressed out of shape, and are not twisted in manufacturing that they will not roll or curl when wet, and warranted to wash without injury. The public are cautioned against all worthless goods, as the market since our goods have become popular and extensively known, has been flooded with goods of all kinds, and put together without form or consistiveness, or any other object but to sell, and of course are called Whalebone Skirts. Some imitators, in their efforts to profit by our reputation, have gone so far as to copy almost exactly our trade mark upon their goods.

Please Notice.—Every genuine article stamped, *E & J. HOLMES'S IMPROVED SEAMLESS WHALEBONE SKIRT*, and may be found by the trade in many of the largest Jobbing Houses in New York and Boston, and at retail in the principal Dry Goods stores.

June 6, 1856. 6m E. & J. HOLMES, Boston.

Great American and Foreign Office

For Securing Patents for Inventions.

Agency for business with US Patent Office, Washington

R. H. EDDY,

No. 76 State st. oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages in applying for Patents superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal throu h him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would abd that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey so Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington.—Patents secured in Great Britian, France, and other foreign countries, through Agents of the highest respectability. **R. H. EDDY,**
Solicitor of Patents.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in a suring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

FARM LANDS FOR SALE.

The Illinois Central Railroad Company
IS NOW PREPARED TO SELL
OVER TWO MILLION ACRES
OF
FARMING LANDS,

In Tracts of 40 acres and upwards, on long credits and at low rates of interest.

THESE lands were granted by the Government to aid in the construction of this Railroad, and include some of the richest and most fertile Prairies in the State, interspersed here and there with magnificent groves of oak and other timber. The Road extends from Chicago, on the northeast, to Cairo at the south, and from thence to Galena and Dunleith, in the north-west extreme of the State, and as all the lands lie within fifteen miles on each side of this Road, ready and cheap means are afforded by it for transporting the products of the lands to any of those points and from thence to Eastern and Southern markets. Moreover, the rapid growth of flourishing towns and villages along the line, and the great increase in population by immigration, etc. afford a substantial and growing home demand for farm produce.

The soil is a dark, rich mould, from one to five feet in depth, is gently rolling and peculiarly fitted for grazing cattle and sheep, or the cultivation of wheat, Indian corn, etc.

Economy in cultivating and great productiveness are the well known characteristics of Illinois lands. Trees are not required to be cut down, stumps grubbed, or stone picked off, as is generally the case in cultivating new land in the older States. The first crop of Indian corn, planted on the newly broken sod, usually repays the cost of plowing and fencing.

Wheat sown on the newly-turned sod is sure to yield very *large profits*. A man with a plow and two yoke of oxen will break one and a half to two acres per day. Contracts can be made for breaking, ready for corn or wheat, at from $2 to 2.50 per acre. By judicious management, the land may be plowed and fenced the first, and under a *high state of cultivation* the second year.

Corn, grain, cattle, etc. will be forwarded at reasonable rates to Chicago, for the Eastern market, and to Cairo for the Southern. The larger yield on the cheap lands of Illinois over the high priced lands in the Eastern and Middle States, is known to be much more than sufficient to pay the difference of transportation to the Eastern market.

Bituminous coal is mined at several points along the Road, and is a cheap and desirable fuel It can be delivered at several points along the Road at $1 50 to $4 per ton; Wood can be had at the same rates per cord.

Those who think of settling in Iowa or Minnesota, should bear in mind, that lands there of any value, along the water courses and for many miles inland, have been disposed of;—that for those located in the interior, there are no conveniences for transporting the produce to market, railroads not having been introduced there. That to send the produce of these lands, one or two hundred miles by wagon to market, would cost much more than the expense of cultivating them; and hence Government lands thus situated, at $1 25 per acre are not so good investments as the lands of this company at the prices fixed.

The same remark holds good in relation to the lands in Kansas and Nebraska, for although vacant lands may be found nearer the water courses the distance to market is far greater, and every hundred miles the produce of those lands are carried either in wagons or interrupted water communications, increases the expense of transportation, which must be borne by the settlers, in the reduced price of their products; and to that extent precisely are the incomes from their farms, and of course on their investments, annually and every year reduced.

The great fertility of the lands now offered for sale by this company, and their consequent yield over those of the Middle and Eastern States, is much more than sufficient to pay the difference in the cost of transportation, especially in view of the facilities furnished by this Road, and others with which it connects, the operations of which are not interrupted by the low water of summer, or the frosts of winter

PRICES AND TERMS OF PAYMENT.

The Price will vary from $8 to $25, according to the quality, location, &c. Contracts for Deeds may be made during the year 1856, stipulating the purchase money to be paid in five annual installments; the first to become due in two years from the date of contract, and the others annually thereafter. The last payment will become due at the end of the sixth year from the date of the contract.

Interest will be charged at only 3 per ct. per ann.

As a security to the performance of the contract the first two years' interest must be paid in advance, and it must be understood that at least one tenth of the land purchased shall yearly be brought under cultivation. Twenty per cent. from the credit price will be deducted for cash. The Company's construction bonds will be received as cash.

READY MADE FARMS WITH FARM BUILDINGS, *Which can be set up in a few days, can be obtained from Responsible Persons.*

They will be 12 ft. by 20 ft. divided into one living and three bed rooms, and will cost complete set up on ground chosen anywhere along the road $150 in cash, exclusive of transportation. Larger buildings may be contracted for at proportionate rates The Company will forward all the materials for such buildings over the Road promptly.

Special arrangements with dealers can be made to supply those purchasing the Company's lands with fencing materials, agricultural tools, and an outfit of provisions in any quantity, at the *lowest wholesale prices.*

It is believed that the price, long credit, and low rate of interest, charged for these lands will enable a man with a few hundred dollars in cash, and ordinary industry, to make himself independent before all the purchase money becomes due. In the mean time, the rapid settlement of the country will probably have increased their value four or five fold. When required an experienced person will accompany applicants, to give information, and aid in selecting lands.

Circulars containing numerous instances of successful farming, signed by respectable and well known farmers living in the neighborhood of the Railroad lands, throughout the State—also the cost of fencing, price of cattle, expense of harvesting, threshing, &c. by contract—or any other information—will be cheerfully given, on application, either personally or by letter, in English, French or German, addressed to

JOHN WILSON,
Land Commissioner of Ill. Central R. R. Co.,
Office up to the 1st of May, 52 Michigan Avenue, Chicago, Ill.; after that date in the New Stone Passenger Depot, So. Water st. a8 6m

(Continued from our last paper.)

CHAPTER III.

A PRISONER.

In the western part of the town, near where are now the corners of Greenwich and Liberty streets, at the time of which we write stood a small, dingy-looking cot, facing the river, before which was a high paling of cedar stakes, and behind which was a narrow garden, also inclosed by cedar pales. This cot was constructed by stout posts firmly driven into the ground and covered by old worn deck planks, which were held in their places by wooden pins. The two small windows in front had once been the storm-lights of some ship, while the two doors, one in front and the other in the rear, had evidently served their time in some cabin bulkhead. The roof, which was flat, with a slight descent rearward, was of framework, covered with old tarpaulins. The chimney had an advantage over most of the other chimneys of the town, for while they were of wood, this was of iron, having been the smoke-pipe of the old Half-Moon, which had come, through some roundabout means, into the hands of its present possessor. Within the cot was comfortable, though it was far from tasty or neat. The only partitions between the various apartments were formed by suspending old sails from the framework of the roof, and these were so handily moved that the number of apartments, or the dimensions of any particular apartment could be increased or diminished with a quickness almost miraculous. Some half dozen dirty hammocks were suspended from the cross beams of the roof, while in one corner, and partially concealed by the aforementioned magic partitions, was a regular bed.

Close by the fireplace, which was built of a clayey mud burned down to a brick-like hardness sat a woman engaged in frying some fish. She was not far from fifty years of age, but she still retained much of the voluptuous beauty of her youthful days, though evil passions had done much toward marring her looks. She was large in frame and had a tendency towards corpulence. She sat thus when the front door opened, and Casper Geldorp entered. The latter threw off his hat and sat down upon an old stool case by his wife, for such was the relation sustained by the woman of whom we have spoken.

"Well, Katrina," said the man, "I've found the people I was after."

"Perhaps you remember one Peter Van der Veer. He was an East India Merchant. He lived in Amsterdam—in a large house opposite the Hotel de Ville."

"Yes—I—I—think I do," said Katrina, turning away her head, and trying to appear as though she were thinking, but in fact endeavoring to hide an emotion which had come so suddenly upon her that she could not repress it.

"Well—he is the man I've been watching; and I have found out all I desired to know. He is stopping at the tavern. His wife is with him."

The woman did not yet dare to ask any questions, and ere long Casper spoke again:

"Were you aware that they had a son?"

Katrina fairly started at this question, but she knew that she must conquer her emotions, and with a powerful effort she did so.

"Of course they had a son," she said.

"I never knew it before. But how came you to know it, Katrina."

"Why—I knew them many years ago in Fatherland, and I remember when their son was born."

"But I never heard you mention the family before."

"And I never heard you mention them, either."

This retort seemed to disarm the man for that attack, and he turned upon another point.

"Katrina," he said, rather carefully, "do you think that you could ever carry revenge so far as to allow your enmity to fall upon the child for the sin of its parents?"

The wife turned suddenly pale, and a fearful tremor shook her frame.

"What do you mean?" she asked, trying with all her power to be calm.

"Why—I mean what I say. I hate Peter Van der Veer; and I hate his wife."

Katrina breathed more freely, and ere long she had gained her wonted calmness. Yet she watched her husband's countenance narrowly, as though she would read his thoughts from what she could see there. But Casper had noticed the strangeness of her manner, and he wondered what it could mean.

"Look ye, Katrina—you seem to have some strange interest in this affair. What is it?"

"What is it? Why—nothing that I am aware of."

"O—but it must be something. Come—out with it."

A fortunate thought struck the wife at this juncture. She remembered to have heard, long years before, a few words which she had never forgotten, and which now came to her rescue.

"It was but a simple thing," she said, with a smile. "You once loved Theodora Van der Veer."

It was now the husband's turn to start, but he quickly smiled the emotion away, and then said:

"Oho—you're jealous, eh? But never fear. If I did once love Theodora, it was before I knew you. But that love was changed to hate long ago, so have no fear on that account."

As Geldorp thus spoke some one knocked at the door, and upon opening it a stout Indian made his appearance. His dress betokened him to be one of the Raritans, and the feathers of his head-dress indicated that he was one of the chief warriors. His name was Kar-ge-wa-wa-gus; but he was better known among the Dutch as Red Shoe, from the color of the moccasins he wore. He entered the cot, and Katrina, in obedience to a hint from her husband, quitted the apartment.

"Now, Red Shoe," said Casper, "you have work to do. I have ascertained all I wish to know, and the person of whom I spoke is the one I thought. Upon him you can take the revenge you seek. We must have him out to-night. You will stick to your promise."

"Of course I will. The Raritan has sworn revenge," said Red Shoe, with a burning eye. "Your money would not pay me for the work if we had not a deeper cause. A red man fell when he was minding his own business. He fell by the white man's bullet. We asked for justice and it was refused. Our people will not rest satisfied until they can dip their hands in the white man's blood. Give me the victim, and our anger shall be appeased."

Casper Geldorp's eyes sparkled with satisfaction.

About a month previous to this time a Raritan had been murdered in cold blood near Pavonia. His brethren had asked that the murderer should be given up, but their request was denied, and they had sworn that they would have revenge.—Geldorp knew this, and he now meant to take advantage of this circumstance for his own revengeful purpose.

"Be at the western corner of the Company's first farm half an hour after sunset, with five of your people," said Geldorp.—"I will meet you there, and you shall know what can be done to-night."

After this Katrina was called in; and having drank a measure of rum, the Indian went away. The wife seemed very uneasy, and several times she tried to find out what Red Shoe had been called for; but her husband would take no hint, and she dared not ask a direct question.

In the course of half an hour six men all habited in the rough garbs of seamen, entered the cot, and shortly afterwards supper was ready. It soon became evident, from the conversation of the party, that these new comers regarded Geldorp as their leader and master. They talked much about the "old sloop," and called Geldorp "Captain;" and once or twice they hinted at some operation which was not marked by any very just or virtuous character.—It was very near sundown when the meal was finished, and having lighted their pipes they left the cot. In the yard they stopped while Geldorp selected several pieces of rope from an old box near the door-stone, and when he had concealed these about his person, he took from the same box a bundle which he placed under his arm, and then started on for the street. With quick steps they made for an old boat-house near the water, which they entered.

Here Geldorp opened the bundle he had brought, and took therefrom one of his wife's dresses. Then he called one of his followers, who answered to the name of Martin Kieffer, and directed him to put the dress on. Martin was a fair-faced man, not far from thirty years of age, and Katrina's gown fitted him very well; and when he had put on the cap, and the apron, and the neatly trimmed kerchief, he looked very much like a buxom Dutch maid or matron.

While these thing were going on by the shore of the North River, our friends upon the opposite side of the island were about sitting down to supper. After the meal was finished, Willem Van der Veer, as was his custom, strolled out in the garden, and took a turn down the street towards what is now called Whitehall. He was upon the point of turning back towards the tavern, for he wished not to go alone so far away, when he heard a deep groan, as though from some one in distress. He searched, and found a female sitting upon the green turf by the fence, apparently in the most trying agony. He bent over and asked her if he could assist her.

"Oh!" the woman groaned, with both hands pressed hard upon her bosom. "I am suffering from a sudden fit. I might have died here had you not come."

"Shall I help you to the tavern? It is only a few steps," said Willem, placing his hand kindly upon the sufferer's shoulder.

"No, no, good Sir. My boat is only down here a few steps, and my boy is in it. Our home is in Breukelen, and if you can help me down there he will row me across. You will not leave a poor woman here to die!"

"Of course not. Here—can you help yourself at all?"

With considerable effort Willem managed to get the woman to her feet, and then he helped her down towards the water. It was where Whitehall-slip now is that the boat was represented to be, and as they neared the water Willem saw a boat as his companion had said. It was secured to a rough pier of logs, and only the stern was visible. The woman appeared to grow stronger as she approached the spot, for her step was quicker, and her deep groaning ceased.

"I've had one or two of these spells before," she said, as they left the street and turned down on to the pier. "They don't last long, however, though they are bad enough while they do last. Ah—here's the boat. Now, if my boy has gone."

At this moment Willem was sure he heard a splashing in the water, as though some one were coming up by the side of the pier. He started to where he could look over the edge of the logs, and he was sure he saw three men coming up from the boat. He started back to ask what this meant, but before he could speak the seeming woman caught him by the arms, and, with a wonderful exhibition of strength, hurled him to the ground. The youth struggled with all his might to regain his feet, but ere he could do so two stout men were upon him. A bandage was bound quickly over his mouth, lashings were secured upon his wrists and ankles, and then he was lifted over the outer edge of the pier. He felt himself taken by two men, and in a moment more he was deposited in the stern-sheets of the boat. He tried hard to cry out, but his mouth was effectually stopped, and his struggling only resulted in additional pain. Ere long those upon the pier jumped on board, and then the boat was pushed off.

Willem contrived to gain a sitting posture, and his first object was to see who had been his captors. There were four men at the oars, one at the helm, and the one in female attire; for the youth knew very well that the individual who had so easily thrown him on the ground was not a woman. Those at the oars he knew not. He turned his head so as to gaze up in the face of him who sat at the helm, and he at once recognized the features of Casper Geldorp. The shades of night were fast settling down over the scene, but Willem could see that face plainly enough. On went the boat—the little town of New Amsterdam was lost in the gloom—and at the end of some fifteen minutes they stopped where a large rock made out into the water. The youth heard a sound that startled him with a new terror. It was the deep, guttural voice of an Indian; and it asked:

"Have you brought our victim?"

Willem heard Geldorp answer, "yes," and shortly afterwards he was lifted from the boat into a long, narrow canoe. He could see the forms of half a dozen savages through the gloom, and he knew that he was in their craft. He saw the red men and the white men converse a few moments together, and then the former leaped into their canoe and pushed it off. The prisoner made all the signs he could to have the bandage removed from his mouth,—he groaned and shook his head—but they answered him not. Six broad paddles were plied by stout hands, and the light bark skimmed over the water like a bird. Back towards the town he was taken—he could see the fort in the distance—he could see lights flashing along the shore below the tavern—and he wondered if those who carried them were not searching for him.—But the scene was not long in view.—Across the bay the red men urged their bark—down through the Narrows with the tide—along the shore of Staten Island—up the bay, and up the river of the Raritan. The giant trees now formed a leafy canopy overhead, shutting out the stars; and the way was dark as Erebus. But on they went—and as they went they talked in their own strange tongue—and Willem understood enough to know that they spoke of blood, of fire, and of revenge!

The continuation of this beautiful and highly interesting story can be found in the New York Ledger of August 9th, which is now ready and for sale at all the news offices. The Ledger is the great literary weekly for which Fanny Fern, Sylvanus Cobb, Jr., and all the best writers in the country write. Remember to ask for the New York Ledger, dated August 9th, and in it you will get the continuation of this story from where it leaves off here. It is for sale at all the news depots throughout the city and country.—[Adv.

Morning Chronicle.

THURSDAY, AUGUST 7, 1856.

WASHINGTON, Aug. 5. *A Message.*—The President sent a message to the Senate to-day. stating, in reply to a resolution, that no order was issued from the War Department to any officer commanding in Kansas, to disperse any unarmed meeting of the people of the territory, or to prevent them by any military power from assembling. From the correspondence transmitted, it appears that the Secretary is not satisfied that the circumstances were such as to justify Col. Sumner in employing military force to disperse the Assembly at Topeka, and has called upon him to communicate upon that point, it not yet fully appearing that the case was one which, by his instructions, he was authorized to act.

We do not yet see through all the falsehoods, shams, and swindles about this matter. Col. Sumner professed great unwillingness, at the time, to disperse the legislature; but spoke of his *orders* and his *duty*. When free-state men have claimed his protection, he has referred to that poor sot Shannon, whose orders he was instructed to obey.

Now, the executive at Washington is not *fully* satisfied, &c.—But the country, every honest man in the country, is fully *dissatisfied* with the whole affair, from Douglas's Nebraska bill to the last swindling move on the board.

DEMOCRATIC STATE CONVENTION.—It will be seen (says the N. H. Patriot) by the notice of the Chairman of the State Central Committee, that our State Convention is to be held in Concord, on Thursday, the 4th day of September next.

A more important Convention has not been held in New Hampshire for years. Candidates for Governor, for Railroad Commissioner and for Electors of President and Vice President are to be nominated, and the ball is to be set fully in motion, which will continue to roll on until glorious old New Hampshire is once more enrolled among the Democratic States of the Union.

New Hampshire belongs there, and can be at home and at rest nowhere else. We warn the enemy that she is coming, and that all attempts to interrupt her in her honorable course will be futile and unavailing.

The enemy will please to take notice, and govern himself accordingly.

CONVENTIONS—PRESIDENTIAL ELECTORS.—We see Conventions announced in the several Councillor Districts as follows:—A Mass Convention of the friends of Fremont and Dayton in the First Councillor District (Rockingham and the eastern part of Merrimack County) will be held at *Exeter*, on Tuesday the 2d of Sept., at 10 o'clock A.M., for the purpose of nominating a candidate for an Elector.

In the Second Councillor District, (the Counties of Strafford, Belknap and Carroll) a Convention will be held at Wolfboro' on Thursday and Friday, August 28th and 29th, commencing on Thursday evening at half past 7 o'clock.

In the Third Councillor District (the county of Hillsborough and the Western part of Merrimack) a Convention will be held at Manchester, on Tuesday, the 26th of August, at 11 o'clock A. M.

In the Fourth Councillor District, (the counties of Cheshire and Sullivan) the Convention will be held at Keene, on Thursday, the 4th day of September next, at 11 o'clock A. M.

In the Fifth Councillor District (the counties of Grafton and Coos) a Convention will be held at Littleton, on Wednesday, the 10th of September, at 10 A. M.

A PREDICTION.—The N. H. Patriot of Aug. 6, says:

Buchanan is to be triumphantly elected President of the United States, (this the opposition will generally concede,) and we notify them that New Hampshire's five electoral votes will be counted in Buchanan's "pile."

We read the principal "opposition" papers of the free states, pretty regularly—and if there *is* such a *general* concession of Mr. Buchanan's triumph it is somewhat strange we have not seen it. The Patriot however, does not say they *do* concede it, but they *will*. No doubt they will, if he should be so lucky as to get votes enough. Mr. Cobb of Georgia, in his place in Congress, seems to think it a very doubtful case, and urges the Fillmore men to desist, lest they throw the election into the House, and thereby elect Freemont.

FATAL ACCIDENT.—We learn from the N. H. Patriot, that Miss Eliza A. Steele, daughter of Rev Mr. Steele of Bradford, in this State, was suddenly killed, a few days since, by being thrown from a wagon. She was 15 years of age. A brother and a sister, who were younger, were in the wagon at the time. They were descending a hill, when the horse commenced kicking and running, the wagon was thrown over, and one as stated above was instantly killed.

SUDDEN DISAPPEARANCE.—Mr. William Jones of Holliston, left his house on the 9th of June, taking with him one of his children, a boy aout four years old, since which time nothing has been heard from either of them. Mr. Jones was a trader, doing a good business, and in easy circumstances, and is supposed to have been laboring under a depression of spirits, caused by domestic difficulties. Since he left, his wife has been placed in the Insane Asylum at Worcester.

For the Chronicle.

VALEDICTORY.

Messrs. Editors:—"W.," in his last sermon on "Divine Providence," makes various assertions, to support which he adduces not the slightest evidence. It would be very easy for any one to say that this thing or that thing *is* so, but quite different for them to prove it, especially if it were a falsity.

This topic has been carried too far from its starting point, which was a discussion of *special* judgments. W. upholds the doctrine of special judgments, and though he chides others, who believe to the contrary, for writing confidently, he himself writes as if he were the dispenser of power. If one cannot distinguish, as he says, those providences which are special, how dare he refer, or uphold one who referred, so pointedly to the sad accident in our harbor? He objects to pleasure-seeking on the Sabbath. Pleasure is sought in many forms. Some seek pleasure even by using a filthy, narcotic weed, called tobacco. Now a candid person will allow that it is more of a sin to defile the body, and stultify the mind, while pandering to such a vitiated taste on the Sabbath, than it can be to take a ride or a sail, and have the instincts, which are implanted by nature in the hearts of all men, gratified, and our bodily and mental faculties quickened.

In relation to his fanciful picturing of the death of the blasphemer, I reply that I have resided in Portsmouth nearly a score of years, and though such occurrences may be quite common, I must confess that I never heard or even read of one either here or elsewhere.—Should such an event take place, and twenty sensible men be bystanders, no doubt they would be somewhat awed by the event, for death, in its mildest form, generally has that effect; but there would be no reason to doubt that it might be apoplexy, the bursting of a blood vessel, disease of the heart, or some similar disease; for when a man is so engaged as to be uttering "fearful blasphemies" on the Parade, his system must be so wrought up that one of these might be expected. I know of a young girl, who resided twelve miles from Portsmouth, who, when angry, would hold her breath—one day she held it too long: her mother spoke, but the vital spark had fled. No one coupled special providence with this circumstance.

I was never witness of but one instantaneous death; a fine young man fell headlong from the roof of a new building, his head came in contact with a heavy block of granite, and he was freed from the cares of this life without an instant's warning. When his fellow workmen bore his ghastly corse into the dwelling of his wife, so suddenly made a widow and her babe fatherless, think ye there was one hard-hearted or weak-minded enough to entertain for a moment the idea that it was a special judgement? Special judgements are rendered impossible by the immutability of natural laws, and circumstances which are so considered by the credulous, when investigated to the foundation, will be found in perfect accordance with those laws.

SPECTATOR.

FREMONT AND FOOTE.

A few days ago, we published an account of an assault by Fremont on Foote, which we found in a very respectable paper of the Democratic party, and which we supposed might be true. It turns out, however, not to be true. For its briefness, we take the *real* facts of the occurrence from the New York Post, edited by Wm. Cullen Bryant, as follows:

"In the first place Fremont did not strike Foote, and of course did not draw blood.

The facts are briefly as follows: Senator Foote entered the Senate the last night of the session, with an uncommonly large brick in his hat, and availed himself of the first opportunity, as is the habit of people with hats thus furnished, to make a speech. In the course of his remarks he reflected offensively upon certain California measures which had been pending before the Senate, and upon the motives of those who advocated them. Col. Fremont immediately left the Senate chamber and sent for Senator Foote to come out. When they met, Col. Fremont told him that he had sent for him to say that he (Foote) had just used language in reference to the Californian legislation and senators which no gentleman could use, and unworthy of an American Senator. Foote immediately struck at Fremont and slightly grazed his face. Senators and officers who were near, doubtless anticipating something of the kind, promptly interfered and prevented any further controversy at that time.

On the following day Fremont sent Foote a note by Governor Price of New Jersey, demanding a retraction of his offensive language, and Foote wrote a retraction which was deemed satisfactory by the friends of the respective parties."

STATE TEMPERANCE COMMITTEE.

The members of the New Hampshire State Temperance Committee are hereby notified, that their first Meeting will be held at the *Mayor's Office*, in MANCHESTER, on Friday, Aug. fifteenth, at two o'clock.

A full attendance is desired, as matters of special importance require attention. The Chairmen of the several County Societies are members of the State Committee, and are requested to be present at the meeting.

T. T. ABBOTT,
Chairman State Tem. Committee.
Manchester, N. H., Aug. 2, 1856.

☞ F. P. Blair Jr., who was on Monday last elected to the next Congress, in St. Louis, Missouri, is a son of the well known Francis P. Blair of Maryland—and is a decided opponent of the extension of slavery. He is a gentleman of great ability.

LETTER FROM KANSAS.

The following letter appears in the Boston Transcript of Tuesday evening, and is doubtless from Rev. Mr. Nute, a Unitarian minister of Lawrence, Kansas. Mr. N. is well known in New England, and his statements will be relied upon.

LAWRENCE, Kansas, July 24, 1856.

To the Editor of the Transcript:—Dear Friend—I find affairs in this part of our territory at a very bad pass; far worse than my worst fears. Indeed, I am amazed and horrified at the depths of iniquity to which ruffianism has descended. Up to within two miles of Lawrence the reign of terror is complete.—Men are waylaid by guerilla bands every night and sometimes in broad daylight, shot at, beaten, plundered and left for dead; houses are burned, horses stolen. This is not the report of rumors, but the testimony of what my own eyes have seen—wounded men and smoking ruins. I find my own house was plundered of almost everything of any value except books, and what was not taken was damaged or destroyed—horse, saddle and bridle, blankets and clothing. Three horses were driven off laden with the spoils beside my own. Several of my neighbors lost spans of valuable horses, with carriages, harnesses, &c.

We had a narrow escape from being robbed if not killed, as we came in. We reached the Wakarensa at a point about eight miles from Lawrence about an hour after sunset, hesitated about keeping on for home or stopping at a log cabin hotel to spend the night;—decided on the last, and made an early start next morning. When within two miles of home we came up to a party of Lawrence men hunting for deadly weapons in the grass by the roadside.

It seems that a young man on his way to Lawrence the evening before, had been attacked by one of the robber bands there laying in wait, shot at several times, and finally beaten over the head with a revolver until he became senseless, then robbed and left for dead. He had managed to crawl to the next cabin, and though badly bruised, to get to Lawrence that morning and give the alarm. After discharging his revolver he threw it into the grass, that it might not fall into the hands of the robbers. In the search for it three bowie knives were found. Night before last the house of a Free State settler was burned some three miles from us, and threats were made that two more would be burned last night and one man shot.

In the midst of all this, we have no protection from the United States troops. All they do is to take away our weapons, and guard our prisons; while the civil officers bring in upon us, or encourage by patronage of public service when they have got here, these very highway robbers. There are no U. S. troops at Lawrence or in the vicinity. Teams have been plundered of provisions, and passengers by the mail coach have had their pockets searched within one week, between this and Kansas city.

We have just learned that several companies of dragoons have been despatched to stop the Free State men who are on their way toward us through Iowa. Another item is that Gov. Shannon has forbidden admission of visitors to the prisoners, Robinson, Deitzler, Jenkins and Brown, after this date.

I am confident that the full enormity of these Kansas outrages is but faintly apprehended at the East, for all that has been said, and that a yet darker chapter is to be written in this shameful and horrible history before the end comes.

THE WEEKLY CHRONICLE & PHENIX.—Owing to the many changes in the proprietorship of the N. H. Phenix, mistakes have been too frequent, both in the account and direction books. An old subscriber at East Concord, writes us the present week, the following encouraging letter—which we publish chiefly to let any other subscribers who may not get their papers regularly, see that it may not always be the fault of publishers.

"*Sir:*—Enclosed you will find one dollar, for the Chronicle and Phenix, according to your notice. I have been on the point of asking to have my paper discontinued, from the fact that it came to me in squads of three or four at a time; but now I am persuaded the fault was not in you, but through some mistake in the Post Office. I prize your paper, and wish you and it much success; and can but think you will prosper in your attempts to do good to your fellow men. Send on the Phenix, and you may hear from me, in the shape of a dollar, occasionally. Although I am poor, yet I am willing to help along a good cause.

Yours with respect, G. W. M."

A RUM FIRE.—It is now pretty clear that the fire of Doherty's Jefferson Block in Boston, was kindled by rum spilt, and a match thrown into it. Cornelius Doherty, the owner, testifies that he knows not of his own knowledge the origin of the fire, but surmised that the only way it could have caught, was that liquor had been drawn off, and some might have spilled on the floor, and that some person might, in lighting a cigar, have thrown a lighted match upon it.

Mr. Diver, who was tending in the store at the time the fire broke out, says:

About 3 o'clock on Tuesday afternoon last I was in the grocery store, at the desk, when I heard an explosion in No. 326, in the rear part; started as quick as I could to go there; got to the door between the two stores, but could go no further on account of the fire; saw a man run out of the store, and the fire immediately spread from rear to front, through the store: have seen the man since, and he said the first he knew was the explosion; no powder was ever kept in the store, and no camphene or fluid was ever kept in No. 326; I have no idea or knowledge what caused the explosion.

That is to say, the fire began in the liquor department,—and the explosion was doubtless that of a cask of liquor.

Political Arguments for the Campaign.—Shrieks for freedom on one side; howls for the Union on the other.

MR. BUCHANAN'S BENEVOLENCE.—As one instance of the kindness of Mr. Buchanan towards the female sex, the Pennsylvanian states:

When he had resolved upon withdrawing from public life, as a proof of his grateful appreciation of the many kindnesses bestowed on him by the people of Lancaster, he donated to that city the handsome sum of ($4000) four thousand dollars, as a *perpetual* fund, the interest whereof is annually expended in the purchase of fuel for indigent females. Many a desolate hearth has been made glad by this noble charity, and many more will hereafter reap its benefits.

MISS I. T. HAVEN will resume her School on Monday, Sept. 1st., 1856. aug 2w.

WORTH KNOWING.

Prof. Wood, of St. Louis, has discovered a remedy for the grey and bald, which is at once practicable and cheap. It requires no dyeing, no wig, no extraordinary trouble. There can be no doubt whatever of its efficacy. We have seen testimonials almost without number, and from men of great intelligence, high standing and moral worth.

Those who have been bald for years are now wearing their own hair, and appear ten years younger than they did six months ago. As in most cases grey hairs and bald heads are both premature and unnatural, it is a duty to remedy them by the natural and undoubted means which Prof. Wood has invented, and now kindly offers to the afflicted. Try his wonderful remedy, and give the Professor a new testimonial.—*Memphis Whig*

"If you are Coming, Why don't you Come along?"

THAT is the "mot" now-a-days. Every locomotive on every Railroad shrieks it. It is daily rapped out on every Telegraphic Line in the country. The echoing blows of our Ship Carpenters hourly exemplify it. The smith at his anvil hammers it out. The clanking Press with breathless haste, sends the cry home to every family—"If you are coming, why don't you come along?"

It is uttered in an hundred tongues in a hundred lands. It has sounded like a slogan through the political world, and the "Old Fogies" are creeping along among the baggage wagons and the wounded. Thought, that moved at a funeral pace, now rushes on a tremendous charge; and all the old remedies for Liver Complaint have given way for

HOLMAN'S SPRING BITTERS.

"*If you are coming, why don't you come along?*"—Six paces to the front, is the word to every body and everything that wants to be listened to or looked at. If you have anything to do, *do it:* if you wish any person to see anything, *show it;* if you have anything to be cured, CURE IT WITH

HOLMAN'S SPRING BITTERS.

"*If you are coming, why don't you come along?*"—If you have a Bottle of Holman's Bitters in your house, you need not suffer from

Biliousness, Weakness at the Stomach, Indigestion, Heartburn, Lowness of Spirits,

Nor any of the diseases incident to the season.

It used to take six men to make a pin; now one boy, a pull, a clip, and two strokes, and that's the way the pins are made. Once it took a Physician, lots of precious time, and quantities of nauseous druge to cure some simple disease of the Blood.—Now, a quarter expended in

HOLMAN'S SPRING BITTERS

Brings Life and Health, flowing spirits and rosy cheeks.

"*If you are coming, why don't you come along?*"—If you are sick and weak, why don't you cure yourself? Here we offer you the article that will do it—there is no mistake about it. Every body knows about HOLMAN'S BITTERS; they have been tried and have "toed the mark straight."

They are a *good* medicine; they are *better* than anything else for all Spring Complaints; they are just the *best* Bitters that can be bought—and that's the best thing we can say about them. "*If you are coming, why don't you come along,*" before they are all gone?

Please call and examine. ty4

LOCAL.

THROWING STONES.—Two boys about 12 years of age, were arraigned before Justice Odell, at the Police Court, on Wednesday, upon a charge of throwing stones on the 24th day of July last, at the Bath House of the Piscataqua Company and the persons using it at the time. They were found guilty and each sentenced to pay a fine of $2 and costs. His Honor very properly remarked on the gross impropriety of endangering property and life by such throwing of missiles, assuring them that the fine would have been much heavier if they had not been of such a tender age and consequently indiscreet, and that a repetition of such an offence would be dealt with according to the extent of the law.

Boys should be careful in their sports not to carry them to such an extent as to compel persons to resort to the law for protection.

THE WEATHER about here, of late, has not been peculiarly favorable to the farmers' usual work at this season, haymaking. A dense fog has almost submerged us for several days; and much rain fell between midnight of Tuesday and noon of Wednesday—we are informed an inch and a half. There is much grass cut down in this region, which must be more or less injured by its long exposure to rains and fogs.

☞ The schooner Emerald, which we reported on Tuesday morning, as clearing for the mackerel fishery, was the lime-schooner which slacked her cargo in our river, sometime ago, and was "dug up" and fitted out by Mr. C. Johnson. The skipper, Runnells, is our old friend the typo: and when the craft left the wharf, Tuesday morning, she was cheered on her voyage by numerous friends of the new captain—who stood at the helm as composedly as he has held "the ribbons" or filled a composing-stick.

☞ It will be seen by his advertisement that Mr. Israel Kimball announces a new term of his Academy, to commence early in September. Mr. K. is too well known in these parts, as a competent, faithful and trust-worthy instructor, to need recommendation from any body. He has long been in our midst, as a teacher, popular with scholars and parents. Temporary suspension of his labors, by sickness, has perhaps had the effect of diverting some of his pupils to other schools.

RELIGIOUS NOTICES.—Rev. A. J. Patterson of this city will preach in Eliot, Me., in the Academy Hall, on Sunday, the 10th inst.

Rev. A. St. John Chambre of Newark, N. J., will supply his pulpit.

VACATION.—Most of the clergymen, the school teachers and their scholars are enjoying vacation during the month of August.—They need it; and probably school pupils would be as far advanced at sixteen, as they are now, if they had six months vacation in the year. One of the greatest follies of this age, is crowding the school houses with children three or four years too young to look at a book, and keeping them there so continuously as to weaken both body and mind. They need observation and experience as much as book instruction, and but for the vile allurements with which all cities abound, we should be glad that vacations were twice as long and twice as frequent as they are. We should have smarter and better men and women, if the children had more exercise in the open air, more work in useful industrial callings, and less drill in the school room. Schools for children, for ten and eleven months of the year, are only to be tolerated as necessary evils—to keep neglected infants and youth out of worse places.—We adopt and fully endorse these remarks, from a cotemporary.

☞ The Daily Chronicle may be had of our Carriers, at 8 cents per week. Single copies 2 cents. $4 per year in advance.

GOV. GEARY, OF KANZAS.—The Washington correspondent of the New York Commercial Advertiser, says:

I understand that this appointment is intended to concilitate the Pennsylvania Democracy, and also to mollify the South. It appears that Geary has not been an inhabitant of Pennsylvania for six or eight years, but has divided his citizenship between California and Maryland. For the last four years he has been a citizen of Maryland, and claims naturalization by proximity of residence in Virginia.

The same letter states that the reason why Gov. Reeder did not go to Washington for the purpose of sustaining in person his claim to a seat in the House, was that he had received a certain assurance that he would be arrested on his arrival there, on a charge of treason. This charge is regarded as a trick to prevent his return to Kanzas as a candidate, on the new election which will be ordered. The motion for admitting Reeder to a seat as delegate was lost by the same majority, as that by which the motion rejecting Whitfield was carried. It is said that a new election will be ordered immediately, under the present territorial law, and an attempt will be made to re-elect Whitfield, and that Geary is relied on for aiding it.

SAD SIGHT.—This morning a man and woman supposed to be husband and wife, were travelling in a wagon, containing all their houshold goods, about the streets of the city. They were both in an intoxicated state, and the man was so far gone as to be quite incapable of directing the course of the horse.—These brutal parents had with them two young children. A citizen, from fear of injury to the children, called a Police officer, when the parents were taken to the Station House to sleep off the effects of the liquor which they had imbibed.—*Boston Trav.*

CONGRESS.

TUESDAY, August 5.

SENATE.—The Senate to-day passed the House bill providing for running the boundary line between Washington territory and British possessions.

Mr. Seward presented a petition from Charles Robinson and others, now confined in Kansas on charges of treason, praying for relief. Referred to the Judiciary Committee. The petitioners set forth that their trial is to take place on the second Monday in September, at Lecompton; and, believing they cannot there have a fair and impartial trial, such as the Constitution guarantees every citizen, pray the venue may be changed, and they tried by the Supreme Court of the United States.

Mr. Seward asked attention to their petition at as early a day as possible, because the time for the trial was near at hand, and the nature of the case such as to require the most profound consideration.

Mr. Butler, of the Judiciary Committee, made a report on the necessity of additional legislation in case of the death or disability of the President or Vice President.

The Senate considered and passed the bills for the improvement of the harbors of Michigan city, Vermillion and Chicago, and for the improvement of the navigation of the Ohio river.

The bills for the improvement of Dubuque and Waukegan were rejected. Adj.

HOUSE.—The House considered a number of private bills, and about half a dozen of them passed.

The House then went into Committee of the Whole on the Legislative, Judicial, and Executive Appropriation bills.

Mr. Grow moved to strike out the salaries of the Judges and Secretaries of Kansas, declaring he would not vote to sustain usurpation, nor the salaries of Judges who trample down liberty in that territory.

Mr. Sherman offered an amendment, providing that no part of the money for the territory shall be expended until the release of those under arrest for treason and other political offences. He stated that in the county of Leavenworth there were 65 men thus charged, and in Douglas 6 men, for treason; which every lawyer knows to be unfounded.

Mr. Dunn's amendment was adopted—yeas 70; nays not counted.

On motion of Mr. Grow, another was added that no money be paid until the pending prosecution for treason and other alleged offences against the laws of the Legislature, which assembled at Shawnee, Missouri, be dismissed.

The compensation and mileage of the members of the Legislative Assembly, officers and clerks, and the contingent expenses (20,000) were stricken out.

Evening Session.—Mr. Cragin contrasted the past with our present history to show how far the government had departed from the doctrines of Washington and Jefferson, in the great principles of human rights.

Mr. Underwood vindicated slavery as being the best condition for the blacks of this country, and justified the repeal of the Missouri restriction on the ground of its unconstitutionality. He defended the principles of the American party.

Mr. Leiter arraigned the Northern Democrats for their departure from the anti-slavery principles on which they formerly triumphed, and said he would try, convict, and sentence them, and, when November comes, assist in their execution. Adj.

CINCINNATI, August 5.—Scanty returns from Kentucky, this morning, favor the Democrats, and the impression prevails that they have been generally successful throughout the State.

Kentucky Election.—Barren county, 131 American majority. Owen county, Duvall, Democratic Judge, 1100 majority; Scott cy., 409 Democratic majority; Harrison cy., Democratic majority 60; Fayette cy., 247 majority for Know Nothing Sheriff.

Iowa Election.—Davenport, Scott cy., 350 Republican majority; Muscatine, about 150 do.; Jackson cy., 150 do.; Des Moines cy., 100 do.

Missouri Election.—Benton goes out of St. Louis about 3,300 ahead, and Polk is 2000 ahead of Ewing. At Hannibal, Ewing's majority over Benton is 268 and over Polk 115. Richmond has gone Democratic. In Scott cy., the Democratic gains are over 500.—Blair's majority over Kennet will reach 1000 in Missouri.

WASHINGTON, July 5.—Private dispatches received here say that Blair for Congress has 800 majority in St. Louis, and 600 in his district. It is also said that Benton has 1000 majority in St. Louis over Ewing, the American candidate for governor, and 6000 over Polk the anti-Benton candidate.

In Kentucky the election was merely for County officers; in Missouri for State officers and Congressmen; in Iowa and Arkansas for Congressmen and the Legislature;—in Texas for local offices only. In North Carolina to-day, the election will be held for State officers and the Legislature.

THE LATE RAILROAD SLAUGHTER.—The coroner's jury in the case of the late calamity on the Nortern Pennsylvania Railroad have rendered a verdict attributing to the criminal negligence of Conductor Hoppel, of the excursion train, and sensuring the company for defective rules. The coroner's jury of Montgomery county rendered their verdict, attributing the accident to Conductor Hoppel, s disopedience of regulations, and acquitted the late Mr. Van Stavoben, conductor of the down train. and engineer Lee, of all blame. Sixty-six lives were lost by the calamity.—The wounded probably exceed one hundred. Many bodies were burned almost to ashes.—Some were so mutilated as to be totally beyond recognition. Others were unknown for some time, although not materially disfigured. So fearful a destruction of human life has never before occurred on any railroad in the world, and the circumstances of the destruction were of so frightful a nature as to add materially to its horror.—*Boston Courier.*

Mr. Barksdale of Mississippi, in his Democratic declamation on Friday night, announced to the House that he was authorized to say, if Mr. Buchanan was elected President, he *would veto any bill that Congress might pass contemplating the restoration of the Missouri Compromise* or the principle which it recognized.

From the Boston Saturday Evening Gazette.

A PERFUMED BREATH.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A BEAUTIFUL COMPLEXION may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and roseate hue. Wet a towel, pour on two or three drops, and wash the face night and morning.

SHAVING MADE EASY.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," run the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

W. P. Fetridge & Co. Proprietors, 328 Pearl street, New York, and 100 Washington street, Boston. For sale in Portsmouth by William R. Preston. 6mje16

Conversation:

ITS FAULTS AND ITS GRACES; or the best manner of Speaking, Writing, and Pronouncing the English Language correctly. Compiled by Rev. Andrew P Peabody, D.D. New Edition, revised, with additions. 16mo, cloth stamped, marbled edge, pp.150. 50 cts.

"This is an exceedingly interesting little volumne, and one which deserves to be carefully read and studied. It is not only a very interesting publication, but a very timely one. There is a tendency, even with people who know better, to use phrases which are far from correct, at first by way of fun, but gradually they become incorporated into general use. Dr. Peabody's Address is very beautiful and sensible, and treats of the principle and sentiment of conversation from e high point of view. It is a very valuable compilation, and should have a wide circulation."—*Boston Daily Adv.*

"We cannot too earnestly commend this Address to the consideration of readers of all ages. The compilation is most judiciously made, and should be widely circulated. We welcome this little volume as indicating the gravest dangers which threaten sometimes to make conversation more of a hindrance than a help, and also as one which in a lively manner will suggest to young people the absurd errors into which so many unconsciously fall."—*Salem Gaz.*

a2 For sale by JOSEPH H. FOSTER.

HUDSON'S SHAKESPEARE.

THE WORKS OF SHAKESPEARE; the text carefully restored according to the First Editions, with introductions, Notes, Original and Selected, and a Life of the Poet, by Rev. H. N. Hudson, A. M. 11 vols., 16mo. Price, $1.00 each.

"Readers are so familiar with announcements of new editions of Shakespeare that they may overlook the peculiar claims of this. They consist, first, in the conscientious labors of the editor, in restoring the original text; secondly, in the discrimination and judgment manifest in the notes; and, thirdly, in the legibility, clearness, and beauty of the type, and the convenient size and shape of the volume. This edition is, therefore, not only intrinsically of superior value, but it is the most readable ever published. It is also an American edition, the first where thorough justice is done the great bard."—*Home Journal.*

"On reading Mr. Hudson's admirable preface, I was much struck with the high tone and spirit in which he has entered upon his task. The style in which the edition is brought out pleases me extremely; it is a remarkable, comfortable, cosy, readable form of volume,—just such a one as we take up with delight and lay down with regret,—one that can be held for hours without inconvenience, lounging about in-doors over the fire, or carried without incumbrance out into the fields and this is a strong recommendation. A book, the contents of which make it our favorite and constant companion."—*Extract of a Letter by Mrs. Mary Cowden Clarke, Author of the Concordance of Shakespeare.*

LONG WHALEBONES for 10 cents. A large lot just received at PEYSERS, corner of Daniel street. jy24

Secured by Royal Letters Patent in England and by Patent in the United States.

THE Subscribers, having been for a long time desirous of securing to the public a Needle that will not only be a superior article, but perfect in the Eye, recommend their "*Patented Gold Inlaid Needle.*" They are justly celebrated, and preferred above all others, the eyes being inlaid with gold and burnished, which renders the cutting or chafing the thread utterly impossible.—They are manufactured from the best steel, and tempered according to the most approved plan.—We therefore offer with confidence these Needles to the public, having secured them against all frauds or imitations either in Paper, Label or Needle. We desire all parties purchasing these Needles to be cautious in the selection of them, as unprincipled persons have sought to imitate our style, and thus palm off an inferior article, notwithstanding the heavy damages we have recovered from various parties; and a reward of $500 will be paid for such information that will lead to the detection and conviction of any person or persons thus engaged. None are genuine except those labelled on the back, "*Warranted by R. Crossley.*" A liberal discount will be allowed to dealers who purchase in large quantities.

WILLIAM CROWLEY & SON,
Oversly Mills, Alcester, England.

Having made arrangements with the Manufacturers of the above brand of Needles (which I carnestly recommend as the best Needle in the market,) I am prepared to sell them
Wholesale at $1.50 per M.
Retail at 6¼ cts. per paper of 25.
Assorted or separate numbers, sharps and betweens.

Fancy Stone Pitchers.

A LARGE assortment this day opened, and for sale at the Crockery Store, 5 Market sqr. by
JOHN SISE. jy26 1

BISHOP OF BATH AND WELLS.—The following extract formed a portion of the sermon preached by Lord Auckland, Bishop of Bath and Wells, before the House of Peers, on the day appointed for a general thanksgiving for the restoration of Peace. The truths enunciated are of intense import, especially taking into consideration the audience to whom they were spoken. "One of the greatest sources of misery and crime was drunkenness, to whose baneful effects Bacon, three centuries ago, Sir M. Hale, two centuries since, and the judges and chaplains of the present day alike bore testimony. By declining to amend that act the Legislature had contributed to promote discord, poverty, crime and disease, for which the increased revenue derived from licenses and liquor afforded little compensation."

The Mobile correspondent of the New York Herald says: "The slave recently carried to Boston on board the Growler belonged to F. C. Ewers, livery stable keeper here; and if that vessel or her captain ever make their appearance in these waters again, there will be such a growl raised as will annihilate both."

Well: there are many other waters besides those of Mobile bay.

COOLIES.—The State Department has information that the trade in coolies in American and British vessels continues with unabated vigor in Cuba, and an English captain is under contract for delivering this description of laborers on plantations where they are treated no better than slaves. The immigration of these Chinese does not diminish the trade in Africans, who are brought in large numbers to Cuba.

I. D. RICHARDS & SONS.

Established 1820.

IMPORTERS AND DEALERS IN

WINES, SPIRITS, CORDIALS, CONSERVES AND CIGARS,

Occupying the Large Granite Warehouse

Boston, June 7. 2aw2m

Clark's Female Pills.

The Great English Remedy.

Prepared from a prescription of Sir Jas. Clarke, M.D., Physician Extraordinary to the Queen.

THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION.

These Pills should not be taken by females during the FIRST THREE MONTHS *of Pregnancy, as they are sure to bring on Miscarriage, but at every other time and in every other case they are perfectly safe.*

DR. LANGLEY'S

Root and Herb Jaundice Bitters

The Great Spring and Summer Medicine.

THIS Medicine, composed of the best roots, herbs and barks in the world, has constantly increased in public favor for six years, until by its wonderful success, it is acknowledged to be the best and cheapest medicine in the world. It acts with magic-like power upon the strong holds of disease—cleanses the bowels, purifies the blood gives vitality to an inactive, torpid liver, cures Jaundice in all its forms, Dyspepsia, Costiveness, Indigestion, Headache, Dizziness, Piles, Heartburn, Languor, Weakness, Pain in the Side and Bowels, all Billious Diseases and Foul Stomach, and especially Humors of the Blood and Skin; —strengthening, healing, purifying, building up, and keeping in order the whole system. All persons ought to use them during the spring and summer.

Only 25 cents for a pint, and 37½ cents for a quart bottle. Office 99 Union St., Boston. Sold by all dealers in medicine, everywhere. mh18 6mp

Whalebone Skirts.

THE only object of a Whalebone Skirt is to give a proper, graceful and elegant form to a lady's dress. Unless this is accomplished, the article is entirely worthless. The Ladies, by referring to Frank Leslie's Gazette of Fashions for April, will notice that E. & J. HOLMES have from actual experience been successful in producing this most desirable article, and that their IMPROVED SEAMLESS SKIRT meets the unanimous approbation of the ladies. They are light, pliable, and easily adjusted, and the only Skirt which is equally adapted to the street and the crowd; are made in one piece or breadth, and in our opinion, and in the opinion of thousands of ladies who have bought them, the most reliable goods of the kind in the market. We were the first to introduce a Whalebone Skirt, and from our experience in the manufacture and retail of these goods, we have found that all kinds of cotton cord, and nearly all kinds of cord, and all starched goods, cannot be used satisfactorily, as they will not recover their place when pressed out of shape. We consider all

WHALEBONE SKIRTS

as worthless, of whatever material made, unless there is something of sufficient stiffness and elasticity, and at the same time yielding and pliable, to keep the dress in proper shape below the bones. To accomplish this we have our cord made under our own direction, and expressly for our goods, and from the only material that can be used that will recover its proper place when pressed out of shape, and are so twisted in manufacturing that they will not roll or curl when wet, and warranted to wash without injury. The public are cautioned against all worthless goods, as the market since our goods have become popular and extensively known, has been flooded with goods of all kinds, and put together without form or comeliness, or any other object but to sell, and of course are called Whalebone Skirts. Some imitators, in their efforts to profit by our reputation, have gone so far as to copy almost exactly our trade mark upon their goods.

Please Notice—Every genuine article stamped, *E & J. HOLMES'S IMPROVED SEAMLESS WHALEBONE SKIRT*, and may be found by the trade in many of the largest Jobbing Houses in New York and Boston, and at retail in the principal Dry Goods stores.

June 6, 1856. eo3m E. & J. HOLMES, Boston.

Great American and Foreign Office

For Securing Patents for Inventions.

Agency for business with U.S. Patent Office, Washington

R. H. EDDY,

No. 76 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages in applying for Patents superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others), will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington—Patents secured in Great Britian, France, and other foreign countries, through Agents of the highest respectability. R. H. EDDY,

Solicitor of Patents.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in advising inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,

Commissioner of Patents.

Boston, Jan 11 1856 d6eodtr

Hartford Fire Insurance Co.

HARTFORD, CONN.

INCORPORATED IN 1810.

Capital $300,000—all paid in and invested.

FARM LANDS FOR SALE.

The Illinois Central Railroad Company

IS NOW PREPARED TO SELL

OVER TWO MILLION ACRES

OF

FARMING LANDS,

In Tracts of 40 acres and upwards, on long credits and at low rates of interest.

THESE lands were granted by the Government to aid in the construction of this Railroad, and include some of the richest and most fertile Prairies in the State, interspersed here and there with magnificent groves of oak and other timber. The Road extends from Chicago, on the northeast, to Cairo at the south, and from thence to Galena and Dunleith, in the north-west extreme of the State, and as all the lands lie within fifteen miles on each side of this Road, ready and cheap means are afforded by it for transporting the products of the lands to any of those points and from thence to Eastern and Southern markets. Moreover, the rapid growth of flourishing towns and villages along the line, and the great increase in population by immigration, etc. afford a substantial and growing home demand for farm produce.

The soil is a dark, rich mould, from one to five feet in depth, is gently rolling and peculiarly fitted for grazing cattle and sheep, or the cultivation of wheat, Indian corn, etc.

Economy in cultivating and great productiveness are the well known characteristics of Illinois lands. Trees are not required to be cut down, stumps grubbed, or stone picked off, as is generally the case in cultivating new land in the older States. The first crop of Indian corn, planted on the newly broken sod, usually repays the cost of plowing and fencing.

Wheat sown on the newly-turned sod is sure to yield very *large profits*. A man with a plow and two yoke of oxen will break one and a half to two acres per day. Contracts can be made for breaking, ready for corn or wheat, at from $2 to 2 50 per acre. By judicious management, the land may be plowed and fenced the first, and under a *high state of cultivation* the second year.

Corn, grain, cattle, etc. will be forwarded at reasonable rates to Chicago, for the Eastern market, and to Cairo for the Southern. The larger yield on the cheap lands of Illinois over the high priced lands in the Eastern and Middle States, is known to be much more than sufficient to pay the difference of transportation to the Eastern market.

Bituminous coal is mined at several points along the Road, and is a cheap and desirable fuel. It can be delivered at several points along the Road at $1 50 to $4 per ton; Wood can be had at the same rates per cord.

Those who think of settling in Iowa or Minnesota, should bear in mind, that lands there of any value, along the water courses and for many miles inland, have been disposed of;—that for those located in the interior, there are no conveniences for transporting the produce to market, railroads not having been introduced there. That to send the produce of these lands, one or two hundred miles by wagon to market, would cost much more than the expense of cultivating them; and hence Government lands thus situated, at $1 25 per acre are not so good investments as the lands of this company at the prices fixed.

The same remark holds good in relation to the lands in Kansas and Nebraska, for although vacant lands may be found nearer the water courses the distance to market is far greater, and every hundred miles the produce of those lands are carried either in wagons or interrupted water communications, increases the expense of transportation, which must be borne by the settlers, in the reduced price of their products; and to that extent precisely are the incomes from their farms, and of course on their investments, annually and every year reduced.

The great fertility of the lands now offered for sale by this company, and their consequent yield over those of the Middle and Eastern States, is much more than sufficient to pay the difference in the cost of transportation, especially in view of the facilities furnished by this Road, and others with which it connects, the operations of which are not interrupted by the low water of summer, or the frosts of winter.

PRICES AND TERMS OF PAYMENT.

The Price will vary from $5 to $25, according to the quality, location, &c. Contracts for Deeds may be made during the year 1856, stipulating the purchase money to be paid in five annual installments; the first to become due in two years from the date of contract, and the others annually thereafter. The last payment will become due at the end of the sixth year from the date of the contract.

Interest will be charged at only 3 per ct. per ann.

As a security to the performance of the contract the first two years' interest must be paid in advance, and it must be understood that at least one tenth of the land purchased shall yearly be brought under cultivation. Twenty per cent. from the credit price will be deducted for cash. The Company's construction bonds will be received as cash.

READY FRAMED FARM BUILDINGS,

Which can be set up in a few days, can be obtained from Responsible Persons.

They will be 12 ft. by 20 ft. divided into one-living and three bed rooms, and will cost complete set up on ground chosen anywhere along the road $150 in cash, exclusive of transportation. Larger buildings may be contracted for at proportionate rates. The Company will forward all the materials for such buildings over the Road promptly.

Special arrangements with dealers can be made to supply those purchasing the Company's lands with fencing materials, agricultural tools, and an outfit of provisions in any quantity, at the *lowest wholesale prices.*

It is believed that the price long credit, and low rate of interest, charged for these lands will enable a man with a few hundred dollars in cash, and ordinary industry, to make himself independent before all the purchase money becomes due. In the mean time, the rapid settlement of the country will probably have increased their value four or five fold. When required an experienced person will accompany applicants, to give information, and aid in selecting lands.

Circulars containing numerous instances of successful farming, signed by respectable and well known farmers living in the neighborhood of the Railroad lands, throughout the State—also the cost of fencing, price of cattle, expense of harvesting, threshing, &c. &c. &c. for contracts, and other information—will be cheerfully given, on application, either personally or by letter, in English, French or German, addressed to

JOHN WILSON,

Land Commissioner of Ill. Central R. R. Co.,

Office up to the 1st of May, 52 Michigan Avenue, Chicago, Ill; after that date in the New Stone Passenger Depot, So. Water st. a8 6m

JOB AND CARD PRINTING promptly executed.

Morning Chronicle.

THE RAISING OF THE SAFE OF THE ATLANTIC.

The following account of the raising of the safe of the steamer Atlantic, sunk in 1852, as given by E. P. Harrington, of Westfield, N. Y., the successful rescuer of the safe, is very interesting and true:—

Mr. Harrington has had three years experience as a diver, and during the past winter has been engaged on the Mississippi, in his business. Associated with him in this undertaking were Martin Quigley and Charles O. Gardner, of Chautauque, N. Y., and William Newton, of Detroit.—They proceeded on the schooner Fletcher to the locality of the steamer Atlantic, which lies about three miles from the extreme point of Long Point. They arrived there on the 18th of June, and that day was used in preparation. On the 18th, Mr. Harrington, encased in Wells & Gowen's sub-marine armor, made his first descent. The armor is made of two layers of canvas and one of India rubber, the rubber occupying the middle. It is loose and flexible, and of course resisted no pressure. From in front of the mouth proceeds a tube composed of nine alternate layers of canvas and rubber, with a copper wire coiled inside to prevent collapse.—This is flexible too, and being as long as the depth to which the diver goes, and the upper end being in the open air, secures proper respiration. The aperture is three-eighths of an inch in diameter. A wreck-line had been previously dropped, and rested against the side of the steamer.

Dressed as above described, with leaden shoes, and with lead weights attached to his body, amounting to 248 pounds, with a rope around his waist, by which he could be raised to the surface, and a check or signal line in his hand, the adventurous diver commenced his first descent. He was governed by the wreck-line, and struck the promenade deck about forty feet aft the state-room where the Express Company's safe was, which was in the third state room aft the wheel-house on the larboard side.—He remained on deck but one minute.—After descending from fifty to seventy feet, depending upon the clearness of the air above, all is dark to the diver, and he is governed entirely by feeling. The romantic sights recorded by the newspapers are therefore without foundation. The greatest caution as to entangling lines must therefore be used, and Mr. Harrington went each time outside of the stanchions, moving, as he advanced, his wreck-line, so that with each dive he moved nearer the state-room. The second dive he was three minutes upon deck; the third four, the fourth seven.

On the 20th he made four dives, and the time on deck was respectively four minutes, 7 do, 5 do; and the next, or 8th, six, at which time he reached the state-room.—Previous to this he had all the time been groping about, and was on the hurricane deck and once near the main deck. The 21st he made seven descents; times respectively, 4, 6, 5, 3, 6 and 8 minutes, and during which he was busy in breaking in the room window, and breaking down the wood work on the side and below it, and succeeded at last in getting a line fast to the ring in the lid of the safe, but finding the aperture he had made too small to allow the passage of the safe, ascended to wait till the coming day. On the 22d, the sixteenth dive, being the first that day, he was on deck seven minutes, during which time he sawed through the casing and panel-work, and tried to break it off with his hand, but could not. The seventeenth he was on deck nine minutes, in which he fastened a line to the wood-work, and by it the men above pulled it off.

The eighteenth and last descent he was on deck eleven minutes, and during it he succeeded in fastening a line to the end ring of the safe, and helping it out of the aperture, it was raised to the deck of the schooner. The perilous work was done, and the adventurous men, upon opening the safe, or rather iron chest, 28 by 18, by 16 in size, found themselves the possessors of about $5,000 in gold, and $31,000 in bills, a small portion of which were useless from the action of the water and insolvency of banks, and six watches, two of which were valuable gold ones. The chest contained papers for which the American Express Company paid a handsome salvage.

The Atlantic lies careened, her larboard side being 175 feet, and the water on her starboard 160 feet deep. The safe was about 175 feet from the surface. Upon her deck Mr. H. found a slight sediment of three or four inches in depth. He could, as we have said above, see nothing, and encountered nothing but the wood-work, chains, glass, and the chest. The water was very chilly, and Mr. H.'s hands were so numb that he could not by mere feeling distinguish glass from wood. It was only by the former's breaking that he knew its material. He thinks his strength, when below, not more than one-tenth that he has when in the open air. He suffered but little from pressure, except two or three times, when such was the rush of blood to the head that he says he saw "bright flashes in his helmet, like electric sparks." Mr. H. has thus accomplished a feat never before, we believe, successful.

THE POET ROGERS.

Long life was his; for he died in his ninety-third year, last December. How he outlived the other poets, and what was his life, may be gathered from various biographies of him—and some items, briefly summed up, are in the following extract from the Phrenological Journal.

Two very different men appeared as poets in print for the first time in the same year—the Ayrshire Ploughman and the Lombard street Banker. In the year 1786 appeared at Kilmarnock, that volume of 'Poems, chiefly in the Scottish dialect,' which will live as long as the English language; and in the same year appeared in London, "An Ode to Superstition," since properly included in the numerous reprints of the poems of its author. Burns published his octavo volume by subscription among the weavers of Kilmarnock; whilst Rogers took his poems to Cadell in the Strand, and left a cheque to pay for the cost of publication. Very different indeed were the lives of the two men who thus commenced together their lives of poetry. Burns has been dead sixty years. Rogers has, consequently, outlived the poet he commenced the race of fame with, by that number of years.

When Rogers made his appearance as a poet, Lord Byron was unborn—and Byron has been dead thirty-one years! When Percy Bysshe Shelley was born, Rogers was in his thirtieth year—and Shelley has been dead nearly thirty-four years! When Keats was born, "The Pleasures of Memory" was looked upon as a standard poem—Keats has been dead thirty-five years! When this century commenced, the man who died but yesterday, and in the latter half, too, of the century, had already numbered as many years as Burns and Byron had numbered when they died. Mr. Rogers was born before the following English poets—Scott, Southey, Wordsworth, Coleriege, Byron, Moore, Campbell, Bloomfield, Cunningham, Hogg, James Montgomery, Shelley, Keats, Wilson, Tom Hood, Kirke White, Lamb, Joanna Baillie, Felicia Hemans, L. E. L.; and he outlived them all. The oldest English living poets are Walter Savage Landor, born 1775; Leigh Hunt, born 1784; and Barry Cornwall, born 1790.

It is a man of taste and letters, as a patron of artists and authors, and as the friend of almost every illustrious man that has graced our annals for the last half century and more, that Mr. Rogers has of late years challenged public attention. He was a link between the days of Johnson, Burke, and Reynolds, and the present time.

Byron's sensitiveness colored all he saw with his own feeling. There was none of this misery resulting from Rogers' taste. He enjoyed life—had money, fame, honor, love, and troops of friends. His recipe for long life was "temperance, the bath, and flesh-brush and, don't fret."

FRIDAY, AUGUST 8, 1856.

MAJOR BUFORD.

Several days ago there was published in some papers a story which we then thought almost incredible, to the effect that Maj. Buford, the Georgian invader of Kansas, had gone home in disgust. But as we have seen no contradiction or denial of the statement from any quarter, we now suppose it to be true.

It is stated that Maj. Buford:—who aspired to be the Gen. Washington of Kansas, by fighting for slavery there instead of liberty—sold his plantation worth $50,000, or mortgaged it, to raise the money for the expedition.

Next, he enlisted a company of men, and armed them, to go to Kansas, on condition that he should pay expenses of travel, and enter a claim of land for each one;—and that the men, on their part, should fight and vote for slavery, and work for their living on the land, buifd houses, and otherwise secure their claims.

To Kansas, via Missouri, they went. But though the recruits would eat, drink a great deal of whiskey, swear a little, steal horses, plunder houses, fight an inferior force and abuse defenceless men and women—yet Major Buford found to his cost that the lazy varlets would not work—and so he has turned his back on Kansas, and gone toward Georgia in disappointment and disgust.

SHOWING PROPER RESENTMENT. — The Boston Times of Aug. 3, says:—We learn that the Pardoning Committee of the State Executive Council, who were petitioned to commute the sentence of Messrs Coburn and Dalton, voted to remit Dalton's fine of $200. Yesterday Mr. Dalton was informed of this act of clemency on the part of the Committee, but he indignantly refused to accept it, saying that, if he was deserving of the imprisonment, he was not deserving of the remission of the fine. He therefore scorned the paltry mercy estimated by dollars.

The fine had been paid by Dalton:—but when offered to be refunded he would not take it.

EDGARTOWN, MS.— A writer from Edgartown says in a letter to the Boston Telegraph:

This town, and indeed the whole county, is celebrated for the entire absence (I had almost said) of vice of every name. There is seldom any business for the Courts, and it is very common for the Judges to come down, stay an hour or two, and return without doing any business. There are only five persons in the Almshouse, and a person who is acquainted with nearly every family in the place, stated that there was not a person in want, or who needed assistance. There is a jail in the town for the benefit of the county, but it has no occupant, and has had none for some two or three years. All this is accounted for from the fact that there is no liquor sold, and scarcely any drank, on the island.

OUTRAGE AT CAPE MAY.—On Sunday afternoon, at the Mt. Vernon Hotel, Cape May, a waiter while passing through a room where several young men were seated, one of whom was drinking wine, had a glass tumbler thrown at him. He turned and remarked that "the act was not that of a gentleman," and started to make complaint at the office. At this one of the young men, son of a highly respectable citizen of Washington, become excited, and followed the waiter down stairs, armed with a pistol and dirk. A collision soon after took place, and the waiter was stabbed in the back, but the wound is not dangerous. The waiter is said to be a very peaceable and inoffensive man. The father of the young men expressed himself as deeply pained by the occurrence, and proffered all the assistance and reparation in his power.

Those nice young men who spend Sundays afternoons in drinking wine, are exceedingly apt to be Herberts, Brookses and Butlers, when their beards are grown—except in those cases where they fall into the gutter before they have beards.

THE USES OF WHISKEY.—The Whiskey business in the West, a Cincinnati paper says, was never more prosperous than at present. The figures show an increase at Cincinnati, in the first five months of this year, of 84,045 bbls. as compared with the last season, and yet under these heavy receipts prices have gone up from 21 1-2 which was the current rate on the 1st of June, to 32 1-2c. The inference to be drawn from these facts is, that the consumption of the article has largely increased, both in this country and abroad. The high prices of sugar and molasses increased the first cost of rum so greatly that it cannot take the place of whiskey, except the latter should rule at much higher rates than those current at present. The foreign demand also continues large, and in the shape of alcohol large quantities are being sent out of the country. And then at home, in addition to furnishing those who are in the habit of drinking it in preference to brandy and other foreign liquors, because it is cheaper, it has been converted very generally, and we must say successfully into imitations of Cognac, Alex, Seignetto, and other celebrated French brandies; also Holland gin, as well as into a component part of champagne, sherry, port, Madeira, and other foreign wines, to supply the wants of the aristocratic drinker.

It seems from this statement that the men who fancy they are drinking nice imported liquor or wine, are really imbibing "home-brewed" or rather home-distilled whiskey.

NO ARMS FOR CALIFORNIA.

WASHINGTON Aug. 6. The President communicated to the Senate to-day his reply, in answer to the resolution calling for information relative to affairs in San Francisco, together with the correspondence on the subject. The letter of the Governor of California asks the President for 3000 stand of muskets, two mortars, 300 shells, and two guns of large calibre, with their ammunition and appliances, promising they shall be paid for or returned. He likewise asks the use of the military and naval forces to suppress the insurrection. The President conceiving insuperable obstacles to the action now demanded, referred the subject to the Attorney-General, whose opinion he approves.

Mr. Cushing argues that there is no evidence in the Governor's statements, or in other authentic information, that in what has occurred in San Francisco there was committed or threatened any act of resistance or obstruction to the Constitutional laws or official authority of the United States—and the President is only to be moved to action by the Legislature of the state, in which the insurrection exists—or of the executive of such state when such Legislature cannot be convened, and when imminent or extreme public disaster can be averted only by such interposition of the Federal government. He says the whole Constitutional power of California has not been exerted, and it does not appear that the Governor took any steps to convene the Legislature, although that remedy might have been adopted, and its effectual application to the evils long before any such remedy could be demanded from the President.

So the Vigilance Committee still live and rule in California,—and Herbert and Weller may do as well as they can.

FROM AND ABOUT KANSAS.—We have a letter from Lawrence of the 22d ult.—With the exception of an occasional robbery by ruffians near the border, the territory was enjoying comparative quiet. The grain crops came in well, but corn was suffering from drouth. Some twenty-five of the Lawrence boys, hearing that some of the Sharpe's rifles stolen by the Southern banditti were stored in a cabin of a settler named Hayes, made a descent upon the premises. They found, however, that the robbers had taken away the rifles and left some fifteen of their own heavy arms in their place, which they took as the only remuneration they were likely to get.

Two young men who had been disarmed by the U. S. troops, also succeeded in getting their rifles from Col. Sumner, though he was rather reluctant and said he was afraid the war was not yet over. Indian agent Gay, so brutally murdered by border ruffians, although he declared himself in favor of making Kansas a free State, was a violent partisan of the administration, and, as the special correspondent of the Detroit Free Press, had frequently written that there was no excitement or trouble in Kansas except what was got up by the Freesoilers for political effect. His own death at the hands of those to whose cause he gave his partizan support, was a sad but forcible refutation of such misrepresentations.—[Springfield Republican, 4th.

ORIGIN OF FIRES.—The investigations of the Fire Marshal into the fires which occur in the city of New York, disclose the following curious facts. In one case fire was caused by the upsetting of a bottle of Harlem oil on a red paste composition used for destroying vermin. In another case, a man put a pipe in the pocket of his coat, withotu putting it out, and hung the coat in a room. The coat took fire, and set the room in a blaze. In another, a young lady placed a lighted lamp on a washstand which stood behind the door.—Her dresses hung on the door, and as it swung back they caught fire, and were destroyed with other property.

BATH HOUSES AT COTTON MILLS.—Gen. H. K. Oliver has given a practical manifestation of his appreciation of the utility of cleanliness by fitting up fourteen rooms for bathing purposes in rear of mill No. 1, Atlantic corporation, at Lawrence. The rooms prepared are designed for the exclusive use of the female operatives of the Atlantic corporation, and the only acknowledgment of gratitude which the General desires from the operatives for this sanitary provision is that they avail themselves of its advantages. This will be a valuable acquisition to the Atlantic corporation, and furnishes an example worthy to be imitated.

TREMONT TEMPLE.—This large and admirably adapted house for public worship has been secured, it is understood, by the Baptist Society now worshipping there, as a free temple for religious services forever. The sum requisite for this purpose has been obtained, and Boston will hereafter have another place where the people, without money and without price, can receive that moral and religious instruction which forms an indispensable element in all truly balanced and properly grounded character.—*Boston Transcript.*

☞ We do not see the usual report of the Cambridge Cattle Market, in the Boston papers. The great rain probably prevented any sales worth reporting.

☞ In Connecticut, two conventions, the American and People's, have agreed upon one electoral ticket, unanimously. There were 2000 delegates to both.

ASHTMA.—This most disheartening complaint has been completely cured in many instances, by the use of Wistar's Balsam of Wild Cherry. Surely anything that will afford relief from this painful disease, will be hailed as a real blessing.

Deacon Samuel Sheldon, of Suffield, Con., 99 years old, was thrown from his wagon last week, and injured so that he died.

SENATOR SUMNER.—At the commencement at Yale College on Thursday, the degree of LL. D. was conferred upon the Hon. Charles Sumner. The New Haven correspondent of the New York Evening Post makes the following reference to this compliment:

The corporation of Yale College have given a very appropriate testimonial, not only of their respect for the scholarship of Senator Sumner of Massachusetts, but of their approval of the position he has taken on the great question before the country. They have conferred upon him the honorary degree of Doctor of Laws. Old Yale is known to be very chary of her honors. The honor which she has conferred in this case, however, will be repaid to her tenfold in the credit which she will gain in the intelligent public sentiment of the country. She has thus defined her position, in a manner not to be mistaken, on the subject of slavery, and has administered a timely rebuke to those who are plotting to extend the institution over the territories.

The announcement, by President Woolsey, of the honor conferred upon Senator Sumner elicited, a hearty round of applause from the audience. The degree of Doctor of Laws was also conferred upon Hon. William Hungerford, of Hartford, Conn.

DARTMOUTH COLLEGE.—President Lord of Dartmouth College delivered his Beacalaurlate Address to the students of the Hanover, (N. H.) College on Sunday. The Doctor stood steadfastly by his old and uniform opinions, which are in no wise in accordance with some of the fanatical doctrines of the day. A correspondent of the Traveller says:—"His text was taken from the 51st Psalm, 11th verse—'Cast me not away from thy presence, and take not thy Holy Spirit from me.' The phrases are equivalent, but the latter more specific. It is the prayer of Israel's king in a time of deep despondency and heartfelt need of divine guidance. It is equally adapted to young men in a new outsetting upon the stage of life, and never more needful than now, in the perilous times on which we have fallen. The Rev. Preacher closed by an earnest appeal to the class to seek the guidance of the Holy Spirit, in the perilous times we are fallen upon; when, in the conflicts these opposing idolatries generate—firey rhetoric and vindictive blows (Sumner and Brooks?) rapidly alternating—are giving promise of quicker instruments of God's wrath to bring on the predicted consummation, and it shall be rung through the vault of Heaven, "Behold, I make all things new."

A letter from South Carolina to the journal of Commerce, says Brooks and Keitt had no opponents in their re-election to Congress, "as it would be considered dishonorable for any gentleman to oppose them; and *even, perhaps, dangerous.*" They do not have the ballot in South Carolina, and woe to the unfortunate individual who presumes to vote contrary to the will of the wealthy planters. Bowie knives, pistols and gutta percha canes await him.

The following remarkable coincidence took place in St. Francis county, Arkansas:—"A one-eyed man stole a one-eyed mule, was arrested by a one-eyed officer." Gouging is fashionable in that State.

WHAT is the punishment for being decently intoxicated?—*Boston Post.*

A very bad headache in the morning.—*Providence Journal.*

CONSUMPTION IN MASSACHUSETTS.

The abstract of deaths, prepared by the Secretary of State, for 1852, shows an average of twelve deaths a day by this disease alone. Can nothing be done to stay this fearful mortality? If the allegations of those who are at least entitled to veracity, may be believed, there is a preventive and a remedy. *Wistar's Balsam of Wild Cherry* has cured thousands who have tried all other remedies in vain. This can be substantiated by a mass of reliable evidence.

None genuine unless signed I. BUTTS on the wrapper.

HEALTH AND STRENGTH.

☞ Dr. S. O. RICHARDSON'S SHERRY WINE BITTERS is the best Medicine ever used, for Summer Complaints. It has been more liberally patronized than any other ever established in this country. It is the same Richardson's Bitters which has restored so many invalids to health throughout New England during the past thirty years.

N. B.—Beware of imitations called Sherry Wine Bitters. The genuine have a fac simile of my signature upon the outer envelope. For sale by Druggists everywhere, and at my office, No. 51 Hanover St., Boston. au8*6m

WORTH KNOWING.

Prof. Wood, of St. Louis, has discovered a remedy for the grey and bald, which is at once practicable and cheap. It requires no dyeing, no wig, no extraordinary trouble. There can be no doubt whatever of its efficacy. We have seen testimonials almost without number, and from men of great intelligence, high standing and moral worth.

Those who have been bald for years are now wearing their own hair, and appear ten years younger than they did six months ago. As in most cases grey hairs and bald heads are both premature and unnatural, it is a duty to remedy them by the natural and undoubted means which Prof Wood has invented, and now kindly offers to the afflicted. Try his wonderful remedy, and give the Professor a new testimonial.—*Memphis Whig*

"If you are Coming, Why don't you Come along?"

THAT is the "mot" now-a-days. Every locomotive on every Railroad shrieks it. It is daily rapped out on every Telegraphic Line in the country. The echoing blows of our Ship Carpenters hourly exemplify it. The smith at his anvil hammers it out. The clanking Press with breathless haste, sends the cry home to every family—"If you are coming, why don't you come along?"

It is uttered in an hundred tongues in a hundred lands. It has sounded like a slogan through the political world, and the "Old Fogies" are creeping along among the baggage wagons and the wounded. Thought, that moved at a funeral pace, now rushes on a tremendous charge; and all the old remedies for Liver Complaint have given way for

HOLMAN'S SPRING BITTERS.

"*If you are coming, why don't you come along.*"—Six paces to the front, is the word to everybody and everything that wants to be listened to or looked at. If you have anything to do, *do it:* if you wish any person to see anything, *show it;* if you have anything to be cured, CURE IT WITH

HOLMAN'S SPRING BITTERS.

"*If you are coming, why don't you come along?*"—If you have a Bottle of Holman's Bitters in your house, you need not suffer from

Billiousness, Weakness at the Stomach, Indigestion, Heartburn, Lowness of Spirits,

Nor any of the diseases incident to the season.

It used to take six men to make a pin; now one boy, a pull, a clip, and two strokes, and that's the way the pins are made. Once it took a Physician, lots of precious time, and quantities of nauseous drugs to cure some simple disease of the Blood.—Now, a quarter expended in

HOLMAN'S SPRING BITTERS

Brings Life and Health, flowing spirits and rosy cheeks.

"*If you are coming, why don't you come along?*"—If you are sick and weak, why don't you cure yourself? Here we offer you the article that will do it—there is no mistake about it. Every body knows about HOLMAN'S BITTERS; they have been tried and have stood the mark straight."

They are a *good* medicine; they are *better* than anything else for all Spring Complaints; they are just the *best* Bitters that can be bought—and that's the best thing we can say about them. "*If you are coming, why don't you come along,*" before they are all gone?

LOCAL.

☞ We are informed by a gentleman who long been prominent in all the temperce movements in our city—that he was reed a quantity of liquor, on Thursday afnoon, at the store last week appointed Board of Aldermen, for City Agency;—d was told that Mr. Thompson had not acpted the appointment.

☞ The Rockingham Association of Unisalists will hold its next annual meeting Kensington, N. H., on the fourth Wednesy and Thursday (27th and 28th) of Aust

☞ The Daily Chronicle may be had of r Carriers, at 8 cents per week. Single pies 2 cents. $4 per year in advance.

☞ The Dover Enquirer states that on hursday evening last, a young man by the me of Franklin Smith, a brakeman on the checho Railroad, was killed when the train s near Alton. The train was the last one , and consisted of a passenger car with bagge cars attached, and the deceased was staned at the brake on the top of one of the ggage cars. It is supposed that he either l asleep or made a misstep and fell off, when e signal was given to apply the brakes. The in passed over his head, killing him instant- His age was 18. He resided in Alton d formerly in Dover.

PRICE OF CORN.—It is often an object inquiry among Eastern dealers in corn, d especially of late, what it is that keeps e price of corn so high when there are ch large quantities sold daily, thereby inring that there must be immense quantis in store in the city. Thus for the past o or three days the sales have averaged 0,000 bushels daily, and they argue ence that there must be an inexhaustible antity of corn in the city, and indulge in ndry hints rather derogatory to the charter of the corn merchants of Chicago.—t an altogether contrary state of things ists. There is but very little corn in e city and very small daily receipts. The eat sales may be illustrated in this mander. Yesterday, 195,000 bushels of corn ere sold and the sales were bonafide; but e sum total of these sales was made up 13 sales of the same lot, (15,000 bushs) which has been upon the market for irty days and been shifted from one to nother during this time and met with its nal sale yesterday, to fill contracts due e first of August. The high prices here e not the result of forced market but ther of a scant stock on hand, very light ceipts and the increased demand abroad. —[Chicago Journal, 31st ult.

WASHINGTON, Wednesday evening Aug. —The Republicans in the House to-day rried all the amendments which they deemd important on the civil, judicial, and legslative appropriation bill.

If Mr Seward's bill to change the venue r the trial of the Kansas prisoners, passes oth Houses immediately, it will greatly lessn the necessity of the republicans insisting n their amendmeuts to the appropriation bills.

It is a significant fact that to-day nearly evry democrat voted against the appropriation ill, thus voting to stop supplies and create a evolution, exactly what they charge the reublicans with doing.

A duel took place to-day, between Messrs. Pryor and Ridgway, two Richmond editors, ust across the Maryland line. The weapons were pistols, at the distance of ten paces.—They exchanged shots, but nobody was hurt.

Further news from Iowa, received here conirms the success of the republicans by propably six thousand majority.

TIMELY ANECDOTE.—Mr. Brooks's reusal to go to Canada to fight, from apprenension of personal danger, reminds us of n anecdote of a man accused of a capital rime, who had exhausted, in vain, every plea for postponing his trial. Finally his counsel produced in court a somewhat equivocal certificate from a physician, who declared that in his opionion the prisoner, f brought out of his cell and put upon his rial at that time, would be in "great danger of his life." To which the Judge replied, "I verily believe so;" and ordered he trial to proceed, which resulted in conviction.—[Prov. Jour.

Judge Crawford, who fined S. P. Brooks $300 for an assault which in its personal consequences is not unlikely to prove more deplorable than the instant death of the victim, has just sentenced a *poor* man to *one year's imprisonment* for an assault.

The Sumter (S. C.) Watchman says:—"Let Preston S. Brooks be our next Governor, without a dissenting voice—not as a reward, but as a testimonial of our appreciation of patriotism, firmness, dignity, and statesmanship!"

SMILES AND FROWNS.—Which will you do—smile, and make your house happy, or be crabbed and make all those young ones gloomy, and the old ones miserable? The amount of happines you can produce is incalculable, if you show a smiling face, a kind heart, and speake pleasant words. Wear a pleasant countenance, let joy beam in your eyes, and love glow on your forehead.—There is no joy like that which springs from a kind act or a pleasant deed; and you will feel it at night when you rest, at morning when you rise, and through the day when about your business.—*Home Journal.*

PORTLAND, 7th.—*Buchanan Meeting.*—A Democratic mass meeting assembled here today, including people from all parts of the State, to ratify the nomination of Buchanan and Breckinridge. Hon. Nathan Clifford presided. Many distinguished speakers, at home and from abroad, are present.

JUDGE MCLEAN'S POSITION.—We are requested to say that the statement that Judge McLean intends to support Mr. Fillmore, which has been extensively copied by the newspapers, is incorrect.—*Cincinnati Gazette.*

CONGRESS.

WEDNESDAY, August 6.

SENATE.—Mr. Seward introduced a bill, which was referred to the Judiciary Committee, providing for a change of venue in certain criminal cases now pending in Courts of the United States for the territory of Kansas.—The bill was founded on the petition of Gov. Robinson and others, presented yesterday.

Mr. Hunter moved to take up the Army Appropriation bill.

Mr. Seward wanted to finish the Internal Improvement bills to-day.

Mr. Hunter insisted that the Appropriation bills deserved precedence.

Mr. Douglas was for sitting out the Army bill.

Mr. Clayton thought the Appropriation bills should be first acted on.

Mr. Hunter's motion was lost by three majority.

The Senate then considered and passed the bills making appropriations for the following purposes:—For the improvement of the harbors of Apalachicola, Charleston, S. C., Cape Cod, Providence, Georgetown, D. C.; for the improvement of Hurlgate; the harbor of Bayou La Fourche; the inland passage between St. Johns and St. Mary's rivers, Florida; the harbor of Mobile; for a steam dredge on Lake Michigan; the improvement of Cape Clear and the Illinois and Red rivers; for a survey of Achafalaya Bay and approaches;—for a survey of the falls of Red River.

The bill for a wagon road to the Pacific, and five private bills were then passed.

HOUSE.—Mr. Keitt of South Carolina took his seat.

Several railroad land bills were referred to the Committee on the Whole, and one granting a million and a half acres to Mississippi, for railroad purposes was passed—93 to 59.

The House then went into Committee on the Legislative, Judicial, and Executive Appropriation bill.

Mr. Stanton of Ohio moved to amend by adding "or any prosecution which has heretofore been instituted for political offences."—He wished to express his disapprobation of an army being employed in the nefarious work of crushing out the free state settlers, and to preclude from paying out even one dollar to the filibustering and marauding parties. Mr. Keitt opposed.

Mr. Grow's amendment, together with Mr. Stanton's were adopted by 69 against 57.

The Committee rose, and the House proceeded to act on the amendment reported to the bill.

The clause appropriating $800,000 to pay expenses of the Courts of the United States was passed.

Mr. Dunn's proviso, that "no part of the money appropriated shall be drawn from the Treasury until the passage and Presidential approval of an act for the pacification of the troubles in Kansas, which shall among others, contain provisions for restoring the slavery restrictions to Kansas and Nebraska," was rejected by 45 against 110.

The question was then on Mr. Grow's amendment to the appropriation for the Judiciary of Kansas, that no money shall be drawn from the treasury till the criminal prosecutions pending in the territory against the persons charged with treason or alleged violation of the laws, passed by a body of men at Shawnee Mission, claiming to be the Legislature, shall be dismissed by the Court, and every person who has been or may be restrained of his liberty by such prosecution be released from confinement. Agreed to by 84 against 69.

The clause appropriating $20,000 for the expenses of the Legislative Assembly of Kansas was stricken out by 90 against 58.

Mr. Grow's and Mr. Stanton's amendment, that no part of the money be expended for prosecuting or detaining any person charged with treason, was agreed to—82 against 62.

The bill was then passed by a vote of 84 against 55, the Democrats, together with the South Americans, and Mr. Dunn of Indiana, and Mr. Bennett of New York, voting in the negative.

In the evening Buncomb speeches.

ELECTION RETURNS.

CHICAGO Aug. 6.—The returns of the election in Iowa, thus far received, show that in ten counties the Republicans have a majority of 1950 votes.

Timothy Davis, the Republican candidate for Congress in the 2d district, was largely ahead.

A private despatch says that Dubuque City gives a Democratic majority of 350.

CINCINNATI, Aug. 6.—The following American majorities are reported in Kentucky:—Bullitt county, 200; Hunt 250; Harden 400; Boon 200; Franklin 200; Grant 30.

Democratic majorities—Nelson county, 230; Campbell, Kenton, Pendleton, Harrison, and Bracken average 450 each.

In the 9th District, Moore, dem., for Circuit Judge, has 525 majority. The democrats gain generally.

ST. LOUIS, August 6.—Pike county gives Polk, and the whole Democratic State ticket, about 75 majority.

In Marion county, the entire American ticket is elected by 300 to 450 majority.

In Genevieve county, Polk's majority over Ewing, 150. Benton got only 19 votes in the county.

In Monroe county, 350 majority is reported for Ewing.

Rolls county, 200 majority for Ewing; St Charles county, 200 majority for Benton; 1 Whig and 1 Democratic Representative elected in this county.

In Cole county, Polk beats Ewing 300, and Benton beats Polk about 75.

Howard county reports 200 majority for Polk, and in Clinton county reported 150 majority.

FIRE AT SOUTH DENNIS.—The dwelling house of Oliver Taylor, in South Dennis, Ms. was totally consumed by fire on Monday morning last. Most of the furniture was consumed, together with all of the wearing apparel of the inmates, besides upwards of $300 in money. It is supposed that the fire was occasioned by the blowing out of a candle, some of the sparks probably catching in the newspapers that were lying upon the table.—Mr. Taylor and family had arisen very early and started for the fields after blackberries; when they returned, their house and its contents were gone.

Honey in the Comb.

75 LBS. of Pure Honey in Hives, from 9 to 15 lbs., and for sale by the pound at No. 44 Market street by
au4 LA FAYETTE LAIGHTON.

☞ In reference to the confirmation by the Senate, of Col. Geary as Governor of Kansas, the Washington correspondent of the New York Tribune says:

It is reported that Gen. Wilson expressed great surprise at the course the administration was pursuing in removing Gov. Shannon; and asked to know what great sin he had committed. He said i was only last February that he presented Shannon to the Senate in his true light; and the administration Senators then pronounced him perfect—he was their idol.—He (Wilson) wanted to know what had come over the spirit of the President' dreams, to produce this wonderful change, and to recommend his removal.

The Senate was convulsed with laughter, amid which Mr. Jones of Iowa remarked that the exposition of the Senator from Massachusetts, relative to the official conduct of Shannon in Kansas, was made in secret session, and of course the President could have no knowledge (!) of the facts he presented, but has since ascertained from other sources that the Senator was correct.

From the Boston Saturday Evening Gazette.

A PERFUMED BREATH.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A BEAUTIFUL COMPLEXION may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and delicate hue. Wet a towel, pour on two or three drops, and wash the face night and morning.

SHAVING MADE EASY.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," rub the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

W. P. Fetridge & Co. Proprietors, 823 Pearl street, New York, and 100 Washington street, Boston. For sale in Portsmouth by William R. Preston. 6mje16

Conversation:

ITS FAULTS AND ITS GRACES; or the best manner of Speaking, Writing, and Pronouncing the English Language correctly. Compiled by Rev. Andrew P. Peabody, D.D. New Edition, revised, with additions. 16mo, cloth stamped, marbled edge, pp. 150. 50 cts.

"This is an exceedingly interesting little volumne, and one which deserves to be carefully read and studied. It is not only a very interesting publication, but a very timely one. There is a tendency, even with people who know better, to use phrases which are far from correct, at first by way of fun, but gradually they become incorporated into general use. Dr. Peabody's Address is very beautiful and sensible, and treats of the principle and sentiment of conversation from a high point of view. It is a very valuable compilation, and should have a wide circulation."—*Boston Daily Adv.*

"We cannot too earnestly commend this Address to the consideration of readers of all ages. The compilation is most judiciously made, and should be widely circulated. We welcome this little volume as indicating the gravest dangers which threaten sometimes to make conversation more of a hindrance than a help, and also as one which in a lively manner will suggest to young people the absurd errors into which so many unconsciously fall."—*Salem Gaz.*

a2 For sale by JOSEPH H. FOSTER.

HUDSON'S SHAKESPEARE.

THE WORKS OF SHAKESPEARE; the text carefully restored according to the First Editions, with introductions, Notes, Original and Selected, and a Life of the Poet, by Rev. H. N. Hudson, A. M. 11 vols., 16mo. Price, $1.00 each.

"Readers are so familiar with announcements of new editions of Shakespeare that they may overlook the peculiar claims of this. They consist, first, in the conscientious labors of the editor, in restoring the original text; secondly, in the discrimination and judgment manifest in the notes; and, thirdly, in the legibility, clearness, and beauty of the type, and the convenient size and shape of the volume. This edition is, therefore, not only intrinsically of superior value, but it is the most readable ever published. It is also an American edition, the first where thorough justice is done the great bard."—*Home Journal.*

"On reading Mr. Hudson's admirable preface, I was much struck with the high tone and spirit in which he has entered upon his task. The style in which the edition is brought out pleases me extremely; it is a remarkable, comfortable, cosy, readable form of volume,—just such a one as we take up with delight and lay down with regret,—one that can be held for hours without inconvenience, lounging about in-doors over the fire, or carried without incumbrance out into the fields and this is a strong recommendation. A book, the contents of which make it our favorite and constant companion."—*Extract of a Letter by Mrs. Mary Cowden Clarke, Author of the Concordance of Shakespeare.*

Secured by Royal Letters Patent in England and by Patent in the United States.

THE Subscribers, having been for a long time desirous of securing to the public a Needle that will not only be a superior article, but perfect in the Eye, recommend their "*Patented Gold Inlaid Needle.*" They are justly celebrated, and preferred above all others, the eyes being inlaid with gold and burnished, which renders the cutting or chafing the thread utterly impossible.—They are manufactured from the best steel, and tempered according to the most approved plan.—We therefore offer with confidence these Needles to the public, having secured them against all frauds or imitations either in Paper, Label or Needle. We desire all parties purchasing these Needles to be cautious in the selection of them, as unprincipled persons have sought to imitate our style, and thus palm off an inferior article, notwithstanding the heavy damages we have recovered from various parties; and a reward of $500 will be paid for such information that will lead to the detection and conviction of any person or persons thus engaged. None are genuine except those labelled on the back, '*Warranted by R. Crowley*' A liberal discount will be allowed to dealers who purchase in large quantities.

WILLIAM CROWLEY & SON,
Oversly Mills, Alcester, England.

Having made arrangements with the Manufacturers of the above brand of Needles (which I earnestly recommend as the best Needle in the market,) I am prepared to sell them
Wholesale at $1.60 per M.
Retail at 6¼ cts. per paper of 25.
Assorted or separate numbers, sharps and betweens.

JOHN SISE. jy26 J

LIVING.—When shall we get rid of the insularity of being afraid to make the most of small resources, and the best of scanty means of enjoyment? In Paris [as in innumerable other places and countries] a man who has six square feet of yard or six square feet of housetop, adorns it in his own poor way, and sits there in fine weather because he likes to do it, because he chooses to do it, because he has nothing better of his own, and has never been laughed out of what he has got. Equally he will sit at his own door, or in his balcony, or out on the pavement, because it is cheerful and pleasant, and he likes to see the life of the city.

For the last seventy years his family have not been tormenting their lives with continual inquires and speculations whether other families, above and below, to the right and to the left, over the way and round the corner, would consider these recreations genteel, or would do the like, or would not do the like. That abominable old tyrant, Madame Grundy, has never been of his acquaintance. The result is, that, with a very small income, and in a very dear city, he has more innocent pleasure than fifty Englishmen of the same condition; and is distinctly, in spite of our persuasion to the contrary, (mother insularity!) a more domestic man than the Englishman, in regard to his simple pleasures being, to a much greater extent, divided with his wife and children. It is a natural consequence of their being easy and cheap, and profoundly independent of Madame Grundy.—[Household Words.

I. D. RICHARDS & SONS.

Established 1820.

IMPORTERS AND DEALERS IN

WINES, SPIRITS, CORDIALS, CONSERVES AND CIGARS,

"Try me, and I'll do you Good."

DR. LANGLEY'S

Root and Herb Janndice Bitters.

The Great Spring and Summer Medicine.

THIS Medicine, composed of the best roots, herbs and barks in the world, has constantly increased in public favor for six years, until by its wonderful success, it is acknowledged to be the best and cheapest medicine in the world. It acts with magic-like power upon the strong holds of disease—cleanses the bowels, purifies the blood gives vitality to an inactive, torpid liver, cures Jaundice in all its forms, Dyspepsia, Costiveness, Indigestion, Headache, Dizziness, Piles, Heartburn, Languor, Weakness, Pain in the Side and Bowels, all Billious Diseases and Foul Stomach, and especially Humors of the Blood and Skin; —strengthening, healing, purifying, building up, and keeping in order the whole system. All persons ought to use them during the spring and summer.

Only 25 cents for a pint, and 37½ cents for a quart bottle. Office 99 Union St., Boston. Sold by all dealers in medicine, everywhere. mh13 6m

Whalebone Skirts.

THE only object of a Whalebone Skirt is to give a proper, graceful and elegant form to a lady's dress. Unless this is accomplished, the article is entirely worthless. The Ladie, by referring to Frank Leslie's Gazette of Fashions for April, will notice that E. & J. HOLMES have from actual experience been successful in producing this most desirable article, and that their IMPROVED SEAMLESS SKIRT receives the unanimous approbation of the ladies. They are light, pliable, and easily adjusted, and the only Skirt which is equally adapted to the street and the crowd; are made in one piece or breadth, and in our opinion, and in the opinion of thousands of ladies who have bought them, the most reliable goods of the kind in the market. We were the first to introduce a Whalebone Skirt, and from our experience in the manufacture and retail of these goods, we have found that all kinds of cotton cord, and nearly all kinds of cord, and all starched goods, cannot be used satisfactorily, as they will not recover their place when pressed out of shape. We consider

WHALEBONE SKIRTS

as worthless, of whatever material made, unless there is something of sufficient stiffness and elasticity, and at the same time yielding and pliable, to keep the dress in proper shape below the bones. To accomplish this we have our cord made under our own direction, and expressly for our goods, and from the only material that can be used that will recover its proper place when pressed out of shape, and are so twisted in manufacturing that they will not roll or curl when wet, and warranted to wash without injury. The public are cautioned against all worthless goods, as the market since our goods have become popular and extensively known, has been flooded with goods of all kinds, and put together without form or comeliness, or any other object but to sell, and of course are called Whalebone Skirts. Some imitators, in their efforts to profit by our reputation, have gone so far as to copy almost exactly our trade mark upon their goods.

Please Notice.—Every genuine article stamped, *E & J. HOLMES'S IMPROVED SEAMLESS WHALEBONE SKIRT*, and may be found by the trade in many of the largest Jobbing Houses in New York and Boston, and at retail in the principal Dry Goods stores.

June 6, 1856. eo2m E. & J. HOLMES, Boston.

Great American and Foreign Office

For Securing Patents for Inventions.

Agency for business with US Patent Office, Washington

R. H. EDDY,

No. 76 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal throu h him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would abd that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey so Washington to procure a patent, and the usual great delay there, are hore saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington—Patents secured in Great Britian, France, and other foreign countries, through Agents of the highest respectability. R. H. EDDY.

Solicitor of Patents.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and succcess. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

FARM LANDS FOR SALE.

The Illinois Central Railroad Company

IS NOW PREPARED TO SELL

OVER TWO MILLION ACRES

OF

FARMING LANDS,

In Tracts of 40 acres and upwards, on long credits and at low rates of interest.

THESE lands were granted by the Government to aid in the construction of this Railroad, and include some of the richest and most fertile Prairies in the State, interspersed here and there with magnificent groves of oak and other timber. The Road extends from Chicago, on the northeast, to Cairo at the south, and from thence to Galena and Dunleith, in the north-west extreme of the State, and as all the lands lie within fifteen miles on each side of this Road, ready and cheap means are afforded by it for transporting the products of the lands to any of those points and from thence to Eastern and Southern markets. Moreover, the rapid growth of flourishing towns and villages along the line, and the great increase in population by immigration, etc. afford a substantial and growing home demand for farm produce.

The soil is a dark, rich mould, from one to five feet in depth, is gently rolling and peculiarly fitted for grazing cattle and sheep, or the cultivation of wheat, Indian corn, etc.

Economy in cultivating and great productiveness are the well known characteristics of Illinois lands. Trees are not required to be cut down, stumps grubbed, or stone picked off, as is generally the case in cultivating new land in the older States. The first crop of Indian corn, planted on the newly broken sod, usually repays the cost of plowing and fencing.

Wheat sown on the newly-turned sod is sure to yield very *large profits*. A man with a plow and two yoke of oxen will break one and a half to two acres per day. Contracts can be made for breaking, ready for corn or wheat, at from $2 to 2.50 per acre. By judicious management, the land may be plowed and fenced the first year and under a *high state of cultivation* the second year.

Corn, grain, cattle, etc. will be forwarded at reasonable rates to Chicago, for the Eastern market, and to Cairo for the Southern. The larger yield on the cheap lands of Illinois over the high priced lands in the Eastern and Middle States, is known to be much more than sufficient to pay the difference of transportation to the Eastern market.

Bituminous coal is mined at several points along the Road, and is a cheap and desirable fuel. It can be delivered at several points along the Road at $1 50 to $4 per ton; Wood can be had at the same rates per cord.

Those who think of settling in Iowa or Minnesota, should bear in mind, that lands there of any value, along the water courses and Government lands, have been disposed of;—that for those located in the interior, there are no conveniences for transporting the produce to market, railroads not having been introduced there. That to send the produce of these lands, one or two hundred miles by wagon to market, would cost much more than the expense of cultivating them; and hence Government lands thus situated, at $1.25 per acre are not so good investments as the lands of this company at the prices fixed.

The same remark holds good in relation to the lands in Kansas and Nebraska, for although vacant lands may be found nearer the water courses the distance to market is far greater, and every hundred miles the produce of those lands are carried either in wagons or interrupted water communications, increases the expense of transportation, which must be borne by the settlers, in the reduced price of their products; and to that extent precisely are the incomes from their farms, and of course on their investments, annually and every year reduced.

The great fertility of the lands now offered for sale by this company, and their consequent yield over those of the Middle and Eastern States, is much more than sufficient to pay the difference in the cost of transportation, especially in view of the facilities furnished by this Road, and others with which it connects, the operations of which are not interrupted by the low water of summer, or the frosts of winter.

PRICES AND TERMS OF PAYMENT.

The Price will vary from $5 to $25, according to the quality, location, &c. Contracts for Deeds may be made during the year 1856, stipulating the purchase money to be paid in five annual installments; the first to become due in two years from the date of contract, and the others annually thereafter. The last payment will become due at the end of the sixth years from the date of the contract.

Interest will be charged at only 3 per ct. per ann.

As a security to the performance of the contract the first two years' interest must be paid in advance, and it must be understood that at least one tenth of the land purchased shall yearly be bro't under cultivation. Twenty per cent. from the credit price will be deducted for cash. The Company's construction bonds will be received as cash.

READY FRAMED FARM BUILDINGS,

Which can be set up in a few days, can be obtained from Responsible Persons.

They will be 12 ft. by 20 ft. divided into one living and three bed rooms, and will cost complete set up on ground chosen anywhere along the road $150 in cash, exclusive of transportation. Larger buildings may be contracted for at proportionate rates. The Company will forward all the materials for such buildings over the Road promptly.

Special arrangements with dealers can be made to supply those purchasing the Company's lands with fencing materials, agricultural tools, and an outfit of provisions in any quantity, at the *lowest wholesale prices.*

It is believed that the price long credit, and low rate of interest, charged for these lands will enable a man with a few hundred dollars in cash, and ordinary industry, to make himself independent before all the purchase money becomes due. In the mean time, the rapid settlement of the country will probably have increased their value four or five fold. When required an experienced person will accompany applicants, to give information, and aid in selecting lands.

Circulars containing numerous instances of successful farming, signed by respectable and well known farmers living in the neighborhood of the Railroad lands, throughout the State—also the cost of fencing, price of cattle, expense of harvesting, threshing, &c. &c. sent free, on any other information—will be cheerfully given, on application, either personally or by letter, in English, French or German, addressed to

JOHN WILSON,
Land Commissioner of Ill. Central R. R. Co.,
Office up to the 1st of May, 52 Michigan Avenue, Chicago, Ill.; after that date in the New Stone Passenger Depot, So. Water st. a8 6m

HEROISM OF A BOY.

The San Francisco True Californian, of June 14th, has the following narrative:

The U. S. sloop-of-war Decatur, which arrived in this port yesterday, has brought intelligence of one of the most inhuman atrocities that can be found in the annals of Indian warfare. On the morning of the 8th of October, 1856, while Mr. Harvey H. Jones, a settler on the banks of the White River, in Washington Territory, was lying sick in his bed, a party of Indians commenced firing on his house, and killed Mr. J. at the first volley. Mrs. Jones, who was eating breakfast at the time of the assault, immediately returned the fire of the Indians, with a navy revolver, and after having succeeded in wounding one of them in the foot, was herself shot in the side, and thereby disabled from making any further resistance. Immediately upon her ceasing to fire upon them, the Indians approached and set fire to the house.

At this juncture, a lad named John J. King, a child of Mrs. Jones by a former marriage, seven years of age, inquired of his mother what he should do. She directed him to take his brother and sister—the former two, and the latter four years old—and endeavor to find shelter in the house of a Mr. Thomas, who resided two miles distant. The little fellow immediately complied with the request of his mother, taking the infant on his back and his sister by the hand, and although an Indian exploded four caps in succession in endeavoring to shoot him, and was only prevented from further efforts by a popular superstition of his tribe, succeeded in reaching his destination, only to be disappointed by finding that Mr. Thomas himself had fled with his family, and was nowhere to be found.

The brave boy then continued his way down the river for another mile, when he was met by a friendly Indian, who took the children in his canoe, and covering the two younger with his blankets, proceeded to Seattle, where they arrived next day, and were received on board the Decatur, which brought them to this place.

After the escape of the children, the Indians dragged Mrs. Jones from the house by the hair, and killed her by a blow on the temple with an axe. The body of Mr. Jones was consumed with the house.

This statement has been furnished us by Mr. John Small, a brother of Mrs. Jones.

The children were treated with the greatest kindness by Capt. Ganesvoort, Lieuts. Morris and Drake, and the other officers and crew of the Decatur. By this misfortune, these children are left entirely destitute, and but for the friendship of their uncle, would be thrown upon the charity of the world for protection.

The American Organ (Fillmore) published at Washington, thus speaks of the prospects in Pennsylvania and Massachusetts:—

"In Massachusetts and Pennsylvania things at present look dark and gloomy.—It seems now more than probable that Fremont will carry Pennsylvania, unless the Buchanan men will unite upon Fillmore, and it is supposed that State pride will prevent them from doing this, even in view of the now obvious truth, that there is no other mode of saving Pennsylvania from Fremont. It will be for the Democrats of Pennsylvania to decide between Fillmore and Fremont. A few days will enable us to make more reliable calculations as to Massachusetts. Three or four days ago we believed Fillmore would carry Massachusetts; but the course of Gov. Gardner and his friends renders the condition of political affairs there more uncertain than they were, and we can only hope for the best in that State."

YOUNG MEN, NORTH AND SOUTH.—Of this class, the Newburyport Herald says:—

One of the signs of the present political canvass, to which no great attention has been paid, is that all the young men appear to be on one side. So far as our observation extends—and so far as we can learn from inquiry, three-fourths of all the voters under thirty years of age, in New England, are for Fremont. The young men are wild with enthusiasm. He is a man of their years, or within hailing distance of them; he has the impulsiveness, the daring, the freedom from old forms and habits, that young men admire. It is not a question with them whether the election will strengthen or weaken the Union.—There is never a young man who fears that the Union will come to an end, or anything else that is good and useful to mankind.—The conservative men are older—the men who ask after platforms and precedents are older—the men who look twice and then consider before they act, are older; and more among those are the supporters of Mr. Buchanan. Probably in the South this is directly reversed, and the anti-Buchanan men are those frightened about the Ostend manifesto, or something of that kind. It is quite important, however, upon which side the young men are, for that party is very sure to beat. The young men win a victory before the old ones make up their minds to commence the fight. It is on that account that we concluded long since, that every State in New England was as certain for Fremont, as Virginia is against him.

PROFANITY.—The absurdity of profane language is very quietly exposed in the following anecdote of revolutionary times:

At the close of the revolutionary war, a number of military officers dined at Col. P.'s. One of them, in telling an anecdote of Bunker Hill battle, mixed in many foolish and wicked oaths.

When he had finished, Col. P. said; "Col. Tarlton was a smart officer, you know, but rather vain of his exploits—bottle and tongs."

He once said to a young lady of South Carolina—tongs and bottle—he wished—little tongs and little bottle—he could see that famous Major Washington, great tongs and little bottle.

The lady answered—"You might have seen him—three pair of tongs!—if you had faced the battle of Cowpens."

"That's a good story, Col., but you spoiled it with bottle and tongs; what has that to do with the story, Col.?"

The Col. replied—"O, I use those words in the place of oaths. I think they have full as much sense in them, and for me they are rather easier spoken."

WHY IT WAS DONE.—The intelligent Washington correspondent of the Morning Star, understood to be a member of the House, says one of the strongest reasons which influenced a pro-slavery Judge and a packed jury to acquit Herbert of the murder of the Irish waiter, was, that California is now represented by two pro-slavery democrats, and if the election of President should be thrown into the House, its vote is sure for Buchanan. If Herbert had been convicted of manslaughter or murder, and been sent to the penitentiary, his seat would have been vacant, and consequently a new election ordered; and then if a free state man had been elected in his stead, the vote of California would have been lost to Buchanan.

Morning Chronicle.

SATURDAY, AUGUST 9, 1856.

The following paragraph comes from the Mobile (Ala.) Advertiser:

"Well might the delegates in the late Black Republican Convention, at Philadelphia, urge that so rapid would be the spread of Republican doctrines that in four years they could hold their Convention in Richmond or Lexington. If he had known how many Black Republicans there were in this State and community, he might have moved to adjourn the Convention to meet in 1860 at Montgomery. There are men here in Alabama and in the county, who are not *ashamed* to own a *preference* to Fremont, or any other Abolitionists, to Buchanan. How can the South ever expect to maintain her *self respect* or obtain her just rights, if she even endures such persons on her soil, much less permits them to *occupy influential positions within her borders?*"

These politics, we suppose, are at the South called democratic. They are exactly the same, as if in New Hampshire, the party now in power should undertake to drive out the men of all other parties, or prohibit all *preference* of any other candidates but their own. If it were not for the *name* of a Republic, such democracy would be despotism. And this despotism, freemen of New England, we are desired to support and extend!

KITTERY AND ELIOT.—The Portland Argus of the 7th says:

The Kittery meeting last Monday, where Hamlin and his yoke fellow (Frank Smith) spoke, is set down by the Advertiser at 6000! It is generally admitted that the Democratic meeting there on the Saturday previous, was larger than the Monday's meeting, but we can't claim 6000 even for that. According to fusion arithmetic, it had at least 10,000 in attendance.

Generally admitted! by whom? Certainly not by any decent man who saw both meetings, or who knows anything about them.

One of the principal men concerned in getting up the Democratic meeting on Saturday, gave us the number of attendants as about 800; another of them said between 500 and 600 persons were present; and the latter informant has been accustomed, in the ar know by actual count, the numbers in a body of men.

In regard to the meeting on Monday, it is known that a larger number of persons than either of these estimates, crossed Portsmout Bridge, in cars, in carriages, and on foot; besides all from other directions.

Respectable men, who were at both meetings, say there were more carriages at the meeting on Monday, than there were persons at that on Saturday; and that on Monday was four or five times as numerous as the other.

The Argus has been grossly imposed upon by somebody, if it believes its own statement above cited.

☞ The Democratic party in Maine, held its State Mass Convention at Portland on Thursday. The Argus of Friday says of it:

There were probably not less than 5,000 people here to attend the meeting. York county was out in force. Oxford county sent a good delegation, though the Thursday morning's rain made it far less than it would otherwise have been. Androscoggin, also, added some staunch democrats, and Old Cumberland was present in large numbers. There were representatives, also, from almost every county in the State. The demonstration was a great success. It was full of enthusiasm, and carried terror to the hearts of our opponents. There is no longer any doubt about Maine, if our friends will only do their duty from now until election. Our opponents are already beaten!

Per contra, the Advertiser of the same day says:

Yet, after all their exertions, and though people could come to Portland yesterday for half price or nothing, as they should prefer, the meeting yesterday, as it regarded numbers, was the most decided failure that ever took place in Maine.

* * * We should say that not over 800 persons came in on the trains to attend the meeting.

There were not near so many persons from out of the city, present yesterday, as there was at the delegate convention which nominated Mr. Hamlin for Governor. They all got into Deering Hall, and it was not so closely crowded as was the Republican Convention, and had the Fremont men, who were attracted there by a curiosity to hear the Southern men speak, retired from the Hall, there would have been plenty of room and to spare.

The looks of the leaders of the party yesterday, was sufficient to show that they had made a fizzle of the matter. They looked cross enough to bite ten penny nails. They see the hand writing upon the wall. The masses are not with them, and they are doomed to an overwhelming defeat.

The Louisville Journal has the following upon the present owner of Ashland:

"If a man sell the timber of an illustrious father's mansion for canes and snuff boxes, isn't it likely he would be glad to sell his bones for buttons and knife handles?"

No: it does not follow, at all.—An old rotten house must come down. Why may not its timbers be sold, as well as to crumble?

☞ A week ago the mills at Lowell were obliged to stop a portion of their machinery for want of water: now they are stopping on account of back-water.

The Washington correspondent of the New York Post says:

"R. J. Walker, ex-Secretary of the Treasury under Polk, has been recently visiting his cabinet colleague, Mr. Buchanan, at Wheatland, with a view it is presumed, of settling what is to be done in regard to the Vigilance Committee in California; as it is considered important to know Mr. Buchanan's position thereon, before the Democratic party in that State takes sides for or against the Committee. Ex-Senator Gwin, I understand has written to Walker, that California will secede from the Union, if any attempt be made by the President to check the doings of the Vigilance Committee. It is also understood that Senator Weller, who had been so severely attacked by the Committee's organs, is equally strong on the other side."

Here is a dilemma, out of which any plain, honest man would come, far easier than the most crafty politician. In truth the law and *order* party in Kansas, the law and *murder* party in California, and the *bludgeon* party in Washington, are a "grand triple alliance or holy league,"—only one party for substance.

LAW AND ORDER.—The Newburyport Herald has from the first contended against the California Vigilance Committee. The editor closes a strong article against them, on Friday, with the following remarks:

What good men—as they claim to be—do to-day, bad men will do to-morrow.—The disease increases with time; it fixes itself, and becomes incurable. South American republicanism is a by-word, from the frequent revolutions that lawless bands originate for liberty or self protection, as they may term it. Mexico has become incapable of self-government from the same cause—a want of obedience to the laws.—France, for many years has labored, and toiled and bled for liberty, and yet has only passed from one despotism to another, because they could not understand that there was no liberty without the supremacy of law. It remains to be seen whether the higher law men in the Eastern States, (who discard constitutional obligations,) and the higher law Vigilance Committees of the Pacific States, are to breed disorder and confusion that shall land us in the abyss of anarchy, blood and despotism, to which other republics have come.

☞ A young man went into the store of Charles R. Sargent, Newburyport, on Thursday, and purchased a few dollars' worth of goods, and stated that he had left his pocket-book on board schooner Huntress; and if Mr. S. would allow his boy to go down to the vessel with him, he would send up the money.—On going to the vessel, which was laying by a spring-line, the young scamp jumped on board and got off with his purchases.

PREDICTIONS.—The N. H. Patriot of Aug. 6, says:

Buchanan is to be trumphantly elected President of the United States.

The Washington correspondent of the N. Y. Journal of Commerce thinks there is "no danger" of the election of Freemont or Fillmore; "but there is some danger that Mr Buchanan may not be chosen by the popular vote. There is danger, in fact, that the election will be thrown upon the House of Representatives—a House divided into fierce sectional factions, and excited also by the most bitter animosities." He further expresses his belief that Fremont cannot be chosen by the House without such a course of procedure as will give a color to an outcry of corruption, and induce a resort to open violence, and an entire derangement of the ordinary operations of government, such as would even endanger the integrity of the Union.

NOTICE TO QUIT.—A thoroughly orthodox Roman Catholic priest, the Abbe Michon, in a pamphlet just published in Paris, seriously advocates the expediency of the Pope renouncing all dominion at Rome and going to Jerusalem, there to reside as the spiritual head of the Church.—The Abbe starts with the assumption that the renunciation of the temporal power of the Pope of Rome is inevitable, and he doubts seriously whether after such a renunciation the Pope could maintain his spiritual supremacy at Rome with proper dignity. One city alone—namely, Jerusalem—would offer every requisite for opening a new and flourishing apostolic era.—The Cardinals, the Abbe admits, would not like the change of locality, but he affirms that the plan has been favorably entertained by many European Governments.

The Republicans will probably claim the election of F. P. Blair, Jr. in St Louis, as the greatest victory they have yet won. He is the first republican ever elected in a slave State; and of his views and position there is no doubt. More than a year since we reccollect of his making the ablest speech in the Missouri legislature, against the "Border Ruffians" and in favor of free Kansas, that we have seen from any source; and since the Cincinnati Convention he has publicly and repeatedly repudiated the democratic platform. He will be a man of mark in the next Congress, and as the representative of any views would have influence, but especially as the only republican from a slave State.—[Newburyport Herald.

A Fillmore paper, the Mobile Evening News, calling attention to the fact that the Deutsche Zeitung (German Gazette) which is printed at No. 20 Poydras street, New Orleans, strongly advocates the cause of Fremont, asks "why do they not pull down his establishment." Is it a party which in one *section* of the country proposes to pull down the establishments of its opponents, sectional, or not?

A flute made of gold is on exhibition in London. The gold was brought from Australia, and the work is said to be exquisite. The weight of the instrument is 14 1-2 ounces, its value about $650.

3 DAYS LATER FROM EUROPE.

NEW YORK, August 7.—The Cunard steamship Asia, Capt Lott, arrived this P. M. She brings three days later intelligence from Europe. Her news, however, is not of special importance, excepting from Spain, where the insurrection is not subdued.

The weather in England had been showery, and favorable for agricultural purposes.

The Asia left Liverpool on the afternoon of the 26th.

The Cunard steamer Zebra, plying between Liverpool and Havre, went ashore on Lizard Point. Crew and passengers saved; also a portion of the cargo. The vessel is full of water.

The intentions of the French Government regarding Spain are a subject of much speculation in Paris. It is said that if O'Donnel is successful, France can have no occasion to interfere. On the other hand, should the Liberals succeed, and the Queen be required to abdicate in favor of the Princess of Austria with Espartero regent, neither would France interfere. But if the Duchess Montpensier should be next heir to the throne, or should a Republic be proclaimed, then France would invade Spain.

Prince Lucien Bonaparte has gone on a mission to Madrid.

Advices from Spain to the 18th give official accounts of the insurrection.

The National Guard were entirely disarmed, and domiciliary visits were being made to secure all arms in the hands of the citizens. Numerous arrests were also made.

The killed of the royal troops are estimated at 40 or 50, and 150 wounded. The loss of the insurgents is not known. The fighting at Barcelona lasted two days. A portion of the troops at Saragossa remain faithful to the Queen. Government was dispatching all available troops towards this last stronghold of the Insurrectionists, with orders not to fight in the streets, but to bombard the city from the adjoining forts.

O'Donnell is expecting to receive news in a few days of the submission of Saragossa, and with it of the whole country to his government.

Later advices announce Madrid tranquil. Espartero was still there, but O'Donnel had offered him passports to any part of Spain or abroad. Private accounts say the royal troops showed great ferocity at the Madrid rising, having butchered several companies of the National Guard after surrendering. Marshal Narvaez offered his services to O'Donnel when the affair commenced. He has been appointed Minister to Paris.

The Duke of Alba, brother-in-law to the Empress of France, has been appointed Mayor of Madrid. Escatura had sought refuge in the British Embassy.

POWER OF INSTINCT.—The sluggish sea turtle loves her home. A huge creature of this kind was caught by English sailors near the Island of Ascencion, and they burnt a name and date into its upper shell. On the way to England it fell sick, and from sheer pity was thrown overboard in the English channel. Two years later the same turtle was captured once more, now quite well, near its old home, Ascencion. What strange and inexplicable home sickness carried the slow hearted creature 4,000 miles back through "the ocean where there is no track and no high road."

☞ John Kelan, an Irish laborer on the Stonington Railroad, had one of his arms badly broken on Tuesday, by having his shirt sleeve catch around the crank of the hand car while in rapid motion.

MISS I. T. HAVEN will resume her School on Monday, Sept. 1st., 1856. au6 2w.

HEALTH AND STRENGTH.

☞ DR. S. O. RICHARDSON'S SHERRY WINE BITTERS is the best Medicine ever used, for Summer Complaints. It has been more liberally patronized than any other ever established in this country. It is the same Richardson's Bitters which has restored so many invalids to health throughout New England during the past thirty years.

N. B.—Beware of imitations called Sherry Wine Bitters. The genuine have a fac simile of my signature upon the outer envelope. For sale by Druggists everywhere, and at my office, No. 51 Hanover St., Boston. aus 6m

WORTH KNOWING.

Prof. Wood, of St. Louis, has discovered a remedy for the grey and bald, which is at once practicable and cheap. It requires no dyeing, no wig, no extraordinary trouble. There can be no doubt whatever of its efficacy. We have seen testimonials almost without number, and from men of great intelligence, high standing and moral worth.

Those who have been bald for years are now wearing their own hair, and appear ten years younger than they did six months ago. As in most cases grey hairs and bald heads are both premature and unnatural, it is a duty to remedy them by the natural and undoubted means which Prof. Wood has invented, and now kindly offers to the afflicted. Try his wonderful remedy, and give the Professor a new testimonial.—*Memphis Whig.*

Baskets—Cheap.

J. F. SHORES, JR., No. 1 Congress Block, will sell at REDUCED PRICES his present stock of BASKETS, comprising a very good variety of Market, Cap, and Work Baskets. au7 J

A lot of notes, bonds and real estate, the property of P. T. Barnum, were sold at Auction in New York, Tuesday, by order of court, for the benefit of Mr. Barnum's creditors in the clock concern. Ten bonds of the Crystal Palace of $100 each, sold for $25 apiece. A promissory note, signed by John Greenwood Jr., for $2582, was sold for $805 to that individual: a pretty good discount. H. D. Butler also bought in his own $860, for $375. The other property went much after the same rate of depreciation. The total amount realized from the sale was $4770.

MARINE CHRONICLE.

PORT OF PORTSMOUTH.

Cld Ship Ella E Badger, (new 1121 36-95 tons) of this port, Lewis Tarlton, Point Le Preaux, NB.

J. H. THACHER, Apothecary.

"If you are Coming, Why don't you Come along?"

THAT is the "mot" now-a-days. Every locomotive on every Railroad shrieks it. It is daily rapped out on every Telegraphic Line in the country. The echoing blows of our Ship Carpenters hourly exemplify it. The smith at his anvil hammers it out. The clanking Press with breathless haste, sends the cry home to every family—"If you are coming, why don't you come along?"

It is uttered in an hundred tongues in a hundred lands. It has sounded like a slogan through the political world, and the "Old Fogies" are creeping along among the baggage wagons and the wounded. Thought, that moved at a funeral pace, now rushes on a tremendous charge; and all the old remedies for Liver Complaint have given way for

HOLMAN'S SPRING BITTERS.

"If you are coming, why don't you come along?"—Six paces to the front, is the word to everybody and everything that wants to be listened to or looked at. If you have anything to do, *do it;* if you wish any person to see anything, *show it;* if you have anything to be cured, CURE IT WITH

HOLMAN'S SPRING BITTERS.

"If you are coming, why don't you come along?"—If you have a Bottle of Holman's Bitters in your house, you need not suffer from
Biliousness, Weakness at the Stomach, Indigestion, Heartburn, Lowness of Spirits,
Nor any of the diseases incident to the season.

It used to take six men to make a pin; now one boy, a pull, a clip, and two strokes, and that's the way the pins are made. Once it took a Physician, lots of precious time, and quantities of nauseous drugs to cure some simple disease of the Blood.—Now, a quarter expended in

HOLMAN'S SPRING BITTERS

Brings Life and Health, flowing spirits and rosy cheeks.

"If you are coming, why don't you come along?"—If you are sick and weak, why don't you cure yourself? Here we offer you the article that will do it—there is no mistake about it. Every body knows about HOLMAN'S BITTERS; they have been tried and have "toed the mark straight."

They are a *good* medicine; they are *better* than anything else for all Spring Complaints; they are just the *best* Bitters that can be bought—and that's the best thing we can say about them. *"If you are coming, why don't you come along,"* before they are all gone?

LOCAL.

STRUCK BY LIGHTNING.—On Friday about noon, on her passage from this port to the Shoals, the yacht Sybil, Capt. Preble, was struck by lightning and her main-mast badly shivered. There were about a dozen passengers on board—ladies and gentlemen — all of whom were more or less affected by the fluid. But providentially none of them were killed. One man was completely paralyzed in his legs, for an hour or more; another was delirious for nearly the same length of time. The most dangerous case was that of a lady from Newburyport, whose breast and body were badly scorched, and who was apparently dead for a long time, but was partially reanscitated by the efforts of the others, assisted by the deluging rain, which fell at the time upon her exposed face and chest. Five of the affected persons were left at the Shoals—still suffering from the effects of the bolt. The lady remains in a critical situation. The boat was not injured beyond the breaking of glass and the shivering of the mast.

BOOHOOS AND SIGHTS.—Three or four days ago, having occasion to pass through a Railway Station, among chips, straws, &c., Uncle Toby observed one boy of eight or nine years blubbering and crying, while a smaller boy was laughing at him, as he leered over his shoulder, and retreated. Feeling a sympathy for suffering humanity, the old man enquired of the small boy, what was the matter with the larger, that made him cry. The reply was, that the small boy had snatched away the larger one's cigar, and trod it into the dirt, as smoking was illegal there—and hence the boohoo. Uncle Toby's gravity was upset, and as the bystanders laughed, he joined in the chorus, and so did Young Ireland, who had lost his cigar, smiling through the tears and dirt that had begrimmed his face Such a fuss over such a loss!

A few rods from this, a collection of unwashed boys, ranging from six to sixteen years, were amusing themselves by making each other, if possible, more filthy than ever. One boy had a milk can and dipper, the can containining milk and water. He and others of the dirty urchins would take mouthfuls of the liquid, and spurt it over the others' clothes, until the whole party seemed sons of Grease.

Close by the latter were, just at dusk, a woman not very sober, and a man very drunk, probably the woman's husband, came along together, the woman keeping straight ahead with her bundles, and the man walking in triangles.

Lastly, an hour afterward, near a groggery door, a loud dispute went on between three half drunken men, in as rich a brogue as ever was heard, which lasted till Uncle Toby got out of hearing. As he went, he mused on the variety of ways in which people of some nations and some habits, seek pleasure,—in the stupor of tobacco, the muddle or delirium of bad liquor, in the fight, and in the filth:—and on the grief or rage of these idolaters, when by any mischance their idol happens to be dethroned for a season.

☞ The new ship Ella E. Badger, Capt. Tarleton, sailed from this port for St. John, N. B., on Friday afternoon. She was towed out of the river by steamer John Taylor, of Boston. The wife and infant child of the master go out with him.

☞ We learn that the Gerrish House, at Kittery Point, is now full to overflowing, and and several applicants for board could not be accommodated.

Hon. Rufus Choate, with his son, are rusticating at the Atlantic House, Rye Beach.

☞ Among the promotions in the Navy, in the list of Captains is the name of Wm. S. Walker. Capt. Walker is a native of Portsmouth, and for many years has made Massachusetts his home. His reputation in the service, as may be seen by the report of the Secretary of the Navy is such as will do credit to his native city.

☞ The Board of Aldermen of this city, have voted to appoint a Police Officer on Christian Shore—for the purpose, we presume, of adding a legal sanction in aid of the moral suasion there inculcated, and of the christian deportment which is general and ought to be universal.

RELIGIOUS NOTICES.—Rev. A. J. Patterson of this city will preach in Eliot, Me., in the Academy Hall, to-morrow.

Rev. A. St. John Chambre of Newark, N. J., will supply his pulpit.

☞ Rev. Mr. Smith of Kennebunk, will preach at the old South on Sunday, at the usual hours.

☞ The Portsmouth Fremont Club has a large number of members, and meets every Thursday evening at 8 o'clock, in Rechab Hall. The meeting this week was addressed by several gentlemen, and a number of appropriate songs sung.

PICNIC.—We understand that the Young Men's Christian Association are making arrangements for a picnic in a short time.

☞ The Daily Chronicle may be had of our Carriers, at 8 cents per week. Single copies 2 cents. $4 per year in advance.

☞ We regret to see the advertisement announcing the assignment of Mr. James Larrabee, the well known harness maker, who has been in the saddlery business here for six or eight years. Mr. L. employed four or five hands, and turned out such work as is rarely equalled, and needs not be excelled; but he is a far better mechanic than financier,—and doubtless may have been more faithful in executing his work, than self-interest would warrant. People generally are not willing to pay the difference between first and third rate work in any department.

DOG PLUNDER.—Bose is one of those rough looking, knotted hair dogs, of 75 lbs., whose value lies more in internal fidelity than in external beauty. His home is near the Eastern Railroad depot. One night last week his master heard some growling and barking in his yard just before midnight. After a while all became quiet, and nothing more was thought of it; until on the next morning there was found near Bose's kennel a pair of stout boots and a valise of clothing!—More than a week has elapsed, but no discovery of the owner has been made. Probably some traveller had just stepped into the garden to seek shelter for the night in the barn, or perhaps he had entered for some evil purpose. Faithful Bose however, satisfied that he had no right there, took such an oversight of his baggage as forbade its removal. The owner can obtain it by calling on Capt Godfrey, by day-light.—[Jour.

CONGRESS.

THURSDAY, August 7.

SENATE.—A resolution was adopted calling on the President for information touching the refusal of Honduras to receive a commercial agent from this country; and also another offered by Mr. Seward, requesting the President to communicate information touching the expediency of appointing an American Consulate at the Loo Choo Islands.

The Senate then took up the Army Appropriation bill, which was reported from the Finance Committee, with an amendment striking out Mr. Sherman's proviso, offered in the House, that no part of the military force of the United States shall be employed to aid in the enforcement of the alleged laws of the Legislative Assembly convened at Shawnee Mission, until Congress declares whether those laws were passed by the Legislature chosen in conformity with the organic law, and until Congress declares so, that it shall be the duty of the President to use the military forces to preserve peace, suppress insurrection, repel invasion, and protect the persons and property of the citizens of the territory on the highways of Missouri and elsewhere, against unlawful search and seizure; and that the President disarm the present militia, recall all United States arms, and prevent armed men from going into the terrtory to disturb the public peace or enforce real or pretended laws. An earnest debate ensued.

Mr. Wilson said if the bill failed to pass, the responsibility would rest on the Senate, and not on the House, which had made a thorough examination of the affairs in Kansas, and ascertained that there had been a violation of the organic law and a trampling down of the rights of the people. The House he said, had acted with intelligence and patriotism.

Mr Wade maintained that the invaders made unjust and tyrannical laws, to which no citizen ought to submit. Pierce, the traitor, now sits in the Exective chair, stimulating the people, as fast as he can do it, to civil war. The object of the House amendment was to prevent outrages in Kansas and should meet the approbation of every patriot.

Messrs. Thompson of Ky., and Trumbull of Ill., advocated the proviso.

Mr. Hunter said if the House insist upon the proviso, and the bill is lost in consequence, there will be a general outburst of indignation throughout the country.

Mr. Butler thought the proposition the most unconstitutional one that ever found its way into a bill. Inflammatory violence and illegal means are resorted to for the purpose of obtaining improper ends. It was hastening the country to a crisis, when the South would have to take care of itself.

Mr. Sherman's proviso was stricken out by a vote of 29 against 9.

Yeas—Messrs. Adams, Allen, Bayard, Bell of Tenn., Briggs, Bright, Brodhead, Butler, Clayton, Douglas, Geyer, Hunter, Iverson, Jones of Ia., Jones of Tenn., Mallory, Mason, Pratt, Pugh, Reed, Sebastian, Slidell, Stuart, Thompson of Ky., Thompson of N. Y., Weller, Wright and Yulee.

Nays — Messrs. Collamer, Fessenden, Foot, Foster, Harlan, Seward, Wade and Wilson.

The bill was then passed by yeas 27 nays 9.

Nays—Durkee, Foot, Foster, Harlan, Seward, Trumball, Wade and Wilson.

Mr. Weller gave notice that he should call up the Pacific Railroad bill to-morrow.

HOUSE.—The House went into Committee on the Naasl Appropriation bill, and subsequently passed it. Among its items are $87,000 for Stevens's war steamer, and an appropriation of $305,000 for completing the basin and railway of the San Francisco Navy Yard.

The House then considered the bill making appropriations for a coast survey, light-house establishment, a land survey and other civil expenses.

The House then took a recess till 7 P. M.

THURSDAY, Aug. 7.

The debate in the Senate to-day on the army appropriation bill was able and earnest; sometimes acrimonious. The supporters of the amendment adopted in the House on Mr. Sherman's motion, had the best of the argument. Messrs. Fessenden and Douglass had some sparring, in which the latter gained no laurels. The speeches of Messrs. Seward, Wade, Trumbull and Fessenden were all eloquent and effective.

Mr. Ball's exposure in the House to-day of the extravagant waste of money in the construction of the capitol extension, is likely to put an end to the military superintendence of public Civil works.

A despatch received by Mr. Speaker Banks from Fitz Henry Warren this afternoon, says that the Republicans have certainly carried Iowa—State, congressional and legislative tickets. A complete victory.

From the Boston Saturday Evening Gazette.

A PERFUMED BREATH.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as all substes? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A BEAUTIFUL COMPLEXION may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and roseate hue. Wet a towel, pour on two or three drops, and wash the face night and morning

SHAVING MADE EASY.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," rub the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

W. F. Fetridge & Co. Proprietors, 328 Pearl street, New York, and 100 Washington street, Boston. For sale in Portsmouth by William K. Preston. 6mje16

PASSED JUNE SESSION, 1856.

AN ACT to sever certain tracts of land from the town of Bow and annex the same to the city of Concord.

SECTION 1. *Be it enacted, &c.*, That all that territory within the town of Bow which lies between the Merrimack river and the southeasterly line of the city of Concord, being a part of the farm of Albert Foster, and part of the farm of Leonard Bell, and containing in all about forty acres, be and the same is hereby severed from the town of Bow, and annexed to the city of Concord; and the said territory hereby annexed, shall be a part of the 7th ward in the said city of Concord.

SEC. 2 This act shall take effect from and after its passage.

Approved July 10, 1856.

AN ACT to authorize the city of Mahchester to take stock in the Manchester Aqueduct,

SECTION 1. *Be it enacted, &c.*, That the city of Manchester be, and they hereby are authorized to subscribe for the capital stock of the Manchester Aqueduct incorporated at this session of the general court, to an amount not exceeding two hundred thousand dollars, or to loan said Manchester Aqueduct, any sum or sums of money not exceeding in the whole the sum of two hundred thousand dollars.

SEC. 2. This act shall take effect from its passage.

Approved July 11, 1856.

AN ACT in amendment of the charter of the city of Concord.

SECTION 1. *Be it enacted, &c.*, That the mayor may call special meetings of the boards of aldermen and common council, or either of them, by giving in hand to, or causing a notification thereof to be left at the usual dwelling place of each member of the board or boards to be convened.

SEC. 2. The city clerk shall receive the invoice and assessments, or a copy thereof, as is prescribed in the sixth section of the forty-third chapter of the Revised Statutes, and keep such record open to the inspection of all persons, but need not record the same. Approved July 12, 1856.

AN ACT in addition to an act entitled "an act relating to the connection of railroads."

SECTION 1. *Be it enacted, &c.*, That all railroads chartered by the legislature of this State which connect with any other railroad chartered by the legislature of this State, or by the concurrent action of the legislature of this State and any other State or States, shall be entitled to all the benefits and subject to all the liabilities of the provisions of an act of the legislature of this State approved July 10, 1855, and entitled "an act relating to the connection of railroads," notwithstanding neither of said connecting roads are by law authorized to unite with or enter upon and use the other.

SEC. 2. All acts and parts of acts inconsistent with this act are hereby repealed.

SEC. 3. This act shall take effect from its passage.

Approved July 12, 1856.

AN ACT in amendment of an act entitled "an act in relation to pilotage and the harbor of the Piscataqua," approved July 9, 1855.

SECTION 1. *Be it enacted, &c.*, Any pilot may take charge of any vessel drawing nine feet of water or upwards, (except coasting and fishing vessels of the United States, of one hundred and fifty tons burden and under,) bound into or out of the harbor of Piscataqua, and any pilot said vessel into or out of said harbor, first showing to the master thereof, his branch or warrant if requested.

SEC. 2. Any master or owner may pilot his own vessel; but if any pilot or his deputy shall speak and offer service to any vessel bound into said harbor, at sea beyond the Whale's Back light house, south of a line drawn east and west from said light house, he shall be entitled to one-half the fees specified in his warrant, in case the master or owner declines to employ him; and, on refusal of payment, may sue for and recover the same.

SEC. 3. All acts and parts of acts inconsistent herewith are hereby repealed.

SEC. 4. This act shall take effect on its passage.

Approved July 12, 1856.

AN ACT for the relief of indigent insane persons.

SECTION 1. *Be it enacted, &c.*, That och Francis Haley, of Moultonborough, may take the name of Frank Haley; Dorothy A. M. Lawrence, of East Kingston, may take the name of Dorothy A. M. Goodrich; Comfort Goings, Jr, of Manchester, may take the name of Claude Goings; Hannah C. Gould, of Greenfield, may take the name of Hannah C. SEC. 2. This act shall take effect on and after its passage.

Approved July 12, 1856.

Dissolution of Copartnership.

THE business Copartnership heretofore existing between the subscribers, under the title of MILLER & GRAY, is this day dissolved by mutual consent. Demands against the firm or either member of it will be settled by FRANK W. MILLER, who will conduct the business as heretofore; and who requests all indebted to make immediate payment.

Portsmouth, July 31, 1856.

FRANK W. MILLER,
SAMUEL GRAY.

Job and Card Printing.

HAVING recently much increased our facilities for the execution of Job and Card Printing in all its varieties, promptly, and in good style, and being ready to furnish our office still further with the new styles of type and the improvements in this branch of the business, as occasion may render desirable—we would respectfully solicit orders in this line, from our friends and the public, in the city or elsewhere.

In order to devote more attention to this branch of our business, we have engaged the services of Mr. WM. H. FOSTER, the well-known, experienced and tasteful Job Printer, who will have charge of the Job and Card Department; and will run

FOSTER'S CARD PRESS

in a manner that cannot fail to suit gentlemen or ladies who may favor us with their patronage.

Orders by mail or express, promptly answered. Prices to suit the times.

FRANK W. MILLER.
Chronicle Office, Portsmouth.

FOR BATHING DRESSES, for sale by JONES & MENDUM, at 1s per yard.

jy26 No. 29 Market street.

Secured by Royal Letters Patent in England and by Patent in the United States.

THE Subscribers, having been for a long time desirous of securing to the public a Needle that will not only be a superior article, but perfect in the Eye, recommend their "*Patented Gold Inlaid Needle.*" They are justly celebrated, and preferred above all others, the eyes being inlaid with gold and burnished, which renders the cutting or chafing the thread utterly impossible.—They are manufactured from the best steel, and tempered according to the most approved plan.—We therefore offer with confidence these Needles to the public, having secured them against all frauds or imitations either in Paper, Label or Needle. We desire all parties purchasing these Needles to be cautious in the selection of them, as unprincipled persons have sought to imitate our style, and thus palm off an inferior article, notwithstanding the heavy damages we have recovered from various parties; and a reward of $500 will be paid for such information that will lead to the detection and conviction of any person or persons thus engaged. None are genuine except those labelled on the back, '*Warranted by R. Crowley*' A liberal discount will be allowed to dealers who purchase in large quantities.

WILLIAM CROWLEY & SON,
Oversly Mills, Alcester, England.

Having made arrangements with the Manufacturers of the above brand of Needles (which I earnestly recommend as the best Needle in the market,) I am prepared to sell them

Wholesale at $1.60 per M.
Retail at 6¼ cts. per paper of 25.
Assorted or separate numbers, sharps and betweens.

BLACK SILK LACE LONG MITTS for 12½ cents, at PEYSER'S.

LIVING ON SOULS.—A good Methodist minister at the West, who lived on a very small salary, was greatly troubled at one time to get his quarterly instalment. He had called on the steward a number of times, but had each time been put off with some excuse. His wants at length becoming urgent, he went to his steward and told him he must have his money, as his family were suffering for the necessaries of life.

"Money!" replied the steward. "You preach for money! I thought you preached for the good of souls!"

"Souls!" replied the minister; "I can't eat souls; and if I could, it would take a thousand such as yours to make a decent meal!"

"Mother, this book tells about the 'angry waves of the ocean.' Now, what makes the ocean get angry?"

'Because it has been crossed so often, my son.'

'I say Pat, what are you about—sweeping out that room?'

'No,' answered Pat, 'I'm sweeping out the dirt and leaving the room.'

There is a woman named Murdock, in Rochester, who, for some time, has made it her business to steal children. She seems to be an adept at child stealing, as she has at different times had two or three of the children whom she stole, baptised at various churches. Of course she professed to be very pious, and of course she tried to collect money on the strength of her assumed piety.

I. D. RICHARDS & SONS.

Established 1820.

IMPORTERS AND DEALERS IN

Boston, June 7. 2aw2m

Clark's Female Pills.

The Great English Remedy.

Prepared from a prescription of Sir Jas. Clarke, M.D., Physician Extraordinary to the Queen.

THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION.

These Pills should not be taken by females during the FIRST THREE MONTHS *of Pregnancy, as they are sure to bring on Miscarriage, but at every other time and in every other case they are perfectly safe.*

Sole Agents for the United States and Canada, I. C. BALLWIN & CO., Rochester, N.Y.

TUTTLE & MOSES, Auburn, N.Y., General Agents.

"Try me, and I'll do you Good."

DR. LANGLEY'S

Root and Herb Janndice Bitters.

The Great Spring and Summer Medicine.

THIS Medicine, composed of the best roots, herbs and barks in the world, has constantly increased in public favor for six years, until by its wonderful success, it is acknowledged to be the best and cheapest medicine in the world. It acts with magic-like power upon the strong holds of disease—cleanses the bowels, purifies the blood gives vitality to an inactive, torpid liver, cures Jaundice in all its forms, Dyspepsia, Costiveness, Indigestion, Headache, Dizziness, Piles, Heartburn, Languor, Weakness, Pain in the Side and Bowels, all Billious Diseases and Foul Stomach, and especially Humors of the Blood and Skin; —strengthening, healing, purifying, building up, and keeping in order the whole system. All persons ought to use them during the spring and summer.

Only 25 cents for a pint, and 37½ cents for a quart bottle. Office 99 Union St., Boston. Sold by all dealers in medicine, everywhere. mh18 6mr

Whalebone Skirts.

THE only object of a Whalebone Skirt is to give a proper, graceful and elegant form to a lady's dress. Unless this is accomplished, the article is entirely worthless. The Ladies, by referring to Frank Leslie's Gazette of Fashions for April, will notice that E. & J. HOLMES have from actual experience been successful in producing this most desirable article, and that their IMPROVED SEAMLESS SKIRT meets the unanimous approbation of the ladies. They are light, pliable, and easily adjusted, and the only Skirt which is equally adapted to the street and the crowd; are made in one piece or breadth, and in our opinion, and in the opinion of thousands of ladies who have bought them, the most reliable goods of the kind in the market. We were the first to introduce a Whalebone Skirt, and from our experience in the manufacture and retail of these goods, we have found that all kinds of cotton cord, and nearly all kinds of cord, and all starched goods, cannot be used satisfactorily, as they will not recover their place when pressed out of shape. We consider all

WHALEBONE SKIRTS

as worthless, of whatever material made, unless there is something of sufficient stiffness and elasticity, and at the same time yielding and pliable, to keep the dress in proper shape below the bones. To accomplish this we have our cord made under our own direction, and expressly for our goods, and from the only material that can be used that will recover its proper place when pressed out of shape, and are so twisted in manufacturing that they will not roll or curl when wet, and warranted to wash without injury. The public are cautioned against all worthless goods, as the market since our goods have become popular and extensively known, has been flooded with goods of all kinds, and put together without form or comeliness, or any other object but to sell, and of course are called Whalebone Skirts. Some imitators, in their efforts to profit by our reputation, have gone so far as to copy almost exactly our trade mark upon their goods.

Please Notice.—Every genuine article stamped, *E & J. HOLMES'S IMPROVED SEAMLESS WHALEBONE SKIRT*, and may be found by the trade in many of the largest Jobbing Houses in New York and Boston, and at retail in the principal Dry Goods stores.

June 6, 1856. eo2m E. & J. HOLMES, Boston.

Great American and Foreign Office

For Securing Patents for Inventions.

Agency for business with US Patent Office, Washington

R. H. EDDY,

No. 76 State st. oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages in applying for Patents superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey so Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington.—Patents secured in Great Britian, France, and other foreign countries, through Agents of the highest respectability.

R. H. EDDY,
Solicitor of Patents.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R'H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

CHAS. MASON,
Commissioner of Patents.

Boston, Jan 11 1856 d7eodry

Hartford Fire Insurance Co.

HARTFORD, CONN.
INCORPORATED IN 1810.
Capital $300,000—all paid in and invested.

Please give me a call, at 21 Daniel st.

jy2 aawtm A. C. MANN

FARM LANDS FOR SALE.

The Illinois Central Railroad Company

IS NOW PREPARED TO SELL

OVER TWO MILLION ACRES

OF

FARMING LANDS,

In Tracts of 40 acres and upwards, on long credit and at low rates of interest.

THESE lands were granted by the Government to aid in the construction of this Railroad, and include some of the richest and most fertile Prairies in the State, interspersed here and there with magnificent groves of oak and other timber. The Road extends from Chicago, on the north-east, to Cairo at the south, and from thence to Galena and Dunleith, in the north-west extreme of the State, and as all the lands lie within fifteen miles on each side of this Road, ready and cheap means are afforded by it for transporting the products of the lands to any of those points and from thence to Eastern and Southern markets. Moreover, the rapid growth of flourishing towns and villages along the line, and the great increase in population by immigration, etc, afford a substantial and growing home demand for farm produce.

The soil is a dark, rich mould, from one to five feet in depth, is gently rolling and peculiarly fitted for grazing cattle and sheep, or the cultivation of wheat, Indian corn, etc.

Economy in cultivating and great productiveness are the well known characteristics of Illinois lands. Trees are not required to be cut down, stumps grubbed, or stone picked off, as is generally the case in cultivating new land in the older States. The first crop of Indian corn, planted on the newly broken sod, usually repays the cost of plowing and fencing.

Wheat sown on the newly-turned sod is sure to yield very *large profits*. A man with a plow and two yoke of oxen will break one and a half to two acres per day. Contracts can be made for breaking, ready for corn or wheat, at from $2 to 2 50 per acre. By judicious management, the land may be plowed and fenced the first and under a *high state of cultivation* the second year.

Corn, grain, cattle, etc. will be forwarded at reasonable rates to Chicago, for the Eastern market, and to Cairo for the Southern. The larger yield on the cheap lands of Illinois over the high priced lands in the Eastern and Middle States, is known to be much more than sufficient to pay the difference of transportation to the Eastern market.

Bituminous coal is mined at several points along the Road, and is a cheap and desirable fuel. It can be delivered at several points along the Road at $1 50 to $4 per ton; Wood can be had at the same rates per cord.

Those who think of settling in Iowa or Minnesota, should bear in mind, that lands there of any value, along the water courses and for many miles inland, have been disposed of;—that for those located in the interior, there are no conveniences for transporting the produce to market, railroads not having been introduced there. That to send the produce of these lands, one or two hundred miles by wagon to market, would cost much more than the expense of cultivating them; and hence Government lands thus situated, at $1 25 per acre are not so good investments as the lands of this company at the prices fixed.

The same remark holds good in relation to the lands in Kansas and Nebraska, for although vacant lands may be found nearer the water courses the distance to market is far greater, and every hundred miles the produce of those lands are carried either in wagons or interrupted water communications, increases the expense of transportation, which must be borne by the settlers, in the reduced price of their products; and to that extent precisely are the incomes from their farms, and of course on their investments, annually and every year reduced.

The great fertility of the lands now offered for sale by this company, and their consequent yield over those of the Middle and Eastern States, is much more than sufficient to pay the difference in the cost of transportation, especially in view of the facilities furnished by this Road, and others with which it connects, the operations of which are not interrupted by the low water of summer, or the frosts of winter.

PRICES AND TERMS OF PAYMENT.

The Price will vary from $5 to $25, according to the quality, location, &c. Contracts for Deeds may be made during the year 1856, stipulating the purchase money to be paid in five annual installments; the first to become due in two years from the date of contract, and the others annually thereafter. The last payment will become due at the end of the sixth year from the date of the contract.

Interest will be charged at only 3 per ct. per ann.

As a security to the performance of the contract the first two years' interest must be paid in advance, and it must be understood that at least one tenth of the land purchased shall yearly be brought under cultivation; Twenty per cent. from the credit price will be deducted for cash. The Company's construction bonds will be received as cash.

READY FRAMED FARM BUILDINGS,

Which can be set up in a few days, can be obtained from Responsible Persons.

They will be 12 ft. by 20 ft. divided into one living and three bed rooms, and will cost complete set up on ground chosen anywhere along the road $150 in cash, exclusive of transportation. Larger buildings may be contracted for at proportionate rates. The Company will forward all the materials for such buildings over the Road promptly.

Special arrangements with dealers can be made to supply those purchasing the Company's lands with fencing materials, agricultural implements, and an outfit of provisions in any quantity, at the *lowest wholesale prices.*

It is believed that the price long credit, and low rate of interest, charged for these lands will enable a man with a few hundred dollars in cash, and ordinary industry, to make himself independent before all the purchase money becomes due. In the mean time, the rapid settlement of the country will probably have increased their value four or five fold. When required an experienced person will accompany applicants, to give information, and aid in selecting lands.

Circulars containing numerous instances of successful farming, signed by respectable and well known farmers living in the neighborhood of the Railroad lands, throughout the State—also the cost of fencing, price of cattle, expense of harvesting, threshing, &c. by contract—or any other information—will be cheerfully given, on application, either personally or by letter, in English, French or German, addressed to

JOHN WILSON,
Land Commissioner of Ill. Central R. R. Co.,
Office up to the 1st of May, 52 Michigan Avenue, Chicago, Ill; after that date in the New Stone Passenger Depot, So. Water st. a8 6m

LAWS OF NEW-HAMPSHIRE.

PASSED JUNE SESSION 1856.

AN ACT making appropriation for the militia of the State for the year 1856.

Be it enacted, &c.—SECTION 1. That the following sums be and are appropriated for the purposes herein mentioned; for adjutant's returns, $80; for repairs of gun-houses, $100; for repairs of ordnance, $100; for stationary, $50; for contingencies, $150; and the said sums to be paid out of the treasury; and the Governor with advice of Council is hereby authorized to draw his warrant on the treasury in favor of the adjutant general for the sums aforesaid, who is hereby required to apply the same for the purposes aforesaid so far as may be necessary, and to render an account to the legislature. Approved July 12, 1856.

AN ACT providing for the assessment of a State tax.

Be it enacted, &c.—SECTION 1. That the sum of seventy thousand dollars shall be raised for the use of the State, and shall be assessed, collected, any paid into the treasury, on or before the first day of December in the year of our Lord, one thousand eight hundred and fifty-seven, and the treasurer is hereby directed seasonably to issue his warrants to the selectmen of the several towns and places within this State, according to the apportionment of public taxes made out at the June session, A. D. 1856, and the selectmen and assessors of such towns and places are hereby required to assess the sums specified in said warrants, and cause the same to be paid to the treasurer on or before the first day of December, in the year of our Lord one thousand eight hundred and fifty seven, and the treasurer is hereby authorized to issue extents for all taxes, which shall then remain unpaid. Approved July 11, 1856.

AN ACT in relation to House of Reformation.

Be it enacted, &c.—SECTION 1. That the sum of fifteen thousand dollars be and the same is hereby appropriated to the House of Reformation for juvenile and female offenders against the laws; for the purpose of erecting the building now in progress, according to the plan submitted by the commissioners, to this legislature, and for the purchase of a lot of ten acres of land, adjoining the said House of Reformation, a bond for which is now held by the commissioners, at one hundred dollars per acre.

SEC. 2. The Governor is hereby authorized and empowered to draw from time to time, by his warrant, said sum from the treasury of the state, and the treasurer is authorized, under the direction of the Governor, to borrow all, or such part of said sum, at such times, and in such portions, as may be necessary, at the lowest rate of interest at which the said can be obtained, not exceeding six per cent. per annum, payable at different times, within five years; and the treasurer for the time being is authorized to pay said sum or sums so borrowed, and the interest thereon, when the same shall become due, out of any money in the treasury not otherwise appropriated.

SEC. 3. It shall be the duty of said commissioners to apply the aforesaid appropriation exclusively to the purchase of the land mentioned in section first aforesaid, toward erecting, finishing and preparing for use the centre building, provided for by the plan aforesaid, and so to fit and arrange the same as to accommodate the largest number of inmates, having reasonable regard to a future completion of said plan, and also to finish both the interior and exterior of said building in thorough and suitable manner, and with strict economy, and dispensing with all unnecessary embellishments, and to defer the erection of the remaining buildings until further action of the legislature, and until such action, shall not expend on said main building a sum exceeding twenty-five thousand dollars.

SEC. 4. This act shall take effect from and after its passage. Approved July 12, 1856.

AN ACT in amendment of Sec. 19, of Chapter 1659 of the Pamphlet Laws.

Be it enacted, &c.—SECTION 1. That the law terms of the supreme judicial court, for the fifth judicial district, consisting of the counties of Grafton and Coos, shall be holden annually at Haverhill, on the Tuesday next after the fourth Tuesday of December, and at Lancaster on the third Tuesday of July.

Approved July 12, 1856.

AN ACT in amendment of chapter 1667 of the Pamphlet Laws.

Be it enacted, &c.—SECTION 1. The Supreme Judicial Court of this state, and the officers and functionaries of said Court, shall herafter hold, have and exercise the same jurisdiction in the administration of the laws of Congress, commonly known as the naturalization laws, as is now possessed and exercised by the Court of Common Pleas, and the functionaries of said Court under the act to which this is an amendment.

SEC. 2.—Section three of the act to which this is an amendment, shall be, and hereby is, so modified and amended that when any person otherwise qualified, who shall claim the right to vote by reason of naturalization papers, issued to him by any court in the United States, shall present his said naturalization papers thirty days at least before the day of election, to the selectmen of the city, ward, town or place in which he resides and has his home, and the said selectmen are satisfied that said papers are in due form, and were issued by a court having jurisdiction in such matters, and that the party producing them, is the party to whom they were issued; such persons shall have a right to vote in such city, ward, town or place, and said selectmen shall cause his name to be entered on the check list of such city, ward, town or place, and be continued on said list so long as he shall remain a resident of such ward, town or place, and entitled to vote therein.

SEC. 3.—Neither this act or the act to which this is in amendment shall be construed as affecting the right of any person to vote in any city, ward, town or place, whose name had been on the check list of such city, ward, town or place, and who had been allowed to vote therein before the passage of the act to which this act is an amendment.

SEC. 4.—All acts and parts of acts inconsistant with this act, are hereby repealed.

SEC. 5.—This act shall take effect from its passage. Approved July 12, 1856.

AN ACT to regulate the duties of County Commissioners and for other purposes.

Be it enacted, &c.—SECTION 1. It shall be the duty of the County Commissioners to attend, for the discharge of the duties of their offices as long as may be necessary, during the first week only, of the term or terms of the court of common pleas, in the respective counties at which pauper claims against such county have usually been presented for allowance.

SEC. 2.—The seventh section of an act entitled an act to establish the terms of the superior court, and to alter the organization thereof, passed July 4th, 1851, is hereby repealed.

SEC. 3.—All authority conferred upon the justices of the court of common pleas or any one of them, to perform acts in vacation, is hereby in like manner conferred upon the justices of the present court of common pleas, or any one of them.

SEC. 4.—The sixth section of chapter 245 of the compiled statutes, shall be, and the same is hereby so amended that parties in actions, shall not be allowed for more than twelve days attendance in any action pending in the supreme judicial court, or court of common pleas except at the term at which such action shall be tried by the jury.

SEC. 5.—All acts and parts of acts, inconsistent with the provisions of this act, are hereby repealed.

SEC. 6.—This act shall take effect from its passage. Approved July 12, 1856.

AN ACT to provide for the repairs of houses of public worship.

Be it enacted, &c.—SECTION 1. That when any building used as a house of public worship shall, in the opinion of the major part in interest of the proprietors thereof, need repairs, it shall be lawful for any one or more of the proprietors to call a meeting of all the proprietors, at such house of public worship, to consult and agree about repairing the same; of which meeting due notice shall be given, and which notice shall be in substance as follows, to wit:

To A. B. of in the county of and State of greeting.

You are hereby notified that our house of public worship, in needs repairs, in order that the same may be of use to the concerned; and a meeting of the proprietors thereof, will be held at said house on the day of at o'clock, in the noon, when and where your attendance is requested. Dated at on

Which notification, signed by one or more of the proprietors, or a true copy thereof given to any other proprietor, or left at his last or usual place of abode, or deposited in the post office, directed to him at his usual place of abode, not more than thirty nor less than ten days before the day of said meeting, shall be deemed sufficient notice, and may be proved by the testimony of any disinterested witness who gave or left the same, or saw it done.

SEC. 2.—That if any proprietor so notified shall neglect to attend any such meeting, or being so met shall neglect or refuse to agree with the major part in interest of the proprietors of such building to repair the same, the rest of the proprietors, being the major part in interest, may cause the same to be done; and shall be reimbursed or paid such sums as they or any of them shall advance thereon beyond their respective proportions, with interest on the same, out of the rents of the pews or slips of such non-paying proprietors, or any other building, and shall have a lien on such pews or other source of income for the purpose of being reimbursed for such repairs, which lien shall continue notwithstanding the proprietors so neglecting or refusing may decease or may alienate their interest in such house of public worship.

SEC. 3.—Each individual owner in such building shall be entitled to one vote, and at the meeting herein provided for, a committee of three shall be elected by ballot, which committee shall appraise each interest and establish the proportion each interest shall bear to the whole, and the charges for such repairs, shall be assessed upon each interest of each proprietor, agreeably to the proportion established by such committee.

SEC. 4.—This act shall take effect and be in force from and after its passage.

Approved July 12, 1856.

Morning Chronicle.

MONDAY, AUGUST 11, 1856.

THE PRINTERS' CELEBRATION.—At the annual meeting of the New Hampshire Historical Society, held at Concord on the second Wednesday of June last, a vote was passed, on motion of Rev. Nathaniel Bouton, that this Society approves of the proposition to celebrate, during the present year, the centennial anniversary of the introduction of Printing into this State; and that a committee be appointed to confer with any individuals, societies, or committees engaged in, or appointed for the purpose of carrying out the proposition.

Messrs. Chandler E. Potter, of Manchester, Nathaniel Bouton, and William Prescott, of Concord, were appointed as that committee; and have notified us that a meeting of the printers, publishers, editors and other gentlemen, favorable to such a celebration, will be be held in the Police Court Room in the city of Manchester, on Wednesday, the 13th inst., at 11 o'clock, A. M., to decide upon the time and place of having such a celebration, and to make the necessary arrangements for the same, if it is thought advisable to have one.

Now as the first printing press was set up in Portsmouth, and the first newspaper (N. H. Gazette) established here, the celebration should be held here. But the expenses of such an entertainment would be considerable — probably several hundred dollars; and somebody would have to work hard to raise it—besides working harder afterwards to carry the thing through in proper style. The affair would be creditable as well as profitable to our city, and we should very much like to have the gathering here. We presume, however, it will be held in our younger, enterprising sister city, Manchester.

[Correspondence of the N. Y. Evening Post.]

WASHINGTON, Aug. 6, 1856.

The election news has had an exhilarating influence on the Republicans in Congress, especially the returns from Iowa and from the St. Louis district of Missouri.—Blair's election was hailed with joy, although he enters the House unpledged to any organization, the only promise made by him on the stump, being that he would support Democratic measures whether under a Buchanan or a Fremont administration. Kennett, his defeated Know Nothing antagonist, and now the sitting representative, is charged with bidding high for Democratic support, and even to have created some division among Democrats, by writing a letter promising to sustain, if re-elected, the administration of Buchanan.

As for Iowa, though a small State in population, the result of its State election was awaited with anxiety, as a defeat of the Republicans might have had a disastrous effect on the Presidential struggle in the Northwest generally. A rout in Iowa might have been followed by a demoralization of the neighboring States.

Senator Wilson has received a letter dated Philadelphia, August 2d, from Mr. Sumner, who was then about starting for Cresson, Cambria county, in the western part of Pennsylvania. The air of Cape May had not proved so beneficial to his health as was expected, and he writes that, though improving slowly, he had just experienced three bad days, which had somewhat set him back in his recovery.

In regard to John W. Geary, the new Governor of Kansas, it is stated by his friends that while in California he was the first judge to decide that Chinamen were not white men, thus depriving them of the right to vote and subjecting them to the payment of a mining tax not imposed on white citizens of California; and that, too, when he might have made eight thousand dollars by a contrary decision. It is fortunate that he will not be in a position to oblige his political friends by putting the free state men of Kansas under similar disabilities.

THE WHIG VOTE OF NEW HAMPSHIRE. The Concord Statesman says:

We know what we say,—we speak from information of a nature that cannot be properly denied, when we say—that nearly the entire vote cast for Mr. Goodwin for Governor, last spring, will be given to the People's Candidate, John C. Fremont. There is within the Granite State no more firm supporter of Fremont than Ichabod Goodwin, and if those who voted last spring for him, desire to afford a further evidence of their regard, there is no course by which more directly to accomplish their purpose than by voting for Fremont.—They will do so nearly in a body.

THE STORM of Rain, Thunder, and Lightning, on Friday and Friday night, was very extensive, and somewhat disastrous. The Traveller of Saturday evening says:

About 12 o'clock last night, the steeple of the orthodox meeting-house in Malden, as we learn from the editor of the Malden Messenger, was struck by lightning. The lightning descended on each side of the tower, making a complete breach in the house from below the beltry to the ground—in its descent cutting off a course of bricks (the basement) as smoothly as could have been done by the most skilful mason. A stick from the steeple about ten feet in length was projected through the roof close to the eaves, about half way up the body of the house, and still hangs there. Boards, bricks and plastering are lying round in the wildest confusion. There was no lightning-rod on the house.

We hear a report that the church at North Hampton, N. H., was struck, and considerably injured.

The floods on all the rivers in New Hampshire, occasioned by the last week's rains, were very great and destructive.

☞ The Cleaveland (Ohio) Leader states that Judge McLean has granted a writ of habeas corpus for Mr. George W. Brown, editor of the Kansas Herald of Freedom—now in prison there for high treason. The offense being against the United States, comes within the province of a U. S. Judge to inquire into. Where he will hear the argument, is a question of much interest.

☞ Fishermen have recently noticed in Massachusetts bay a peculiar whiteness of the water, attended by a scarcity of fish. This latter circumstance may perhaps be attributable to the presence of a school of sharks, which, we understand, have been prowling about the fishing grounds, for some days past.

STATE TEMPERANCE COMMITTEE.

COUNTERMANDED.—The Meeting of the New Hampshire State Temperance Committee, at Manchester, advertised in the Chronicle and Phenix of Saturday, Aug. 9th, is not to take place. The notice was already printed, when we received the following letter.

Manchester, N. H., Aug. 6, 1856.

Mr. Miller:—Dear Sir—If the notice sent you a day or two since, to call a meeting of the State Temperance Committee, is not already published, I wish you would not insert it—for the reason that the Committee have unexpectedly had a meeting. And I will endeavor to send you a record of their doings, for the next paper.

Yours, truly, J. W. RAY,
Secretary State Tem. Committee.

THE DAILY CHRONICLE. — Among the many pleasant notices bestowed upon us by the fraternity, we copy a portion of the remarks of the two Manchestea Dailies—each of which, it will be seen, in their general negative statements of what a daily should be, seems to be hinting at some body. The Mirror, the first Daily *established* in New Hampshire, first spoke thus:

The Portsmouth Chronicle has been enlarged, and Frank W. Miller has become sole proprietor; Samuel Gray, who has been connected with it since its start, having retired from the vexations of newspaper life. The Daily was commenced four years ago, amid doubts and fears, and was then the second daily in the State, the Mirror being two years its senior. It was predicted it would come to a speedy death, but lived along in spite of the predictions, and now is above board, and enabled to enlarge its columns. We rejoice exceedingly in its prosperity, as for a long time our only contemporary in the State. Mr. Miller is practical and popular, and makes a spicy, choice local paper. He seems to be aware of the fact that the salvation of the union of these states, the destinies of nations, and the advance of science and literature are not the primary objects of his paper, but that the people of Portsmouth take it for its local news. Hence its success. The little country sheets that have tried to *compete* with the New York Herald, Tribune and Times, or even the Boston Dailies, in getting news from all quarters of the world, discussing the profoundest questions of the day, have overshot the mark generally, and kicked their owners over.

A day or two after, the Daily American said of the Chronicle:

This excellent newspaper has been enlarged and much improved in appearance; and the price put up to $4 per year, and two cents per copy. The Chronicle has been started four years, and has been exceedingly prosperous—owing in a large part, we have no doubt, to the activity and tact of our friend Gray, who now retires from any pecuniary interest in the concern. Mr. Gray is one of the most agreeable members of the fraternity in New Hampshire, and we are sorry to lose him. The Chronicle will undoubtedly continue to be, as it has been, a favorite with the people of Portsmouth. It has always been creditable to that city, as it has never been a retailer of trash, but has always remembered that character is worth something to a newspaper as well as an individual. Moreover it is correct in principle, and is not in the market to be bought over to the service of locofocism under a disguise. It is just such a paper as the people of Portsmouth ought to support.

PRICES OF NEWSPAPERS.—Amid the multitudes of daily papers in the country, but very few of them are to be had for a penny.—Of the dozen Boston dailies, three only are sold for a cent; in New York, we think only one or two. Worcester has three dailies, of which we think one or two are pennies; New Bedford, we believe, has three two-centers; the Newburyport Herald is four dollars per year, or two cents a copy; Portland has three dailies, at five dollars a year; and penny papers are scarce everywhere, though not so scarce as they ought to be. A Daily worth having, is worth paying more money for.—We regret not having acted on this belief long ago.

☞ Miss Watkins, a lady "slightly tinged with African blood, slender and graceful in appearance and manners, and with voice soft and musical almost as a syren," has been lecturing against slavery. She spoke to crowded houses in Bath, Me., last week; and in Court street church, Newburyport, on Sunday evening.

In referring to the death of Elizabeth Rodman, relict of the late Samuel Rodman, Sen., in New Bedford, on the 2d inst., the New Bedford Mercury says:—"Her life has almost spanned a century. The events of three generations have passed before her. The years of her youth were spent under the rule of royal governors. Her grandfather owned the ship which carried that ill fated cargo to Boston and made its harbor the scene of one of the acts that opened the American Revolution—resulting in the birth of a great and independent nation."

ANOTHER CHIME.—Says "Belle Brittain," in the New York Mirror:—

Everybody voted the Fillmore hop a perfect success. It was the best attended; and the ladies looked their prettiest. The room (the dining saloon) was brilliantly lighted; and there was a rich display of fringes and flounces, necks and necklaces. A very superb looking lady from New Orleans, wore a boquet of diamonds, pearls, and precious stones, which "they say," cost $20,000! It made all lesser trinkets "pale their ineffectual fires." It is no use trying to eclipse everything. Be as brilliant and extravagant as you will, some provoking Madame All-cash will be sure to outshine and outdash you. This dressing for show is a rather costly and unsatisfactory business. What a pity it cannot be dispensed with altogether.

MAN DROWNED AT LACONIA.—Mr. Harford Davis, a young man about 25 years of age, foreman in Whicher's Pail Factory, at Laconia, was drowned in the Winnipisaukee river, at that village, last week. He was last seen about 10 o'clock in the forenoon, sitting near the river, *vomiting*, and is supposed he might have gone to the water, and perhaps being unconscious, fell in and was drowned.—His body was found about half past seven in the evening, a short distance below the bridge.

A man named Coffee, living in Bridgeport, Ill., shot a woman in that place on Sunday afternoon. It appears that he was firing a gun near her house; she had a sick child and remonstrated with him for so doing, when he became exasperated and fired the contents of the gun into her left breast, mangling her fearfully.

"THE COOLIE SLAVE TRAFFIC."—The Washington correspondent of the Journal of Commerce says: "The communication from the President relative to the African and Coolie slave traffic is very important. It contains facts in addition to those presented in the former document, and shows that the trade to Cuba in these slaves is on the increase."

DIDN'T COME.—Mr. Corser, the able and efficient Superintendent of the Grand Trunk Railroad, desirous to accommodate all coming to the Buchanan convention at Portland on Thursday, very early in the morning sent up a special train of seven cars to bring in the passengers. The train returned to the city about ten o'clock, with one female passenger!—*Portland Adv.*

WHO WILL WHEEL THE APPLES?—It is said that Major Poore's wager has been taken, namely—that if Fillmore does not receive more votes than Fremont, in Massachusetts, he, Poore, will wheel a barrel of apples on a wheelbarrow from Newburyport to Boston; or, if Fillmore receives the most, the taker of the bet shall convey the apples in the same way from Boston to Newburyport.

RELIGIOUS PLATFORM.—The Charleston (S. C.) Baptist, in an editorial on the "Hard-Shell Baptists," says that they are Antinomian in their views, that they oppose all literary, missionary, and educational enterprises, and that they will receive nobody into their communion, not even a regular Baptist, without re-baptizing.

MYSTERIOUS DISAPPEARANCE. — A clairvoyont physician at Newburyport, suddenly disappeared a few days since. His friends would feel more anxious for his safety, were it not that his furniture left at the same time. A few hundred dollars sent to the address of his landlord, grocer, milkman, baker, &c., would somewhat allay the anxiety felt in his behalf.

A bear weighing 270 lbs. was killed in Columbia, N. H., last week. When first seen he was partaking of a hearty breakfast of fat mutton. Two cubs were taken alive in Errol, N. H., a few weeks ago.—They were sold for $30.

MISS I. T. HAVEN will resume her School on Monday, Sept. 1st., 1856. au6 2w.

HEALTH AND STRENGTH.

☞ DR. S. O. RICHARDSON'S SHERRY WINE BITTERS is the best Medicine ever used, for Summer Complaints. It has been more liberally patronized than any other ever established in this country. It is the same Richardson's Bitters which has restored so many invalids to health throughout New England during the past thirty years.

N. B.—Beware of imitations called Sherry Wine Bitters. The genuine have a fac simile of my signature upon the outer envelope. For sale by Druggists everywhere, and at my office, No. 51 Hanover St., Boston. aus*6m

WORTH KNOWING.

Prof. Wood, of St. Louis, has discovered a remedy for the grey and bald, which is at once practicable and cheap. It requires no dyeing, no wig, no extraordinary trouble. There can be no doubt whatever of its efficacy. We have seen testimonials almost without number, and from men of great intelligence, high standing and moral worth.

Those who have been bald for years are now wearing their own hair, and appear ten years younger than they did six months ago. As in most cases grey hairs and bald heads are both premature and unnatural, it is a duty to remedy them by the natural and undoubted means which Prof. Wood has invented, and now kindly offers to the afflicted. Try his wonderful remedy, and give the Professor a new testimonial.—*Memphis Whig*

"If you are Coming, Why don't you Come along?"

THAT is the "mot" now-a-days. Every locomotive on every Railroad shrieks it. It is daily rapped out on every Telegraphic Line in the country. The echoing blows of our Ship Carpenters hourly exemplify it. The smith at his anvil hammers it out. The clanking Press with breathless haste, sends the cry home to every family—"If you are coming, why don't you come along?"

It is uttered in an hundred tongues in a hundred lands. It has sounded like a slogan through the political world, and the "Old Fogies" are creeping along among the baggage wagons and the wounded. Thought, that moved at a funeral pace, now rushes on a tremendous charge; and all the old remedies for Liver Complaint have given way for

HOLMAN'S SPRING BITTERS.

"*If you are coming, why don't you come along.*"—Six paces to the front, is the word to everybody and everything that wants to be listened to or looked at. If you have anything to do, *do it*; if you wish any person to see anything, *show it*; if you have anything to be cured, CURE IT WITH

HOLMAN'S SPRING BITTERS.

"*If you are coming, why don't you come along?*"—If you have a Bottle of Holman's Bitters in your house, you need not suffer from

Biliousness, Weakness at the Stomach, Indigestion, Heartburn, Lowness of Spirits,

Nor any of the diseases incident to the season.

It used to take six men to make a pin; now one boy, a pull, a clip, and two strokes, and that's the way the pins are made. Once it took a Physician, lots of precious time, and quantities of nauseous drugs to cure some simple disease of the Blood.—Now, a quarter expended in

HOLMAN'S SPRING BITTERS

Brings Life and Health, flowing spirits and rosy cheeks.

"*If you are coming, why don't you come along?*"—If you are sick and weak, why don't you cure yourself? Here we offer you the article that will do it—there is no mistake about it. Every body knows about HOLMAN'S BITTERS; they have been tried and have "toed the mark straight."

They are a *good* medicine; they are *better* than anything else for all Spring Complaints; they are just the *best* Bitters that can be bought—and that's the best thing we can say about them. "*If you are coming, why don't you come along,*" before they are all gone?

Also, a lot of Remnants at Cost.

A great variety of Shades, Curtains, Fixtures, Tassels and Cord.

Please call and examine. 1y4

LOCAL.

THE STORM.—We are indebted to Mr. seph H. Hart, who was on board the ebt Sibyl when she was struck by lightng, on Friday last, on her way to the oals—for the names of the parties most jured, and other particulars. The lady, o suffered most, was Mrs. Phebe F. Lawn, of New York; she was badly burned her neck, breast and body—a gold neck ain, with half the stone in the slide, beg melted on her breast—but she is doing ell—at the Shoals, with her husband. Mr. Oscar Rines, of Newburyport, was dly burnt on his legs—but has recovered as to be able to walk.

Mr. Jonathan Nichols, of Goffstown, N. ., received the electricity in his mouth, d was also struck on his arm—was delirus for a time, but is recovering.

The twelve or fifteen persons in the cht, were all more or less affected.—apt. Preble, who was at the wheel, was rown forward and down. Mr. Hart was st going below, and was crushed to the ck as if by a weight. All those who ere seriously injured, were below. The lt came down the mast, and passed out the companion-way. The Sibyl was ot materially injured, and made a trip to e Shoals on Saturday. Her gilt letterg, &c., is much discolored.

The schooner Sachem, of Gloucester, as at anchor in the Shoals Roads; and d her mainmast stripped and shattered.

We also learn that two schooners lying f our harbor were struck—and a man lled on board one of them—the bolt, it is ought, passing down his throat. The ainmast of this vessl was also splintered, nd a signal of distress made to the other hooner, near by—the master of which, it as found, was brother to the man who lay ead. He was taken to Rockport, Mass., r burial — but we could ascertain no ames.

A seaman on board this second schooner as struck on the inside of his elbow, so at his arm doubled up, and remains so.

☞ We would refer our readers to the dvertisement of Mr. W. F. B. Jackson in -day's paper, in which he announces hat he will open a select school for boys n this city, Sept. 1st. Mr. Jackson comes o us highly recommended, and from a pernal acquaintance we can confidently ommend him to the favorable notice of ur citizens.

REMARKABLE CIRCUMSTANCE.—Chase Hill sq., of Concord, whose name occurs below, few days since furnished the Concord Stacman with the folowing remarkable fact:—

In September, 1814, a company of artillery n Stratham, this State, commanded by John Vingate, was drafted for fifteen days, and marched to Portsmouth, for the defence of hat town against apprehended attack from he English. The first section of the Compay consisted of seven men, viz.: Merrick Piver, Samuel Brewster, John Rundlett, Samul R. Piper, Andrew Taylor, John Thompson nd Chase Hill. The remarkable fact is to come:—*Every one of those men is living*, and has received his warrant for 160 acres of Government land.

☞ The Daily Chronicle may be had of our Carriers, at 8 cents per week. Single copies 2 cents. $4 per year in advance.

ENGLISH CHURCH LAW.—A novel case has been decided in England in favor of a clergyman of the Established Church, which has excited some comment in the public journals. In the Court of Arches, a clergyman pleaded guilty of gross acts of intoxication and the use of profane and indecent language. It even appeared that on one occasion he took with him to church, when about to officiate therein, a bottle of spirits, of which he drank a considerable portion, so as to render him unfit to decently perform the service. Yet, notwithstanding he had already been suspended for a similar offence, and reinstated in his curacy, the court (Sir J. Dodson) refused to deprive him of his office. His Honor said: "I should be very unwilling to pronounce a sentence of deprivation *upon grounds which have never been considered sufficient for that purpose*. I think I shall adequately punish Mr. Pughe by suspending him for a longer period than any clergyman has ever been suspended before for an offence of this kind, namely, for five years *ab officio et beneficio*, at the expiration of which time he must produce a certificate from three beneficed clergymen in the neighborhood as to his conduct during that period

EFFECTS OF GAMBLING.—A case of family shame from gambling came out in Chicago last week. A $500 diamond breastpin was found by the police in the hands of some low gamblers, and upon investigation it was discovered that it had been gambled away by the brother of the young lady who owned it.

CARRIAGE MAKING.—There are about 1,430 persons and $744,000 worth of capital employed in carriage making in the two cities of New Haven and Bridgeport, Conn., alone. Some one has proposed to change the name of the latter city to Coachport, on account of the promise of this business.

THE ELECTIONS.

There is no doubt of the election of Francis P. Blair, Jr., to Congress from the St. Louis district in Missouri. The official canvass gives him 484 plurality over Luther M. Kennett, American, the present member. This is a very remarkable election as the first of the new Congres. Mr. Blair's political views are nearly those of the republican party. He was elected in competition with both an American and an anti-Benton Democrat. The vote was, Blair, 6033; Kennett, 5549; Reynolds, 2181.

Mr. Caruthers is reelected to Congress from the seventh Missouri district. It is impossible yet to say what is the result in the gubernatorial contest, and in the other five Congressional districts.

KENTUCKY.—Only about one quarter of the State is heard from, but these counties give a democratic gain of about four thousand over the last election, when the Americans had a majority of only 4403 in the State. In this proporiion for the whole State, the democrats will have a majority of about 10,000. The American party is thus signally defeated. This result is significant, because Kentucky gave the best chance (except perhaps Maryland) of all the Southern States of going for Mr. Fillmore in the presidential contest. It is now clear that this result cannot be expected. The opinion which we long since expressed that Mr. Fillmore would not carry a single State, has thus received confirmation.

IOWA.—It is pretty certain that the republicans have carried Iowa, including both members of Congress. This is a gain of one.

TEXAS.—no returns yet received.

ARKANSAS.—Carried by the democrats, of course, including two members of Congress.

NORTH CAROLINA.—In this State, as well as in Kentucky, the know nothings have been beaten by the democrats.—*Boston Adv.*

CONGRESS.

FRIDAY, August 8.

SENATE.—The Senate passed the House bill, granting a million and a half acres of land to Mississippi for railroad purposes.

HOUSE.—Mr. Washburne of Me., reported a resolution to pay Gov. Reeder mileage and per diem to the time that his claim to a seat as delegate from Kansas was decided. Adopted by 23 majority.

A TWO-HEADED CHILD.—The birth of a child with two heads, has created much gossip in the locality of Temple street, Bristol, England, and, indeed, wherever the intelligence of the arrival of this little stranger has reached. The mother is the wife of Mr. Lock, Baker, 120 Temple street, and the child, a boy, is living, and was a fortnight old on the 8th ult. The ordinary head of the child is of the natural size, and has a really beautiful face: the superfluous head projects from the right side of it, and is about the size of a man's fist. The child has four eyes, four ears, and two mouths, but there is no chin to the smaller head; the mouth is deformed, and the eyes have become useless; they have lost their lustre and are falling out of their sockets. There is an internal connection between the two heads, for when one mouth works, the other works; when it cries the sound issues from both; and when the child is fed, the second moves as if craving food; and we believe it may be fed at either.—Up to the present time the child has thriven, and the faculty are divided as to its prospect of existence, some holding that it may live about a fortnight longer, while others seem to reason why its days may not be prolonged to the natural term of man's life.—[Bristol Mirror.

THE WINE OF OLD AGE.—At an advanced age, when the physical powers of the body are declining, and second childhood approaching, and the period when comparatively little exercise only can be taken, the body does not require the same solid food. Nature points out the use of milk and light farinaceous matter as an aliment, as being more natural, and adapted to that period of life; such food alone is sufficient to keep the body in a healthy, cheerful, and happy state. It has been erroneously stated that "wine is the milk of old age:" I believe the truth is, the milk is the wine of old age, for both the first and second childhood, the most natural and the most nutritious. Dr. Erasmus Darwin used to say "Milk is white blood." The oldest individuals I have known, have lived principally upon milk diet. Second childhood may be treated much in the way as directed by the late Dr. James Hamilton, Professor of Midwifery in the University of Edinburgh: "Plenty of milk, plenty of flannel, and plenty of sleep or rest."—*J. Higginbottom, F. R. S.*

The Shreveport Gazette, referring to that stupid hoax which has recently been played off upon the Cincinnatians, of a "wild woman," says the parties are well known there. The principal speculator, Northcott, was a carpenter there, and the "wild woman" his mistress.

☞ At a foot race last week at Ling's Course, Portland, Me., in the presence of several hundred people, Grindall ran five miles in 27 minutes and 5 seconds, beating Cook, his competitor, by two minutes.—Stetson was sick, and could not be present.

From the Boston Saturday Evening Gazette.

A PERFUMED BREATH.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A BEAUTIFUL COMPLEXION may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and roseate hue. Wet a towel, pour on two or three drops, and wash the face night and morning

SHAVING MADE EASY.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," rub the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

W. P. Fetridge & Co. Proprietors, 328 Pearl street, New York, and 100 Washington street, Boston. For sale in Portsmouth by William R. Preston. 6mje16

H. R. COBURN'S
OIL WORKS.
Established, 1842.
H. R. COBURN'S TALLOW OIL.

This Oil has qualities peculiar to itself alone; its great body and substance giving it a lasting and wearing power, that with a single exception, (sperm oil,) is unequalled. Its high lubricating power, being so rich in unctuous matter, that compared with most oils, it is like cream to the skim milk. Entire absence of gummy matter, keeping machinery cool under any rate of speed, and the different parts thoroughly and effectually oiled.

This Oil is a great favorite with engineers, who say it is the only oil that will answer in steam cylinders. For Lighthouses, Signal Lights, Locomotive Head Lights, and the like, it will give a reliable and brilliant light, and do all that sperm oil will. The Winter Tallow Oil will stand thirty degrees Fahrenheit. When quality and price are considerd, this Oil will be found at the head of the list, by those who combine effective service with strict economy. This Oil has been in constant use from one to two years, in some of the first establishments in the country, to which reference will be given.

H. R. C. manufactures Winter Lard Oil, equal to any in the market. It is made with ice, and will stand cold weather.

H. R. COBURN'S EXTRA OIL

is made with care, from the best selected Lard only. Every additional year since its introductfon, has added to its good reputation and standing, and for years it has been known as a *uniform standard Oil* for machinery and burning. It will stand the cold, and the attention of grocers is particularly invited to it.

Derbois' Female Compound & Restorative.

Strength, Beauty, Health, and Happiness!—Such was our First Mother's portion. Such should her daughters be Yet who would look for these amid the universal prevalence of Leucorrhœa, Menorrhœgia, Fluor Albus, Weakness, Sinking Debility, General Prostration, and the other complaints peculiar to the female, which sap the vital energies of her system, and send her to an untimely grave, the victim of lingering sufferings from neglected disease.—DERBOIS' FEMALE COMPOUND cures all these: to thousands it has restored health, brought back the fading bloom, given new life and vigor to the ailing,—in short, it has proved itself *woman's best and unfailing friend in her diseases.* To be obtained at No. 1 Tremont Temple. Price $3 per package. Circulars with recommendations from many ladies cured by its means, furnished gratis. Office for the treatment of complaints peculiar to females, No. 1 Tremont Temple, Boston, Mass. PROF. F. H. DOANE, M. D.

BOSTON ADVERTISEMENTS.

Young Married Lady's Private Medical Guide.
BY PROF. F. H. DOANE, M. D.

How beautiful is the idea of the wife, in sacred literature! Polished corner stones—walls of cedar—fruitful olive trees—all choicest emblems of combined strength and beauty. Such should woman ever be. Yet who that views so universally *her pale cheek, sunken eye,* and *inability to endure fatigue,* could say that such she is? Maiden, wife, mother, would you know the reason? read the "Private Medical Guide." Simple, plain, modest, yet full of instruction, no lady who prizes her health and happiness, can afford to be without it. So say thousands who have availed themselves of its knowledge, and been benefitted by its remedies. Designed only for the virtuous to furnish information all-important to woman's health and happiness. It is not for sale at the book stores. Beautifully printed, bound and gilt; price $1. Circulars and recommendations furnished *gratis.* All letters of enquiry must contain a letter stamp to prepay the return. Address or apply to PROF. F. H. DOANE, M. D., No. 1 Tremont Temple, Boston, Ms. The above work will be sent by mail or express to all parts of U. S., securely enclosed, on receipt of price.

DR. CONVERS'
INVIGORATING CORDIAL,
AND NERVOUS ANTIDOTE.

This Cordial is the only remedy for those sad derangements of body and mind, caused by early and improper habits of youth.

N. B. That involuntary nocturnal loss of physical energy, productive of much mischief to the nervous system, incapacitating the victim for business, society, or matrimony, is speedily restrained by this Cordial. It is the only remedy which has effected the desired result in this malady.

Dr CONVERS may be consulted personally or by letter, without charge, at his office 321 Hanover st., Boston, where all orders for the cordial should be sent. Dr. Convers' Medical work, 175 pages—

The Beacon; or, Guide from Youth to Manhood

—is the most important work ever published on these complaints. To young men it is invaluable. It will be given to those who purchase 3 bottles of Cordial.

SUPERIOR GLOSS PAINT.
STETSON'T PARLOR WHITE
Is the most perfect and unchangeable white paint in use, forming, when properly applied, a rich enamel surface. It is particularly recommended when the nicest work is required, as in Parlors, Ship or Steamboat Cabins, &c., is readily mixed, and flows as easily as other paints. For sale by manufacturers, STIMSON, VALENTINE & CO., No. 55 Broad street, Boston. The above is put up securely in 10 and 20 lb, cans, with printed directions for mixing and use.

THE BODICES HAVE ARRIVED!
Per Enoch Train. 19 *Cases.*
Great Reduction in Price.

MRS. ADAMS is about to fulfil her promise to sell all the Corsets to be sold in Boston this season. By large arrivals, she is enabled to reduce the price very much. Among them are the promised "BODICE CORSETS," an article constructed on the same principle as the Papita Bodice.

Mrs. A. would take the opportunity to guard the public against parties who pretend to have *her* bodices, but who cut off the ordinary ill-fitting German stays, and in instances open the busk place, inserting her beautiful French Button Fastening.

ADAMS' CORSET WAREROOMS
28 WINTER STREET,
Removed from Washington Street.

SPALDING'S ROSE MARY

1,000,000 BOTTLES of the celebrated ROSEMARY, for the hair, have been sold. It is one of the very nicest and best toilet articles in the world, and will, invariably, *ornament, cleanse, invigorate,* and give richness and brilliancy to the hair, make the scalp healthy, cool the head and relieve the headache. Every bottle genuine has the name of the proprietor on it. J. RUSSELL SPALDING.

Wholesale and retail Depot, 27 *Tremont Street,* opposite the Museum, Boston, Mass. J. H. Thacher Agent, Portsmouth, N. H.

It can be sent by Express with safety. Price Card sent to any dealer on application.

250 Cords Hard Wood Wanted.

SEALED and Separate Proposals will be received at the City Clerk's Office, in this city, until Wednesday the 20th day of August next, at 5 o'clock, P. M., for furnishing for the use of the Alms House in this City, 100 Cords of the first quality of Hard Wood, to be delivered at the Creek Bridge, on or before the 31st day of October next.

Also, 150 Cords, more or less, of the same quality, to be distributed to out door pensioners, in such quantities and at such times as shall be directed by the Overseers of the Poor, during the ensuing year.

By order of the Overseers of the Poor—

A Desirable Country Residence For Sale
IN GREENLAND.

A desirable residence, comprising a good two story DWELLING HOUSE, and from one to ten acres of excellent Land

The House is most thoroughly built of the best materials, and contains 11 good sized rooms. It is within two minutes walk of the P. & C. Railroad Depot, and within three minutes walk of a school house.

There is a cistern in the cellar, a good well of water on the premises, and extra outside windows and doors for winter. The garden contains apple, pear, peach, quince, cherry and ornamental trees.

For further particulars, inquire of James Hill, or of the subscriber, on the premises.
JAMES H. HILL.
Greenland, N. H., Sept. 14, 1855. 1stf

Secured by Royal Letters Patent in England and by Patent in the United States.

THE Subscribers, having been for a long time desirous of securing to the public a Needle that will not only be a superior article, but perfect in the Eye, recommend their "*Patented Gold Inlaid Needle.*" They are justly celebrated, and preferred above all others, the eyes being inlaid with gold and burnished, which renders the cutting or chafing the thread utterly impossible.—They are manufactured from the best steel, and tempered according to the most approved plan.—We therefore offer with confidence these Needles to the public, having secured them against all frauds or imitations either in Paper, Label or Needle. We desire all parties purchasing these Needles to be cautious in the selection of them, as unprincipled persons have sought to imitate our style, and thus palm off an inferior article, notwithstanding the heavy damages we have recovered from various parties; and a reward of $500 will be paid for such information that will lead to the detection and conviction of any person or persons thus engaged. None are genuine except those labelled on the back, '*Warranted by R. Crossley.*' A liberal discount will be allowed to dealers who purchase in large quantities.
WILLIAM CROSSLEY & SON,
Oversly Mills, Alcester, England.

Having made arrangements with the Manufacturers of the above brand of Needles (which I earnestly recommend as the best Needle in the market,) I am prepared to sell them
Wholesale at $1.60 per M.
Retail at 6¼ cts. per paper of 25.
Assorted or separate numbers, sharps and betweens.
HENRY PEYSER,

AYER'S
CHERRY PECTORAL,
FOR THE RAPID CURE OF
Colds, Coughs, and Hoarseness.

BRIMFIELD, MASS., 20th Dec., 1855.
DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of those complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, Esq., of UTICA, N. Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.
SPRINGFIELD, MASS., Feb. 7, 1856.
BROTHER AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of *Whooping Cough, Croup*, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.
HIRAM CONKLIN, M. D.

AMOS LEE, Esq., MONTERRY, IA., writes, 3d Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.
WEST MANCHESTER, PA., Feb. 4, 1856.
SIR: Your CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years. HENRY L. PARKS, Merchant.

A. A. RAMSEY, M.D., ALBION, MONROE CO., IOWA, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.
Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1855.
DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no aid we could procure gave her much relief. She was steadily failing, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. We bless his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.
Yours with gratitude and regard,
ORLANDO SHELBY, OF SHELBYVILLE.

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bear witness the high merits of its virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Sickness, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability; Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER,
Practical and Analytical Chemist, Lowell, Mass

THE MASSACHUSETTS
CHARITABLE MECHANIC ASSOCIATION,
RESPECTFULLY ANNOUNCE TO THE PUBLIC THEIR
EIGHTH
GREAT EXHIBITION
—OF—
AMERICAN MANUFACTURES & MECHANIC ARTS,
TO BE OPENED
AT FANEUIL AND QUINCY HALLS,
—ON—
Wednesday, 10th September,
IN THE CITY OF BOSTON.

☞ New inventions, improvements in the arts, and specimens of rare handiwork in every department of industry will be welcome to the Halls; and every facility will be afforded for a good display and the proper care of contributions.

Medals of Gold, Silver and Bronze, and a new Diploma designed by Billings, will be given to those whose articles merit such awards.

Communications from those who wish more particular information, and from those who will require much space, may be addressed to the subscriber.

JOSEPH L. BATES, Secretary.
Boston, June 7. 2aw2m

Clark's Female Pills.
The Great English Remedy.
Prepared from a prescription of Sir Jas. Clarke, M.D., Physician Extraordinary to the Queen.

THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES
It is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION.
These Pills should not be taken by females during the FIRST THREE MONTHS *of Pregnancy, as they are sure to bring on Miscarriage, but at every other time and in every other case they are perfectly safe.*

Sole Agents for the United States and Canada,
I. C. BALLWIN & CO., Rochester, N. Y.
TUTTLE & MOSES, Auburn, N. Y., General Agents.
N. B.—$1 and 6 postage stamps enclosed to any authorized Agent, will insure a bottle of the Pills by return mail.

For sale, wholesale and retail, by W. R. PRESTON, Portsmouth, and by one Druggist in every town in the United States.

Burr, Foster & Co. 1 Cornhill, Boston, Wholesale Agents for New England.

"Try me, and I'll do you Good."
DR. LANGLEY'S
Root and Herb Janndice Bitters.
The Great Spring and Summer Medicine.

THIS Medicine, composed of the best roots, herbs and barks in the world, has constantly increased in public favor for six years, until by its wonderful success, it is acknowledged to be the best and cheapest medicine in the world. It acts with magic-like power upon the strong holds of disease—cleanses the bowels, purifies the blood gives vitality to an inactive, torpid liver, cures Jaundice in all its forms, Dyspepsia, Costiveness, Indigestion, Headache, Dizziness, Sick Stomach, Fits, Pains in the Side and Back, Piles, Heartburn, Languor, Weakness, Pain in the Side and Bowels, all Bilious Diseases and Foul Stomach, and especially Humors of the Blood and Skin; —strengthening, healing, purifying, building up, and keeping in order the whole system. All persons ought to use them during the spring and summer.

Only 25 cents for a pint, and 37½ cents for a quart bottle. Office 90 Union St., Boston. Sold by all dealers in medicine, everywhere. mh13 6mp

Whalebone Skirts.
THE only object of a Whalebone Skirt is to give a proper, graceful and elegant form to a lady's dress. Unless this is accomplished, the article is entirely worthless. The Ladie, by referring to Frank Leslie's Gazette of Fashions for April, will notice that E. & J. HOLMES have from actual experience been successful in producing this most desirable article, and that their IMPROVED SEAMLESS SKIRT meets the unanimous approbation of the ladies. They are light, pliable, and easily adjusted, and the only Skirt which is equally adapted to the street and the crowd; are made in one piece or breadth, and in our opinion, and in the opinion of thousands of ladies who have bought them, the most reliable goods of the kind in the market. We were the first to introduce a Whalebone Skirt, and from our experience in the manufacture and retail of these goods, we have found that all kinds of cotton cord, and nearly all kinds of cord, and all starched goods, cannot be used satisfactorily, as they will not recover their place when pressed out of shape. We consider all

WHALEBONE SKIRTS

as worthless, of whatever material made, unless there is something of sufficient stiffness and elasticity, and at the same time yielding and pliable, to keep the dress in proper shape below the bones. To accomplish this we have our cord made under our own direction, and expressly for our goods, and from the only material that can be used that will recover its proper place when pressed out of shape, and are so twisted in manufacturing that they will not roll or curl when wet, and warranted to wash without injury. The public are cautioned against all worthless goods, as the market since our goods have become popular and extensively known, has been flooded with goods of all kinds, and put together without form or comeliness, or any other object but to sell, and of course are called Whalebone Skirts. Some imitators, in their efforts to profit by our reputation, have gone so far as to copy almost exactly our trade mark upon their goods.

Please Notice.—Every genuine article stamped, *E. & J. HOLMES'S IMPROVED SEAMLESS WHALEBONE SKIRT*, and may be found by the trade in many of the largest Jobbing Houses in New York and Boston, and at retail in the principal Dry Goods stores.

June 6, 1856. eo2m E. & J. HOLMES, Boston.

Great American and Foreign Office
For Securing Patents for Inventions.

Agency for business with US Patent Office, Washington
R. H. EDDY,
No. 76 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages in applying for Patents superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey so Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington.—Patents secured in Great Britian, France, and other foreign countries, through Agents of the highest respectability. **R. H. EDDY,**
Solicitor of Patents.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
Boston, Jan 11 1856 d6eodtp

Hartford Fire Insurance Co.
HARTFORD, CONN.
INCORPORATED IN 1810.
Capital $300,000—all paid in and invested.

THIS long established and well known Institution, has transacted a most extensive insurance business for more than forty years, throughout the United States and the British North American Provinces. It has aimed to secure public confidence, by an honorable and faithful fulfilment of its contracts; and owners of property are assured that all fair claims for loss under its policies will be liberally adjusted and promptly paid. Public Buildings, Manufactories, Mills, Machinery, Dwelling Houses, Stores, Merchandise, Household Furniture, Vessels on the Stocks or while in port, &c. will be insured as low as the risk will admit. FARM LANDS FOR SALE.
The Illinois Central Railroad Company
IS NOW PREPARED TO SELL
OVER TWO MILLION ACRES
OF
FARMING LANDS,
In Tracts of 40 acres and upwards, on long credits and at low rates of interest.

THESE lands were granted by the Government to aid in the construction of this Railroad, and include some of the richest and most fertile Prairies in the State, interspersed here and there with magnificent groves of oak and other timber. The Road extends from Chicago, on the northeast, to Cairo at the south, and from thence to Galena and Dunleith, in the north-west extreme of the State, and as all the lands lie within fifteen miles on each side of this Road, ready and cheap means are afforded by it for transporting the products of the lands to any of those points and from thence to Eastern and Southern markets. Moreover, the rapid growth of flourishing towns and villages along the line, and the great increase in population by immigration, etc. afford a substantial and growing home demand for farm produce.

The soil is a dark, rich mould, from one to five feet in depth, is gently rolling and peculiarly fitted for grazing cattle and sheep, or the cultivation of wheat, Indian corn, etc.

Economy in cultivating and great productiveness are the well known characteristics of Illinois lands. Trees are not required to be cut down, stumps grubbed, or stone picked off, as is generally the case in cultivating new land in the older States. The first crop of Indian corn, planted on the newly broken sod, usually repays the cost of plowing and fencing.

Wheat sown on the newly-turned sod is sure to yield very *large profits.* A man with a plow and two yoke of oxen will break one and a half to two acres per day. Contracts can be made for breaking, ready for corn or wheat, at from $2 to 2.50 per acre. By judicious management, the land may be plowed and fenced the first, and under a *high state of cultivation* the second year.

Corn, grain, cattle, etc. will be forwarded at reasonable rates to Chicago, for the Eastern market, and to Cairo for the Southern. The larger yield on the cheap lands of Illinois over the high priced lands in the Eastern and Middle States, is known to be much more than sufficient to pay the difference of transportation to the Eastern market.

Bituminous coal is mined at several points along the Road, and is a cheap and desirable fuel. It can be delivered at several points along the Road at $1.50 to $4 per ton; Wood can be had at the same rates per cord.

Those who think of settling in Iowa or Minnesota, should bear in mind, that lands there of any value, along the water courses and for many miles inland, have been disposed of;—that for those located in the interior, there are no convenience for transporting the produce to market, railroads not having been introduced there. That to send the produce of these lands, one or two hundred miles by wagon to market, would cost much more than the expense of cultivating them; and hence Government lands thus situated, at $1.25 per acre are not so good investments as the lands of this company at the prices fixed.

The same remark holds good in relation to the lands in Kansas and Nebraska, for although vacant lands may be found nearer the water courses the distance to market is far greater, and every hundred miles the produce of those lands are carried either in wagons or interrupted water communications, increases the expense of transportation, which must be borne by the settlers, in the reduced price of their products; and to that extent precisely are the incomes from their farms, and of course on their investments, annually and every year reduced.

The great fertility of the lands now offered for sale by this company, and their consequent yield over those of the Middle and Eastern States, is much more than sufficient to pay the difference in the cost of transportation, especially in view of the facilities furnished by this Road, and others with which it connects, the operations of which are not interrupted by the low water of summer, or the frosts of winter.

PRICES AND TERMS OF PAYMENT.

The Price will vary from $5 to $25, according to the quality, location, &c. Contracts for Deeds may be made during the year 1856, stipulating the purchase money to be paid in five annual installments; the first to become due in two years from the date of contract, and the others annually thereafter. The last payment will become due at the end of the sixth year from the date of the contract.

Interest will be charged at only 3 per ct. per ann.

As a security to the performance of the contract the first two years' interest must be paid in advance, and it must be understood that at least one tenth of the land purchased shall yearly be brought under cultivation. Twenty per cent. from the credit price will be deducted for cash. The Company's construction bonds will be received as cash.

READY FRAMED FARM BUILDINGS,
Which can be set up in a few days, can be obtained from Responsible Persons.

They will be 12 ft. by 20 ft. divided into one living and three bed rooms, and will cost complete set up on ground chosen anywhere along the road $150 in cash, exclusive of transportation. Larger buildings may be contracted for at proportionate rates The Company will forward all the materials for such buildings over the Road promptly.

Special arrangements with dealers can be made to supply those purchasing of the Company's lands with fencing materials, agricultural tools, and an outfit of provisions in any quantity, at the *lowest wholesale prices.*

It is believed that the price, long credit, and low rate of interest, charged for these lands will enable a man with a few hundred dollars in cash, and ordinary industry, to make for himself independent before all the purchase money becomes due. In the mean time, the rapid settlement of the country will probably have increased their value four or five fold. When required an experienced person will accompany applicants, to give information, and aid in selecting lands.

Circulars containing numerous instances of successful farming, signed by respectable and well known farmers living in the neighborhood of the Railroad lands, throughout the State—also the cost of fencing, price of cattle, expense of harvesting, threshing, &c. by contract—or any other information—will be cheerfully given, on application, either personally or by letter, in English, French or German, addressed to
JOHN WILSON,
Land Commissioner of Ill. Central R. R. Co.,
Office up to the 1st of May, 52 Michigan Avenue, Chicago, Ill.; after that date in the New Stone Passenger Depot, So. Water st. a8 6m

JOB AND CARD PRINTING promptly executed.

THE FLOOD.

A correspondent at Wentworth, N. H., under date of August 8th, gives the following account of serious damage there by a freshet—says the Boston Traveller:

"During a freshet caused by a large amount of rain which commenced fallling on the 5th, a dam at the outlet of the 'Orford Ponds,' so called, gave way; and the ponds, once at liberty, came rushing upon us, overran the dam near our village, and, undermining, carried away the grist mill belonging to Mr. David Harris, dwelling house and barn of Mr. Harris, dwelling house and barn of Mr. Jonathan Judkins, shop and dwelling house of Mr. Enoch Clark. Goods and furniture were saved. Fortunately no lives were lost.

The mad torrent cut down to the depth of from 15 to 20 feet, and washed away over an acre of land. A mill-stone which was taken from the mill and placed in a barn which afterwards went, is to be seen about two miles below where it went in.

Such a scene the people of this section never before witnessed, and they pray they may never be called to witness the like again. Damage to roads, bridges and all estimated at from $15,000 to $20,000."

A correspondent at Keene, N. H., under date of August 8, writes:—

"The thirty-six hours rain of the 5th and 6th, caused a freshet in the Connecticut said to exceed any for many years. Of course it has torn the railroads and bridges sadly.

I left White River Junction yesterday noon, hoping to reach New York that night. At Charlestown I had to walk around a demolished bridge; at Bellows Falls I was waylaid for the night at the Island House, the train having been left below Bellows Falls. The Valley road is impassable, the engine of a freight train having just broke through a bridge in Westminster, and fallen forty feet—nobody was hurt. The Falls presented a most bedlamite appearance, muddy, roaring, and full of flood wood—half a Niagara. This is a great change from two days ago, when you might have hopped from rock to rock across the channel. The Island House is full, and some slept on the floor. In the morning we tried to get to Brattleboro' by way of Keene. At Walpole we found a bridge carried away, and now see a long train of passengers crossing a flood of thirty rods, Indian file, on frail plank, with bag and baggage. We looked like the children of Israel crossing the Red Sea with Pharoah's chariots behind. Reach Keene an hour too late for the Springfield train, and must tie up till this afternoon. The rain is pouring in torrents. We expect to reach Springfield two hours after the express train for New York has left. Such are the vexations of travel in freshet time.

The Manchester American says;

The late rains must have been very much more severe to the north of us, than here, as the Merrimac ran with unprecedented rapidity, and to a great height. The water opposite the Manchester Corporation, as we are informed, rose just 11 feet, when at its highest point, and it plunged over the dam at the Falls with all the pretensions of a spring torrent. Norcross's boom having given out, the logs started over the dam, and there was an immense snarl of logs and floodwood between the piers of the bridge, and at the entrance of the canal. At Laconia, Claremont, and in the north part of the State it commenced to rain on Tuesday, while at Portsmouth not until Wednesday morning.

The Claremont Eagle says that on Sugar river, which runs through Newport and Claremont, much damage was done.

The Monadnock Mills Company, at Claremont, are large losers. A blacksmith's shop, a three story building occupied as a cabinet manufactory, and a bridge, were all carried away.

The Claremont Manufacturing Company's paper mill, bindery, and printing office, on the south side of the river, was completely flooded in its lower story, and much property damaged thereby. The bridge between the paper mills and the Home mills,—which was owned by the Claremont Manufacturing Company and by the proprietors of the Home mills jointly, was swept away.

In the town of Hebron, Rev. Mr. Conant, in returning to his residence during the storm, had occasion to pass over the bridge, but before he had gained the opposite bank the foundations of the structure had given away, precipitating him with the fragments into the water; but fortunately some of his parishioners descried his condition and rescued him.

FATAL AFFRAY AT QUINCY.—An altercation occurred at Quincy, on Friday, between a man named Quimby and a man named John White. While the parties were standing on the piazza of the Hancock House, they got into a dispute,—such as men will often enter into when their heads are full of bad rum,—and White, after much abusive language on both sides, called the other a "d——d Irishman." Quimby, who has recently returned from California,—in the style of that country, drew a pistol, requested White to be cautious, and added—"I was robbed at the last muster; I don't mean to be again."—This stirred White into the greatest rage, and, with a friend, he made for Quimby, who by this time had walked a few paces, carrying his pistol in his hand, muzzle down. He undertook to take the weapon from Quimby, and in the tussle which ensued, the pistol was, as some report, accidentally discharged, and its contents entered White's left side. He was taken into the Hancock House, examined and found to be mortally wounded. He died Sunday morning. Quimby was apprehended. It is stated that throughout the affray he acted on the defensive.—[Boston Courier.

LONGEVITY IN NEW HAMPSHIRE.—The following persons lived to be one hundred and ten years of age, and upwards:

Samuel McGuinn of Andover, who died in 1845, 110 years; William Scoby, Londonderry, 1754, 110; John Collomore, Kensington, 1825, 110; Jenny Kennison, Brookfield, 1840, 110; Samuel Welch, Bow, 1823, 112; Robert Macklin, Wakefield, 1787, 115; William Perkins, Newmarket, 1732, 116; Duncan McNaughten Moultenborough, 1831, 118; and Zacheus Lovell, Nashua, 180. Probably he was the oldest person that ever died in the State.—[American Medical Monthly.

The Boston Bee has published a letter from Hon. James M. Usher, Presidential Elector on the Fremont and Johnston ticket, declining to serve on that ticket, because he thinks the supporters of Fremont should unite on the same electoral ticket. He suggests the following plan for reconciling the difference:—

"Let the Americans and Republicans unite upon a single electoral ticket, with the distinct understanding that the vote of Massachusetts for Vice President is to be given to the candidate, whether Dayton or Johnston, who can secure the largest number of electoral votes from other States; and the Vice President imbroglio is ended."

Morning Chronicle.

TUESDAY, AUGUST 12, 1856.

Correspondence of the Chronicle.

LETTER FROM KANSAS.

LEAVENWORTH CITY, July 29, '56.

Dear Friend:—I am once more in this goodly city. It really seems like home. I came up from St. Louis on the steamer Morning Star, and arrived here last evening. I found a number of friends on the levee, who received me kindly and bid me a hearty welcome to the territory again. Things here are looking better,—business improving, and business men happy.

Leavenworth will become one of the finest places west of St. Louis, within a short time. Affairs here are now quiet, but I regard it only as a prelude to the storm which will rage next November. I think the election here will be a *close shave*. Parties are nearly equal. The pro-slavery party are confident of success, and calculate on victory. The Free State men do not despair. They rely on settlers from the East, coming to the rescue.

Men are wanted here with their families—men who desire to seek a *home* among us.—They must have means, for it requires time and considerable outlay, before a profitable venture is realized. Hundreds of persons have been in the territory this season,—mechanics especially, expecting to find work immediately,—and being disappointed, and their limited funds exhausted, have been forced to return home; whereas, had they possessed more means, they would have remained and become of inestimable benefit to the territory. Others have entered Kansas, and keeping along the public roads only, found no unclaimed land to suit them—become discouraged, and turned their faces to the rising sun.

The best land in the territory is yet unsettled. One of the finest portions lies along the Red Vermillion River, and is now "fast settling up." There are, however, plenty of fine timber claims yet to be taken. The bottom lands are the very best I have seen in Kansas—a black rich soil, perfectly level, and entirely free from rocks; while back, as a protection from the cold winds of the prairie, rise the bluffs. The best of building stone also abounds; excellent springs of water are scattered among the bluffs, and the timber is the best in the territory.

About six miles from the head of the river, the new town of Hiawatha is being laid out. A first-rate steam saw mill is being set up there—a shingle mill to be added soon. The site is held by a company of gentlemen, who are all actual residents of the place. They offer liberal inducements for people to settle there. A hotel, school house, store, &c., are to be erected at once. As the proprietors of the mill are interested in the town, they will furnish lumber for building purposes at very reasonable rates. As the place is not intended to enrich speculators, but actual settlers, it will progress rapidly. I locate there, and start for my new home this afternoon, on foot—something of a walk, by the way, seventy miles.

Lawrence is building up again. Phenix-like, the hotel is rising from its ashes. I trust better days are in reserve for this distracted country. Col. Lane is in Iowa, rushing emigrants into this territory. Will not the old Granite State do her part? I trust she will. If ever she acts, it is imperative that she acts now—"now or never." We want men, actual settlers, here, at once; for the hour hasteth—it draws nigh.

I have been told that Buford has gone South. I had a long talk with two of his men yesterday, at a wood yard on the Delavan reserve, where the boat wooded. They informed me that they remained with Buford as long as they had money; but that being thus associated, did not pay. They are now cutting wood for the Indians.

Gen. Smith is at the Fort. The weather is very warm.

Yours,

F. H. B.

LIFE IN KANSAS.—[Correspondence of the N. Y. Tribune.] I have late and reliable intelligence from Kansas that Richardson, Maj. General of the militia under the bogus Legislature, has gone to the northern frontier, with 300 or 400 Missourians and Southerners, to prevent the entrance of Free Soil men. Lane is on the Iowa frontier; his plans are not known. Parties have gone from the vicinity of Lawrence and Topeka to watch Richardson, and aid Lane in case of conflict; but most of the Free State men in the Territory are required to stay at home, to guard against the threatened depredations of the guerilla bands in the Southern part. It is now currently reported throughout the Territory that Gen. Smith will not attempt to prevent the entry of Lane; neither will he interfere to prevent a fight with the Ruffians. If a conflict ensues, he will proclaim martial law, and allow the parties to fight it out.

ACCEPTANCE OF THE KANSAS GOVERNOR.—[Washington Correspondence of New-York Courier and Enquirer.] Gov. Geary has received his instructions, and departs for Kansas early this week. It is understood that Gov. Geary refused to accept the office unless Lecompte and Danielson were removed, as he would not administer such laws with such men. Accordingly the whole present set of Kansas judges and other officers will be removed immediately after the adjournment of Congress. It is even alleged that Lecompte is already removed.

The gentleman so often spoken of in novels, who riveted people with his gaze, has now obtained permanent employment at a boiler manufactory.

ELECTIONS.

The Boston Courier of Monday says:

The Democrats were a little too much in haste in claiming great gains in Kentucky, and it is also certain that the election was no strict test of party lines.

The Louisville Courier and Louisville Journal, in noticing the result in that city and vicinity, state that the election was the quietest ever held there. The Journal says:—

In all the districts heard from, *wherever a party contest has been made*, there have been large gains for the American ticket. In many portions of the state there was no party contest. We can give every assurance to our friends throughout the whole Union that Kentucky is all right for Fillmore and Donelson.

The Courier (Democratic) in its notice of the election, says:—

The election of yesterday afforded no criterion of the strength of parties, nor of the popularity of Presidential candidates and principles. These were secondary considerations to the personal popularity of gentlemen who had offered for the various offices.

The returns from Missouri still indicate the election of Polk, straight Democrat, for Governor. Those from Iowa are in favor of the Republicans, though Mr. Hall, Democrat, whose present seat is contested, claims that he has been rechosen. Arkansas is probably Democratic—the state never voted otherwise—and the Democrats have prevailed in North Carolina. But beyond all question, (remarks the Boston Courier) Mr. Fillmore is stronger in these States than the party which is partially identified with him.

ST. LOUIS, Aug. 9.—*Missouri.*—41 counties including St. Louis, give 21 American, 20 Bentonites, and 17 Democrats to the House, far as heard from. 3 Americans, 3 Democrats, and 2 Bentonites are elected to the Senate. The complexion of the Missouri Legislature is important as two U. S. Senators are to be elected, in place of Atchison, Democrat, and Geyer, Whig. It has been intimated that the American and Bentonite members of the Legislature will unite and elect Benton and an American to the Senate.

Official returns from 38 counties have been received, giving 21,834. Ewing 22,573 and Benton 14,777. The reported majorities increase the aggregate so as to give Polk 82 majority over Ewing.

COLUMBIA, (S. C.) Aug. 10. The latest election returns from all parts of South Carolina indicate that the Democratic majority will, as previously stated, be about 8000.

CONGRESS.

SATURDAY, August 9.

SENATE.—The Senate passed a joint resolution authorizing Prof. Bache of the Coast Survey to accept $2,500 instead of $3000 a year.

In the House, a bill making appropriation for light-houses, coast and land surveys, custom houses and marine hospitals, was rejected by a vote of 93 against 30.

LIGHT HOUSE BURNT.—The Newburyport Herald of Saturday morning says, between 6 and 10 o'clock Friday evening an alarm of fire was given, occasioned by the burning of one of the Light Houses on Plum Island, in the care of Mr. Phineas George. The fire originated in the basement of the Southern tower, in which was deposited about 200 gallons of oil and two small bug light houses.—It is now surmised that the light house was burnt by lightning.

The keeper states that in looking from his house he perceived that the light was out, when he hurried to the building, and opening the door, discovered the whole interior of the lower part in flames. At times the lightning was very sharp, and struck several places in Newburyport upon the residence of Wm. H. Brewster, Esq., whence it was conveyed to the earth by the lightning-rod; and again on the Ferry wharf, where it demolished a post.

A FOOT MATCH.—The Charlestown Advertiser understands that John Stetson, pedestrian, has made a match for $1000, with James Ford, that he will walk and run sixty miles in twelve hours, for six consecutive days, the match to take place in that vicinity some time during the present month.

A TOAST FOR THE WOMEN.—The following toast was given somewhere, sometime, by somebody;—

"The Woman of the Revolution—Mothers of men and patriots. The women of to-day—hoop! hoop! hoop! hurrah!"

"BELLE BRITTAN," of the New York Mirror, has been angling from off the rocks at Newport. She says that "ladies who go fishing should leave their hoops at home, as sitting in them on the rocks is as hard as sitting on a gridiron."

BACHELORS' COMFORT.—Statistics say that bachelors don't live so long as married men. The only sensible way for accounting for this is that the angels love bachelors, and call them away early, where women cease from troubling, and the weary are at rest. St. Paul says they who marry do well, but they who don't marry do *weller.—Charlestown Advertiser.*

Mr. Joseph Hiss has turned up again. He is a supporter of Fremont and "Americanism," and has been chosen a delegate to the State Convention of the Fremonters from the First Ward of Boston.—*N. Y. Daily News.*

A great mistake. Mr. Hiss is for Fillmore and is as strong in his pro-slaveryism as the N. Y. News itself.—*Boston Tel.*

QUERY.—Whether butchers shouldn't be selected as justices of the peace, for the reason that they would be the most likely, from their habits, to *mete* out justice.

THE JUDGES.—A letter writer from Washington to the New Hampshire Statesman, says:

A State sometimes escapes a dreadful crisis when those most chiefly interested have been unconscious of it; as the keel of a ship may just shun a sunken rock while all the passengers are asleep.

Some months ago a suit was brought before the Supreme Court, ostensibly relating to the ownership of a negro slave, but which, in its real bearings, involved the constitutionality of the Missouri Compromise;—thereby opening, and in fact deciding, the actual nationality of Slavery. It was immediately recognized by the Court as a "made case," originated on purpose to test the greater question. But it was concluded at length that each of the Bench should file his elaborate opinion, and that the case should pass as a real or fictitious one, just as the weight of opinion seemed to preponderate on the great points that issued from it. As opinions were being made up, the vastness of the consequences began to be developed. It was at length discovered by those who came last into the trap, that if Judge Greer, of Pennsylvania, could be secured, the whole question would be given to the South, and then the Southern Senators, aided by Douglas, Toucey & Co. in the deed, might boldly proclaim their whole design in declaring Slavery an institution that knows no State or Territorial lines!

Fortunately, Judge Greer declared for the Constitution and its Compromises, and reduced those who would, through opinions rendered in this case, open Slavery to the whole country, to the Southern portion of the Bench. Just as the sum of these opinions was laid before the Chief Justice, the excitement of the country upon subjects kindred to this was attaining to fever heat, and Judge Taney saw that the publication of such an opinion would inevitably lead to revolution. He, therefore took, the alarm, and threw the case out of Court as a fictitious one; or, at least, stayed the publication of the opinions of the Southern Judges.

One sees by this how Senator Toombs, who was doubtless in the secret, could boldly predict the probability of his "calling the roll of his slaves on Bunker Hill."

This appears like one of the many recent occurrences which prove the existence of a deep-laid conspiracy, of which the Kansas-Nebraska Bill was the first act.

☞ It has been decided by the U. S. Courts, that the stoppage of a newspaper without the payment of arrearages, is prima facie evidence of fraud, and is a criminal offence.

From the Boston Saturday Evening Gazette.

A PERFUMED BREATH.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A BEAUTIFUL COMPLEXION may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and delicate hue. Wet a towel, pour on two or three drops, and wash the face night and morning.

SHAVING MADE EASY.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," run the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

W. P. Fetridge & Co. Proprietors, 323 Pearl street, New York, and 100 Washington street, Boston. For sale in Portsmouth by William R. Preston. 6mje16

HEALTH AND STRENGTH.

☞ DR. S. O. RICHARDSON'S SHERRY WINE BITTERS is the best Medicine ever used, for Summer Complaints. It has been more liberally patronized than any other ever established in this country. It is the same Richardson's Bitters which has restored so many invalids to health throughout New England during the past thirty years.

N. B.—Beware of imitations called Sherry Wine Bitters. The genuine have a fac simile of my signature upon the outer envelope. For sale by Druggists everywhere, and at my office, No. 51 Hanover St., Boston. aus 6m

WORTH KNOWING.

Prof. Wood, of St. Louis, has discovered a remedy for the grey and bald, which is at once practicable and cheap. It requires no dyeing, no wig, no extraordinary trouble. There can be no doubt whatever of its efficacy. We have seen testimonials almost without number, and from men of great intelligence, high standing and moral worth.

Those who have been bald for years are now wearing their own hair, and appear ten years younger than they did six months ago. As in most cases grey hairs and bald heads are both premature and unnatural, it is a duty to remedy them by the natural and undoubted means which Prof. Wood has invented, and now kindly offers to the afflicted. Try his wonderful remedy, and give the Professor a new testimonial.—*Memphis Whig.*

"If you are Coming, Why
you Come along!"

THAT is the "mot" now-a-days. Every motive on every Railroad shrieks it daily rapped out on every Telegraphic Line in the country. The echoing blows of our Ship Carpenters hourly exemplify it. The smith at his hammers it out. The clanking Press with reckless haste, sends the cry home to every family. "If you are coming, why don't you come along?"

It is uttered in an hundred tongues in a hundred lands. It has sounded like a slogan through the political world, and the "Old Fogies" creeping along among the baggage wagons of the wounded. Thought, that moved at a snail pace, now rushes on a tremendous charge; and the old remedies for Liver Complaint have to give way for

Also, a lot of Remnants at Cost.

A great variety of Shades, Curtains, Tassels and Cord.

Please call and examine.

LOCAL.

PISCATAQUA BATH.

Our Floating Bath on Noble's Island, is a great institution. It does much good. It brings comfort, cleanliness and vigor, to probably more than a hundred individuals daily.—As a curative agent in most diseases, its importance can scarcely be overrated. Physicians sometimes send patients hundreds of miles, that they may avail themselves of the tonic properties of salt water, while we, favored denizens of the sea-coast, have the great ocean almost at our very doors, and can enjoy a daily plunge beneath its surface, without risk or trouble. And this accounts for our careless use of this blessed gift. Ah! every day, every hour, brings occasion for aptly repeating the old quotation—

"A man's best things are nearest him,
Lie close about his feet."

At this season of the year our bath house ought to number its patrons and daily visitors by thousands, instead of scores. Why, if everybody was duly impressed with the advantages to be derived from a daily plunge into the Piscataqua, Noble's Island would be surrounded with bath houses, while pills and pectorals would be banished from our city.

"But the bath-house is so far off, that to visit it daily involves quite a serious loss of time, which we cannot afford," cry out any number of voices, as they peruse this article. True, it is quite a little distance, and the advantage of the walk alone, to the shut-up professional man, shop-keeper or mechanic, is immense.—The exercise adds wondrously to the effect of the bath. And when you think you can't afford to consume an hour daily in this delightful, rejuvenating process, just remember that medical statistics prove to a demonstration that you have got to take the hour sometime, —and it may come in most "questionable shape" for your comfort,—possibly a good many hours, days, weeks or months together —passed in the most uncomfortable position imaginable—flat on your back and surrounded by pills, potions, and the usual paraphernalia of the sick-chamber. The more days you permit to pass without proper attention to nature's plainest dictates, the more hours of suffering you have laid up against the day when the life-energies are weakened, and the constitution falls. Judge, then, for yourself, whether you cannot better afford an hour now for healthful recreation, than you can afford to drag your shadowy and attenuated form from a sick-chamber, after a month or two of downright misery.

But one exclaims, "Bathing don't agree with me." Nonsense! Bathing—proper, scientific bathing—agrees with *everybody*.—There's some science in bathing, as in everything else. It may not *agree with* you to dab yourself all over, little by little, with a wet rag; you may thus wash the surface, but you don't enjoy the chief advantage of the genuine bath, the *shock*. You are likely to extract too much caloric from the body, by this system of bathing, as well as by that even more pernicious one of *wading in*, which is practiced at the Beaches; but a leap, a plunge beneath the surface, and an instant return to terra firma, can be borne by the feeblest constitution, and will be found to agree with everybody. And it agrees with everybody's *inclination* too, far better than this sopping of the surface, for it is instantaneous, and not a thing to be shuddered at or shivered over.

Now we write in favor of a daily swimming bath, and what is better, practice exactly what we preach. Every morning finds us splashing around with wonderful power and effect, in the capacious tank of the Floating Bath House. We are not very expert at real, bona fide swimming, but our evolutions and gyrations are a sight to be seen, and a caution to "ground and lofty" tumble-ers—particularly those of the "lofty" variety. We get all aglow with the exercise and the subsequent application of "crash," and walk home after our hour at the bath, invigorated and re-created. We are a made man for the rest of the day, and our appetite and capacity of stowage are enough to drive a hotel-keeper crazy.

We had a shower-bath connected with the plunge, the other morning—a splendid affair, gotten up on a grand scale, and without the slightest regard to expense. It drizzled most emphatically when we looked out of our chamber window, at early dawn, but it would take considerable *fresh* water to compel us to forego the pleasure and comfort which we derive from the salt; so nothing daunted we started for the bath—spite of the sleepy request of a rather drowsy individual to "step out in the yard and take a sprinkling, without the trouble of a walk." We might have been induced to take some such rash step as this, but up came the reflection that we were a stockholder in the institution—we mean the bath house, not the shower—though we have a *life interest* in *that*, so far as it affects the price of Flour—had paid our scot, and it was our duty to patronise our own "line." Arrived at this conclusion, we were speedily revelling in the briny.

As we emerged from the bath, it came on to rain. We are positive on this point. We have a distinct and vivid recollection that on the occasion alluded to, the air was very dense, and exceedingly moist, for some minutes. A lofty and brilliant idea at once dawned upon us! we would take a shower-bath!—We did so. It was easily done. All that was necessary was to stand and take it. Our shower-bath concluded, the rain held up. We thought the matter over, but couldn't account for that sudden, brief and unexpected fresh-water *douche*, except on the theory that it was planned and consummated for our especial benefit. It was a "special providence," and we felt grateful for it.

But we have another "special providence" to record, in which the bath-house bore a part. A few mornings since we were kicking around lustily in the water, when we were somewhat startled by an opposition splashing in a corner of the tank. It proceeded from a little sparrow, in flying over, had doubtless struck against the slats which composed the latticed roof of the building, and had fallen into the water. Vainly he strove to escape—exhausted by his efforts and chilled by the cold, he was just ready to perish when we came to his relief. The warmth of our hand seemed to overpower him, and he fell asleep. We breathed upon him and strove to impart some warmth into his chilled frame. We wrapped him in our kerchief, and ere we had completed our toilet, he had quite revived. Still he was weak and enfeebled, and for an hour after we reached home, we had some doubts of our ability to save him. At last he flew up against the closed window, and asked to be allowed to go. We took him up to the chamber where *our birds*—the two little ones, sleep. When they had looked and wondered to their hearts' content, we placed the little fellow on the sill of the open window, and told him he was at liberty to go. He thanked us for our care and attention, plainly as ever bird did, exclaiming "chirp! chirp!" as he flew joyously away. We watched him till he alighted on a distant tree, and turned away with a grateful heart that we had been instrumental in saving *one little life*. Verily, not a sparrow falleth to the ground without our Heavenly Father's notice.

But to return to the bath-house. We had intended to say something in this article in relation to the importance of an institution of this character, fitted up and arranged in a suitable manner, expressly for the use of the ladies. And it behooves husbands, fathers and all who hold the health and well-being of the community as of importance, to see that next season, if not during the present, this idea be carried out. A suitable floating-bath-house for ladies would involve an expense of about $1000. Are not some of our wealthy ladies and gentlemen willing to give an hundred dollars each, in furtherance of so laudable a design? Come! Let some one who has the means to head a subscription paper liberally, move in this matter, and it cannot fail. Our wives and children should not be deprived of the luxury of a daily salt bath, when a little trouble and expense will secure to them the privileges which we, the lords of creation so bountifully enjoy.. OUPHE.

ZEBULON WILLEY.—The decease of this aged citizen of Kittery, a short time since, at the age of 81, was chronicled in the papers, without any remark. He was, however, in many respects, a man worthy of mention, especially for untiring industry in his vocation as a ballast and lighter man, in which he labored up to his last hour of ability to move. He had, in seventy years of toil, provided for himself and family an honest, independent livelihood, and saved in his latter days what he prized more than a kingdom, viz.: a pleasant home on Badger's Island. He had employed many men, and distributed much of the merchantmen's money among real laborers who ate bread in the sweat of their brow, and he himself labored years after one paralytic shock, until another took hold of him as he entered his boat to pursue his work.

He has been a neighbor to Wm. Badger, Esq., the former owner of the island, and a celebrated builder,—to Samuel Badger, Esq., nephew of William, — to Charles Cushing, Esq., for a few years — to Pray & Neal, who built on the main land, but never on the island,— to Fernald & Pettigrew,—and indeed to every builder on the river,—and by all maritime men his loss will be regretted.

☞ One of the schooners which were struck by lightning on Friday, was the Pearl, Capt. Carr, of Rockport. The man who was killed was named Lawrence Griffin, aged 41 or 42, and belonged to Rockport. The mast of the Pearl was shattered all to pieces. Just before the two schooners were struck by the squall, a whale-boat was seen to lower her sail: in a few minutes after the shock the schooner's crew missed her, and suppose she went down.

CHARLESTOWN FEMALE SEMINARY.—An old friend and acquaintance, Mr. Nathan Merrill, whom we had not seen for a long time, visited the Chronicle office on Monday morning, to insert an advertisement of the Charlestown Female Seminary, of which he is the Superintendant. Mr. Merrill was a few years ago the teacher of the High School for Girls in Portsmouth, and was favorably known in that capacity to many of our citizens. He is now associated with ten instructors, and the catalogue contains the names of 224 scholars. The institution is highly useful and prosperous.

☞ The Daily Chronicle may be had of our Carriers, at 8 cents per week. Single copies 2 cents. $4 per year in advance.

Store 170 Washington Street, Boston.

4 DAYS LATER FROM EUROPE.

QUEBEC, August 10.

The screw steamship Anglo-Saxon, from Liverpool Wednesday July 30, arrived at this port to day.

England.— Parliament was prorogued on the 29th ult. until the 17th of October next, on which occasion the Queen delivered a speech, in which Her Majesty hoped that the differences which have arisen between her government and the government of the United States, in connection with the Central American affairs, may be satisfactorily adjusted.—Previous to adjournment, Mr. Berkley asked Lord Palmerston when the government would reappoint Consuls at New York, Philadelphia, and Cincinnati! Lord Pamerston replied that the government had not, as yet, taken any steps in reference to the matter.

The London money market exhidited no new feature.

Wheat and Flour had declined. Cotton was firm.

Spain.—Our advices from Spain continue meagre and unreliable, the telegraph and public roads being in the hands of the government whose announcements say that on the 24th ult. the royal troops commenced to bombard the city of Saragossa, whereupon the insurgents within demanded five days cessation of hostilities, which was granted. The information conveyed to the London press, however, states that although Madrid is quiet, the whole of the important province of Arragon continues in successful revolt. The Spanish Junta has decreed to the infant son of the Emperor of France the rights of Spanish citizenship.

The London Morning Advertiser asserts that Great Britain has assented to the surrender of the Bay of Islands colony to Honduras; Great Britain and the United States, with Honduras, agreeing to sign a triple treaty, binding the latter power never to give up said territory to any other government. The same authority also asserts that France approves of this arrangement, and asked permission to become a party to the treaty.

Young Married Lady's Private Medical Guide.
BY PROF. F. H. DOANE, M. D.
How beautiful is the idea of the wife, in sacred literature! Polished corner stones—walls of cedar—fruitful olive trees—all choicest emblems of combined strength and beauty. Such should woman ever be. Yet who that views so universally *her pale cheek, sunken eye*, and *inability to endure fatigue*, could say that such she is? Maiden, wife, mother, would you know the reason? read the "Private Medical Guide." Simple, plain, modest, yet full of instruction, no lady who prizes her health and happiness, can afford to be without it. So say thousands who have availed themselves of its knowledge, and been benefitted by its remedies. Designed only for the virtuous to furnish information all-important to woman's health and happiness. It is not for sale at the book stores. Beautifully printed, bound and gilt; price $1. Circulars and recommendations furnished *gratis*. All letters of enquiry must contain a letter stamp to prepay the return. Address or apply to PROF. F. H. DOANE, M. D., No. 1 Tremont Temple, Boston, Ms. The above work will be sent by mail or express to all parts of U. S., securely enclosed, on receipt of price.

HAM & CO.,
je12 No. 9 Congress street.
Wanted a Good Coat Maker.

Secured by Royal Letters Patent in England and by Patent in the United States.
THE Subscribers, having been for a long time desirous of securing to the public a Needle that will not only be a superior article, but perfect in the Eye, recommend their "*Patented Gold Inlaid Needle.*" They are justly celebrated, and preferred above all others, the eyes being inlaid with gold and burnished, which renders the cutting or chafing the thread utterly impossible.—They are manufactured from the best steel, and tempered according to the most approved plan.—We therefore offer with confidence these Needles to the public, having secured them against all frauds or imitations either in Paper, Label or Needle. We desire all parties purchasing these Needles to be cautious in the selection of them, as unprincipled persons have sought to imitate our style, and thus palm off an inferior article, notwithstanding the heavy damages we have recovered from various parties; and a reward of $500 will be paid for such information that will lead to the detection and conviction of any person or persons thus engaged. None are genuine except those labelled on the back, '*Warranted by R. Crowley*' A liberal discount will be allowed to dealers who purchase in large quantities.
WILLIAM CROWLEY & SON,
Oversly Mills, Alcester, England.
Having made arrangements with the Manufacturers of the above brand of Needles (which I earnestly recommend as the best Needle in the market,) I am prepared to sell them
Wholesale at $1.60 per M.
Retail at 6¼ cts. per paper of 25.
Assorted or separate numbers, sharps and betweens.
HENRY PEYSER,

m29 FRANKLIN O. BADGER.

STRAW BONNET MAKING STATISTICS. —The Union Straw Works at Foxboro', Ms., cover nearly an acre of ground, and are three stories in height. A tower eighty feet high, contains tanks which hold 150 hogsheads of water, a supply carried in iron pipes through the building, which is divided into rooms about 60 feet long by 25 wide. Each room is provided with a hose leading to the water pipes, and the whole building can be flooded at short notice.—In the busy season, some 300 girls and 275 men are employed in the building, and about 3000 persons from other towns take work at home. The wages of girls average $5 per week, those of the men about $10. Good ventilation, cleanliness, and light, characterize the rooms. Some 50 of the girls have been school teachers. They have a reception room for their friends, a library and reading room.

The straw works are the property of O. & E. P. Carpenter, who began the business 20 years since, without capital, and now do $1,000,000 of business annually. They make about 1,000,000 ladies' bonnets, and 1,000,000 straw, Leghorn and Panama hats annually. They keep $250,000 in straw braids and trimmings on hand. They have a large manufactory near the city of Florence, Italy, where they make Italian braid for about 2 cents per yard, the same made here, owing to the different price of labor, costing from 10 to 15 cents per yard. In the busy season, 5000 bonnets and 3000 hats are made in a day. Nearly 1000 barrels of plaster are required yearly for the casts on which the bonnets are made.

I. D. RICHARDS & SONS.

Established 1820.

IMPORTERS AND DEALERS IN

WINES, SPIRITS, CORDIALS, CONSERVES AND CIGARS,

Occupying the Large Granite Warehouse
87 & 89 STATE STREET, BOSTON.

DR. LANGLEY'S

Root and Herb Janndice Bitters.

The Great Spring and Summer Medicine.

THIS Medicine, composed of the best roots, herbs and barks in the world, has constantly increased in public favor for six years, until by its wonderful success, it is acknowledged to be the best and cheapest medicine in the world. It acts with magic like power upon the strong holds of disease—cleanses the bowels, purifies the blood gives vitality to an inactive, torpid liver, cures Jaundice in all its forms, Dyspepsia, Costiveness, Indigestion, Headache, Dizziness, Piles, Heartburn, Languor, Weakness, Pain in the Side and Bowels, all Billious Diseases and Foul Stomach, and especially Humors of the Blood and Skin, —strengthening, healing, purifying, building up, and keeping in order the whole system. All persons ought to use them during the spring and summer.

Only 25 cents for a pint, and 37½ cents for a quart bottle. Office 99 Union St., Boston. Sold by all dealers in medicine, everywhere. mh13 6m

Whalebone Skirts.

THE only object of a Whalebone Skirt is to give a proper, graceful and elegant form to a lady's dress. Unless this is accomplished, the article is entirely worthless. The Ladies, by referring to Frank Leslie's Gazette of Fashions for April, will notice that E. & J. HOLMES have from actual experience been successful in producing this most desirable article, and that their IMPROVED SEAMLESS SKIRT meets the unanimous approbation of the ladies. They are light, pliable, and easily adjusted, and the only Skirt which is equally adapted to the street and the crowd; are made in one piece or breadth, and in our opinion, and in the opinion of thousands of ladies who have bought them, the most reliable goods of the kind in the market. We were the first to introduce a Whalebone Skirt, and from our experience in the manufacture and retail of these goods, we have found that all kinds of cotton cord, and nearly all kinds of cord, and all starched goods, cannot be used satisfactorily, as they will not recover their place when pressed out of shape. We consider all

WHALEBONE SKIRTS

as worthless, of whatever material made, unless there is sufficient of sufficient stiffness and elasticity, and at the same time yielding and pliable, to keep the dress in proper shape below the bones. To accomplish this we have our cord made under our own direction, and expressly for our goods, and from the only material that can be used that will recover its proper place when pressed out of shape, and are so twisted in manufacturing that they will not roll or curl when wet, and warranted to wash without injury. The public are cautioned against all worthless goods, as the market since our goods have become popular and extensively known, has been flooded with goods of all kinds, and put together without form or comeliness, or any other object but to sell, and of course are called Whalebone Skirts. Imitations in their efforts to profit by our reputation, have gone so far as to copy almost exactly our trade mark upon their goods.

Please Notice.—Every genuine article stamped, *E & J. HOLMES'S IMPROVED SEAMLESS WHALEBONE SKIRT*, and may be found by the trade in many of the largest Jobbing Houses in New York and Boston, and at retail in the principal Dry Goods stores.

June 6, 1855. eo2m E. & J. HOLMES, Boston.

Great American and Foreign Office

For Securing Patents for Inventions.

Agency for business with US Patent Office, Washington

R. H. EDDY,

No. 70 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington—Patents secured in Great Britian, France, and other foreign countries, through Agents of the highest respectability. **R. H. EDDY,**
Solicitor of Patents.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitatiou in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

Boston, Jan 11 1856 d1eodtv

17 aw6m A. C. MANN

FARM LANDS FOR SALE.

The Illinois Central Railroad Company

IS NOW PREPARED TO SELL

OVER TWO MILLION ACRES

OF

FARMING LANDS,

In Tracts of 40 acres and upwards, on long credits and at low rates of interest.

THESE lands were granted by the Government to aid in the construction of this Railroad, and include some of the richest and most fertile Prairies in the State, interspersed here and there with magnificent groves of oak and other timber. The Road extends from Chicago, on the northeast, to Cairo at the south, and from thence to Galena and Dunleith, in the north-west extreme of the State, and as all the lands lie within fifteen miles on each side of this Road, ready and cheap means are afforded by it for transporting the products of the lands to any of those points and from thence to Eastern and Southern markets. Moreover, the rapid growth of flourishing towns and villages along the line, and the great increase in population by immigration, etc. afford a substantial and growing home demand for farm produce.

The soil is a dark, rich mould, from one to five feet in depth, is gently rolling and peculiarly fitted for grazing cattle and sheep, or the cultivation of wheat, Indian corn, etc.

Economy in cultivating and great productiveness are the well known characteristics of Illinois lands. Trees are not required to be cut down, stumps grubbed, or stone picked off, as is generally the case in cultivating new land in the older States. The first crop of Indian corn, planted on the newly broken sod, usually repays the cost of plowing and fencing.

Wheat sown on the newly-turned sod is sure to yield very *large profits*. A man with a plow and two yoke of oxen will break one and a half to two acres per day. Contracts can be made for breaking, ready for corn or wheat, at from $2 to 2 50 per acre. By judicious management, the land may be plowed and fenced the first and under a *high state of cultivation* the second year.

Corn, grain, cattle, etc. will be forwarded at reasonable rates to Chicago, for the Eastern market, and to Cairo for the Southern. The larger yield on the cheap lands of Illinois over the high priced lands in the Eastern and Middle States, is known to be much more than sufficient to pay the difference of transportation to the Eastern market.

Bituminous coal is mined at several points along the Road, and is a cheap and desirable fuel. It can be delivered at several points along the Road at $1.50 to $4 per ton; Wood can be had at the same rates per cord.

Those who think of settling in Iowa or Minnesota, should bear in mind, that lands there of any value, along the water courses and for many miles inland, have been disposed of;—that for those located in the interior, there are no conveniences for transporting the produce to market, railroads not having been introduced there. But to send the produce of these lands, one or two hundred miles by wagon to market, would cost much more than the expense of cultivating them; and hence Government lands thus situated, at $1.25 per acre are not so good investments as the lands of this company at the prices fixed.

The same remark holds good in relation to the lands in Kansas and Nebraska, for although vacant lands may be found nearer the water courses the distance to market is far greater, and every hundred miles the produce of those lands are carried either in wagons or interrupted water communications, increases the expense of transportation, which must be borne by the settlers, in the reduced price of their products; and to that extent precisely are the incomes from their farms, and of course on their investments, annually and every year reduced.

The great fertility of the lands now offered for sale by this company, and their consequent yield over those of the Middle and Eastern States, is much more than sufficient to pay the difference in the cost of transportation, especially in view of the facilities furnished by this Road, and others with which it connects, the operations of which are not interrupted by the low water of summer, or the frosts of winter.

PRICES AND TERMS OF PAYMENT.

To the public, varying from $5 to $25, according to quality, location, &c. Contracts for Deeds may be made during the year 1856, postponing the purchase money to be paid in five annual installments; the first to become due in two years from the date of contract, and the others annually thereafter. The last payment will become due at the end of the sixth year from the date of the contract.

Interest will be charged at only 3 per ct. per ann.

As a security to the performance of the contract the first two years' interest must be paid in advance, and it must be understood that at least one tenth of the land purchased shall yearly be brought under cultivation. Twenty per cent. from the credit price will be deducted for cash. The Company's construction bonds will be received as cash.

READY FRAMED FARM BUILDINGS,

Which can be set up in a few days, can be obtained from Responsible Persons.

They will be 12 ft. by 20 ft. divided into one living and three bed rooms, and will cost complete set up on ground chosen anywhere along the road $150 in cash, exclusive of transportation. Larger buildings may be contracted for at proportionate rates The Company will forward all the materials for such buildings over the Road promptly.

Special arrangements with dealers can be made to supply those purchasing the Company's lands with fencing materials, agricultural tools, and an outfit of provisions in any quantity, at the *lowest wholesale prices.*

It is believed that the price, long credit, and low rate of interest, charged for these lands will enable a man with a few hundred dollars in cash, and ordinary industry, to make himself independent before all the purchase money becomes due. In the mean time, the rapid settlement of the country will probably have increased their value four or five fold. When required an experienced person will accompany applicants, to give information, and aid in selecting lands.

Circulars containing numerous instances of successful farming, signed by respectable and well known farmers living in the neighborhood of the Railroad lands, throughout the State—also the cost of fencing, price of cattle, expense of harvesting, threshing, &c. by contract—or any other information—will be cheerfully given, on application, either personally or by letter, in English, French or German, addressed to

JOHN WILSON,
Land Commissioner of Ill. Central R. R. Co.,
Office up to the 1st of May, 52 Michigan Avenue, Chicago, Ill.; after that date in the New Stone Passenger Depot, So. Water st. a8 6m

Lumber! Lumber!

THE subscriber having leased
UNION WHARF,
for the purpose of carrying on the Lumber business, would respectfully inform his friends and the public, that he has

The largest and best selected stock

of LUMBER ever offered for sale in this city; and will sell as low as at any other establishment in the city, at Retail or by Cargo.

The following Lumber has just been received from St. John, New Brunswick, by schooners Mary Groton, Sea Bee, Comet, Eagle, and Gypsy:

400,000 feet Pine Boards, clear and merchantable.
100,000 " Dimension stuff, 1½, 1¼, 2, 2½, 3, 4 inch.
600,000 Pine Shingles.
400,000 Pine Laths, first quality.
75,000 Clapboards, extra clear, No. 1 and 2.
20,000 Pine Pickets.
5,000 Blind Slats.

Also received from Bangor by schooners Michael, Banner, Wave, Crown and Niagara,

700,000 Cedar Shingles, sawed and reft, of the various qualities.
250,000 feet Spruce Lumber, of all dimensions.
100,000 Spruce Laths.
Fencing Stuff.
50,000 feet Spruce Rails, different dimensions.
20,000 Spruce and Pine Pickets.
500 Cedar Posts.

House or Barn Frames can be had from the Wharf, or the subscriber will contract to furnish Frames of any dimensions.

White Pine Lumber of the best quality, of any dimension. Shingles, Clapboards, Pickets and Laths, from St. John, N. B., by the cargo.

The Lumber bought at this establishment will be delivered to packets, gondolas, or at the depote. The patronage of the public is respectfully solicited. GEORGE W. JENNESS,
Union Wharf, Water Street,
Portsmouth, August, 1856. near Liberty Bridge. au5d3m

DR. LAROOKAH'S SYRUP.

DR. LAROOKAH'S Indian Vegetable Pulmonic Syrup, is warranted to cure Coughs, Whooping Cough, Asthma, Colds, Croup, Bronchitis, Consumption, and Diseases of the Throat and Lungs.

DR. LAROOKAH, a Celebrated Indian, has discovered in the combination of four ninds of Common Roots and Herbs, a remedy that is warranted to *cure CONSUMPTION* in all cases where the lungs are not mostly consumed, and sufficient left to sustain life; and every disease of whatever name, having seat in the lungs or bronchial tubes.

A. A. PAYNE, Agent for Portsmouth, 87 *Market St.* s28 tf

500 Casks LIME;
200 bbls Hydraulic CEMENT.
For sale by WM. P. GOOKIN,
m2 Long Wharf.

Secured by Royal Letters Patent in England, and by Patent in the United States.

THE Subscribers, having been for a long time desirous of securing to the public a Needle that will not only be a superior article, but perfect in the Eye, recommend their "*Patented Gold Inlaid Needle.*" They are justly celebrated, and preferred above all others, the eyes being inlaid with gold and burnished, which renders the cutting or chafing the thread utterly impossible.—They are manufactured from the best steel, and tempered according to the most approved plan.—We therefore offer with confidence these Needles to the public, having secured them against all frauds or imitations either in Paper, Label or Needle. We desire all parties purchasing these Needles to be cautious in the selection of them, as unprincipled persons have sought to imitate our style, and thus palm off an inferior article, notwithstanding the heavy damages we have recovered from various parties; and a reward of $500 will be paid for such information that will lead to the detection and conviction of any person or persons thus engaged. None are genuine except those labelled on the back, "*Warranted by R. Crowley.*" A liberal discount will be allowed to dealers who purchase in large quantities.

WILLIAM CROWLEY & SON,
Oversly Mills, Alcester, England.

Having made arrangements with the Manufacturers of the above brand of Needles (which I earnestly recommend as the best Needle in the market,) I am prepared to sell them

Wholesale at $1.60 per M.
Retail at 6¼ cts. per paper of 25.
Assorted or separate numbers, sharps and betweens.

Morning Chronicle.

TUESDAY, AUGUST 12, 1856.

ANOTHER PROSPECT.—The Boston Courier says:

But there is another view of this sectional strife proper to be taken. It is possible that Mr. Fremont may be elected President. He may be imposed upon the South against their wish and against the spirit of the Constitution; and if so, what will be the condition of things?

After figuring out the choice of Fremont in a way highly improbable, the Courier says:

We know that if it works according to its spirit, it is, so far as is practicable under our peculiar Constitution, *a government of the people*; it becomes, by its workings under such combination and agreement, the tyranny of a part over the remainder. The majority ceases to rule. The power is in the hands of a plurality of a bare majority. But suppose the crisis comes—suppose Mr. Fremont is elected; a plurality of a majority has imposed him upon fifteen of the thirty-one states, without five thousand votes in the whole fifteen in his favor. Upon his inauguration, his first great step is the formation of his cabinet. * * * * * Is there an honorable, high-minded, worthy man in any one of the proscribed fifteen states who could so demean himself as to take a place in the cabinet, if Mr. Fremont should so far deviate from the principles of those who elected him as to offer it to him? Who could do so, with any self respect? And who, in doing so, could preserve the public respect and confidence? There must, then, from the nature of the case, be a purely Northern cabinet.

Really and truly we think there is no great occasion for alarm. It is indeed possible, and every day becoming more supposable, that Fremont may be elected—though something may yet turn up to prevent it. But when that dreadful day comes, we have no doubt President Fremont knows a few good men at the South, and South West, who would, in case of emergency, consent to take places in the cabinet. — The Brookses and Butlers, the Toombses and Benjamins, the Herberts and Atchisons, by no means comprise the whole South. There are good men enough there to make a dozen cabinets, and have a few more left of the same sort.

We don't believe the Union will explode very soon, because no cabinet can be formed. If Mr. Fremont is elected, the cabinet will come along without difficulty.

ANOTHER EXPLOSION.—The boiler attached to the iron safe factory of Wilder & Co., corner of 15th street and 3d avenue, Brooklyn, N. Y., exploded on Saturday afternoon, demolishing about one half of the building, killing five persons, and wounding some fifteen others. Eighty persons were employed in the entire building at the time of the occurrence, about forty of whom were in the third story. Many persons were injured by jumping out of the windows and by the falling of rafters upon them. Many were also dreadfully injured by scalding.

The building was nearly new, having been built but about 18 months ago, and occupied about a year. It was built in a very substantial manner, with especial reference to the business of manufacturing safes. The boiler was said to be a new one at the time of being placed in the building. The loss sustained by the owners and proprietors is estimated to be not far from $10,000, which will cover the damage to the building. The loss on machinery, stock, etc., is heavy. Seventy-five heavy safes, which were in process of manufacturing, were kept in the portion of the building demolished, and were completely destroyed. The property was insured.

THE BROOKLYN EXPLOSION.—The New York papers say the probable cause of the explosion was an insufficiency of water in the boilers. It is rumored that the boiler was defective and foul, and that the masonry surrounding it was loosened by leakage so as to render repairs necessary, which were to have been made this week. The boiler was completely cut in two, and fragments were scattered for several feet. The verdict of any coroner's jury will probably be—"nobody to blame."

DEATH OF A YOUNG EDITOR.—We deeply regret to see the announcement of the death of Enoch Hale, jr., a native of Newburyport, but for the last year or two editor of the Rondout (N. Y.) Courier. Mr. Hale was 31 years old—a writer of research, ability and promise, as he was a gentleman beloved by his friends and respected by all. He served his time in the Newburyport Herald office, at the printing business, and afterwards published and edited the Daily Courier in that city, with ability, though without meeting much success. Since, he has been connected with several New York journals, including Hunt's Magazine. "A shining mark," indeed, O Death!

☞ The Lafarge House, in New York which is advertised in the Chronicle to-day, is described, in the New York Pathfinder, as a most elegant and commodious building, and its interior arrangements are highly commended in the same paper.

☞ Hunt's Merchants Magazine, for August, contains five articles,—one on Railroad Companies as Carriers of Goods and Passengers, being of great interest. Published by Freeman Hunt, New York.

In the region of Wheeling, Va. the farmers hardly know how to get in the immense quantity of hay which lies before them and much will be left uncut for want of laborers.

For the Chronicle and Phenix.

TEMPERANCE IN BELKNAP COUNTY

Messrs. Editors:—Perhaps you would like to hear how Belknap County comes on in the work of temperance. Belknap is neither active nor efficient in the work of sustaining the liquor law. The ladies prosecuted a liquor seller at Sanbornton Bridge; and several cases have been on the docket at Laconia. At the trial of one case at Laconia, the ladies went in to witness the humiliation of the rum autocrat. The sale is not entirely stopped, and is not likely to be, so long as one of the political parties exerts all its influence against the law.

Down with freedom and temperance, and up with rum and slavery, is their motto. One of the leaders of the so-called democratic party, was heard to avow not long since that he liked the law, but should try to break it down to secure the ascendancy of his party. The man who said it expects to be a candidate for the New Hampshire Legislature.

More anon. †††

LACONIA, N. H., Aug. 9, 1856.

For the Chronicle.

RELIGIOUS DESTITUTION IN EPPING.—*Messrs. Editors:*—A brief statement of facts, to set history right, and to correct your attentive correspondent on the above subject,—you will be so kind as to publish in your excellent paper:—

1st, a poor victim of intemperance (we will not call names) died only a few days since in the open fields, by the road side, with a bottle of rum by his side—the rum-seller knowing the antecedents of the man as well as we know "Brooks;" and that, too, on God's holy Sabbath day.

2nd, a poor victim was seen with my own eyes, lying beastly drunk under the eaves-dropping of the Methodist church, only a few weeks since, with the rain pouring down upon him like the Border Ruffians on the Free State men of Kansas.

3d, only two short years since, the men of wealth, character and talent, all united or pretended to, to prosecute the rum-sellers—the ruiners of their children, the robbers of their fathers, of health, life, property, character, peace and happiness; and last year they *held up these same* rum-sellers as the men "they delight to honor" as the Fathers of the town, as Selectmen. Ah! tell the Missionary Agent he need not alter his Report.

EPPING, Aug. 11. TRUTH.

☞ The Democrats of Newburyport are forming a Key Stone Club. The party are in good spirits, and will rally their whole strength.

In Ward One, the question of the Presidency has so divided the American Council, that they have dissolved. The Fillmore men retained the records, and the Fremonters, who are in a majority, are forming anew. There is said to be a show of Fillmoreism in Ward Six, also.

☞ The Herald states that the Rev. Noah Hooper, of Great Falls, N. H., has accepted the unanimous call of the Green street Baptist Church and Society, in Newburyport, to become their Pastor.—Mr. Hooper has supplied that pulpit for a time to great acceptance, and is spoken of as a man of learning, piety and ability. Having a good preacher and a church so favorably situated, the society should have a season of prosperity.

HARBOR BILLS.—On Wednesday the Senate passed a batch of river and harbor bills, exhausting their calendar of such bills. Only one bill was rejected—this was a bill appropriating $20,000 to improve Taunton river in Massachusetts. Unless these bills are speedily passed by the House, the President, if he sees fit, can defeat them by "pocketing."

The St. Louis Herald complaining of the egotism of Benton's speech in that city, the evening before the election, gives the following:

"It reminded us of one of those vaunting orations made by an Indian on his return from the war path: "Me Big Injun heap!—very big Injun—me eat horse's mammy—tear trees up by the roots—catch buffalo bull by the tail."

As a specimen of the principles upon which Francis P. Blair, Jr., went into the Congressional canvass in St. Louis, we quote the following paragraph from the St. Louis Democrat in favor of his election:

"To the polls then voters of St. Louis, and show the dignity of your calling and vindicate the rights of labor. Prove to them that white men will not be made slaves, and that the free citizens of St. Louis know no master.

A business letter from Rockford, Illinois, to a gentleman in Hartford, contains this paragraph:

"Politics is at a high rage here—all one sided for Fremont. I don't think that is fair. Buchanan will poll about twenty-five votes here, and among that twenty-five I have counted myself.,,

DRUGGED AND ROBBED.—Jeremiah Long, of Stoneham, reported that he was robbed of his clothes, a silver watch, and $48 in money on Saturday in Boston. He states that he employed a person whom he met to assist him in searching for a friend. During their perambulations they took sundry drinks, and the next thing Long has any distinct recollection of was finding himself in a butcher's cart in Pearl street, minus the above mentioned articles. He supposes he was drugged.—[Trans.

THE ELECTIONS.

MISSOURI ELECTION.—St. Louis, 11th.—Seventy-one counties give Polk 31,000, Ewing 28,130, Benton 19,200. There are 33 counties to be heard from, which will doubtless increase Polk's majority to 8000.

Thirty-four counties return 34 Democrats, 22 Bentonites, 27 Americans, and 7 Whigs to the House. Two Americans and 4 Democrats are elected to Congress, besides Blair, and one American, (Akers) to fill Miller's vacancy.

From Alabama, a despatch was published last week, that the Democrats had carried Mobile and the State. The Mobile Advertiser of the 5th says, that the only officer to be elected in that city was a County Assessor, and that but little interest was manifested in the resnlt. The vote cast was: American, 846; Democratic, 457. American majority, 389.

In Montgomery, Alabama, on the 1st, there was an election for Assessor, which resulted in 100 for Harris, Democrat, and 478 for Gause, American.

CHICAGO, Aug. 9, — 25 counties of Iowa have been heard from, giving the Republicans a majority of 4500. Hon. Augustus Hall, Democrat, passed through this city to-day. He announced his own re-election to Congress from the 1st district of Iowa. Advices, however, from Iowa city last night reaffirm the election of Curtis the Republican candidate.

WASHINGTON, Aug. 11.—In 50 counties in North Carolina, Bragg gains 6000 votes, and there is also a Democratic gain of 20 members to the Legislature.

LOUISVILLE, Aug. 11.—We have returns, official and unofficial, from 68 counties in this state, from which it appears that the American ticket has a majority of 2430, and in the same counties the Democratic gain, as compared with the last election, 7446.

WASHINGTON, Aug. 11. It is untrue that Judge McLean has issued writs of *habeas corpus* in cases of persons charged with treason in Kansas. Application was made to him, but refused, on the ground that it did not appear on the face of the papers that the prisoners were illegally detained; but on the contrary, that warrants were issued by a court of competent jurisdiction.

DISMISSAL OF KANSAS OFFICERS.—[Washington Correspondence of the Courier and Enquirer.] Judges Lecompte and Cato, and Marshal Donaldson, of Kansas, were invited to resign three weeks ago, and having declined, they have this day been dismissed.

WASHINGTON, Aug. 9—The Senate to-day confirmed a large batch of nominations, — among them Samuel Babcock, Collector of Middletown, Conn.; Alpheus H. Hanscom, Collector of Saco, Me.; G. B. Caverly, Secretary of Legation to Lima; and G. W. Williams to China.

Utah is a very peculiar country. Its affection for the peculiar institution of the South is well known, and its cultivation of the peculiar institution of Turkey is quite exemplary. — But if the latest accounts are true, it is also going in for an institution hitherto peculiar to Thibet, namely The Rock Islander tells us of a woman on her way to Salt Lake city, with four husbands.

A FRIGHTENED PIG.—During the great thunder storm on Friday, say the papers, a gentleman in Braintree, lost a fine pig, who it is supposed was frightened to death by the terrific thunder, as no marks of lightning were seen in the vicinity of his pen.

THE DELUSIONS OF HOPE.—Some of the Fillmoreen journals at the South are trying to solace themselves on the story that Vermont is going to cast her electoral vote for Fillmore!

Preparations are making in New Haven, for a universal Fireman's Parade to take place September 4th, 5th, and 6th; when engine companies are expected from all parts of the Union.

MISS I. T. HAVEN *will* resume her School on Monday, Sept. 1st., 1856. au6 2w.

HEALTH AND STRENGTH.

☞ DR. S. O. RICHARDSON'S SHERRY WINE BITTERS is the best Medicine ever used, for Summer Complaints. It has been more liberally patronized than any other ever established in this country. It is the same Richardson's Bitters which has restored so many invalids to health throughout New England during the past thirty years.

N. B.—Beware of imitations called Sherry Wine Bitters. The genuine have a fac simile of my signature upon the outer envelope. For sale by Druggists everywhere, and at my office, No. 51 Hanover St., Boston. au8 6m

WORTH KNOWING.

Prof. Wood, of St. Louis, has discovered a remedy for the grey and bald, which is at once practicable and cheap. It requires no dyeing, no wig, no extraordinary trouble. There can be no doubt whatever of its efficacy We have seen testimonials almost without number, and from men of great intelligence, high standing and moral worth.

Those who have been bald for years are now wearing their own hair, and appear ten years younger than they did six months ago. As in most cases grey hairs and bald heads are both premature and unnatural, it is a duty to remedy them by the natural and undoubted means which Prof. Wood has invented, and now kindly offers to the afflicted. Try his wonderful remedy, and give the Professor a new testimonial.—*Memphis Whig*

Also, a lot of Remnants at Cost.

A great variety of Shades, Curtains, Fi Tassels and Cord.

Please call and examine.

LOCAL.

ECONOMY VS. HEALTH.—The Ballot states that our board of health has no physician this season, for the reason that our economical democratic city government will not pay a salary that will induce any physician to accept the office. Besides the necessity for such an officer to guard the health of the city by the removal of infectious nuisances, City Ordinance No. 7, "for the protection of health and for the establishment of a regular system of quarantine," decrees that all vessels coming from any port where contagious diseases prevail, between the first day of May and the first day of November, shall remain at quarantine until discharged by "a certificate from at least two of the health officers, one of whom shall be the physician."

☞ A portion of the floor of the Piscataqua House Stable, in this city, gave way, early on Tuesday morning—thereby precipitating three horses into the cellar below, usually occupied by pigs alone. Two of the horses belonged to Mr. Hadley, proprietor of the House; the other, which was most injured, was a medicine pedlar's horse, whose great weight probably "brought down the house." He and another horse hung by their halters, till released; while old "Tom" broke loose and rolled out of the way. The pedlar carried medicines, and has now a good opportunity to apply his liniments.

☞ It will be seen that the Methodist Society of this city, with others who wish to join, will hold another Pic-Nic in the Grove, at New Market Junction to-day. The location is beautiful and well adapted, and all who were prevented by the appearance of foul weather, from attending, on the former occasion, can now have a good social time at a very small outlay of money and trouble.

☞ A business man who has occasion to drive over our streets and roads every day, informs us that the loose stones are generally and commendably picked up and thrown off from the path on the Roads—but that in the Streets, loose stones and other rubbish are in the path, to the annoyance of both horse and driver.

☞ It will be observed, by the City Collector's Notice, that the time for saving 6 per cent, on taxes in Portsmouth, expires with the week. Pay up, and save money.

☞ Messrs C. W. Brewster & Son, advertise their new Directory and City Book, at 50 cents per copy, for the present week only. Every body should have one, and the edition ought to be exhausted at once.

A LIBERTY POLE.—An immense pole, or more properly mast, for the Democratic Party in Dover, was sent off on Monday evening, from the Mast Yard of Mr. Odion, near Liberty Bridge in this city.

The mast, like that of a ship, is in three parts, viz: lowermast, topmast, and topgallantmast;—the whole being 176 feet high.

The Flag to float from the mast head, is the American Stars and Stripes; it is 49 feet long; and it bears the names of Buchanan and Breckinridge.

The mast is fully and properly braced and rigged, and is to stand on Franklin square, in Dover N. H.

The mast, flag, and apparatus complete, are stated to have cost $1200.

☞ The Daily Chronicle may be had of our Carriers, at 8 cents per week. Single copies 2 cents. $4 per year in advance.

From the Boston Saturday Evening Gazette.

A PERFUMED BREATH.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A BEAUTIFUL COMPLEXION may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and roseate hue. Wet a towel, pour on two or three drops, and wash the face night and morning

SHAVING MADE EASY.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," run the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

W. P. Fetridge & Co. Proprietors, 323 Pearl street, New York, and 100 Washington street, Boston. For sale in Portsmouth by William R. Preston. 6mje16

CONGRESS.

MONDAY, Aug. 11.

SENATE.—A resolution was adopted calling for information touching the maritime propositions of the allied powers.

Mr. Douglas, from the Committee on Territories, reported back the House bill to reorganize the territory of Kansas, with a written report, that the Senate bill now before the House is the best plan for the pacification of Kansas that the Senate can devise. It then recommends, the House bill be laid on the table, as a test vote on its rejection.

Mr. Collamer of Vermont read the minority report in favor of the enactment of the House bill.

It was tabled—34 against 12.

Nays—Messrs Bell of New Hampshire, Collamer, Fessenden, Fish, Foot, Foster, Hale, Harlan, Seward, Trumbull, Wade, Wilson.

Mr. Bigler called up his resolution submitted on Saturday, concerning Col. Fremont's account.

After some debate it was agreed to. Messrs. Bigler, Wilson, Hale, Trumbull and others, spoke on the subject, and the latter moved an amendment to include various inquiries touching Buchanan. The amendment was rejected and the resolution agreed to.

Mr. Weller moved to take up the Pacific Railroad bill, but his motion was disagreed to. He said he had yielded to the River and Harbor bills, and now the friends of these measures failed to assist him in considering that bill.

Mr. Seward remarked he was always willing.

Mr. Weller did Mr. S. the justice to say that there was not a member in the Senate who had rendered more uniform and efficient service in behalf not only of the Pacific Railroad bill, but of all measures for the benefit of California, than the Senator from New York.

The Senate then struck out from the House bill, appropriating for executive, judicial and legislative expenses, the appropriation of $183,000 for books voted to the members of the House of Representatives. Adjourned.

HOUSE.—The House laid on the table, by 29 majority, the bill enabling owners of land warrants to locate the same on any public domain subject to entry, whether the minimum price is a dollar and a quarter or otherwise.

Mr. Campbell of Ohio, from the Committee on Ways and Means, reported a bill reducing the duties of imports, and for other purposes. Its consideration was postponed until the third Monday in December.

A message from the President was received, returning with his objections the bill for the improvement of Des Moines Rapids. He says it is liable to the objections urged against other similar bills, and refers to his previous message on the subject.

The House, under the operation of the previous question, repassed the bill, *notwithstanding the President's veto*, by yeas 130 to nays 54.

The bill making appropriations for the support of the Post Office Department was then passed without debate.

On motion of Mr. Campbell of Ohio, the Army bill, returned from the Senate, without the Sherman proviso, was taken up.

Mr. Campbell said, having sworn to the spirit of the Constitution, he should vote against retaining the Sherman proviso.

Mr. Pennington suggested a substitute to avoid all constitutional scruple, declaring that no part of the military force, for the support of which appropriations are made by this act, shall be employed to aid in the enforcement of any enactment of the body claiming to be the Territorial Legislature of Kansas, until such enactments shall have been affirmed and proved by Congress; but this position shall not be so constructed as to prevent the President from employing adequate military force, but that it shall be his duty to employ such force to prevent the invasion of the Territory by armed bands and non-residents, acting as a *posse comitatus* of any officer in the Territory, in the enforcement of any such enactment, and to protect persons and property therein, and upon the national highway leading to the Territory, from all unlawful searches and seizures; that it shall be his further duty to compel the return of and withold all arms of the United States distributed to said Territory, in pursuance of law.

Mr. Campbell of Ohio said, as Mr. Pennington's proviso did not violate the letter or spirit of the Constitution, and taking all the circumstances into consideration he would accept it. He moved the previous question.

Mr. Cobb of Georgia rose to a point of order. He said the Senate's amendment to the bill was to strike out the Sherman proviso, and the House was compelled to vote on that only.

The Speaker decided that the amendment was in order, and was sustained by 16 majority.

Mr. Pennington's proviso was adopted by 100 against 90. The Senate's amendments thus amended were returned to that body.—The Light House appropriations and other bills of minor importance were then passed.

FROM EUROPE.—We have the Canada at Halifax, in addition to the Anglo-Saxon at Quebec, and the Arago at New York, from Havre, the Canada being three days later, and making a very handsome passage towards Boston. She left Liverpool Aug. 2d.

The accounts from Spain are entirely in favor of the success of the government in its assault upon the people in their constitutional privileges. The army has prevailed in conjunction with the efforts of the Queen's new administration.

At Liverpool the lower grades of cotton were a shade better, while breadstuffs continued to decline. In general markets and monetary matters there is no change to notice, except that consols were for the day a shade lower.

NEW YORK, 11th.—Steamer Arago, from Havre July 30, arrived here this forenoon, sailing the same day as the Anglo-Saxon.

LATE DISCOVERIES IN PATHOLOGY show that very many of the diseases which afflict mankind arise from impurity of blood. This has long been suspected but is only lately known. In consumption, tubercles are found to be a sedimentary deposite from the blood. Dropsy, Gout, Cancer, Ulcers and Eruptions, all arise in disordered deposites from the blood. Billious diseases and fevers are caused solely by its deranged unhealthy state, and even the decline of life follows a want of vitality in the blood. In view of these facts Dr. Ayer designed his Cathartic Pill especially to purify and invigorate the blood, and hence we believe to arsie its unparalleled success in controlling and curing disease.—*Medical Journal.*

Written for the Chronicle and Phenix.

CLARENDON WEBSTER.

A TEMPERANCE TALE.

NOT far from the ancient town in which the Pilgrims first settled, upon a slightly-rising knoll, which commanded a view of the whole street,—long, broad, and lined on either side with neat, white houses; some of imposing dimensions,—stood a large, airy mansion, in which dwelt Mr. Webster, whose son we have for the hero of this story.

He was rich and influential, affable and polite, generous and charitable; and had, with great possessions, a large heart, a sound mind, a clear understanding—in fact, was a gentleman of the first order, as all the villagers were ready to testify. He was looked upon as the key to all enterprise and improvements there.

Mr. Webster had once been all we have described him above, and more; but a little champagne, a little tom and jerry, a little pale brandy, and a little of other mysterious mixtures, taken a little at a time, and at little intervals, had degenerated him into a being less noble and affable.

Within fifty rods of his mansion, stood another, vieing with it in point of beauty and comfort. Mr. Bradford, the owner of this, was a high-minded man, of rare talents and noble appearance He had once been poor; but with untiring zeal, and great energy, he had made his way up in the world, taken his stand with the worthy ones of earth, and maintained it by his rare merits.

Mr. Webster, as we before said, had once been a sober, high-minded man: but his numerous indulgences had sunk him, and it was only through the energy and ambition of his wife that he was enabled to make a respectable appearance. He had long indulged in a secret hope of enticing Mr. Bradford from the paths of temperance, and sobriety in all things, to seek the haunts of his favorite indulgence and partake of wine and choice liquors. He was bent upon bringing him down to a level with himself. It nettled him exceedingly to see Mr. B. enjoying the respect and love of the whole neighborhood.

But, to the story. The day had been cool and agreeable, and all nature was happy.—Cards of invitation had been left at Mr. Bradford's, for himself and his fair daughter Hattie,—who were all Mr. B.'s family, Hattie's mother having died when she was very young. Invitations were liberally distributed through the village.

When Mr. Bradford came home in the afternoon, he was met in the hall by his daughter, happy in anticipation of the pleasure of the evening. Her father greeted her affectionately, and advised her to go by all means;—for Mr. Webster's son, Clarendon, had just returned from the continent, and it was in his honor his mother had given the party.

The hall doors of Mr. Webster's richly-furnished dwelling were thrown open, and numerous carriages were unladen here. The house was filled with guests; and much rivalry was engendered between envious belles and jealous beaux. Match-making mothers smiled sweetly on young men or maidens, as the nature of the case called for. All were inquiring of their neighbors for the beautiful Miss Bradford, or Hattie, as she was familiarly called. A stir in the drawing-room; and exclamations of "Beautiful! Beautiful!!" were heard, in low tones,—as the pretty village belle was ushered in by Mrs. Webster.

The guests were now all collected, and the amusements of the evening had commenced. Some fair groups were engaged in conversation, others clustered around the Piano; while in a deep recess were seated a group of elderly gentlemen eagerly discussing political and general subjects. The tall gentleman in black predicted that "Fremont and Jessie" would occupy the White House; while the other two laughed, and stoutly gave their opinion that Buchanan, "the glorious old democrat," would fill the presidential chair. And "bless your heart," said Mr. Bradford, "for you are right. If he is elected we shall have brisk work in our Republic, and the democratic party will vindicate its honor and inviolability; but should Fremont be elected, then——" "Tut! Tut!" exclaimed the two gentlemen, "don't mention it; it can't be;" and a hearty laugh from the three called the attention of the guests to them; perceiving which, they changed the conversation, and we will leave them to their own political pleasures, for we must admit it to be a dry subject with us.

Mrs. Webster now entered, leaning on the arm of her son Clarendon. He politely bowed and gracefully saluted the guests, and seated himself by the side of Hattie,—who "blushed awfully," as she was afterwards informed by that affected young lady, Miss W. Clarendon and Hattie kept up a very spirited conversation for some time, when the former distinctly heard his name pronounced by several of the company, who united in pressing him to favor them with some of his French and Italian music. After giving Hattie such a look as only young ladies and gentlemen in love can understand, he seated himself at the instrument, swept his hands gracefully over the keys, and immediately commenced a brilliant polka. All who could dance were on their feet in an instant.

It was a gorgeous party, that; but it came to an end. All things earthly come to an end. This world of ours, for ought we know, will have an end; and, unless we are prepared, a dreadful end it may be. Clarendon was complimented by his friends, but more than all he prized the look of Hattie, which plainly spoke her pleasure.

Clarendon offered Hattie his arm, and as they walked under the big elms, with the pure moonlight glimmering through upon them, tender thoughts were uppermost in their minds; but no words were shaped to them that night and they soon reached the door, and each bid the other good night.

To be continued to-morrow.

Portsmouth Circulating Library.

J. F. SHORES, JR., No. 1 Congress Block, has lately added to his Circulating Library the following books:

Young Married Lady's Private Medical Guide.
BY PROF. F. H. DOANE, M. D.

How beautiful is the idea of the wife, in sacred literature! Polished corner stones—walls of cedar—fruitful olive trees—all choicest emblems of combined strength and beauty. Such should woman ever be. Yet who that views so universally *her pale cheek sunken eye,* and *inability to endure fatigue,* could say that such she is? Maiden, wife, mother, would you know the reason? read the "Private Medical Guide." Simple, plain, modest, yet full of instruction, no lady who prizes her health and happiness, can afford to be without it. So say thousands who have availed themselves of its knowledge, and been benefitted by its remedies. Designed only for the virtuous to furnish information all-important to woman's health and happiness. It is not for sale at the book stores. Beautifully printed, bound and gilt; price $1. Circulars and recommendations furnished *gratis.* All letters of enquiry must contain a letter stamp to prepay the return. Address or apply to PROF. F. H. DOANE, M. D., No. 1 Tremont Temple, Boston, Ms. The above work will be sent by mail or express to all parts of U. S., securely enclosed, on receipt of price.

DR. CONVERS'
INVIGORATING CORDIAL,
AND NERVOUS ANTIDOTE.

This Cordial is the only remedy for those sad derangements of body and mind, caused by early and improper habits of youth.

N. B. That involuntary nocturnal loss of physical energy, productive of much mischief to the nervous system, incapacitating the victim for business, society, or matrimony, is speedily restrained by this Cordial. It is the only remedy which has effected the desired result in this malady.

Dr CONVERS may be consulted personally or by letter, without charge, at his office 321 Hanover st., Boston, where all orders for the cordial should be sent Dr. Convers' Medical work, 175 pages—

The Beacon; or, Guide from Youth to Manhood—is the most important work ever published on these complaints. To young men it is invaluable. It will be given to those who purchase 3 bottles of Cordial.

Clark's Female Pills.

The Great English Remedy.

Prepared from a prescription of Sir Jas. Clarke, M.D., Physician Extraordinary to the Queen.

THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION.

These Pills should not be taken by females during the FIRST THREE MONTHS *of Pregnancy, as they are sure to bring on Miscarriage, but at every other time and in every other case they are perfectly safe.*

Sole Agents for the United States and Canada,

I. C. BALLWIN & CO., Rochester, N.Y.

Whalebone Skirts.

THE only object of a Whalebone Skirt is to give a proper, graceful and elegant form to a lady's dress. Unless this is accomplished, the article is entirely worthless. The Ladies, by referring to Frank Leslie's Gazette of Fashions for April, will notice that E. & J. HOLMES have from actual experience been successful in producing this most desirable article, and that their IMPROVED SEAMLESS SKIRT meets the unanimous approbation of the ladies. They are light, pliable, and easily adjusted, and the only Skirt which is equally adapted to the street and the crowd; are made in one piece or breadth, and in our opinion, and in the opinion of thousands of ladies who have bought them, the most reliable goods of the kind in the market. We were the first to introduce a Whalebone Skirt, and from our experience in the manufacture and retail of these goods, we have found that **all** kinds of cotton cord, and nearly all kinds of cord, and all starched goods, cannot be used satisfactorily, as they will not recover their place when pressed out of shape. We consider all

WHALEBONE SKIRTS

as worthless, of whatever material made, unless there is something of sufficient stiffness and elasticity, and at the same time yielding, and pliable, to keep the dress in proper shape below the bones. To accomplish this we have our cord made under our own direction, and expressly for our goods, and from the only material that can be used that will recover its proper place when pressed out of shape, and are so twisted in manufacturing that they will not roll or curl when wet, and warranted to wash without injury. The public are cautioned against all worthless goods, as the market since our goods have become popular and extensively known, has been flooded with goods of all kinds, and put together without form or comeliness, or any other object but to sell, and of course are called Whalebone Skirts. Some imitators, in their efforts to profit by our reputation, have gone so far as to copy almost exactly our trade mark upon their goods.

Please Notice.—Every genuine article stamped, *E. & J. HOLMES'S IMPROVED SEAMLESS WHALEBONE SKIRT*, and may be found by the trade in many of the largest Jobbing Houses in New York and Boston, and at retail in the principal Dry Goods stores.

June 6, 1856. eo3m E. & J. HOLMES, Boston.

Great American and Foreign Office

For Securing Patents for Inventions.

Agency for business with US Patent Office, Washington

R. H. EDDY,

No. 76 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages in applying for Patents, superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others), will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington—Patents secured in Great Britian, France, and other foreign countries, through Agents of the highest respectability. **R. H. EDDY.**

Solicitor of Patents.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in a suring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

Boston, Jan. 11 1856. d6eow

Hartford Fire Insurance Co.

HARTFORD, CONN.

INCORPORATED IN 1810.

Capital $300,000—all paid in and invested.

THIS long established and well known Institution, has transacted a most extensive insurance business for more than forty years, throughout the United States and the British North American Provinces. It has aimed to secure public confidence, by an honorable and faithful fulfilment of its contracts; and owners of property are assured that all fair claims for loss under its policies will be liberally adjusted and promptly paid. Public Buildings, Manufactories, Mills, Machinery, Dwelling Houses, Stores, Merchandise, Household Furniture, Vessels on the stocks or while in port, &c. will be insured as low as the risk will admit. The following gentlemen constitute the

Board of Directors.

H. Huntington, Charles Bowell, Job Allyn,

FARM LANDS FOR SALE.

The Illinois Central Railroad Company

IS NOW PREPARED TO SELL

OVER TWO MILLION ACRES

OF

FARMING LANDS,

In Tracts of 40 acres and upwards, on long credits and at low rates of interest.

THESE lands were granted by the Government to aid in the construction of this Railroad, and include some of the richest and most fertile districts in the State, interspersed here and there with magnificent groves of oak and other timber. The Road extends from Chicago, on the northeast, to Cairo at the south, and from thence to Galena and Dunleith, in the north-west extreme of the State, and as all the lands lie within fifteen miles on each side of this Road, ready and cheap means are afforded by it for transporting the products of the lands to any of those points and from thence to Eastern and Southern markets. Moreover, the rapid growth of flourishing towns and villages along the line, and the great increase in population by immigration, etc. afford a substantial and growing home demand for farm produce.

The soil is a dark, rich mould, from one to five feet in depth, is gently rolling and peculiarly fitted for grazing cattle and sheep, or the cultivation of wheat, Indian corn, etc.

Economy in cultivating and great productiveness are the well known characteristics of Illinois lands. Trees are not required to be cut down, stumps grubbed, or stone picked off, as is generally the case in cultivating new land in the older States. The first crop of Indian corn, planted on the newly broken sod, usually repays the cost of plowing and fencing.

Wheat sown on the newly-turned sod is sure to yield very *large profits*. A man with a plow and two yoke of oxen will break one and a half to two acres per day. Contracts can be made for breaking, ready for corn or wheat, at from $2 to 2 50 per acre. By judicious management, the land may be plowed and fenced the first, and under a *high state of cultivation* the second year.

Corn, grain, cattle, etc. will be forwarded at reasonable rates to Chicago, for the Eastern market, and to Cairo for the Southern. The larger yield on the cheap lands of Illinois over the high priced lands in the Eastern and Middle States, is known to be much more than sufficient to pay the difference of transportation to the Eastern market.

Bituminous coal is mined at several points along the Road, and is a cheap and desirable fuel. It can be delivered at several points along the Road at $1 50 to $4 per ton; Wood can be had at the same rates per cord.

Those who think of settling in Iowa or Minnesota, should bear in mind, that lands there of any value, along the water courses and for many miles inland, have been disposed of;—that those located in the interior, there are no conveniences for transporting the produce to market, railroads not having been introduced there. That to send the produce of these lands, one or two hundred miles by wagon to market, would cost much more than the expense of cultivating them; and hence Government lands thus situated, at $1 25 per acre are not so good investments as the lands of this company at the prices fixed.

The same remark holds good in relation to the lands in Kansas and Nebraska, for although vacant lands may be found nearer the water courses the distance to market is far greater, and every hundred miles the produce of those lands are carried either in wagons or interrupted water communication, increases the expense of transportation, which must be borne by the settlers, in the reduced price of their products; and to that extent precisely are the incomes from their farms, and of course on their investments, annually and every year reduced.

The great fertility of the lands now offered for sale by the company, and their consequent yield over those of the Middle and Eastern States, is much more than sufficient to pay the difference in the cost of transportation, especially in view of the facilities furnished by this Road, and others with which it connects, the operations of which are not interrupted by the low water of summer, or the frosts of winter.

PRICES AND TERMS OF PAYMENT.

The Price will vary from $5 to $25, according to the quality, location, &c. Contracts for Deeds may be made during the year 1856, stipulating the purchase money to be paid in five annual installments; the first to become due in two years from the date of contract, and the others annually thereafter. The last payment will become due at the end of the sixth year from the date of the contract.

Interest will be charged at only 3 per ct. per ann.

As a security to the performance of the contract the first two years' interest must be paid in advance, and it must be understood that at least one tenth of the land purchased shall yearly be brought under cultivation. Twenty per cent. from the credit price will be deducted for cash. The Company's construction bonds will be received as cash.

READY FRAMED FARM BUILDINGS,

Which can be set up in a few days, can be obtained from Responsible Persons.

They will be 12 ft. by 20 ft. divided into one living and three bed rooms, and will cost complete set up on ground chosen anywhere along the road $150 in cash, exclusive of transportation. Larger buildings may be contracted for at proportionate rates. The Company will forward all the materials for such buildings over the Road promptly.

Special arrangements with dealers can be made to supply those purchasing the Company's lands with fencing materials, agricultural tools, and an outfit of provisions in any quantity, at the *lowest wholesale prices.*

It is believed that the price, long credit, and low rate of interest, charged for these lands will enable a man with a few hundred dollars in cash, and ordinary industry, to make himself independent before all the purchase money becomes due. In the mean time the rapid settlement of the country will probably have increased their value four or five fold. When required an experienced person will accompany applicants, to give information, and aid in selecting lands.

Circulars containing numerous instances of successful farming, signed by respectable and well known farmers living in the neighborhood of the Railroad lands, throughout the State—also the cost of fencing, price of cattle, expense of harvesting, threshing, &c. by contract—or any other information—will be cheerfully given, on application, either personally or by letter, in English, French or German, addressed to

JOHN WILSON,

Land Commissioner of Ill. Central R. R. Co., Office up to the 1st of May, 52 Michigan Avenue, Chicago, Ill: after that date in the New Stone Passenger Depot, So. Water st. a8 6m

GEORGE W. JENNESS,
Union Wharf, Water Street,
near Liberty Bridge.
Portsmouth, August, 1856. au5d3m

DR. LAROOKAH'S SYRUP.

DR. LAROOKAH'S Indian Vegetable Pulmonic Syrup, is warranted to cure Coughs, Whooping Cough, Asthma, Colds, Croup, Bronchitis, Consumption, and Diseases of the Throat and Lungs.

DR. LAROOKAH, a Celebrated Indian, has discovered in the combination of four minds of Common Roots and Herbs, a remedy that is warranted to *cure CONSUMPTION* in all cases where the lungs are not mostly consumed, and sufficient left to sustain life; and every disease of whatever name having seat in the lungs or bronchial tubes.

A. A. PAYNE, Agent for Portsmouth, 87 *Market St.* a28 tf

ALL who want a good suite of CLOTHES,
From the finely formed hat to the silken hose,
Will find them at No. 54 old Market street,
Where the good natured FITTS his customers greets.

Pants, Vests, Bosoms, and Collars so grand,
Coats, Shirts, Neck Cloths and Gloves, all fitted to hand,—
All sizes and patterns you'll surely here find,
With prices *so low* as to be suited to mind.
When Summer's bright day and Sol's sultry heat
(More potent than wind) shall prompt thy retreat,
Call then at FITTS'S, where you will find
Thin Garments, all sizes, of every kind.

From the Land of Pulaski
We rolled o'er the sea,
Made a visit to London—
That Babel *entre;*
But now in the land
Of fair freedom we greet
Good customers all—
48 Market street.

For sale by WM. P. GOOKIN,
m2 Long Wharf.

Secured by Royal Letters Patent in England and by Patent in the United States.

THE Subscribers, having been for a long time desirous of securing to the public a Needle that will not only be a superior article, but perfect in the Eye, recommend their "*Patented Gold Inlaid Needle.*" They are justly celebrated, and preferred above all others, the eyes being inlaid with gold and burnished, which renders the cutting or chafing the thread utterly impossible.—They are manufactured from the best steel, and tempered according to the most approved plan.—We therefore offer with confidence these Needles to the public, having secured them against all frauds or imitations either in Paper, Label or Needle. We desire all parties purchasing these Needles to be cautious in the selection of them, as unprincipled persons have sought to imitate our style, and thus palm off an inferior article, notwithstanding the heavy damages we have recovered from various parties; and a reward of $500 will be paid for such information that will lead to the detection and conviction of any person or persons thus engaged. None are genuine except those labelled on the back, "*Warranted by R. Crowley.*" A liberal discount will be allowed to dealers who purchase in large quantities.

WILLIAM CROWLEY & SON,
Oversly Mills, Alcester, England.

Having made arrangements with the Manufacturers of the above brand of Needles (which I earnestly recommend as the best Needle in the market,) I am prepared to sell them

Wholesale at $1.60 per M.
Retail at 6¼ cts. per paper of 25.
Assorted or separate numbers, sharps and betweens.

Morning Chronicle.

THURSDAY, AUGUST 14, 1856.

FREMONT IN MISSOURI.—The St. Louis Republican, (which is an earnest supporter of Mr. Buchanan for the Presidency,) after giving the majority (4,422) of St. Louis county for Buchanan, says:

"But this majority cannot be counted on next November. A large number of those who voted for Mr. Benton on Monday are Fremont men, and if a Fremont ticket is presented in this State they will vote for it. When making calculations about the result in November, this fact must be considered. Men stand ready to bring out such a ticket, and the people ought to accustom themselves to contemplate it, and to remember those who bring it forward."

The St. Louis Evening News says of the member elect from that city:

"Mr. Kennett was emphatically our choice, and we confess to a serious disappointment at his public defeat. Still, the voice of the people, fairly uttered, has declared for Blair, and we have no right to demur. His success is due partly to his own energy and talent, but chiefly to that ancient element of Bentonism which has so long dominated here, and which the result of yesterday's election would seem to indicate is about as strong as ever."

The St. Louis Democrat says of Mr. Blair:

"He is the embodiment of this great and growing city, in all its aspects, commercial, political, social, economical and otherwise. He goes there, too, we must say, borne upon a victory, the like of which has never carried any other man to the Congress of the United States. His reputation—won in the hall of the House of Representatives of the State of Missouri, is that of the Randolph of the West. His triumph is unexampled in the political history of the country. His influence with men of all parties, from the North and from the South, from the East and from the West, will give him a sway from which we expect great things for Missouri. His talents—his courage—his social qualities—his generous temperament—his industrious zeal—will make him, we dare predict, the man of the next Congress.

ATCHISON ON FREMONT.—Col. Atchison, of Missouri, before he became a Border Ruffian, and took to drinking whiskey and burning hotels, thought very favorably of Colonel Fremont. See Congressional Globe, 18th vol., p. 358.

"Mr. Atchison gave it as his opinion, not only that the conquest of California was effected by Col. Fremont, but that the United States had derived the advantage of his conquest at comparatively little cost.—He justified Col. Fremont in all he had done. If he had done less, he would have deserved and would have received the execration of the whole country. He made some reference to the course which Col. Fremont pursued—a course in some instances rendered indispensable for his own preservation, and always characterized by skill and promptitude."

SMUCKER'S LIFE OF FREMONT.—Messrs. Miller, Orton & Mulligan, of New York and Auburn, have just published Smucker's Life of John C. Fremont, containing also his narratives of explorations, discoveries and adventures in Kansas, Nebraska, Oregon and California; unabridged. One handsome volume, fine steel Portrait and Illustrations, 500 pages, only one dollar.

This book is a valuable contribution to the history and geography of the country; and the biographical sketch of Fremont is spirited and lifelike.

The New York Courier & Inquirer says of it:

The memoir is written with elegance and fidelity; but the most valuable feature is Col. F.'s own narrative, which no one of any political party who knows how to appreciate real manhood, can read without admiring the courage, the resolution, the fortitude, the quick perception, and the sound judgment, which are mirrored forth from beginning to end. We wish the book were in the hands of every voter in the land.

Single copies sent by mail, postage paid, on receipt of price.

CONCERT TOURS by foreign artists during the present season have all turned out failures with one exception, says the N. Y. Musical Review. Strakosch always succeeds, he understands the tastes and desires of our public so well, that even a third-rate prima donna under his direction, will reap more laurels and dollars than De Lagrange herself. The latter artist has just returned from an unsuccessful tour with Gottschalk through Canada and New York. Miss Adelaide Phillips' western tour was abandoned as soon as commenced; Ole Bull has laid aside his violin and taken the stump for Fremont; and so with all the rest except Strakosch, who with Parodi, etc. has brought back a well-filled purse.

UNMITIGATED RASCALITY.—When Col. Fremont was in California, as we are informed by the ———, he wrote himself Governor without a capital G! This "needs no further comment."—So says the Charlestown Advertiser, which also says, "If the ——— would only put a little salt on the tail of the American eagle, we should think they would be able to 'save the Union.' We don't see anything to make such a bobbery about."

LATE FROM KANSAS.

A letter in the St. Louis Republican (proslavery) dated Whitehead, Kansas, Aug. 4, says that the United States District Court, Judge Lecompte presiding, began its summer term on that day. The cases for decision were numerous, chiefly criminal and political.

Gen. Smith had sent 50 dragoons, under Capt. Wood, to protect the Court and enforce its decrees.

Judge Lecompte, in his charge to the grand jury, reviewed the most glaring offences, and suggested remedies for the present and prospective good of the country. He admonished them to be cool, calm and unbiassed in their actions, and to do nothing having the appearance of sectional or personal inclination.

The writer says Kansas never enjoyed such peace as now; and if let alone by foreign agitators, there would be universal harmony and prosperity.

The above is from a Border Ruffian source.

A dispatch dated Chicago, Aug. 11, gives the following intelligence from the Kansas overland emigrants.

Advices from Leavenworth to Wednesday, state that the overland Emigrant Company entered Kansas, and probably arrived at Topeka in safety. The company of Missourians, which marched to intercept them, had returned without fighting. The company of dragoons, headed by Judge Lecompte, which entered Nebraska to arrest Lane, had also returnod without effecting their object. The rumored battle between the emigrants and regulators near the Nebraska line, is not generally credited.

It was rumored in Nebraska city, 30th, that a large force of Missourians and Carolinians had invaded the Territory and blockaded the public roads. Volunteers have gone to drive them out.

A T.—We notice in the New York Musical World, an article by a Madame Caplin, explanatory of the virtues and advantages of a new "petticoat suspender," which she trusts "will supersede all the old methods of fastening that indispensable article of female attire. It is made of linen, or any light material, is about five inches wide, and must be fastened to the corset and form a part of it, and must always fit the lower part, by doing so carrying the whole of the bands and strings, which usually compress and enlarge the waist, entirely over the hips. It will form a base of support to the whole underclothing, and distribute the weight on the parts best adapted to bear it. Strings are not necessary with this suspender, for by sewing three rows of buttons into it, the petticoats are buttoned on in tiers one over the other. By thus making the curve gradual, the waist has the appearance of being small without that cutting to which it is usually subjected, a matter of great importance to those ladies who *will* appear slender, whether nature intended them to be so or not. The suspender, if properly constructed, will also do away with the necessity for crinoline dress-improvers, or hoops, and by throwing the underclothing properly off the hips, give ample sweep to the lower part of the garments, and accomplish every purpose for which these articles were invented.

☞ The Temperance Tale, "Clarendon Webster," of which we published a portion on Wednesday morning,—we have since concluded not to finish in our columns. It was from the pen of a young friend in a neighboring town—but though the plan of the story was good, and the moral excellent, (that no lady should receive the addresses of a man not a total abstinent) yet it hardly merits publication.

For the benefit of those who began to read the story, however, we will just inform them that Clarendon got drunk, was forced to a year's probation by Hattie's father, (in which he reformed,) and they were finally married in joy, and are now living in peace and the enjoyment of every blessing which temperance ensures.

But who will restore to us the three hours we spent in revising and make "English" of the manuscripts?

MUSIC.

BY GEORGE P. MORRIS.

The wind-harp has music it means to the tree,
And so has the shell that complains to the sea;
The lark that sings merrily over the lea,
The reed of the rude shepherd boy!
We revel in music when day has begun,
When rock-fountains gush into glee as they run,
And stars of the morn sing their hymns to the sun,
Who brightens the hill-tops with joy!

The spirit of melody floats in the air,
Her instruments tuning to harmony there,
Our senses beguiling from sorrow and care,
In blessings sent down from above!
But Nature has music far more to my choice,
And all in her exquisite changes rejoice—
No tones thrill my heart like the dear human voice
When breathed by the being I love!

—*Home Journal.*

☞ The Boston Journal, in an article on the Literature of Money, says, it seems that money has always been treacherous property, and liable to be lost. The following lines appeared in the Portsmouth Gazette in 1788:

"Once I had dollars and a friend,
Whom I can see no more;
I lent my dollars to a friend,
Which grieves my heart full sore;
Had I my dollars and my friend,
As I had once before,
I'd keep my dollars and my friend,
And play the fool no more."

THE ELECTIONS.

KENTUCKY.—Speaking of the Kentucky election, the Louisville Courier says:

"It is the height of folly for Know Nothings to pretend that there was no issue in the contest. They made a test vote wherever they could, and have been signally worsted every where. Last winter they allowed the Democracy only two judicial districts. The Democrats have carried ten out of the thirteen. This, we say again, is but a foretaste of November."

IOWA ELECTION.—The Republican majority in Iowa is 6200. The Democrats still claim Hall's election to Congress.

NEW HAMPSHIRE.—The Union Democrat, (Manchester) says "New Hampshire is all right."—We hope so.

The (——) try to make out that the election of F. P. Blair, Jr., to Congress from Missouri is no republican victory after all. The Boston Post says he goes for Buchanan. The Post knows better; Mr. Blair is a member of the Republican National Committee.

THUNDER AND HAIL STORM.—From 4 to 8 P. M. on Monday, there was a heavy storm of rain and hail, accompanied with lightning, in the northern part of Essex county, Mass.

When the train from Boston reached Ipswich, at about 6 P. M. Monday, it was so dark that it was almost impossible to see across the cars, and the hail fell in large quantities, some of the stones being larger than filberts. There was little wind at the time, however, and the hail, which completely whitened the ground, did little damage. At Wenham, a boy was killed by the lightning.

At Amesbury the woolen mill was struck, and a brick from the chimney thrown across the street, passing through an awning into the midst of several persons assembled in front of a store, without injuring any one.

The meeting-house in Plympton, Mass., was struck on the night of the 8th, and damaged to the extent of $1000.

HURRICANE.—The Lowell Courier learns that on Monday afternoon a hurricane passed over South Windham, N. H. The shoemaker's shop of Wm. Simpson was blown over, and also a dwelling house of R. B. Jackson. The shoulder of one of Mr. Jackson's children was broken, and others of the children were more or less injured. Hail fell in large quantities and of an extraordinary size.

☞ Signora Eufrasina Parepa (the Italian name by marriage of a niece of Mrs. Seguin of New York) is the prima donna of one of the theaters in Florence, where Mad. Biscaccianti, (born Ostinelli,) the American prima donna, is also engaged.

☞ The Annual Session of the "Chesbire County Musical Institute," will be held in Keene, N. H., commencing on Monday, August 18th, and continuing five days, under the direction of Mr. M. O. Collester, of Worcester.

SUDDEN DEATH.—Miss Daley, daughter of Edward Daley, aged 12, while sitting upon the steps of her father's house at East Boston, on Monday evening, was taken with bleeding from the mouth in such quantities as to destroy life in about ten minutes. Medical aid was called, but it was of no avail.

MISS I. T. HAVEN will resume her School on Monday, Sept. 1st., 1856. au6 2w.

HAYDEN'S IMPROVED VEGETABLE PURGATIVE PILLS.

LEICESTER, Nov. 26, 1848.

DR. W. R. HAYDEN; *Dear Sir*,—Having introduced your pills into my family, I can with confidence recommend them, as they are decidedly the best medicine I have ever used. For diseases incident to children, they are unsurpassed. My little boy, five years of age, had been out of health for some time. I gave him a few of your pills, and am happy to state that he has entirely recovered. Respectfully, yours,
JOSEPH DENNY.

WM. R. PRESTON, Druggist, wholesale and retail agent, Portsmouth. 6td&w

HIGHLY IMPORTANT TO RHEUMATICS.

An effectual cure for rheumatism. Dyer's Healing Embrocation will almost immediately relieve a person suffering from rheumatic complaints, and effect a permanent cure. Let all rheumatics try this remedy, and satisfy themselves as to the correctness of the statement.

For sale in Portsmouth by J. H. Thacher, W. R. Preston and B. Hutchings.
A. H. Field, sole proprietor, Providence, R. I.

HEALTH AND STRENGTH.

☞ DR. S. O. RICHARDSON'S SHERRY WINE BITTERS is the best Medicine ever used, for Summer Complaints. It has been more liberally patronized than any other ever established in this country. It is the same Richardson's Bitters which has restored so many invalids to health throughout New England during the past thirty years.

N. B.—Beware of imitations called Sherry Wine Bitters. The genuine have a fac simile of my signature upon the outer envelope. For sale by Druggists everywhere, and at my office, No. 51 Hanover St., Boston. au8*6m

WORTH KNOWING.

Prof. Wood, of St. Louis, has discovered a remedy for the grey and bald, which is at once practicable and cheap. It requires no dyeing, no wig, no extraordinary trouble. There can be no doubt whatever of its efficacy. We have seen testimonials almost without number, and from men of great intelligence, high standing and moral worth.

Those who have been bald for years are now wearing their own hair, and appear ten years younger than they did six months ago. As in most cases grey hairs and bald heads are both premature and unnatural, it is a duty to remedy them by the natural and undoubted means which Prof. Wood has invented, and now kindly offers to the afflicted. Try his wonderful remedy, and give the Professor a new testimonial.—*Memphis Whig.*

J. H. THACHER, Apothecary.

"If you are Coming, Why don't you Come along?"

THAT is the "mot" now-a-days. Every locomotive on every Railroad shrieks it. It is daily rapped out on every Telegraphic Line in the country. The echoing blows of our Ship Carpenters hourly exemplify it. The smith at his anvil hammers it out. The clanking Press with breathless haste, sends the cry home to every family—"If you are coming, why don't you come along?"

It is uttered in an hundred tongues in a hundred lands. It has sounded like a slogan through the political world, and the "Old Fogies" are creeping along among the baggage wagons and the wounded. Thought, that moved at a funeral pace, now rushes on a tremendous charge; and all the old remedies for Liver Complaint have given way for

HOLMAN'S SPRING BITTERS.

"*If you are coming, why don't you come along.*"—Six paces to the front, is the word to everybody and everything that wants to be listened to or looked at. If you have anything to do, *do it*; if you wish any person to see anything, *show it*; if you have anything to be cured, CURE IT WITH

HOLMAN'S SPRING BITTERS.

"*If you are coming, why don't you come along?*"—If you have a Bottle of Holman's Bitters in your house, you need not suffer from

Biliousness, Weakness at the Stomach, Indigestion, Heartburn, Lowness of Spirits,

Nor any of the diseases incident to the season.

It used to take six men to make a pin; now one boy, a pull, a clip, and two strokes, and that's the way the pins are made. Once it took a Physician, lots of precious time, and quantities of nauseous drugs to cure some simple disease of the Blood.—Now, a quarter expended in

HOLMAN'S SPRING BITTERS

Brings Life and Health, flowing spirits and rosy cheeks.

"*If you are coming, why don't you come along?*"—If you are sick and weak, why don't you cure yourself? Here we offer you the article that will do it—there is no mistake about it. Every body knows about HOLMAN'S BITTERS; they have been tried and have "toed the mark straight."

They are a *good* medicine; they are *better* than anything else for all Spring Complaints; they are just the *best* Bitters that can be bought—and that's the best thing we can say about them. "*If you are coming, why don't you come along,*" before they are all gone?

LOCAL.

☞ One of the men who was on board the yacht Sybil, when she was struck by lightning, was leaning with his back and shoulders against the mast for shelter from the rain. He says his sensations at being shocked, led him to suppose some one had given him a kick or a blow. He felt some effect of the blow for three or four days.

☞ A lady from Illinois, a boarder at Rye Beach, was severely injured on Wednesday afternoon, by being thrown from a carriage on Portsmouth Bridge. The accident was caused by the breaking of a harness, which frightened the horses. The team belonged to tee Ocean House, where the parties were boarding.

☞ A fishing party, down our harbor, on Thursday, hauled in a young shark, about 3 feet long. He was very loth to leave his element and die.

☞ We understand the South Parish have purchased the house west of their Sunday School Room, and intend to erect a suitable building on the enlarged lot.

☞ The Daily Chronicle may be had of our Carriers, at 8 cents per week. Single copies 2 cents. $4 per year in advance.

Uncle Toby, you are almost as good as your namesake in Tristram Shandy; in fact better, for you never swear, and he did, but fortunately he had some friends near the recording clerk, who adroitly dropped tears and made the ink too pale to leave a legible stain. When we come up on a visit to your granite hills, we intend to drop in and see you, and when you come down here, we'll adjourn and indulge. When you scissor a local item you always give credit, thereby honoring scripture, and doing as you would be done by. Yes, Uncle Tob, we regard you with respect, and if those "eds" on the other side of Charles River (in Boston) would only imitate your example, how much better it would be, and how greatly our glory would be enhanced. —[Charlestown (Mass.) Adv.

LIGHTNING.—On Friday afternoon, at 5 1-2 o'clock, the lightning struck a large elm tree directly in front of the residence of Alvan J. Fisher, Dedham Lower Plain, and passing down the trunk, the fluid (says the Boston Journal) divided on the roots of the tree into five distinct streams, which, after burning the grass and plowing the ground for about fifteen feet, united again into two streams and entered the cellar in two places through a solid wall of masonry, removing in one place a large block of stone four feet in length.

Here the lightning exploded, shaking the very foundation of the house, bursting open doors and shattering fifty panes of glass.—The fluid then divided itself on the aqueduct pipe, and part of it went up to the supply spring, riling the water. The remainder followed the pipe that supplies the cattle yard, throwing all the water completely out of a large watering trough.

Fortunately no person was injured, although Mr. Fisher's two children were sitting with their grandfather very near a window which was very much shattered, and in a room directly over the cellar where the explosion took place. Their escape was almost miraculous. Capt. Amasa Alden, a venerable gentleman of 85 years, was thrown from his chair while sitting in the doorway of the carriage house. All were much affected by the shock.

THE QUINCY SHOOTING AFFAIR.—It was Isaiah White that was shot by James Quinloine (and not Quimby) at Quincy last week. It will be seen that the Coroner's Jury confirm our own report of the affray. They say "that the said White came to his death on the 10th day of August, by the discharge of a pistol on the 8th day of August, between the hours of six and seven o'clock in the afternoon, on the piazza of the Hancock House, in Quincy; said pistol being in the hands of one James Quinloine, he at the time being in a state of intoxication; and that the pistol was discharged while said White was attempting to wrest the same from the hands of said Quinloine. And the jurors further say, they are of opinion the discharge of the pistol was unintentional on the part of said Quinloine."—[Boston Courier.

THE DIFFERENCE,—We cannot but notice the difference here between the reception that Benjamin and Cobb receive in the north, from the treatment that Anti-Slavery men have at the south. Benjamin said that he should support the democratic party, because that would most support southern interests, and he comes to Maine to ask the people to do so for the same reason. This is perfectly right and proper; and the people receive and treat him like a gentleman, as he is. There are no canings, and assaults and assassinations—no enemy's country—that Brooks trembled at; but the people calmly bear, and then vote as they please. Now, would Louisiana, South Carolina, or any Southern State, receive Fremont men in the same way?—When Mr. Underwood of Virginia, joined the republicans, for the very opposite reason that induced Senator Benjamin, the people refused to allow him to return to his home, and he is actually an exile in the United States. Here is a difference worth remembering—the chivalry and fairness of the thing is with the north.—[Newburyport Herald.

The editor of the Expositor, Springfield, Oo., is indeed to be envied. He was a short time ago treated with a serenade by ladies, and the poor fellow seems hardly to have recovered from the effects of their music.

CONGRESS.

TUESDAY, Aug. 12.

SENATE.—Mr. Hunter asked that the question be taken on the Legislative, Judicial and Executive Appropriation bill.

Mr. Trumbull could not vote for it, because the Senate had stricken out the clause providing that no part of the money to be appropriated should be expended for the prosecution or detention of persons charged with treason or other political offences in Kansas.

Mr. Bayard thought that a good reason for voting for the bill, and should do so.

Mr. Hale said he should vote against all supplies for the Government, as long as they were coupled with any appropriation to pay members of the usurping Kansas Legislature.

The bill was passed by 35 against 12.

The Pacific Railroad bill was then taken up.

Mr. Hunter moved to lay it on the table, as a test vote, which was agreed to by 25 against 23.

YEAS—Messrs. Bayard, Bell of N. H., Benjamin, Biggs, Bright, Brodhead, Brown, Butler, Clay, Douglas, Fessenden, Fitzpatrick, Hale, Houston, Hunter, Iverson, Mallory, Mason, Pearce, Reed, Slidell, Thompson of Ky., Thompson of N. J., Toombs, Yulee.

NAYS—Messrs. Adams, Allen, Bell of Tenn., Bigler, Cass, Collamer, Dodge, Durfee, Foot, Foster, Geyer, Harlan, James, Jones of Iowa, Jones of Tenn., Pratt, Sebastian, Trumbull, Wade, Weller, Wright.

The Navy Appropriation bill was then passed.

Adjourned.

HOUSE.—Mr. Walbridge, from the Committee on Public Lands, reported a bill for the construction of a railroad and telegraph line from the western boundary of Missouri and Iowa, north of the 38th, and south of the 44th degree of latitude, to some point on the Pacific Ocean. It is substantially the same as that prepared by the Select Committee. A struggle ensued between the friends and foes of the measure, on points of order, when a motion was made by Mr. Orr to postpone the consideration of the bill until the second Monday in December, which was lost by the casting vote of the Speaker.

A joint resolution, allowing sixty additional days, during which creditors of Texas can present their claims to the Treasury Department, was passed. Nearly $400,000 remain unpaid.

The House then passed fifty private bills, and adjourned.

WEDNESDAY, Aug. 12th.

SENATE.—The President sent to the Senate his answer to the call, touching the privateering business.

HOUSE.—The bill extending the Adams' Printing Press patent, was passed by 40 majority. The House is now discussing the Appropriation bills.

THE COOLIE SLAVE TRAFFIC.—Ship Shanghae, of Bowdoinham, Me., has been sold to a house in Havana for $81,500.—Her late captain (Given) waits the receipt of the requisite legal papers, authorizing him to complete the sale. The Shanghae, it is understood, will be hereafter employed in the conveyance of Coolies from China to Cuba.

ANDOVER. — Twenty-five young men graduated at Andover last week. Five or six have Foreign Missions in view, and some go West as Home Missionaries. Mr. Edward S. Atwood has received a unanimous call to settle in the village of Grantville, Needham, and Mr. George E. Sanborne, of the same class, has received a call to settle in Georgia, Vt.—[Salem Gazette.

FREEDOM OF SPEECH!—At the late session of Gilmer County Court, Virginia, the Grand Jury of that county presented the editor of the Cincinnati Western Christian Advocate for publishing abolition doctrines, and also Rev. Levi Parke, for circulating that paper. How the Constitution, guaranteeing the freedom of the press, is loved and revered at the South, isn't it?

MILK CANS IN THEIR NATURAL CHANNEL.—The Lowell Citizen, in speaking of the late rain, says: "The milkmen in the towns surrounding this city suffered quite severely by the same rain. It is the practice among some of them to place their cans over night in the running streams of water, so as to keep them fresh and cool. The sudden rise of the streams on Tuesday night sent those cans on a voyage of discovery, leaving their owners the choice of following them for miles down the brook, or to get a new supply at the tinshop.

ST. LOUIS, Aug. 12.—*Steamer Sunk*—Loss $250,000—The steamer Daniel G. Taylor, with a valuable cargo of hemp, tobacco, rope, bacon, etc, sunk in the Missouri river on Saturday last, and with the exception of a small portion of the cargo, every thing will prove a total loss. The boat was a new one, valued at $30,000, and was insured in Pittsburg for $21,000. The loss on the boat and cargo is estimated at about $250,000, which is principally covered by insurance in this city.

A very singular accident, says the Albany Knickerbocker, occurred to a friend of ours on Wednesday. He has been in the habit of carrying locofoco matches in his vest pocket with his bank bills. While rummaging in his vest pocket for some money, the matches ignited and set fire to a roll of bills, and before he discovered it his money was destroyed, and his vest badly burned.

A GOOD OLD AGE.—The Exeter News Letter says that there is now living in Nottingham, N. H., a Mrs Ellison, formerly of Barrington, who is in the one hundred and seventh year of her age. She is the mother of eleven children, all of whom, except two, are now living; her health is good, and what is uncommon for a person of her age, she requires meat twice a day.

LIBERAL BEQUESTS.—John G. Treadwell, M.D., who inherited about $60,000 from his father, the late Dr. Troadwell, which fortune he has since increased. By his will his aged mother, now about four score years of age, is well provided for during her life. He gives his library to Harvard college on certain terms, and also bequeathes the greater portion of his fortune to that institution on certain conditions, and, in case the college declines accepting said bequest with the restrictions, he gives the estate to the Massachusetts General Hospital. Dr. Treadwell was of the class of 1825 at Harvard. He was unmarried.

LIGHTNING.—The idea which prevailed a few years ago, during one or two seasons, when there were few thunder storms, thrt the railroad tracks and telegraph wires drew off the electricity silently from the clouds, seems to have been thoroughly exploded during the past week.—*Bunker Hill Aurora.*

GOOD.—A subscriber, who has the right idea of paying newspaper subscriptions, sends us the following "interesting" note, from Wakefield, N. H.

Dear Phenix:—I send you $1.00 for my paper for 1856; and when the year is out, I shall forward pay for another year, if I wish it continued,—which is my practice invariably. I never consider myself a subscriber unless I do so. Your's truly, A. B. C.

From the Boston Saturday Evening Gazette.

A PERFUMED BREATH.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A BEAUTIFUL COMPLEXION may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and delicate hue. Wet a towel, pour on two or three drops, and wash the face night and morning

SHAVING MADE EASY.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," run the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

W. P. Fetridge & Co. Proprietors, 328 Pearl street, New York, and 100 Washington street, Boston. For sale in Portsmouth by William R. Preston. 6mje16

Young Married Lady's Private Medical Guide.
BY PROF. F. H. DOANE, M. D.
How beautiful is the idea of the wife, in sacred literature! Polished corner stones—walls of cedar—fruitful olive trees—all choicest emblems of combined strength and beauty. Such should woman ever be! Yet who that views so universally *her pale cheek, sunken eye,* and *inability to endure fatigue,* could say that such she is? Maiden, wife, mother, would you know the reason? read the "Private Medical Guide." Simple, plain, modest, yet full of instruction, no lady who prizes her health and happiness, can afford to be without it. So say thousands who have availed themselves of its knowledge, and been benefitted by its remedies. Designed only for the virtuous to furnish information all-important to woman's health and happiness. It is not for sale at the book stores. Beautifully printed, bound and gilt; price $1. Circulars and recommendations furnished *gratis.* All letters of enquiry must contain a letter stamp to prepay the return. Address or apply to PROF. F. H. DOANE, M. D., No. 1 Tremont Temple, Boston, Ms. The above work will be sent by mail or express to all parts of U. S, securely enclosed, on receipt of price.

DR. CONVERS'
INVIGORATING CORDIAL,
AND NERVOUS ANTIDOTE.
This Cordial is the only remedy for those sad derangements of body and mind, caused by early and improper habits of youth.
N. B. That involuntary nocturnal loss of physical energy, productive of much mischief to the nervous system, incapacitating the victim for business, society, or matrimony, is speedily restrained by this Cordial. It is the only remedy which has effected the desired result in this malady.
Dr CONVERS may be consulted personally or by letter, without charge, at his office 321 Hanover st., Boston, where all orders for the cordial should be sent. Dr. Convers' Medical work, 175 pages—*The Beacon; or, Guide from Youth to Manhood*—is the most important work ever published on these complaints. To young men it is invaluable. It will be given to those who purchase 3 bottles of Cordial.

"Try me, and I'll do you Good."
DR. LANGLEY'S
Root and Herb Janndice Bitters.
The Great Spring and Summer Medicine.

THIS Medicine, composed of the best roots, herbs and barks in the world, has constantly increased in public favor for six years, until by its wonderful success, it is acknowledged to be the best and cheapest medicine in the world. It acts with magic-like power upon the strong holds of disease—cleanses the bowels, purifies the blood gives vitality to an inactive, torpid liver, cures Jaundice in all its forms, Dyspepsia, Costiveness, Indigestion, Headache, Dizziness, Fits, Heartburn, Languor, Weakness, Pain in the Side and Bowels, all Billious Diseases and Foul Stomach, and especially Humors of the Blood and Skin; —strengthening, healing, purifying, building up, and keeping in order the whole system. All persons ought to use them during the spring and summer.
Only 25 cents for a pint, and 37½ cents for a quart bottle. Office 99 Union St., Boston. Sold by all dealers in medicine, everywhere. mh18 6m

Whalebone Skirts.
THE only object of a Whalebone Skirt is to give a proper, graceful and elegant form to a lady's dress. Unless this is accomplished, the article is entirely worthless. The Ladies, by referring to Frank Leslie's Gazette of Fashions for April, will notice that E. & J. HOLMES have from actual experience been successful in producing this most desirable article, and that their IMPROVED SEAMLESS SKIRT meets the unanimous approbation of the ladies. They are light, pliable, and easily adjusted, and the only Skirt which is equally adapted to the street and the crowd; are made in one piece or breadth, and in our opinion, and in the opinion of thousands of ladies who have bought them, the most reliable goods of the kind in the market. We were the first to introduce a Whalebone Skirt, and from our experience in the manufacture and retail of these goods, we have found that **all** kinds of cotton cord, and nearly all kinds of cord, and all starched goods, cannot be used satisfactorily, as they will not recover their place when pressed out of shape. We consider all
WHALEBONE SKIRTS
as worthless, of whatever material made, unless there is something of sufficient stiffness and elasticity, and at the same time yielding and pliable, to keep the dress in proper shape below the bones. To accomplish this we have our cord made under our own direction, and expressly for our goods, and from the only material that can be used that will recover its proper place when pressed out of shape, and are so twisted in manufacturing that they will not roll or curl when wet, and warranted to wash without injury. The public are cautioned against all worthless goods, as the market since our goods have become popular and extensively known, has been flooded with goods of all kinds, and put together without form or comeliness, or any other object but to sell, and of course are called Whalebone Skirts. Some imitators, in their efforts to profit by our reputation, have gone so far as to copy almost exactly our trade mark upon their goods.
Please Notice.—Every genuine article stamped, *E & J. HOLMES'S IMPROVED SEAMLESS WHALEBONE SKIRT*, and may be found by the trade in many of the largest Jobbing Houses in New York and Boston, and at retail in the principal Dry Goods stores.
June 6, 1856. eo2m E. & J. HOLMES, Boston.

Great American and Foreign Office
For Securing Patents for Inventions.
Agency for business with US Patent Office, Washington
R. H. EDDY,
No. 76 State st. oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages in applying for Patents, superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.
Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey so Washington to procure a patent, and the usual great delay there, are here saved inventors.
Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington—Patents secured in Great Britian, France, and other foreign countries, through Agents of the highest respectability.
R. H. EDDY.
Solicitor of Patents.
Testimonials.
"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."
From the present Commissioner.
AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.
CHAS. MASON,
Commissioner of Patents.
Boston, Jan 11 1858 dtecdtr

Hartford Fire Insurance Co.
HARTFORD, CONN.

FARM LANDS FOR SALE.
The Illinois Central Railroad Company
IS NOW PREPARED TO SELL
OVER TWO MILLION ACRES
OF
FARMING LANDS,
In Tracts of 40 acres and upwards, on long credits and at low rates of interest.

THESE lands were granted by the Government to aid in the construction of this Railroad, and include some of the richest and most fertile Prairies in the State, interspersed here and there with magnificent groves of oak and other timber. The Road extends from Chicago, on the northeast, to Cairo at the south, and from thence to Galena and Dunleith, in the north-west extreme of the State, and as all the lands lie within fifteen miles on each side of this Road, ready and cheap means are afforded by it for transporting the products of the lands to any of those points and from thence to Eastern and Southern markets. Moreover, the rapid growth of flourishing towns and villages along the line, and the great increase in population by immigration, etc. afford a substantial and growing home demand for farm produce.
The soil is a dark, rich mould, from one to five feet in depth, is gently rolling and peculiarly fitted for grazing cattle and sheep, or the cultivation of wheat, Indian corn, etc.
Economy in cultivating and great productiveness are the well known characteristics of Illinois lands. Trees are not required to be cut down, stumps grubbed, or stone picked off, as is generally the case in cultivating new land in the older States. The first crop of Indian corn, planted on the newly broken sod, usually repays the cost of plowing and fencing.
Wheat sown on the newly-turned sod is sure to yield very *large profits*. A man with a plow and two yoke of oxen will break one and a half to two acres per day. Contracts can be made for breaking, ready for corn or wheat, at from $2 to $2.50 per acre. By judicious management, the land may be plowed and fenced the first, and under a *high state of cultivation* the second year.
Corn, grain, cattle, etc. will be forwarded at reasonable rates to Chicago, for the Eastern market, and to Cairo for the Southern. The larger yield on the cheap lands of Illinois over the high priced lands in the Eastern and Middle States, is known to be much more than sufficient to pay the difference of transportation to the Eastern market.
Bituminous coal is mined at several points along the Road, and is a cheap and desirable fuel. It can be delivered at several points along the Road at $1.50 to $4 per ton; Wood can be had at the same rates per cord.
Those who think of settling in Iowa or Minnesota, should bear in mind, that lands there of any value, along the water courses and for many miles inland, have been disposed of;—that for those located in the interior, there are no conveniences for transporting the produce to market, railroads not having been introduced there. That to send the produce of these lands, one or two hundred miles by wagon to market, would cost much more than the expense of cultivating them; and hence Government lands thus situated, at $1.25 per acre are not so good investments as the lands of this company at the prices fixed.
The same remark holds good in relation to the lands in Kansas and Nebraska, for although vacant lands may be found nearer the water courses the distance to market is far greater, and every hundred miles the produce of those lands are carried either in wagons or interrupted water communications, increases the expense of transportation, which must be borne by the settlers, in the reduced price of their products; and to that extent precisely are the incomes from their farms, and of course on their investments, annually and every year reduced.
The great fertility of the lands now offered for sale by this company, and their consequent yield over those of the Middle and Eastern States, is much more than sufficient to pay the difference in the cost of transportation, especially in view of the facilities furnished by this Road, and others with which it connects, the operations of which are not interrupted by the low water of summer, or the frosts of winter.
PRICES AND TERMS OF PAYMENT.
The Price will vary from $5 to $25, according to the quality, location, &c. Contracts for Deeds may be made during the year 1856, stipulating the purchase money to be paid in five annual installments; the first to become due in two years from the date of contract, and the others annually thereafter. The last payment will become due at the end of the sixth year from the date of the contract.
Interest will be charged at only 3 per ct. per ann.
As a security to the performance of the contract the first two years' interest must be paid in advance, and it must be understood that at least one tenth of the land purchased shall yearly be brought under cultivation. Twenty per cent. from the credit price will be deducted for cash. The Company's construction bonds will be received as cash.
READY FRAMED FARM BUILDINGS,
Which can be set up in a few days, can be obtained from Responsible Persons.
They will be 12 ft. by 20 ft. divided into one living and three bed rooms, and will cost complete set up on ground chosen anywhere along the road $150 in cash, exclusive of transportation. Larger buildings may be contracted for at proportionate rates. The Company will forward all the materials for such buildings over the Road promptly.
Special arrangements with dealers can be made to supply those purchasing the Company's lands with fencing materials, agricultural tools, and an outfit of provisions in any quantity, at the *lowest wholesale prices.*
It is believed that the price, long credit, and low rate of interest, charged for these lands will enable a man with a few hundred dollars in cash, and ordinary industry, to make himself independent before all the purchase money becomes due. At the mean time, the rapid settlement of the country will probably have increased their value four or five fold. When required an experienced person will accompany applicants, to give information, and aid in selecting lands.
Circulars containing numerous instances of successful farming, signed by respectable and well known farmers living in the neighborhood of the Railroad lands, throughout the State—also the cost of fencing, price of cattle, expense of harvesting, threshing, &c. by contract—or any other information—will be cheerfully given, on application, either personally or by letter, in English, French or German, addressed to
JOHN WILSON,
Land Commissioner of Ill. Central R. R. Co.,
Office up to the 1st of May, 52 Michigan Avenue, Chicago, Ill; after that date in the New Stone Passenger Depot, So. Water st. a8 6m

Lumber! Lumber!

THE subscriber having leased

UNION WHARF,

for the purpose of carrying on the Lumber business, would respectfully inform his friends and the public, that he has

The largest and best selected stock

of LUMBER ever offered for sale in this city; and will sell as low as at any other establishment in the city, at Retail or by Cargo.

The following Lumber has just been received from St. John, New Brunswick, by schooners Mary Groton, Sea Bee, Comet, Eagle, and Gypsy.

400,000 feet Pine Boards, clear and merchantable.
100,000 " Dimension stuff, 1½, 1¾, 2, 2½, 3, 4 inch.
600,000 Pine Shingles.
400,000 Pine Laths, first quality.
75,000 Clapboards, extra clear, No. 1 and 2.
20,000 Pine Pickets.
5,000 Blind Slats,

Also received from Bangor by schooners Michael, Banner, Wave, Crown and Niagara,

700,000 Cedar Shingles, sawed and reft, of the various qualities.
250,000 feet Spruce Lumber, of all dimensions.
100,000 Spruce Laths.
Fencing Stuff.
50,000 feet Spruce Rails, different dimensions.
20,000 Spruce and Pine Pickets.
500 Cedar Posts.

House or Barn Frames can be had from the Wharf, or the subscriber will contract to furnish Frames of any dimensions.

White Pine Lumber of the best quality, of any dimension. Shingles, Clapboards, Pickets and Laths, from St. John, N. B., by the cargo.

The Lumber bought at this establishment will be delivered to packets, gondolas, or at the depots. The patronage of the public is respectfully solicited. GEORGE W. JENNESS,
Union Wharf, Water Street,
near Liberty Bridge.
Portsmouth, August, 1856. au5d3m

DR. LAROOKAH'S SYRUP.

DR. LAROOKAH'S Indian Vegetable Pulmonic Syrup, is warranted to cure Coughs, Whooping Cough, Asthma, Colds, Croup, Bronchitis, Consumption, and Diseases of the Throat and Lungs.

DR. LAROOKAH, a Celebrated Indian, has discovered in the combination of four minds of Common Roots and Herbs, a remedy that is warranted to *cure CONSUMPTION* in all cases where the lungs are not mostly consumed, and sufficient left to sustain life; and every disease of whatever name, having seat in the lungs or bronchial tubes.

A. A. PAYNE, Agent for Portsmouth, 87 *Market St.* a28 tf

ALL who want a good suite of CLOTHES,
From the finely formed hat to the silken hose,
Will find them at No. 54 old Market street,
Where the good natured FITTS his customers greets.
Pants, Vests, Bosoms, and Collars so grand,
Coats, Shirts, Neck Cloths and Gloves, all fitted to hand,—
All sizes and patterns you'll surely here find,
With prices *so low* as to be suited to mind.
When Summer's bright day and Sol's sultry heat
(More potent than wind) shall prompt thy retreat,
Call then at FITTS'S, where you will find
Thin Garments, all sizes, of every kind.

From the Land of Pulaski
We rolled o'er the sea,
Made a visit to London—
That Babel *entree;*
But now in the land
Of fair freedom we greet
Good customers all—

500 Casks LIME;
200 brls Hydraulic CEMENT.
For sale by WM. P. GOOKIN,
m2 Long Wharf.

Secured by Royal Letters Patent in England, and by Patent in the United States.

THE Subscribers, having been for a long time desirous of securing to the public a Needle that will not only be a superior article, but perfect in the Eye, recommend their "*Patented Gold Inlaid Needle.*" They are justly celebrated, and preferred above all others, the eyes being inlaid with gold and burnished, which renders the cutting or chafing the thread utterly impossible.—They are manufactured from the best steel, and tempered according to the most approved plan.—We therefore offer with confidence these Needles to the public, having secured them against all frauds or imitations either in Paper, Label or Needle. We desire all parties purchasing these Needles to be cautious in the selection of them, as unprincipled persons have sought to imitate our style, and thus palm off an inferior article, notwithstanding the heavy damages we have recovered from various parties; and a reward of $500 will be paid for such information that will lead to the detection and conviction of any person or persons thus engaged. None are genuine except those labelled on the back, '*Warranted by R. Crowley.*' A liberal discount will be allowed to dealers who purchase in large quantities.

WILLIAM CROWLEY & SON,
Oversly Mills, Alcester, England.

Having made arrangements with the Manufacturers of the above brand of Needles (which I earnestly recommend as the best Needle in the market), I am prepared to sell them

Wholesale at $1.60 per M.
Retail at 6¼ cts. per paper of 25.
Assorted or separate numbers, sharps and betweens.
HENRY PEYSER,
jy24 Cor. Daniel st. and Market sqr.

FRIDAY, AUGUST 15, 1856.

BORDER LIFE.

A correspondent of the Boston Traveller, writing August 1, 15 miles from Nebraska City, says;—

Since we have been camped we have had several additions to our numbers, by the arrival of parties from Kansas who have been driven from their claims by pro slavery men. Yesterday a very respectable, intellizent locking Gentleman, came in. He had been driven from his claim six miles from Topeka, some five weeks since, He went to Kansas early in the spring took up his claim, and after getting his crops in, worked among the neighbors for hire. The only reason he supposes they had for driving him off, was the fact of his refusal to work for a pro-slavery man by the name of Crown, when he had a choice between him and a free State farmer. One night he came home late from work, and about ten minutes after entering the house he was followed by a party of between forty and fifty. One in front of them, who seemed to be the leader, commenced questioning him as to which party he belonged. His reply was that 'he did not belong to either; that he was a neutral man, and did not care about their difficulties.' The man replied, 'that was not sufficient answer for him; that he must tell whether he was an abolitionist.' The German's reply was 'that he did not know what he meant,' adding at the same time, 'he was not an American.'

The leader of the ruffians, finding he could not make him commit himself, briefly asked, 'Which ticket he would vote, 'Pro-Slavery or Free State?' which elicited the reply of 'Free State Ticket,' from the settler. He was then told that he must leave his claim and the neighborhood immediately, and if seen again, he would be shot. They compelled him to deliver his arms, and he was allowed to take a portion only of his clothing, driving him out at night, and robbing him of his tools, part of his clothing, and other articles. He stopped two days in the vicinity, hidden in the neighbors' cabins. He then went to Lawrence, to a friend residing there, who advised him to proceed to Iowa City and join one of the companies then on their way to Kansas. He had no chance of getting his claim back by peaceable means, for the courts of justice being under the entire control of Missourians, it was useless to appeal to them. He came up the river as far as St. Joseph, Mo., where he heard of the emigrants being at Sydney, Iowa. He walked the remaining portion of the distance and joined the emigrants encamped here. I give the details of this affair as I heard it from the party's lips, and this is but a sample of scores of such cases that we have heard well authenticated since we have been in this territory.

Mr. Jamison, a delegate to the Topeka Legislature, has arrived in camp, and reports quite a number of cases of outrage and robbery. Eight Free State men, residing on the Big Blue, have been murdered by a party of Missourians who endeavored to jump their claims. Scenes like these are constantly being enacted, and we are in continual expectation of an attack from these border men.

We would respectfully ask every freeman to read the above statement. He will see, if he does so, what kind of popular or squatter sovereignty rules in Kansas. He will see Douglass and Atchison's *great principle* carried out there, exactly as it is by the Brooks and Bludgeon and Butler league in Washington. And then, if he sees fit, he can go and vote and labor to let these men, and such as these, rule the nation.

NATIONAL AFFAIRS.—The proceedings in Congress are of uncommon interest. The votes of the House have apparently had some effect on the President and his advisers.

The special dispatch to the Boston Advertiser, under date of Washington, Wednesday evening says:

There was a great time in the House to-day. The discussion on Mr. Pennington's amendment to the judicial, legislative and executive appropriation bill was brief, spirited and effective. Its purpose is to compel the President to abandon the prosecutions against the free State men in Kansas for treason. Mr. Campbell stated significantly that he knew confidentially that they were not to be pressed. Many republicans insisted upon more particulars.—The other side of the House speedily expressed their own knowledge with Campbell's intimation. Mr. Orr and others proceeded to admit that they had been doubtful whether the prosecutions for treason ought to be pressed. Mr. Craige wanted to introduce a resolution asking the President if he intended to discontinue them, and his reasons therefor. The truth is the administration has backed down, and to-day decided in Cabinet to order the discontinuance of the Kansas prosecutions.

The story that the Kansas Judges had been removed is certainly erroneous.

We shall look with much interest for the next day's doings. It is is probable some more assurances will be made—and that the appropriations will pass—but they ought not to pass without some provision of the kind proposed, which would, when signed by the President, bind him.

WASHINGTON, Aug. 13.—There is no truth in the report that the Kansas Judiciary officials have been dismissed, or even requested to resign; nor is there any ground for the statement that the treason prosecutions in Kansas are to be quashed. Geary accepted the government of Kansas without conditions.

If these things are so, why then were the reports to that effect telegraphed? Were they mere electioneering lies, designed to lull some freemen to sleep, and to cheat some gullible souls?

MINISTERS AT WATERING PLACES.—The Rev. Dr. Humphrey is writing, in the New York Evangelist, on the conduct of Ministers at watering places during the "heated term."

We ought not, he thinks, to expect too much of them. They take their vacations to recruit—to unbend their minds, and not to labor. To this end they must be cheerful and social, and there are athletic and stimulating amusements which ought not to be denied them. To require them at Saratoga, or Newport, to repress the innocent flow of animal spirits, too long kept down perhaps by confinement, by scenes of sickness and sorrow in their parishes, would in some measure defeat the object of granting them these short vacations. The bow must be sometimes unbent, or it will lose its elasticity.

Exactly so. Nor should their lives at home be too constrained, artificial and formal; they should be men and christians, live men and citizens, as well as ministers. "Athletic and stimulating amusements," if proper at *watering* places, are proper also on dry land elsewhere.

COME BACK AGAIN.—The Norfolk American says that the boy Keeling, belonging to Mrs. Cowdery, and who had been seduced by the abolitionists into over staying the time which his mistress allowed him, returned voluntarily a day or two since. Keeling has shown his good sense in finding out the hollowness of abolition pretension so early. If he had waited till winter the frost might have cut off every toe and ear from his body. Ice two feet thick is very pleasant to cool our water, but it is not altogether so pleasant for Cuffee to stay there and see it made.

We find the above item, published with all apparent sobriety in the Portsmouth, Va., Transcript; and republish it for the amusement of our readers, who are somewhat accustomed to cold weather. We would commend it especially to the attention of those who remember the warnings we used to get years ago from the old fogies, who told us that when the negroes were freed, they would rush to the north and overwhelm our cities!—They did not think of Jack Frost, nor remember that he was a Northern Institution.

STATE TEMPERANCE COMMITTEE.

TREASURER'S ACCOUNT.—The following is the Annual Account of the State Temperance Committee's Finances, as furnished by the Treasurer, Mr. White, for the year ending with the recent Convention at Dover.

New Hampshire State Temperance Committee in account with N. White, Treasurer.

" E. H. Cheney,	$215,00
	$909,18
Balance in Treasury,	$25,83

COPY OF AUDITOR'S CERTIFICATE.—This may certify that the undersigned Committee appointed to examine and audit the accounts of the Treasurer, have attended to that duty, and find them correctly cast and properly vouched. J. W. SARGENT,

Auditing Committee.

TOWN OF FREMONT.—The Manchester Democrat says:—New Hampshire was the first State to nominate John C. Fremont as the Republican candidate for the Presidency. Ever since 1846 our citizens have rightly appreciated the character of the Rocky Mountain Explorer, and several years ago when the people of one of the western towns of Rockingham County decided to abandon the not very classical and euphonious name of Poplin, they gave the town the name of Fremont. The town was originally stoutly Democratic, but her present member of the Legislature, Robert S. French, is a true Republican farmer, and in November next a majority of her voters will go for the Republican nominee.

The same paper says,—We find, in the list of Post Offices published in 1851, eleven named for Fremont. And in Lippincott's Gazetteer we find twenty towns named for Fremont, to which should be added the Peak and the Lake.

☞ It is now stated that the telegraphic despatch purporting to come from James Buchanan to the New York Democratic State Convention, pronouncing the union of the hard and soft shell divisions of the party there "the grandest event of modern times," was sent by Mr. Forney, and that Mr. Buchanan knew nothing about it until he saw it in print—So says the Boston Courier. It seems then, there was no oyster between the shells.

☞ We have received from A. Williams & Co., Boston, via J. H. Foster, of this city, —the Republican Campaign Songster—also Poltroonius, a tragic farce in one act; by an admirer of Chivalry—and fancy political envelopes of all parties.

AN IMPOSTOR.—The Springfield Republican warns the public against a colored man it recently noticed with commendation. It says "he is bogus all through."

☞ Rev. Mr. Jewett of Nashua, was dismissed at his own request, rom his pastoral charge, on the 4th inst.

A RIDE DOWN THE FALLS.—Ancient legends inform us that the red man, during the spring freshets, guided his bark canoe down over the swiftly-rushing waters of Pawtucket Falls with the greatest sang froid and made nothing of it. On Saturday, (says the Lowell Citizen,) three young men of this city, believing in the maxim of Sam Patch, that "some things may be done as well as others," determined on rivaling the red men of old. Accordingly, they started above the dam, went over in comparative safety, darted down to the bridge, where their boat overturned, and they went overboard. With much difficulty and not without great danger, they succeeded in getting astride of the keel, and from thence to the shore. How they escaped without being carried fully down the falls, where they must inevitably have perished, is more than we know. The story was told us, yesterday morning, with the request that we should not publish it; but the cat has been let out by a cotemporary, and therefore we "let it slide."—Doubtless the parties don't think much of "playing Indian."

COMPLIMENT TO MR. BANKS.—The Washington correspondent of the New York Evening Post, thus refers to a recent speech in the House of Representatives:

Henry Winter Davis, of Maryland, a young Fillmore member, last week delivered a brilliant speech, which took southern men by surprise. He spoke of the Buchanan party as a southern sectional party, and intimated that so long as southern men supported it they could not blame nothern men for supporting Fremont. He passed a high eulogy on Speaker Banks, who, he said, had graced the chair as it had not been graced for thirty years.

MISS I. T. HAVEN will resume her School on Monday, Sept. 1st., 1856. au6 2w.

OXYGENATED BITTERS.

☞ Read the following letter from CALEB PARKER, Esq., of Concord, N. H., a man honored and esteemed by all who know him:—

Gentlemen:—With no disposition to make my name conspicuous, I take the opportunity to state to the afflicted the benefit I have derived from the use of *Dr. Green's Oxygenated Bitters*, and to recommend them to others. For two years I have been troubled with indigestion and its attendant evils, such as flatulency, constipation, severe attacks of diarrhœa, accompanied with water-brash at the stomach, which reduced me in flesh, strength, and spirits, so low that I was nearly unfitted for business. I applied to several physicians, from whom I obtained only temporary relief, and finding in a short time my disease returning upon me in all its malignity, I concluded, with the advice of friends, but without the least faith in their efficacy, to try the *Oxygenated Bitters*, from the use of which I found immediate relief, having no return of water-brash after taking the first portion. I continued to use it according to the directions, until I had taken eight or nine bottles, which have entirely cured me. My weight has increased 35 pounds, and my health is perfect. I can truly say that I consider the *Oxygenated Bitters* the best tonic extant. I have recommended them to several, who have invariably found great benefit from their use.

Yours respectfully,

CALEB PARKER.

SETH W. FOWLE & CO. 138 Washington st. Boston, Proprietors. Sold by their agents everywhere.

HAYDEN'S IMPROVED VEGETABLE PURGATIVE PILLS.

LEICESTER, Nov. 26, 1848.

DR. W. R. HAYDEN; *Dear Sir*,—Having introduced your pills into my family, I can with confidence recommend them, as they are decidedly the best medicine I have ever used. For diseases incident to children, they are unsurpassed. My little boy, five years of age, had been out of health for some time. I gave him a few of your pills, and am happy to state that he has entirely recovered. Respectfully, yours,

JOSEPH DENNY.

WM. R. PRESTON, Druggist, wholesale and retail agent, Portsmouth. 6td&w

HIGHLY IMPORTANT TO RHEUMATICS.

An effectual cure for rheumatism. Dyer's Healing Embrocation will almost immediately relieve a person suffering from rheumatic complaints, and effect a permanent cure. Let all rheumatics try this remedy, and satisfy themselves as to the correctness of the statement.

For sale in Portsmouth by J. H. Thacher, W. R. Preston and B. Butchings.

A. H. Field, sole proprietor, Providence, R. I.

HEALTH AND STRENGTH.

☞ Dr. S. O. RICHARDSON'S SHERRY WINE BITTERS is the best Medicine ever used for Summer Complaints. It has been more liberally patronized than any other ever established in this country. It is the same Richardson's Bitters which has restored so many invalids to health throughout New England during the past thirty years.

N. B.—Beware of imitations called Sherry Wine Bitters. The genuine have a fac simile of my signature upon the outer envelope. For sale by Druggists everywhere, and at my office, No. 51 Hanover St., Boston. aus*6m

WORTH KNOWING.

Prof. Wood, of St. Louis, has discovered a remedy for the grey and bald, which is at once practicable and cheap. It requires no dyeing, no wig, no extraordinary trouble. There can be no doubt whatever of its efficacy. We have seen testimonials almost without number, and from men of great intelligence, high standing and moral worth.

Those who have been bald for years are now wearing their own hair, and appear ten years younger than they did six months ago. As in most cases grey hairs and bald heads are both premature and unnatural, it is a duty to remedy them by the natural and undoubted means which Prof. Wood has invented, and now kindly offers to the afflicted. Try his wonderful remedy, and give the Professor a new testimonial.—*Memphis Whig*

TEACHERS' WAGES.—In New Hampshire the average monthly wages of male teachers of Common Schools for the year ending June, 1852, was $15,18. In Pennsylvania for the year ending in January, it was $18,13. For female teachers in New Hampshire it was $6,63. In Pennsylvania it was $10,91.

PORTLAND, Aug. 13.—*Accident and Loss of Lives.*—Yesterday, at Yarmouth, a sail boat, while returning from the Islands, was struck by a whirlwind, and sunk, drowning seven persons Mrs. Asa P. C. Winslow, and two small children; Mrs. John Brown and two children and a daughter of Adam Baker. Three others, who were on board, were saved.

MARRIED.

In Richmond, Me. 14th, Mr John Coakley of Manchester, N. H., to Henrietta Langmaid, formerly of Dedham Mill Village, Mass.

In New London, Conn., Rev James B Miles of Charlestown, Mass, to Julia E. Hurlburt, daughter of Rev Joseph Hurlburt of N L.

DAVID KIMBALL, *Clerk.*

Portsmouth, Aug. 5th., 1856.

Portsmouth Academy.

THE subscriber having been compelled by ill health to suspend for a time his school, has lately resumed the same, and now cordially invites back his pupils. Grateful for past patronage, deeply interested in teaching as a *profession*, and relying upon the experience and reputation acquired by twenty years of hard toil in that profession, he can appeal to the public for patronage with a good degree of confidence in his ability to satisfy all reasonable demands.

The Fall Term of his School will commence Wednesday the 3d day of Sept.

Tuition—For all English Studies $8.—Languages $10 per quarter of eleven weeks.

August 7, 1856. ISRAEL KIMBALL.

Classical & English Boarding School

FOR BOYS, IN YORK, ME.

THE next Term will commence Wednesday Aug. 15th and continue 14 weeks.

Terms—$2.75 per week for board and Tuition.

Particulars and References given on application to the subscriber.

jy17 6t ISAIAH P. MOODY.

CHARLESTOWN FEMALE SEMINARY.—The next Term of this School will open Sept. 1st, and continue fourteen weeks. The several departments of English Studies, Foreign Languages, Music, Painting and Ornamental Work, are now supplied with able and experienced Teachers, and every effort will be made to attain high and satisfactory results. The boarding accommodations are ample, and board will be charged at cost only. For admission, or catalogues, address the subscriber, or the Principal, Miss H. E. BRADBURY. For the Trustees.

NATHAN MERRIL, Sec'y.

Charlestown, Mass., Aug. 12.

"If you are Coming, Why don you Come along?"

THAT is the "mot" now-a-days. Every loc motive on every Railroad shrieks it. It daily rapped out on every Telegraphic Line in t country. The echoing blows of our Ship Carpe ters hourly exemplify it. The smith at his anv hammers it out. The clanking Press with breat less haste, sends the cry home to every family "If you are coming, why don't you come along

It is uttered in an hundred tongues in a hu dred lands. It has sounded like a slogan throug the political world, and the "Old Fogies" a creeping along among the baggage wagons an the wounded. Thought, that moved at a funera pace, now rushes on a tremendous charge; and a the old remedies for Liver Complaint have give way for

HOLMAN'S SPRING BITTERS.

"*If you are coming, why don't you come along?*"—Six paces to the front, is the word to everybod and everything that wants to be listened to o looked at. If you have anything to do, *do it!* you wish any person to see anything, *show it;* you have anything to be cured, CURE IT WITH

HOLMAN'S SPRING BITTERS.

"*If you are coming, why don't you come along?*"—If you have a Bottle of Holman's Bitters in you house, you need not suffer from

Biliousness, Weakness at the Stomach, Indigestion, Heartburn, Lowness of Spirits,

Nor any of the diseases incident to the season

It used to take six men to make a pin; now on boy, a pull, a clip, and two strokes, and that's th way the pins are made. Once it took a Physician lots of precious time, and quantities of nauseou drugs to cure some simple disease of the Blood.—Now, a quarter expended in

HOLMAN'S SPRING BITTERS

Brings Life and Health, flowing spirits and rose cheeks.

"*If you are coming, why don't you come along?*"—If you are sick and weak, why don't you cur yourself? Here we offer you the article that wil do it—there is no mistake about it. Every body knows about HOLMAN'S BITTERS; they have been tried and have "toed the mark straight."

They are a *good* medicine; they are *better* than anything else for all Spring Complaints; they are just the *best* Bitters that can be bought—and that's the best thing we can say about them. "*If you are coming, why don't you come along,*" before they are all gone?

Also, a lot of Remnants at Cost.

A great variety of Shades, Curtains, Fixtures, Tassels and Cord.

Please call and examine. ty4

LOCAL.

☞ Another handsome American flag was "flung to the heedless winds," near the residence of Messrs. Brewster, of the Journal, on Islington street, Wednesday afternoon. It is suspended between two trees, over the street; and was gotten up by the young Republicans living on the street. It bears the inscription, "Young America's choice, — Fremont and Dayton." This makes four large American Republican banners waving over the heads of our citizens.

☞ Mr. Shillaber, not the poet, but the gardener, gave Uncle Toby his whole crop of Pears, from a graft of the—don't remember the name—but they were excellent pears.

☞ The Daily Chronicle may be had of our Carriers, at 8 cents per week. Single copies 2 cents. $4 per year in advance.

NEW YORK CORN MARKET, Aug. 13.—The heavy feeling which obtained in the market for State and Western Flour has continued, and the unfavorable advices per Arago and Canada added considerably to the depression previously existing. The decline on three days will average 25 a 30 cents—the greatest depression being on inferior State brands. The demand for export has abated considerably, while the home trade are purchasing to only a moderate extent, in anticipation of a further decline; the sales aggregate 27,000 brls, the market closing dull and depressed.

The market for Wheat continues depressed, and a material decline in price has been established—say 10 cents, principally on the better grades; the demand for export has been to a fair extent at the reduction; but the local millers have bought sparingly; the receipts are to a fair extent, a considerable of which consisted of the new crop, which is of a very handsome quality.

☞ If the election next November was for an editor, instead of a President, Mr. Buchanan would get the votes of all the printers. A Mrs. Windle, whose father was a minister in Lancaster, where Mr. Buchanan attended services, in writing to the New Orleans Delta, says:—

"The correspondence addressed to him was so extensive that it was customary for the servant to take the market basket every day to the post office for his letters. Many of these were applications for favors, and in no wise concerned himself. But he punctually answered them all, although he had no private Secretary—and the replies were written in his own remarkably plain, round hand, the lines at regularly wide and neat distances, sloping slightly at the commencement from an exact horizontal, and running from right to left in a course just perceptibly diverging towards the oblique, and showing a slowness and care in the penmanship rarely found in one who composes and writes simultaneously, as he must necessarily often have done, or, in fact, in one who writes much at all."

SEVERE HAIL STORM.—The Manchester (N. H.) papers of Tuesday report that on Monday afternoon there was a heavy hail storm in that city and its vicinity.—The American says: "It came on suddenly, catching several teams in the street, and creating a smart flurry among the horses. Some very large stones fell. We learn that considerable damage was done to the crops in the vicinity." A correspondent at New Boston, N. H., says: Monday afternoon witnessed one of the most terrific hail storms that has been seen for many years, breaking glass, demolishing vines, and injuring the standing crops. It is said that some of the stones measured 1 1-2 inches in diameter. Fortunately there was not much wind.

The Mirror says:—

In places not far distant from us, the hail storm was perfectly terrific. We have accounts of it from Francestown to Londonderry, passing over a strip about a mile wide, and doing immense damage. It came in stones of large size, and in great numbers, in Francestown and Bedford, but the stories that came to us from that quarter, in comparison with those that came from Londonderry, appear tame. A perfectly reliable man from the latter place this morning, says that hail stones fell there larger than the biggest Baldwin apple he ever saw, and he has seen Baldwin apples that would weigh 15 or 16 ounces. Rumors from other persons confirm this statement. Does it not seem incredible? It broke out every pane of glass on the windward side of Mr. Plummer's house, and did damage in similar proportion wherever it went.

HURRICANE. — The Lowell Courier learns that on Monday afternoon a hurricane passed over South Windham, N. H. The shoemaker's shop of Wm. Simpson was blown over, and also a dwelling house of R. B. Jackson. The shoulder of one of Mr. Jackson's children was broken, and others of the children were more or less injured. Hail fell in large quantities and of an extraordinary size.

RUFFIANISM.—At a Fillmore meeting near Cincinnati, (says the Gazette of that city) one of the speakers asked what there was in the Fremont platform besides abuse of the South. Mr James Howarth, a respectable and quiet citizen, answered, quoting the platform, "The Union must and shall be preserved," when a big fellow approached, and struck him a tremendous blow between the eyes, which knocked him to the ground, where the bystanders kicked him till he was rescued.

CONGRESS.

WEDNESDAY, Aug. 13.

SENATE.—The bill regulating the compensation of members of Congress, was discussed and passed by a vote of 35 against 11. Adjourned.

HOUSE.—The question stated was on agreeing to the Senate's amendment to strike out the provision that no money be expended until the persons under indictment in Kansas shall be discharged, and the prosecution dismissed, etc.

Mr. Pennington moved an amendment to the Senate's amendment, making a similar provision that nothing therein should be so construed as to prevent the indictment, arrest, prosecution, punishment, or detention in any Court of the United States in Kansas, of any person who shall have violated any provision of any act of Congress in the commission of any offence against person, property, &c. He (Pennington) would never vote a dollar to sustain those indictements for treason or uphold the bogus legislature.

Mr. Champbell of Ohio, was satisfied that no person now in prison or under arrest in Kansas for treason would be prosecuted or punished.

Mr. Pennington's amendment was agreed to—yeas 91, nays 72.

Various ineffectual efforts were made to further amend.

During the proceedings Mr. Grow spoke of the events in Kansas, in connection with its Courts, as disgraceful to humanity, and insisted that the limitation of the appropriation could be made without revolution.

Mr. Davis of Md., said if Judge Lecompte was properly reported, there was not a shadow of reason for the charge of treason.

Mr. Kunkel said he had a right to know whence Mr. Campbell derived his information that there would be no prosecution in Kansas.

Mr. Campbell replied it was well known he had no sympathy with the present administration, nor with the party that brought these wrongs on the country by the repeal of the Missouri compromise. He repeated he knew and believed that those men arrested in Kansas on the charge of treason for violation of the laws of what is termed the bogus legislature, would not be prosecuted to punishment. He then said to Mr. Kunkel he never should violate the confidence reposed in him by giving the source of his information.

Mr. Letcher said the President had no more right to discharge the indicted parties in Kansas, than if they were detained in Virginia.

Mr. Stanton put no faith in the Executive promise, and would not therefore so legislate. For one he should adhere to the proviso, disregarding all consequences.

[Mr. Stanton's caution is not excessive.—Nothing short of an official statement of a *nolle prosequi* is perfectly safe.]

Mr. Orr said he had no official information to communicate to the House, but he had no doubt that the supposition of Mr. Campbell was correct. He did not concur with Mr. Letcher, that the President had no right to control the prosecutions in Kansas. He thought the Executive could enter a *nolle prosequi*, and did not believe the accused had gone far enough in what they had done to constitute treason.

[Mr. Orr may be supposed to be the Executive organ on the occasion.]

Mr. Humphrey Marshall though the House ought to breathe freer and deeper than they had done for months past. He was gratified that President Pierce had made a confidential communication to this House.

Mr. Campbell of Ohio.—The gentleman from Kentucky has no authority for using that language.

Mr. H. Marshall—I have a right to draw such an inference. Those who have been kicking up such a fuss in Kansas are now to be let off. He wanted the country to know this, so that those from the North and South who have been defending "sovereign rights" may cry Eureka.

Mr. Giddings congratulated the country on the auspicious fact that the representative voice had at last been heard at the other end of the Avenue. He thanked God he had been permitted to see this day.

Mr. Craige made an ineffectual motion for the Committee to rise, that he might offer a resolution, requesting the President to furnish the House with all the information in his possession relative to the dismissal of the prosecutions in Kansas.

Mr. Smith of Va., did not believe the President would either undertake to prejudice the action of the competent authorities of Kansas, or step in officially to influence the action of the House, with reference to the duties confided to him.

Mr. Cumback thought the President had taken a long time to find out that the persons imprisoned in Kansas were not guilty of treason.

The Committee rose, and the House adjourned, with the understanding that the question on concurrence in the amendment should be taken tomorrw.

THURSDAY, 14th.

HOUSE.—The House is still discussing the Judicial Appropriation Bill.

[Washington Correspondence of Tribune.] There is a report current that the President and Cabinet were in session Wednesday, and five were in favor of removing Judges Lecompton and Cato, and releasing the free state prisoners of Kansas, and three against it.

DROWNED—A little son of Mr. Horace Bartlett, about five years old, while bathing in the Frog Pond, Newburyport, Mass., Wednesday afternoon, got beyond his depth and was drowned. The little boy was in the water alone. His clothes were seen hanging upon the railing some time before search was made for the body.

The explosion of the boiler in Messrs. Wilder's safe factory, at New York, cannot be accounted for. It was one of two capable of carrying 290 pounds of steam; and at the time of the explosion, or immediately before, there was seen to be a pressure of only 50 pounds of steam to the inch. It is proved also that there was a sufficiency of water in the boilers.

A grand "tournament" was held at Rochelle, Madison county, Va., on the 26th ult. Twelve "knights" entered the field clad in ancient costume, and the prize was won by Mr B.L. Harrison, who chose Miss Betty Garth of Madison as queen of love and beauty.

The astonishing success of the Oxygenated Bitters in the worst cases of Dyspepsia, is owing to its peculiar tonic properties, and being entirely free from alcoholic stimulants it produces no reaction or unpleasant sensations.

FROM CALIFORNIA.

SIXTEEN DAYS LATER.

NEW YORK, August 13.—The steamer Ariel, from Aspinwall, arrived at this port about 11 o'clock this evening. She brings San Francisco dates of 21st July, and $1,471,000 in treasure.

The Ariel connected at the Isthmus with the Golden Age, which vessel passed 28th ult. the Nicaraguan steamer Cortes, and 2ad inst. steamer John L. Stevens, bound up.

All was quiet on the Isthmus.

The U. S. sloop St. Marys was still at Panama, and the sloop Saratoga was at Aspinwall; all well.

The Vigilance Committee continues its sway, but nothing of moment had transpired during the fortnight.

A controversy was pending between certain parties and the Governor, relative to an arrangement with the Committee, that they may deliver up Judge Terry, and cease exercising authority. Nothing had been accomplished.

Hopkins, who was stabbed by Terry, was convalescent, after having been despaired of.

The fate of the Judge was undecided.

The exportation of offensive parties continued.

James Gallagher, Casey's executor, had been arrested, but liberated on certain conditions agreed to by the Committee. Several others were allowed the same privilege.

Chris. Lilley, of pugilistic fame, was arrested, but admitted to bail, to settle his affairs before being exiled.

Chas. E. Rand, one of the parties engaged in seizing State arms from the schooner Julia, had been held to bail, for piracy, in $25,000.

Ned M'Gowan, one of the accomplices to the murder of James King, had been seen at Santa Barbara, en route for Lower California. An armed schooner, with a large force on board was forthwith despatched for him by the Committee. The authorities had also sent in pursuit, but without effect at latest dates. His capture was considered certain.

It is said evidence is on file that he has been engaged in more than twenty fights, assaults, and street brawls, since he has been in the country. It is possible Judge Terry will be expelled by this steamer.—That Terry will not be allowed to occupy the Supreme Bench again, is certain.

The Vigilance Committee drill nightly in Regiments, with music. The streets, till 11 or 12 o'clock, are full of men.

Philander Grace, one of the murderers of Capt. West, was in the hands of the committee. His execution was looked for.

Numerously signed petitions and great mass meetings had called on the city and county officers to resign. All the officers but two positively refused compliance.

The newly appointed Board of Supervisors had declared vacant the offices of sheriff, coroner, and assessor, and appointed others in their places. The old incumbents refused to abdicate.

The Committee had published an expose of official corruption in the city.

Mining accounts are favorable. Crops are everywhere abundant.

The town of Placerville has had 186 buildings burned. Loss $600,000.

The village of Georgetown, Placer Co., has also been burned. Loss $100,000.

A large number of buildings has been burned at Marysville. Loss $160,000.

The town of Fair Play, El Dorado Co., likewise has been burned. Loss $70,000.

Numerous shooting affrays in the interior are recorded.

The U. S. frigate Independence, for which fears were entertained, had arrived at Valparaiso.

NICARAGUA.—Intelligence from Nicaragua, states that Rivas, with 3000 followers, was fortifying himself at Canandagua.

Walker's force is stated at 1200 only.

Honduras and Guatemala are organizing to drive Walker out, when the dry season arrives.

The U. S. Commissioner Corwine had finished his enquiries at Panama, in regard to the riot, and returned in the Ariel.

For two or three days past there has been a drinking frolic in the family of a Mr. Parker, residing in Newark avenue in the city of Hudson, N.J., which resulted in a quarrel on Thursday afternoon between Mrs. Parker and one of the guests of the family named Walker, who had been engaged in the frolic. It is alleged that Walker choked Mrs. Parker in the melee, and she died immediately afterwards. He is under arrest, and an investigation is proceeding to ascertain whether she died in consequence of the violence inflicted upon her by him, or from congestion of the brain caused by liquor and excitement.

From the Boston Saturday Evening Gazette.

A PERFUMED BREATH.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A BEAUTIFUL COMPLEXION may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and roseate hue. Wet a towel, pour on two or three drops, and wash the face night and morning

SHAVING MADE EASY.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," rub the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

W. P. Fetridge & Co. Proprietors, 328 Pearl street, New York, and 100 Washington street, Boston. For sale in Portsmouth by William R. Preston. 6mje16

Clark's Female Pills.
The Great English Remedy.
Prepared from a prescription of Sir Jas. Clarke, M.D., Physician Extraordinary to the Queen.
THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.
TO MARRIED LADIES
it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.
Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.
CAUTION.
These Pills should not be taken by females during the FIRST THREE MONTHS *of Pregnancy, as they are sure to bring on Miscarriage, but at every other time and in every other case they are perfectly safe.*

Root and Herb Janndice Bitters.
The Great Spring and Summer Medicine.
THIS Medicine, composed of the best roots, herbs and barks in the world, has constantly increased in public favor for six years, until by its wonderful success, it is acknowledged to be the best and cheapest medicine in the world. It acts with magic-like power upon the strong holds of disease—cleanses the bowels, purifies the blood, gives vitality to an inactive, torpid liver, cures Jaundice in all its forms, Dyspepsia, Costiveness, Indigestion, Headache, Dizziness, Piles, Heartburn, Languor, Weakness, Pain in the Side and Bowels, all Billious Diseases and Foul Stomach, and especially Humors of the Blood and Skin; —strengthening, healing, purifying, building up, and keeping in order the whole system. Ladies souls ought to use them during the spring and summer.
Only 25 cents for a pint, and 37½ cents for a quart bottle. Office 99 Union St., Boston. Sold by all dealers in medicine, everywhere. mh18 6mp

Whalebone Skirts.
THE only object of a Whalebone Skirt is to give a proper, graceful and elegant form to a lady's dress. Unless this is accomplished, the article is entirely worthless. The Ladies, by referring to Frank Leslie's Gazette of Fashions for April, will notice that E. & J. HOLMES have from actual experience been successful in producing this most desirable article, and that their IMPROVED SEAMLESS SKIRT meets the unanimous approbation of the ladies. They are light, pliable, and easily adjusted, and the only Skirt which is equally adapted to the street and the crowd; are made in one piece or breadth, and in our opinion, and in the opinion of thousands of ladies who have bought them, the most reliable goods of the kind in the market. We were the first to introduce a Whalebone Skirt, and from our experience in the manufacture and retail of these goods, we have found that all kinds of cotton cord, and nearly all kinds of cord, and all starched goods, cannot be used satisfactorily, as they will not recover their place when pressed out of shape. We consider all
WHALEBONE SKIRTS
as worthless, of whatever material made, unless there is something of sufficient stiffness and elasticity, and at the same time yielding and pliable, to keep the dress in proper shape below the hoop. To accomplish this we have our cord made under our own direction, and expressly for our goods, and from the only material that can be used that will recover its proper place when pressed out of shape, and are so twisted in manufacturing that they will not roll or curl when wet, and warranted to wash without injury. The public are cautioned against all worthless goods, as the market since our goods have become popular and extensively known, has been flooded with goods of all kinds, and put together without form or comeliness, or any other object but to sell, and of course are called Whalebone Skirts. Some imitators, in their efforts to profit by our reputation, have gone so far as to copy almost exactly our trade mark upon their goods.
Please Notice.—Every genuine article stamped, *E & J. HOLMES'S IMPROVED SEAMLESS WHALEBONE SKIRT*, and may be found by the trade in many of the largest Jobbing Houses in New York and Boston, and at retail in the principal Dry Goods stores.
June 6, 1856. eo2m E. & J. HOLMES, Boston.

Great American and Foreign Office
For Securing Patents for Inventions.
Agency for business with US Patent Office, Washington
R. H. EDDY,
No. 76 State st. oppo. Kilby st, Boston.
IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.
Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey so Washington to procure a patent, and the usual great delay there, are here saved inventors.
Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington—Patents secured in Great Britian, France, and other foreign countries, through Agents of the highest respectability. **R. H. EDDY.**
Solicitor of Patents.
Testimonials.
"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."
From the present Commissioner.
AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.
CHAS. MASON,
Commissioner of Patents.
Boston, Jan 11 1856 d6eodtr

Hartford Fire Insurance Co.
HARTFORD, CONN.
INCORPORATED IN 1810.
Capital $300,000—all paid in and invested.
THIS long established and well known Institution, has transacted a most extensive insurance business for more than forty years, throughout the United States and the British North American Provinces. It has aimed to secure public confidence, by an honorable and faithful fulfilment of its engagements; and owners of property have learned that all fair claims for loss under its policies will be liberally adjusted and promptly paid. Public Buildings, Manufactories, Mills, Machinery, Dwelling Houses, Stores, Merchandise, Household Furniture, Vessels on the Stocks or while in port, &c. will be insured as low as the risk will admit. The following gentlemen constitute the
Board of Directors.

FARM LANDS FOR SALE.
The Illinois Central Railroad Company
IS NOW PREPARED TO SELL
OVER TWO MILLION ACRES
OF
FARMING LANDS,
In Tracts of 40 acres and upwards, on long credits and at low rates of interest.
THESE lands were granted by the Government to aid in the construction of this Railroad, and include some of the richest and most fertile Prairies in the State, interspersed here and there with magnificent groves of oak and other timber. The Road extends from Chicago, on the north-east, to Cairo at the south, and from thence to Galena and Dunleith, in the north-west extreme of the State, and as all the lands lie within fifteen miles on each side of this Road, ready and cheap means are afforded by it for transporting the products of the lands to any of those points and from thence to Eastern and Southern markets. Moreover, the rapid growth of flourishing towns and villages along the line, and the great increase in population by immigration, etc. afford a substantial and growing home demand for farm produce.
The soil is a dark, rich mould, from one to five feet in depth, is gently rolling and peculiarly fitted for grazing cattle and sheep, or the cultivation of wheat, Indian corn, etc.
Economy in cultivating and great productiveness are the well known characteristics of Illinois lands. Trees are not required to be cut down, stumps grubbed, or stone picked off, as is generally the case in cultivating new land in the older States. The first crop of Indian corn, planted on the newly broken sod, usually repays the cost of plowing and fencing.
Wheat sown on the newly-turned sod is sure to yield very *large profits*. A man with a plow and two yoke of oxen will break one and a half to two acres per day. Contracts can be made for breaking, ready for corn or wheat, at from $2 to 2.50 per acre. By judicious management, the land may be plowed and fenced the first, and under a *high state of cultivation* the second year.
Corn, grain, cattle, etc. will be forwarded at reasonable rates to Chicago, for the Eastern market, and to Cairo for the Southern. The larger yield on the cheap lands of Illinois over the high priced lands in the Eastern and Middle States, is known to be much more than sufficient to pay the difference of transportation to the Eastern market.
Bituminous coal is mined at several points along the Road, and is a cheap and desirable fuel. It can be delivered at several points along the Road at $1.50 to $4 per ton; Wood can be had at the same rates per cord.
Those who think of settling in Iowa or Minnesota, should bear in mind, that lands there of any value, along the water courses and for many miles inland, have been disposed of;—that for those located in the interior, there are no conveniences for transporting the produce to market, railroads not having been introduced there. That to send the produce of these lands, one or two hundred miles by wagon to market, would cost much more than the expense of cultivating them; and hence Government lands thus situated, at $1.25 per acre are not so good investments as the lands of this company at the prices fixed.
The same remark holds good in relation to the lands in Kansas and Nebraska, for although vacant lands may be found nearer the water courses the distance to market is far greater, and every hundred miles the produce of those lands are carried either in wagons or interrupted water communications, increases the expense of transportation, which must be borne by the settlers, in the reduced price of their products; and to that extent precisely are the incomes from their farms, and of course on their investments, annually and every year reduced.
The great fertility of the lands now offered for sale by this company, and their consequent yield over those of the Middle and Eastern States, is much more than sufficient to pay the difference in the cost of transportation, especially in view of the facilities furnished by this Road, and others with which it connects, the operations of which are not interrupted by the low water of summer, or the frosts of winter.
PRICES AND TERMS OF PAYMENT.
The Price will vary from $5 to $25, according to the quality, location, &c. Contracts for Deeds may be made during the year 1856, stipulating the purchase money to be paid in five annual installments; the first to become due in two years from the date of contract, and the others annually thereafter. The last payment will become due at the end of the sixth year from the date of the contract.
Interest will be charged at only 3 per ct. per ann.
As a security to the performance of the contract the first two years' interest must be paid in advance, and it must be understood that at least one tenth of the land purchased shall yearly be bro't under cultivation. Twenty per cent. from the credit price will be deducted for cash. The Company's construction bonds will be received as cash.
READY FRAMED FARM BUILDINGS,
Which can be set up in a few days, can be obtained from Responsible Persons.
They will be 12 ft. by 20 ft. divided into one living and three bed rooms, and will cost complete set up on ground chosen anywhere along the road $150 in cash, exclusive of transportation. Larger buildings may be contracted for at proportionate rates. The Company will forward all the materials for such buildings over the Road promptly.
Special arrangements with dealers can be made to supply those purchasing, the Company's lands with fencing materials, agricultural tools, and an outfit of provisions in any quantity, at the *lowest wholesale prices.*
It is believed that the price, long credit, and low rate of interest, charged for these lands will enable a man with a few hundred dollars in cash, and ordinary industry, to make himself independent before all the purchase money becomes due. In the mean time, the rapid settlement of the country will probably have increased their value four or five fold. When required an experienced person will accompany applicants, to give information, and aid in selecting lands.
Circulars containing numerous instances of successful farming, signed by respectable and well known farmers living in the neighborhood of the Railroad lands, throughout the State—also the cost of fencing, price of cattle, expense of harvesting, threshing, &c. by contract—or any other information—will be cheerfully given, on application, either personally or by letter, in English, French or German, addressed to
JOHN WILSON,
Land Commissioner of Ill. Central R. R. Co.,
Office up to the 1st of May, 52 Michigan Avenue, Chicago, Ill.; after that date in the New Stone Passenger Depot, So. Water st. a8 6m

Lumber! Lumber!

THE subscriber having leased

UNION WHARF,

for the purpose of carrying on the Lumber business, would respectfully inform his friends and the public, that he has

The largest and best selected stock

of LUMBER ever offered for sale in this city; and will sell as low as at any other establishment in the city, at Retail or by Cargo.

The following Lumber has just been received from St. John, New Brunswick, by schooners Mary Groton, Sea Bee, Comet, Eagle, and Gypsy.

400,000 feet Pine Boards, clear and merchantable.
100,000 " Dimension stuff, 1½, 1½, 2, 2½, 3, 4 inch.
600,000 Pine Shingles.
400,000 Pine Laths, first quality.
75,000 Clapboards, extra clear, No. 1 and 2.
20,000 Pine Pickets.
5,000 Blind Slats.

Also received from Bangor by schooners Michael, Banner, Wave, Crown and Niagara,

700,000 Cedar Shingles, sawed and reft, of the various qualities.
250,000 feet Spruce Lumber, of all dimensions.
100,000 Spruce Laths.
Fencing Stuff.
50,000 feet Spruce Rails, different dimensions.
20,000 Spruce and Pine Pickets.
500 Cedar Posts.

House or Barn Frames can be had from the Wharf, or the subscriber will contract to furnish Frames of any dimensions.

White Pine Lumber of the best quality, of any dimension. Shingles, Clapboards, Pickets and Laths, from St. John, N. B., by the cargo.

The Lumber bought at this establishment will be delivered to packets, gondolas, or at the depots. The patronage of the public is respectfully solicited. GEORGE W. JENNESS,

Union Wharf, Water Street, near Liberty Bridge.

Portsmouth, August, 1856. au5d3m

DR. LAROOKAH'S SYRUP.

DR. LAROOKAH'S Indian Vegetable Pulmonic Syrup, is warranted to cure Coughs, Whooping Cough, Asthma, Colds, Croup, Bronchitis, Consumption, and Diseases of the Throat and Lungs.

DR. LAROOKAH, a Celebrated Indian, has discovered in the combination of four kinds of Compounds and Herbs, a remedy that is warranted to cure CONSUMPTION in all cases where the lungs are not mostly consumed, and sufficient left to sustain life; and every disease of whatever kind or seat in the lungs or bronchial tubes.

For sale by WM. P. GOOKIN,
m2 Long Wharf.

Secured by Royal Letters Patent in England, and by Patent in the United States.

THE Subscribers, having been for a long time desirous of securing to the public a Needle that will not only be a superior article, but perfect in the Eye, recommend their "*Patented Gold Inlaid Needle.*" They are justly celebrated, and preferred above all others, the eyes being inlaid with gold and burnished, which renders the cutting or chafing the thread utterly impossible.—They are manufactured from the best steel, and tempered according to the most approved plan.—We therefore offer with confidence these Needles to the public, having secured them against all frauds or imitations either in Paper, Label or Needle. We desire all parties purchasing these Needles to be cautious in the selection of them, as unprincipled persons have sought to imitate our style, and thus palm off an inferior article, notwithstanding the heavy damages we have recovered from various parties; and a reward of $500 will be paid for such information that will lead to the detection and conviction of any person or persons thus engaged. None are genuine except those labelled on the back, "*Warranted by R. Crowley*" A liberal discount will be allowed to dealers who purchase in large quantities.

WILLIAM CROWLEY & SON,
Oversly Mills, Alcester, England.

Having made arrangements with the Manufacturers of the above brand of Needles (which I earnestly recommend as the best Needle in the market,) I am prepared to sell them

Wholesale at $1.60 per M.
Retail at 6¼ cts. per paper of 25.
Assorted or separate numbers, sharps and betweens.

JOHN S. HARVEY & SON,

je16 2m 7 Exchange Buildings.

Morning Chronicle.

SATURDAY, AUGUST 16, 1856.

PREDICTIONS.

The Manchester Democrat says:—

We believe that there can be no rational doubt that the entire electoral vote of New England (41) will be given for Fremont and Freedom. We have 34,000 Fremont voters in the State of N. H., and if they go to the polls, victory is certain. We think the contest will be closer in New Hampshire than in any other of the Eastern States except Connecticut.

The Newburyport Herald says:

Senator Bell of Tennessee, has declared that he shall support Fillmore for the Presidency, though not a member of the American party. There is some honor in receiving the vote of such a man as Mr. Bell, whether election follows or not—for he is really an able, highminded, national statesman. What will be the voice of Tennessee does not yet appear. That State has not voted for a democratic candidate for President since Jackson. We believe it will do so this year, though two natives of this city, long residents in Nashville, and having the amplest means of information, tell us that the American party will sweep all before them.

A Kentuckian, writing to the Boston Courier, gives the following opinion, viz:—

In the State of Kentucky itself, I do not think any fair man doubts that the vote of the state is certain for Mr. Fillmore.

The Louisville Journal of the 8th inst. claims the following states for Fillmore.—

Kentucky	12	Virginia	15
Tennessee	12	Maryland	8
Missouri	9	New York	35
Delaware	3	New Jersey	7
Florida	3	California	4
Louisiana	6		
North Carolina	10		124

The Courier itself says, editorially,—

The prospects for the friends of Mr. Fillmore are in no wise obscured by the events of late elections, and as we have verbal and written communications from gentlemen in Rhode Island, New York, New Jersey, Kentucky, Tennessee and Louisiana, within the last two days, we infer that there is no cause for despondency on the part of the Old Line Whigs, &c.

Lastly—

The Union Democrat has just made the discovery that Vermont will probably give her electoral vote for Buchanan!

While it is on a voyage of discovery, it may as well find out that South Carolina will probably give her electoral vote for Fremont. This latter probability is exactly equal to the former.

Bruising a Prisoner.—Boston papers of Thursday tell us, that in the Police Court, Edward M. Barker, driver of the city omnibus, used to convey prisoners from the police stations to the Court House, was arraigned on complaint of Hon. John C. Park, for cruel treatment of a prisoner under his charge, named John Duffy. It appeared from the evidence that Duffy was crazy from the effects of drunkenness; that he smashed the carriage windows with his irons, and that on taking him from the carriage at the Court House yesterday morning, Barker suddenly and violently threw him down and dragged him over the omnibus steps, so that his head was wounded by striking upon them or the pavement.

In the course of a lengthy examination, several officers, says the Transcript, "disgraced both their official positions and common humanity by swearing that they considered Barker's management necessary under the circumstances. One police captain, who has aimed for higher administrative power, testified in effect that it was his practice to "get the first lick" at belligerent prisoners, and disable them with a club or other means, suddenly and unawares.

But the Court (Judge Russell) did not tolerate such loose ideas of policemen's duty, and fined the defendant $15 and costs, and held him in $200 to keep the peace for three months.

Barker appealed from the sentence, however, and was held in $200 to prosecute the same at the next Municipal Court."

It is much easier for a judge, a lawyer, or editor, to handle a drunken maniac on paper, or in a judicial decision,—than it is for a police officer or any body else to do it, if he is to stand still and receive two or three blows before he dares to strike.

☞ Godey's Lady's Book for September, 1856, is here, received by mail. Frontispiece a beautiful picture of Grandfather's Darling, including mother and grandfather. The September No. contains the usual 100 pages—14 Full Page Engravings—2 Steel Plates—A Colored Fashion — 70 Engravings and 70 Contributions. The paper for Godey costs $50,000 per annum: from a rough calculation, the outlay per month is about $10,800.

Foot Racing at Bangor.—We learn by the Bangor papers that a foot race between Grindall and Smith, and two or three Penobscot Indians, came off in the trotting park in that city on Friday. Grindall won the race in three straight heats of two miles each.

A Good Shot.—Master Charles H. Howard, of Westbrook, Me., brought down 92 Sand Peeps at one shot, on Saturday last, in Back Cove, Portland.

A Serious Charge.—We mentioned in our report of the news from California, last week, that Charles E. Rand, formerly of Portsmouth, was one of the party who boarded the Schooner Julia, in San Francisco Bay, and seized a quantity of arms belonging to the State of California, and which the Governor had ordered to be conveyed to a certain point for use against the Vigilance Committee. By the California papers received this week, we learn that Mr. Rand has been arrested, and brought before the U. S. Court, on a charge of piracy; but admitted to bail in the consequential sum of $25,000. Of course he has the Vigilance Committee to back him—and will not be harmed much, till their power fails. He is not in much danger. The Alta California says of this case:

Mr. Rand was admitted to bail last night by Judge Hoffman, in the very modest sum of $25,000, with four surities, each of whom were compelled to justify in the full amount, making a bond of $100,000.

This is certainly most unusual and unheard of. In a case of questionable technical violation of law, that such enormous bail should be exacted can be construed in no other light than an attempt at oppression, and a desire for revenge. Criminals of the deepest dye have been allowed their liberty upon frivolous straw bail, which has often been forfeited, and remains unpaid. You may think this a very harmless and innocent game; but rest assured, gentlemen, you are pursuing a course your own consciences cannot approve, and one that your fellow citizens most heartily condemn. The bonds are conditioned for his appearance before the Court, in case a bill is found by the Grand Jury, which the Bulletin "very much doubts."

☞ The San Francisco Bulletin, in reference to the case of Judge Terry, (who is now under arrest for an assault on one of the Vigilance Committee's police,) says, "with regret, that it is now highly probable that the wounded man, Hopkins, will fall a victim to his patriotic bravery;" and they "consider it a duty to repeat, that if Hopkins does die, Terry must meet the doom of the assassin."

Respecting the position of the Vigilance Committee, the San Francisco Pacific says:

Did our friends in the interior know at what sacrifice to themselves, the members of the Committee continue their labors, we should not hear of the occasional fear expressed that they may protract their session beyond necessity. From the nature of the case, we *know* that they can reap no benefit, save what they share freely with every one of their fellow citizens. Not for their own sake alone do they continue, for they can, with personal safety, disband at any moment. The whole people of the State are their protectors, and not a hair of their heads could Gov. Johnson or any of his minions harm.

But if their arms are now thrown into the hands of the "law and murder" faction, where were our power to *maintain* what has been accomplished, before the leaders of that faction have acknowledged in this thing, the authority and voice of the people? A revolution, peaceful or by force, cannot stop half-way.—The conquered party must submit. The ministry must be changed. The *obnoxious* officials must resign, or be removed; and short of this, the committee cannot stop consistently with the safety, not of themselves personally, but of the interests for which all has been risked.

☞ Straight Whig and Democratic Mass Conventions, were held on the same day, Aug. 13, at Waterville, Me. — The Democratic meeting was in the morning, and the Whig in the afternoon. The latter was addressed by George Evans, Phineas Barnes of Portland, and D. Bronson of Bath. A letter was read from Rufus Choate, favoring the election of Buchanan. The attendance was not very large at either meeting, but quite enthusiastic.

So says the telegraphic dispatch.—And the same authority says, in the afternoon a Fremont rally was held on the College grounds, under the direction of the students. The gathering was quite large. A procession was formed, which numbered about 1200, and the greatest enthusiasm existed. The greater portion of houses and stores had Fremont and Dayton flags suspended from them.

Mr. H. S. Thompson, of Newburyport, has prepared a Juvenile Opera entitled the "Nymphs of the Golden Fountain, or the Reward of the Faithful," that is one of the prettiest performances imaginable. It is original with Mr. Thompson, the music, the scenery, the dresses, all the parts—and will pe performed by his singing class of about 140 pupils, the last week in this month. It is quite lengthy, and will occupy in all its parts some three hours. Mr. Thompson has been to much expense, probably not less than $500, and has been occupied nearly six months, in the preparation. It will be the perfect crowning work in his profession, and the Herald says will be patronized as nothing has been in Newburyport for manny years. He has engaged the Hall for one week, but if it was coming off in Boston, we should see it advertised for the 100th night, sure,

---

The church in Rowley struck by lightning last Monday, had a rod upon the spire.—Whether any fluid passed down that or not, does not appear, but it struck the corner posts each side of it. In striking a barn in the same town, it passed through the hay mow, that was nearly to the roof, leaving a black mark, but not firing or otherwise injuring the property.—*Newburyport Herald.*

At the Fourth of July dinner in Boston the following toast was offered: "Yankee Doodle — the tune to which our fathers marched to victory. May their sons, as they commemorate Yankee Doodle *doo*, never forget what Yankee Doodle *did*."

California.—Late San Francisco papers say:—

It has always been supposed that the city would prove its title to much of the disputed land within its boundary, if the old records of the Mexican Pueblo could be ferreted out.

Alfred A. Green, formerly a city officer, some months since boldly avowed the possession of these records, averring he had accidentally discovered them, and offered to sell them to the city for $50,000. He had previously offered to sell them to Mayor Garrison, but Mr. G., thinking them bogus, refused to treat with him. The Vigilance Committee broke up the speculation by sending thirty horsemen out to Mr. Green's residence, near the mission Dolores, with orders to bring Mr. Green, his three brothers, and the Pueblo papers, if they could be found, to Fort Vigilance.—The work was promptly done. It appears that at the American settlement of San Francisco, these papers were in the hands of their legal custodian, Don Tobasco Valequez; that Green, by the assistance of a forged order, purporting to be in the name of the City, and by threats, got them out of the hands of Don Tobasco.

Chicago, August 13.—*Fires.* A large fire broke out here last night, at 9 o'clock, in the Walker House a small hotel on Clark street, near the Michigan, Southern and Rock Island freight depots, and extended from thence to Goss & Philip's sash factory, to the Rock Island House, to Robinson's warehouse, the Rock Island freight depot, and to the Michigan Southern freight depot, in which were numerous loaded cars which had arrived the same evening. They were totally consumed, including freight, valued at $100,000.

The Rock Island Railroad Machine Shop, and grain warehouse, the latter with 20,000 bushels of grain stored in it, took fire, but before it had done much damage it was extinguished,

Flint and Wheeler's warehouse, containing 150,000 bushels of grain, also took fire, and was saved with great difficulty.

The total loss is estimated at $150,000 to $250,000. Insurance not ascertained.

High Priced Horses.—John S. Carr of Goffstown, recently sold a five years old stallion horse, "Young America," for $1200, to go to Illinois. Mr. Edgerly of Manchester sold his Romeo a short time since, for $1500. Mr. Dunckley of Concord, a few days since, sold a 7 years old mare for $1100. Mr. Atherton of Claremont, a few weeks since, sold a 7 years old Morgan stallion, of his own raising, for $1200; he was taken to Boston and soon after sold for $2,000 to a gentleman from New Orleans. A. M. Billings Esq., of Claremont sold a mare to a D. A. Gage, Esq. of Chicago, last week, for $650. Good horses sell quick for big prices, and the demand for this class of horses seems to be increasing.

One of the Benefits of Journalism.—In addition to the innumerable other valuable blessings conferred by a civilized Press, we may ask how would that large and untractable race of testy, restless, frumpish, surly old gentlemen, who have nothing to do, be able to get through the day without the aid of the Newspaper?—It is the only occupation they have—it is the solitary thing that keeps them quiet—it is the one talisman that prevents them from grumbling perpetually, morning, noon, and evening.—[Punch.

MISS I. T. HAVEN will resume her School on Monday, Sept. 1st., 1856. au6 2w.

HAYDEN'S IMPROVED VEGETABLE PURGATIVE PILLS.

Calais, Vt., Jan. 3, 1849.

I have used your truly valuable pills, and feel no hesitation in saying they are the best combination of vegetable virtues I have ever used, and infallible for the headache.

ALFRED MORVER.

WM. R. PRESTON, Druggist, wholesale and retail agent, Portsmouth. 6td&w

"A MEDICINE FOR MAN OR BEAST," says one "who has tried it." "Dyer's Healing Embrocation" I use in all cases of cuts, wounds and bruises, and internal pains or distress, and it never fails to give immediate relief, or to effect a cure. It will heal wounds, cuts or sores, upon man or animal, sooner than any other preparation I have ever used.

For sale in Portsmouth by J. H. Thacher, W. R. Preston and B. Hutchings.

A. H. Field, sole proprietor, Providence, R. I.

HEALTH AND STRENGTH.

☞ Dr. S. O. RICHARDSON'S SHERRY WINE BITTERS is the best Medicine ever used, for Summer Complaints. It has been more liberally patronized than any other ever established in this country. It is the same Richardson's Bitters which has restored so many invalids to health throughout New England during the past thirty years.

N. B.—Beware of imitations called Sherry Wine Bitters. The genuine have a fac simile of my signature upon the outer envelope. For sale by Druggists everywhere, and at my office, No. 51 Hanover St., Boston. au8 6m

WORTH KNOWING.

Prof. Wood, of St. Louis, has discovered a remedy for the grey and bald, which is at once practicable and cheap. It requires no dyeing, no wig, no extraordinary trouble. There can be no doubt whatever of its efficacy. We have seen testimonials almost without number, and from men of great intelligence, high standing and moral worth.

Those who have been bald for years are now wearing their own hair, and appear ten years younger than they did six months ago. As in most cases grey hairs and bald heads are both premature and unnatural, it is a duty to remedy them by the natural and undoubted means which Prof. Wood has invented, and now kindly offers to the afflicted. Try his wonderful remedy, and give the Professor a new testimonial.—*Memphis Whig.*

THE DOOR I KNOCKED AT.

"I knocked where the house of wealth I knew—
Out of the window a penny they threw.

"I knocked at Love's inviting door—
Fifty others stood there before.

"I gently knocked at Honor's tower—
It opened only to Wealth and Power.

"I turned to Labor's cottage low—
And heard within but the voice of woe.

"I sought Content in her lowly sphere—
She knew no acquaintance far or near.

"Well, there is a small house I at length shall win,
Where I may both knock and enter in.

"Already, 'tis true, it has many a guest—
And for many more, still, in the grave there is rest!"

Prospects of Cheap Flour.—The Cincinnati Price Current estimates the quality of wheat gathered the present harvest at fully ten per cent. greater than has been gathered any previous year. The same authority also states that the quality of the new wheat is excellent. The grain is full and bright, and perfectly dry and sound.

St. Louis, August 14. This morning's Democrat announces the withdrawal by the Benton Democracy of their electoral ticket, in favor of the Anti-Benton party.

J. H. THACHER, Apothecary.

"If you are Coming, Why don't you Come along?"

THAT is the "mot" now-a-days. Every locomotive on every Railroad shrieks it. It is daily rapped out on every Telegraphic Line in the country. The echoing blows of our Ship Carpenters hourly exemplify it. The smith at his anvil hammers it out. The clanking Press with breathless haste, sends the cry home to every family—"If you are coming, why don't you come along?"

It is uttered in an hundred tongues in a hundred lands. It has sounded like a slogan through the political world, and the "Old Fogies" are creeping along among the baggage wagons and the wounded. Thought, that moved at a funeral pace, now rushes on a tremendous charge; and all the old remedies for Liver Complaint have given way for

HOLMAN'S SPRING BITTERS.

"*If you are coming, why don't you come along.*"—Six paces to the front, is the word to everybody and everything that wants to be listened to or looked at. If you have anything to do, *do it;* if you wish any person to see anything, *show it;* if you have anything to be cured, CURE IT WITH

HOLMAN'S SPRING BITTERS.

"*If you are coming, why don't you come along?*"—If you have a Bottle of Holman's Bitters in your house, you need not suffer from

Biliousness, Weakness at the Stomach, Indigestion, Heartburn, Lowness of Spirits,

Nor any of the diseases incident to the season.

It used to take six men to make a pin; now one boy, a pull, a clip, and two strokes, and that's the way the pins are made. Once it took a Physician, lots of precious time, and quantities of nauseous drugs to cure some simple disease of the Blood.—Now, a quarter expended in

HOLMAN'S SPRING BITTERS

Brings Life and Health, flowing spirits and rosy cheeks.

"*If you are coming, why don't you come along?*"—If you are sick and weak, why don't you cure yourself? Here we offer you the article that will do it—there is no mistake about it. Every body knows about HOLMAN'S BITTERS; they have been tried and have "toed the mark straight."

They are a *good* medicine; they are *better* than anything else for all Spring Complaints; they are just the *best* Bitters that can be bought—and that's the best thing we can say about them. "*If you are coming, why don't you come along,*" before they are all gone?

Also, a lot of Remnants at Cost.

A great variety of Shades, Curtains, Fixtures, Tassels and Cord.

Please call and examine.

LOCAL.

THIEVES CAUGHT. — Three young men were brought before Justice Odell, in this city, on Friday evening, charged with various thefts committed in Exeter and North Hampton on Thursday and Thursday evening. They gave their names as George Howard Green, Edward A. Green, and James Brogan. The Greens professed to live in South Boston.—They stole a coat in Exeter, boots, books, &c. —and wound up by stealing a horse from Mr. Simon Leavitt of North Hampton, about 11 o'clock on Thursday evening. Being pursued they left the horse and fled into the woods, but were picked up in this city on Friday by the police; Geo. H. Green turned State's evidence as to taking the horse—and Justice Odell bound them over to the next term of the S. J. Court.

☞ It was the wife, son and daughter of Gov. Matteson of Illinois, who were thrown from a carriage while crossing Portsmouth Bridge on Wednesday afternoon. The three persons were more or less bruised, but the daughter was reported to be seriously injured. The Gazette states, however, that the young lady was sufficiently recovered the next morning to be able to ride to the Ocean House, Rye Beach, where the family is now boarding. The accident was caused by the breaking of the harness, near the Kittery side of the river, which frightened the horses, and they ran wildly on the bridge; till the wheel striking a pier, the riders were all thrown violently out, and the horses cleared themselves from the pole.

MORE SIGHTS.—A person on Sunday evening, between 4 and 7 o'clock, in a central part of the city, saw eight drunken men pass the house, so far gone as to reel or stagger.

Another, on Monday, saw in the western part of the town, near the railways, a man, lying helplessly drunk, and a mere child, his son, trying to get him up.

A better sight, seen early in the morning by Uncle Toby, was that of two women, undoubtedly foreign, and probably Irish, sitting on the ship timber which lies piled near the Concord Railroad. The women were clad in calico gowns, hobds, and aprons, and were engaged in reading a new volume, while the fire was getting breakfast in the little house hard by: the readers, meanwhile, sitting as much at ease as any could in a drawing room, without annoying the passengers, or being annoyed by them. The chimney of the Sagamore Mill furnished them with a sunshade.

☞ Elder Moses How will preach at Pleasant street Church to-morrow.

☞ The Daily Chronicle may be had of our Carriers, at 8 cents per week. Single copies 2 cents. $4 per year in advance.

THE FISHERIES.—A correspondent at Gloucester writes us that six or eight vessels have arrived at that port from the Bay thus far, with fares varying from 200 to 300 barrels each. A large number are now looked for, and soon there will be arrivals, almost daily, until the close of the season. Never was there so large a fleet from that port at the Bay, as this year, the different concerns and packing establishments, of which there are 24 in the port, fitting severally from six to thirty vessels each. The Messrs. Wonson lead this year as in past seasons in the number of vessels and men employed, and are undoubtedly the largest firm engaged in the fishing business in the United States. Their skippers and crews are drawn from all parts of New England and the British Provinces, and comprise many remarkably energetic and intelligent men. Their wharves, stores and flake yards are on an enlarged and improved scale, and are well worth examination by any stranger visiting Gloucester that is unacquainted with the fishing business.—Thousands of quintals of fish and barrels of mackerel can at times be seen on their premises. A busy scene of industry is often witnessed there when a fleet have just arrived from the Banks and the Bay, and are unloading, while others at the same time are fitting away. These scenes give an animated appearance to the large establishment. From 300 to 400 men are employed at the Messrs. Wonson's in all the departments of their business.—[Boston Transcript.

A KISSING ITEM.—A young gentlemen residing in the neighborhood of Richmond, had occasion a short time since, to drive his pretty cousin Fanny down to Windsor in a gig. Little Charlie, a brother of Fanny's, accompanied and sat between them in the gig; but as he was only five or six years of age, was considered nobody. Unfortunately, however, the little fellow had got a new hat that very day, of which he was exceedingly proud. Finding, on his arrival at Windsor, that it had sustained some injury during the journey, he rushed to his mamma to complain: "I declare, mamma," he cried, "I'll never ride in a gig between sister Fanny and cousin George again."—"Why so, my dear?" inquired mamma.—"Because," he replied, "they've crushed my new hat all to pieces with leaning over to kiss each other all the way from Richmond."—[Lynchburg Virginian.

DR. TREADWELL'S DONATIONS.—The Salem Register reports that, in addition to the donations to Harvard College by the late Dr. John G. Treadwell, of that city, a valuable theological library is given to the Barton Square (Unitarian) Church, for the use of the pastor; and a fine farm of 70 acres, situated in Topsfield, is left to the Essex Agricultural Society for the purposes of an experimental farm.

CONGRESS

THURSDAY, Aug. 14.

SENATE.—The Senate reconsidered the bill continuing the improvement of the Des Moines Rapids, with the President's objections thereto, but failed to pass it over the veto, two-thirds not voting in the affirmative.

The vote stood 32 against 17, as follows:

YEAS—Messrs. Bayard, Bell of N. H., Bell of Tenn., Benjamin, Bigler, Cass, Clayton, Collamer, Crittenden, Dodge, Douglas, Durkee, Fessenden, Fish, Foot, Foster, Geyer, Hale, Harlan, James, Jones of Iowa, Jones of Tenn., Pratt, Pugh, Seward, Stuart of N. J., Thompson, Trumbull, Wade Weller, Wilson, Wright.

NAYS.—Messrs. Adams, Briggs, Bright, Brodhead, Brown, Butler, Clay, Evans, Fitzpatrick, Houston, Hunter, Iverson, Mallory, Mason, Reid, Toombs, Yulee.

The Senate then proceeded to the consideration of the bill making appropriations for various civil items.

A long debate ensued on the House proviso prohibiting military superintendence in the erection of public buildings, except for defensive purposes, when it was stricken out.

An amendment was adopted, authorizing the Secretary of the Treasury to purchase three stores at the Atlantic dock, Brooklyn, N. Y., and appropriating $100,000 for that purpose. Adjourned.

HOUSE.—The House proceeded to act on the amendment to the Legislative, Judicial and Executive Appropriation bill, as reported from the Committee of the Whole on the State of the Union.

The House voted to retain the appropriation of nearly $183,000 for books, which the Senate had stricken out, and added a proviso that any member who was unwilling to receive his share, may so inform the Clerk, who shall report the same to the House next session.

The House concurred, by 97 against 90, in the amendment substituting Mr. Pennington's amendment, offered yesterday, that no money be drawn until the treason cases be dismissed, for a similar one, which the Senate had stricken out.

The House disagreed by five majority to the Senate amendment, restoring the appropriation of $20,000 for the expenditures of the future Legislature of Kansas.

The House then concurred by 7 majority in an amendment similar to the one stricken out by the Senate, preventing expenditure for arresting, prosecuting, or detaining persons charged with treason, and other political offences, growing out of the action of the Legislature of Kansas or the Topeka Convention.

The House then passed the bill establishing a large number of post routes; and tabled, by 32 majority, the Senate bill appropriating nearly a million of dollars to pay certain bondholders the amount expended by California for the suppression of Indian hostilities. Adjourned.

WASHINGTON, Aug. 14.—The Democrats anticipate that a sufficient number of the Republicans will secede for practical purposes from the Kansas restrictive amendments to the appropriation bills, while on the contrary the Republicans declare that they will continue in solid phalanx without wavering.

WASHINGTON, Thursday evening.—[Tribune correspondence.]—An attempt will be made to-morrow to introduce another Kansas pacification bill in the Senate, by Senator James of Rhode Island. It destroys the bogus Legislature and laws without ceremony. Messrs. Douglas, Toombs and Bigler, the spokesman of Buchanan, are understood to oppose it.

On Monday afternoon the lightning struck seven times in the town of Essex. It had previously struck there eighteen times this year; and not one shower has passed without leaving its mark there.

EXPURGATED LITERATURE. — Humboldt, in a letter to a German newspaper, complains that Mr. J. S. Thrasher has omitted a whole chapter, in his translation of Humboldt's Cuba, recently published in New York. The learned savan states that the suppressed chapter is one that he values most. He repeats a passage from it as in the original work, which was written thirty years ago. We quote a few lines:

It is the duty of the traveller who has been an eye-witness of all that torments and degrades human nature, to cause the complaints of the unfortunate to reach those whose duty it is to relieve them. I have repeated in this treatise the fact that the ancient legislation of Spain on the subject of slavery is less inhuman and atrocious than that of the slave States on the American continent, north or south of the equator.

The treaty with the Sandwich Islands, now before the Senate for ratification, proposes an almost absolute free trade, the leading products on each side being admitted absolutely exempt from duty.

From the Boston Saturday Evening Gazette.

A PERFUMED BREATH.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A BEAUTIFUL COMPLEXION may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and roseate hue. Wet a towel, pour on two or three drops, and wash the face night and morning

SHAVING MADE EASY.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," rub the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

W. P. Fetridge & Co. Proprietors, 328 Pearl street, New York, and 100 Washington street, Boston. For sale in Portsmouth by William R. Preston. 6mje16

DESTRUCTIVE EARTHQUAKE IN THE MOLUCCAS.—The Indian mail brings advices of another of those dreadful earthquakes for which Ternati and the adjoining localities in the Moluccas are proverbial. An eruption of the active volcano on the island of the Great Sangir, in lon. 125 50 E. and lat. 3 50 N., has occurred. Between seven and eight o'clock on the evening of the 2d of March, a sudden and altogether indescribable crashing noise was heard, which, indicating to the Sangirese an eruption of the volcano, filled them with consternation. Simultaneous with this the glowing lava streamed downwards with irresistible force in different directions, bearing with it whatever it encountered in its destructive course, and causing the sea to boil wherever they came in contact. The sea, obedient to an unusual impulse, lashed the rocks with frightful violence, dashed upon the shore, and heaved itself with wild haste against the land, as if it strove to overmaster the fire-stream.

This frightful picture of destruction, the horror of which was increased by the shrieks of men and beasts, the roaring of the tempest, and the crashing of thousands of trees torn up and carried away, was followed about an hour later by peals of thunder which shook the ground and deafened the ear. A black column of stone and ashes then shot up from the mountain to an immense height, and fell, illumined by the glare of the lava, like a shower of fire on the surrounding country below, producing a darkness, that, only now and then momentarily broken by the flashes of lightning, was so intense that people could not discern objects close at hand, and which completed their confusion and despair. Large stones were hurled through the air, crushing whatever they fell upon. Houses and crops which had not been destroyed by fire sank and disappeared beneath the ashes and stones, and the hill streams, stopped by these barriers, formed lakes, which breaking over their banks soon proved a new source of destruction. This lasted some hours. About midnight the raging elements sank to rest; but on the following day about noon they again resumed their work of destruction with renewed violence. In the meantime the fall of ashes continued without intermission, and was so thick on this day that the rays of the sun could not penetrate through it, and an appalling darkness prevailed.

A number of other districts and places have been some wholly destroyed, others greatly injured by the fire. The loss of life has been great. It is estimated at 2,806, men, women and children.

The greater number met their death in the gardens. They fled in all directions, but were overtaken and swallowed up by the fatal fire-stream. Some tried to save themselves in the trees, but were either carried away with them or killed by the scorching heat. Many died through sheer despair and agony.

MRS. M. E. WEBB'S READINGS.—"Uncle Tom" and his Cabin have not yet disappeared from the gaze of the London public. Yesterday afternoon a long line of carriages, drawn up before Stafford house, the residence of the Duchess of Sutherland, declared to the west end world that some new attraction had brought together several members of the higher circles. Mrs. M. E. Webb, a lady of color, daughter of a Spanish gentleman and of a female slave of Virginia, had recently arrived in London, bringing with her a dramatized version of Uncle Tom's Cabin, composed by Mrs. Stowe herself, for the purpose of a public reading, and the hall of the splendid mansion in St. James' had been granted to her by the Duchess, as the site of the entertainment.

Placed behind a reading desk, Mrs. Webb read in a clear voice, and with great signs of intelligence, the interesting scenes that had been prepared for her, and which comprised the most celebrated dialogues and incidents in the celebrated novel. Without exactly acting the different parts, she discriminated them with a great deal of nicety, and the dark hue of her delicately formed countenance gave a characteristic tone to the performance. The Earl of Shaftsbury and several distinguished adherents of the philanthropic party were among her audience, which could scarcely be surpassed in brilliancy.—[London Times, July 29th.

THE BALLOT QUESTION IN ENGLAND.—The Ballot question has again been under discussion in the British House of Commons, and again the *viva voce* mode of voting has been sustained by forty majority. In the debate reported in the London Times, we find that some Massachusetts authorities were relied on by the friends of the ballot. Hon. Mr. Berkeley, of Bristol, the present leader of the movement, a position in which he is the successor of George Grote the historian, made several extracts from a lengthy historical artical of Mr. Edward L. Pierce, originally published in the Boston Post, and more recently re-published in England, in pamphlet form, by the London Ballot Society. Mr. Berkely also read passages from letters addressed to that society by Hon. Amasa Walker.

Patent Self-Heating Smoothing Irons.

JUST received a large lot of the above named Irons, for which the subscriber has been appointed sole agent. All are invited to examine this valuable article, which should be in the hands of every family, being cheaper than any other Iron in use. One cent's worth of charcoal is ample fuel for a day's ironing.
je20 FRANK JONES, 61 Market st.

Self-Heating Smoothing Irons.

ON account of arrangements lately made by the Manufacturers, we are enabled to offer these Irons at a much reduced price.
je21 RAYNES & NEIL, 59 Market st.

Patent Self-heating Charcoal Iron.—Price Reduced.— Great Economy.

EVERY House Keeper should have one. With this iron three bushels of Charcoal are sufficient to do the ironing of a family twelve months. Once filled the iron can be used five hours without refilling. They are used with much less labor than the common iron, as less pressure is required to produce the same result. Directions for use, accompany each iron. For sale by the dozen or single, at greatly reduced prices, by

Whalebone Skirts.
THE only bject of a Whalebone Skirt is to give a proper, graceful and elegant form to a lady's dress Unless this is accomplished, the article is entirely worthless. The Ladies, by referring to Frank Leslie's Gazette of Fashions for April, will notice that E. & J. HOLMES have from actual experience been successful in producing this most desirable article, and that their IMPROVED SEAMLESS SKIRT meets the unanimous approbation of the ladies They are light, pliable, and easily adjusted, and the only Skirt which is equally adapted to the street and the crowd; are made in one piece or breadth, and in our opinion, and in the opinion of thousands of ladies who have bought them, the most reliable goods of the kind in the market. We were the first to introduce a Whalebone Skirt, and from our experience in the manufacture and retail of these goods, we have found that all kinds of cotton cord, and nearly all kinds of cord, and all starched goods, cannot be used satisfactorily, as they will not recover their place when pressed out of shape. We consider all
WHALEBONE SKIRTS
as worthless, of whatever material made, unless there is something of sufficient stiffness and elasticity, and at the same time yielding and pliable, to keep the dress in proper shape below the bones. To accomplish this we have our cord made under our own direction, and expressly for our goods, and from the only material that can be used that will recover its proper place when pressed out of shape, and are so twisted in manufacturing that they will not roll or curl when wet, and warranted to wash without injury. The public are cautioned against all worthless goods, as the market since our goods have become popular and extensively known, has been flooded with goods of all kinds, and put together without form or comeliness, or any other object but to sell, and of course are called Whalebone Skirts. Some imitators, in their efforts to profit by our reputation, have gone so far as to copy almost exactly our trade mark upon their goods.
Please Notice.—Every genuine article stamped, *E & J. HOLMES'S IMPROVED SEAMLESS WHALEBONE SKIRT*, and may be found by the trade in many of the largest Jobbing Houses in New York and Boston, and at retail in the principal Dry Goods stores.
June 6, 1856. eo2m E. & J. HOLMES, Boston.

Great American and Foreign Office
For Securing Patents for Inventions.
Agency for business with US Patent Office, Washington
R. H. EDDY,
No. 76 State st. oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages in applying for Patents superior to those offered by inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal throughout him within thirty days after the rejection.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, and ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.
Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington—Patents secured in Great Britian, France, and other foreign countries, through Agents of the highest respectability. **R. H. EDDY,**
Solicitor of Patents.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in a suring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS MASON,
Commissioner of Patents.
Boston, Jan 11 1856 4teody

FARM LANDS FOR SALE.
The Illinois Central Railroad Company
IS NOW PREPARED TO SELL
OVER TWO MILLION ACRES
OF
FARMING LANDS,
In Tracts of 40 acres and upwards, on long credits and at low rates of interest.

THESE lands were granted by the Government to aid in the construction of this Railroad, and include some of the richest and most fertile Prairies in the State, interspersed here and there with magnificent groves of oak and other timber. The Road extends from Chicago, on the north-east, to Cairo at the south, and from thence to Galena and Dunleith, in the north-west extreme of the State, and as all the lands lie within fifteen miles on each side of this Road, ready and cheap means are afforded by it for transporting the products of the lands to any of those points and from thence to Eastern and Southern markets. Moreover, the rapid growth of flourishing towns and villages along the line, and the great increase in population by immigration, etc. afford a substantial and growing home demand for farm produce.
The soil is a dark, rich mould, from one to five feet in depth, is gently rolling and peculiarly fitted for grazing cattle and sheep, or the cultivation of wheat, Indian corn, etc.
Economy in cultivating and great productiveness are the well known characteristics of Illinois lands. Trees are not required to be cut down, stumps grubbed, or stone picked off, as is generally the case in cultivating new land in the older States. The first crop of Indian corn, planted on the newly broken sod, usually repays the cost of plowing and fencing.
Wheat sown on the newly-turned sod is sure to yield very *large profits*. A man with a plow and two yoke of oxen will break one and a half to two acres per day. Contracts can be made for breaking, ready for corn or wheat, at from $2 to 2.50 per acre. By judicious management, the land may be plowed and fenced the first and under a *high state of cultivation* the second year.
Corn, grain, cattle, etc. will be forwarded at reasonable rates to Chicago, for the Eastern market, and to Cairo for the Southern. The larger yield on the cheap lands of Illinois over the high priced lands in the Eastern and Middle States, is known to be much more than sufficient to pay the difference of transportation to the Eastern market.
Bituminous coal is mined at several points along the Road, and is a cheap and desirable fuel. It can be delivered at several points along the Road at $1.50 to $4 per ton; Wood can be had at the same rates per cord.
Those who think of settling in Iowa or Minnesota, should bear in mind, that lands there of any value, along the water courses and for miles inland, have been disposed of;—that for those located in the interior, there are no conveniences for transporting the produce to market, railroads not having been introduced there. That to send the produce of these lands, one or two hundred miles by wagon to market, would cost much more than the expense of cultivating them; and hence Government lands thus situated, at $1.25 per acre are not so good investments as the lands of this company at the prices fixed.
The same remark holds good in relation to the lands in Kansas and Nebraska, for although vacant lands may be found nearer the water courses the distance to market is far greater, and every hundred miles the produce at those lands are carried either in wagons or interrupted water communications, increases the expense of transportation, which must be borne by the settlers, in the reduced price of their products; and to that extent precisely are the incomes from their farms, and of course on their investments, annually and every year reduced.
The great fertility of the lands now offered for sale by this company, and their consequent yield over those of the Middle and Eastern States, is much more than sufficient to pay the difference in the cost of transportation, especially in view of the facilities furnished by this Road, and others with which it connects, the operations of which are not interrupted by the low water of summer, or the frosts of winter.
PRICES AND TERMS OF PAYMENT.
The Price will vary from $5 to $25, according to the quality, location, &c. Contracts for Deeds may be made during the year 1856, stipulating the purchase money to be paid in five annual installments; the first to become due in two years from the date of contract, and the others annually thereafter. The last payment will become due at the end of the sixth year from the date of the contract.
Interest will be charged at only 3 per ct. per ann.
As a security to the performance of the contract the first two years' interest must be paid in advance, and it must be understood that at least one tenth of the land purchased shall yearly be brought under cultivation. Twenty per cent. from the credit price will be deducted for cash. The Company's construction bonds will be received as cash.
READY FRAMED FARM BUILDINGS,
Which can be set up in a few days, can be obtained from Responsible Persons.
They will be 12 ft. by 20 ft. divided into one living and three bed rooms, and will cost complete set up on ground chosen anywhere along the road $150 in cash, exclusive of transportation. Larger buildings may be contracted for at proportionate rates The Company will forward all the materials for such buildings over the Road promptly.
Special arrangements with dealers can be made to supply those purchasing the Company's lands with fencing materials, agricultural tools, and an outfit of provisions in any quantity, at the *lowest wholesale prices.*
It is believed that the price long credit, and low rate of interest, charged for these lands will enable a man with a few hundred dollars in cash, and ordinary industry, to make himself independent before all the purchase money becomes due. In the mean time, the rapid settlement of the country will probably have increased their value four or five fold. When required an experienced person will accompany applicants, to give information, and aid in selecting lands.
Circulars containing numerous instances of successful farming, signed by respectable and well known farmers living in the neighborhood of the Railroad lands, throughout the State—also the cost of fencing, price of cattle, expense of harvesting, threshing, &c. by contract—or any other information—will be cheerfully given, on application, either personally or by letter, in English, French or German, addressed to
JOHN WILSON,
Land Commissioner of Ill. Central R. R. Co.,
Office up to the 1st of May, 52 Michigan Avenue, Chicago, Ill.; after that date in the New Stone Passenger Depot, So. Water st. a8 6m

For sale by WM. P. GOOKIN,
m2 Long Wharf.

Secured by Royal Letters Patent in England, and by Patent in the United States.

THE Subscribers, having been for a long time desirous of securing to the public a Needle that will not only be a superior article, but perfect in the Eye, recommend their "*Patented Gold Inlaid Needle.*" They are justly celebrated, and preferred above all others, the eyes being inlaid with gold and burnished, which renders the cutting or chafing the thread utterly impossible.—They are manufactured from the best steel, and tempered according to the most approved plan.—We therefore offer with confidence these Needles to the public, having secured them against all frauds or imitations either in Paper, Label or Needle. We desire all parties purchasing these Needles to be cautious in the selection of them, as unprincipled persons have sought to imitate our style, and thus palm off an inferior article, notwithstanding the heavy damages we have recovered from various parties; and a reward of $500 will be paid for such information that will lead to the detection and conviction of any person or persons thus engaged. None are genuine except those labelled on the back, '*Warranted by R. Crowley.*' A liberal discount will be allowed to dealers who purchase in large quantities.
WILLIAM CROWLEY & SON,
Oversly Mills, Alcester, England.
Having made arrangements with the Manufacturers of the above brand of Needles (which I can say recommend as the best Needle in the market,) I am prepared to sell them
Wholesale at $1.60 per M.
Retail at 6¼ cts. per paper of 25.
Assorted or separate numbers, sharps and betweens.
HENRY PEYSER,

Morning Chronicle.

MONDAY, AUGUST 18, 1856.

MR. CHOATE.—The Boston Times, in glee at Mr. Choate's letter, says:—"We need but a few more heavy guns of this kind to sweep Black Republicanism and its sixteen-starred treachery to the Union, from even its stronghold, Massachusetts." But from the eulogium the Times bestows on Mr. Choate's abilities, we conclude no more guns like that can be had from anybody else, and Choate himself only fires that way for very high pay: so we feel safe, says the Boston Chronicle. The Boston Courier enumerates several Whigs who are not now ready to follow Mr. Choate. They go for Mr. Fillmore.

Mr. Choate's letter cannot be expected to aid Mr. Fillmore's election; nor do we suppose it can have much effect any way. No men who knew any thing about him, could have expected him to vote for Fremont, as they know he takes a south side view of slavery. He says:

While I entertain a high appreciation of the character and ability of Mr. Fillmore, I do not sympathize in any degree with the objects and creed of the particular party that nominated him, and do not approve of their organization and their tactics. Practically, too, the contest, in my judgment, is between Mr. Buchanan and Col. Fremont. In these circumstances, I vote for Mr. Buchanan.

That is to say: I hate the K. N.s; Fillmore, *practically*, is out of the question; Fremont is quite too liberal for me; I am eminently a practical man—therefore I vote for Mr. Buchanan.

MR. CHOATE IN ESSEX COUNTY.—The editor of the Salem Gazette, an old personal and political friend of Mr. Choate, thus speaks of his letter in favor of Mr. Buchanan:

The eloquent and learned advocate cannot make any other than an able plea, however unsound and fallacious. It glitters with his splendid rhetoric, and lacks nothing but a solid basis to be a masterpiece of argumentation. * * * * The truth we suspect to be, that Mr. Choate has been employed so many years in defending desperate cases, that his mind has come at last to work spontaneously in that direction.—He will find, however, the complicity of Pierce and Buchanan in the Kansas iniquity, a harder load to carry than Tirrell's murder and arson.

WASHINGTON NEWS, CONDENSED.—The telegraphic dispatch of the 15th, says,—"The Cabinet has not ordered the discontinuance of the Kansas prosecutions."

The Boston Advertiser's special dispatch of the evening of the 14th, says,—"Although the Cabinet yesterday decided to quash the Kansas indictments, it is not yet done, nor will it be finally consummated until the President has had time to feel the popular breeze, and finds it likely to be advantageous. If done at all, it will not not be until Gov. Geary reaches Kanzas."

The reader may infer from these things, if he pleases, how much reliance should be placed in any *assurances*, short of a *bona fide* bond in black and white, that anything like justice shall be done to freedom in Kansas or elsewhere. The slavery extension league is too slippery to be trusted for a moment.

The same dispatch to the Advertiser, says, of Mr. Fillmore's friends in Washington,—

The political relations of the Fillmore men in Congress are assuming a novel and interesting form in consequence of Mr. Fillmore's evident weakness at the South. Several men, lately prominent supporters of Mr. Fillmore, are about to declare for Colonel Fremont. Fillmore will doubtless be deserted almost unanimously within a few days.

COL. GEARY.—The correspondent of the N. Y. Courier and Enquirer says that Col. Geary still lingers at Washington, doubtful whether to accept or decline the Governorship of Kansas. He says it has broken down two Northern men, and under the Bogus laws will break down whomsoever may undertake it.—Having demanded of the President that these laws should be set aside, it is asserted that Mr. Pierce refused *unless an application should come from the South!* Accordingly, says this writer;

"Col. Geary waited upon Toombs in the Senate, and Stephens in the House, as representatives of the sectional party, seeking to force slavery upon Kansas, and laid before them the impossibility of governing Territory, unless Congress placed its ban upon the scandalous edicts of the mock Legislature. Those autocrats dismissed the suppliant with a peremptory refusal to act in the matter. The next expedient for the accomodation of differences, was the dismissal of the Judges, through whose corrupt and oppressive course these acts derived the force of law, and the release of the political prisoners confined under them. To this the President assented, and it is understood that he pledged himself to dismiss Lecompte and Cato, unless they should yield to superior force and resign. They declined to retire in a quiet and peaceful manner, and it is believed that they have been suspended from their functions, and that if not already dismissed, they will be on the adjournment of Congress."

Credat Judaeus!

MANCHESTER POLICE COURT.—On Tuesday, says the Mirror, Lawrence Lowd was brought into Court and arraigned upon a complaint for keeping intoxicating liquor for sale. A warrant was issued, authorizing a search on his premises, at the lower end of Elm street. An examination of the premises brought to light a cellar, containing a variety of liquors and implements of the traffic. After examination, the respondent was ordered to recognize in the sum of $200, with sureties for his appearance before the Supreme Judicial Court, at Amherst, on the second Tuesday of next month.

NOTHING AT ALL.—This morning there was one of those calms in police matters which usually follows a storm. There was not a single case before any of the Recorders worth reporting; even drunkards and vagrants were much fewer than usual.—The moral as well as the physical atmosphere must have been cleared by yesterday's thunder storm.—[New Orleans Picayune.

It is a curious fact, within the compass of all police experience, that there are always very few cases at a police court the morning after a wet evening. Thieves appear to dread getting wet more than they do the terrors of the law. A fire engine playing jets of water will disperse and drive, laughing, away, a frowning mob who would not so readily disperse before an army of soldiery. There is philosophy in these facts. Who will be at the labor to educe it?—[Boston Traveller.

Petty thieves dread rain; nearly all petty thieves are also drunkards, who naturally dread water, and who drink less in wet weather than in dry, because their thirst is less. Great thieves and robbers sometimes break in and steal money in foul weather:—but almost all goods that can be stolen would be ruined by a soaking.—Riots cannot be kept up in the rain, because water, outside or in, cools the system, takes down the fever, and indisposes the whole man to any such deeds.

CHOICE LIQUORS.—A correspondent of the Boston Herald, writing from St. John, N. B., Aug. 6, says:

The sole pleasures of the city consist in drinking—brandy punches in the forenoon, cocktails at dinner, sherry cobblers in the afternoon, clear brandy at night, until a late hour; and then awaken with feverish pulse to go through with another day's guzzling. The only excuse for such a life is that the liquors are devilish good, and the brandy is far superior to the best you can possibly get in the States.

Out of a large circle of acquaintances, I only know one that does not habitually drink intoxicating liquors, and he is looked upon with much surprise, &c.

The idea of "devilish good," though not exactly new, is quite appropriate, as connected with the drinking habits which the writer describes. It is no wonder the legislature of so sottish a people, should repeal the prohibitory law.

☞ Edward C. Delavan, Esq., of New York, the well known temperance man, has come out in a letter in favor of Mr. Fillmore's election to the presidency. The Boston Courier has the letter. It contains these paragraphs:

Since the formation of this government, there has probably never been a period when party claims were so lightly estimated by the great body of the people. An "intense individualism" seems to be the leading characteristic of the voters in this campaign, and they seem determined to act for themselves, regardless of the flatteries or frowns of party leaders.

Rum and money will probably be used freely as heretofore. Let it be the glory of at least one party that it is influenced alone by principle and sound patriotism.

MRS. HOLLAND RIDES IN A CART.—Quite an excitement was occasioned, yesterday afternoon, by the arrest of a woman known by the name of Mrs Holland, and the circumstances attending it. She was very much intoxicated, and was addressing a crowd, on the corner of Battery and Commercial streets, in Billingsgate language, when officers Stone and Moore approached. Seeing them, she ran; but was finally overtaken. She refused, however, to accompany the officers, and they were, at last, compelled to charter a hand-cart to convey her to the Station House. She performed a number of evolutions in the cart, as it passed along the staeet, and a large crowd, who ought to have been at better business, followed. The poor woman was placed in a cell. *San Francisco Bulletin.*

CHICAGO, Aug. 15.—*Iowa Election.*—Reliable accounts from Iowa state that in the first Congressional district, Curtis, republican, had a majority of 1500 votes over Hall, democrat, with only four small counties in the extreme west to be heard from.

This, we suppose, ends all controversy about Iowa.—Repeated dispatches confirm what we stated a week ago about Arkansas, vis. that it goes for the Democratic party most thoroughly—as every well informed man expected.

The St. Louis Herald learns that a slop-gatherer, who collects slops from the hotels and private residences in that city, sold to a jeweller, a few days ago, $300 worth of silver spoons and other articles which he has found from time to time in the slops.

A very probable state of things where slaves wash the dishes — and somewhat probable where hired servants do all the work. But independent people, who do their own work, don't scatter the silver with a hand so lavish.

A FREAK OF NATURE.—Mark W. Merrill, Esq., has left in the Nashua Telegraph office, three apples picked from the same tree. Two of them are regularly shaped, round apples, while the other was as perfect a shaped pear, as ever was seen. The tree which bore them stood close by the side of a pear tree, and Mr. M. was of the opinion that the breeds had got mixed, somehow. There was no difference in the taste of the fruit, so that it was only a little experiment on the part of the apple tree to see what it could do in raising pears. The attempt, however, was a failure, except in so far as shape was concerned—but perhaps that was all that was attempted.

☞ An Irish girl in Newburyport, not more than a dozen years old, named Ellen Dorothy, on account of some troubles of a pecuniary character, concluded to close her mortal career on Friday, and for that purpose drank a considerable quantity of camphor; but a physician helped her out of trouble, and with good behaviour she may yet be useful to society.

FIRE.—A small barn on Cottage street, Nashua, belonging to Rev. John W. Shepard, was burnt on Tuesday night. There is little doubt, says the Telegraph, that it was set on fire.

☞ The general Association of Congregational and Presbyterian ministers of this State will hold their next annual meeting at Exeter, in the 1st church, on the 26th of August, at 10 o,clock, A. M.

☞ The speech of Hon. Mason W. Tappan of this State, on "Modern Democracy," recently delivered in the House of Representatives, is highly spoken of by those competent to judge of its merits. It is said that 10,000 copies of it were subscribed for by some of the members, for distribution in other States. We observe that many of the Republican journals in this State are publishing the speech in their columns, and infer that they consider it to be a good "electioneering document."

BURGLARIES.—In Boscawen, N. H. last Saturday night a burglar entered the dwelling house of B. R. Dow. He entered through a window, and was not heard till he had passed through one room and was coming into the bed-room of Mr. Dow,—who waked up and sprung for him. The burglar stumbled over a tub near the window, but succeeded in making his escape through the window.

At Lowell, about three o'clock last Monday morning Edward, son of Hon. Josiah G. Abbott, discovered a burglar in his father's house. As soon as seen the burglar put out through an open window, and young Abbott after him, who in the yard rescued a basket from the grasp of the burglar. The basket contained watches and silver ware, collected in the House. The scamp got away.

ROBBERY OF SILVER PLATE—About 4 o'clock Thursday afternoon an unknown rogue entered the basement room of the residence of W. F. Davis, No. 57 Carver street, Boston, and stole about $50 worth of Silver, which was lying on the table, ready to be used by the family in eating dinner. The family at the time were in the upper part of the house, and no person below except the maid servant, who was in the rear of the building, engaged in culinary operations, so that the coast was clear for the thief.

HAYDEN'S IMPROVED VEGETABLE PURGATIVE PILLS.

CALAIS, Vt., Jan. 8, 1849.

I have used your truly valuable pills, and feel no hesitation in saying they are the best combination of vegetable virtues I have ever used, and infallible for the headache.

ALFRED MORVER.

WM. R. PRESTON, Druggist, wholesale and retail agent, Portsmouth. 6td&w

"A MEDICINE FOR MAN OR BEAST,"

says one "who has tried it." "Dyer's Healing Embrocation" I use in all cases of cuts, wounds and bruises, and internal pains or distress, and it never fails to give immediate relief, or to effect a cure. It will heal wounds, cuts or sores, upon man or animal, sooner than any other preparation I have ever used.

For sale in Portsmouth by J. H. Thacher, W. R. Preston and B. Hutching.

A. H. Field, sole proprietor, Providence, R. I.

HEALTH AND STRENGTH.

☞ DR. S. O. RICHARDSON'S SHERRY WINE BITTERS is the best Medicine ever used, for Summer Complaints. It has been more liberally patronized than any other ever established in this country. It is the same Richardson's Bitters which has restored so many invalids to health throughout New England during the past thirty years.

N. B.—Beware of imitations called Sherry Wine Bitters. The genuine have a fac simile of my signature upon the outer envelope. For sale by Druggists everywhere, and at my office, No. 51 Hanover St., Boston. au8*6m

WORTH KNOWING.

Prof. Wood, of St. Louis, has discovered a remedy for the grey and bald, which is at once practicable and cheap. It requires no dyeing, no wig, no extraordinary trouble. There can be no doubt whatever of its efficacy. We have seen testimonials almost without number, and from men of great intelligence, high standing and moral worth.

Those who have been bald for years are now wearing their own hair, and appear ten years younger than they did six months ago. As in most cases grey hairs and bald heads are both premature and unnatural, it is a duty to remedy them by the natural and undoubted means which Prof. Wood has invented, and now kindly offers to the afflicted. Try his wonderful remedy, and give the Professor a new testimonial.—*Memphis Whig.*

Agent in Portsmouth, Jos. H. Thacher. Wholesale Agents in Boston, Weeks & Potter; Retail Agents, Redding & Co. 2w jy22

FROM ST. DOMINGO.—Advices from St. Domingo of Aug. 3, state that a revolution is in progress there growing out of the Spanish treaty, which favors the descendants of Spain. The Spanish, being the most numerous, wish to hoist the Spanish flag again, and citizens and soldiers are hastening to the Spanish consul to get registered as Spanish citizens. Great excitement has arisen in consequence. All tribunals are closed, business suspended, and the President and Cabinet threatening to resign. Foreigners and liberals are looking anxiously for a government vessel to protect them. The liberals say the Spanish flag shall never again be hoisted there. The Spanish Consul is opposing the ratification of the American treaty, and thwarting the American Consul in all his measures.

DEMOCRATS FOR FREMONT.—Ex-Governor Marcus Morton of Taunton has declared for Fremont. Also, Hon. Henry Williams of Taunton, formerly a Democratic member of Congress.

LOOKING TO NO. 1.—Sir James Mackintosh invited Dr. Parr to take a drive in his gig. The horse became restive.—"Gently, Jemmy," says the doctor, "take care; don't irritate him; always soothe your horse, Jemmy. You'll do better without me. Let me down, Jemmy." Once on terra firma, the doctor's view of the case was changed. "Now, Jemmy, touch him up—never let a horse get the better of you; touch him up—conquer him—don't spare him; and now I'll leave you to manage him—I'll walk back."

MARRIED.

In Andover, Mass., Aug. 9th, by Rev. John L Taylor, Rev. S. C. Dean, of the Ahmednuggar (East India) Mission, to Miss E. Augusta Abbott, daughter of Mr. Amos Abbott, recently City Missionary of Portsmouth.—The bride was a native of the province where she expects to spend her life with her husband—she having been born while her parents were engaged in the above-named Mission.—The young couple were to sail for the scene of their future labors, on the 18th inst.

In Nashua, N H, James M Vesper, of Newburyport, to Miss Elizabeth P Briggs, of Fisherville.—Daniel M Adams, Esq, to Miss Helen True, both of Derry.

In Keene, Lorenzo Stebbins, of Vermont, to Miss Ellen O Walton, of Chesterfield.

In Hubbardston, Mass, Cyrus G Buffum, of Richmond, to Miss Lizzie E Witt, of H.

School for Boys.

W. F. B. JACKSON (successor to Mr. Kendall) respectfully begs to announce to the citizens of Portsmouth, that the Fall Term of his

SELECT SCHOOL

for BOYS will commence on Monday, Sept. 1st.

Portsmouth Academy.

THE subscriber having been compelled by ill health to suspend for a time his school, has lately resumed the same, and now cordially invites back his pupils. Grateful for past patronage, deeply interested in teaching as a *profession*, and relying upon the experience and reputation acquired by twenty years of hard toil in that profession, he can appeal to the public for patronage with a good degree of confidence in his ability to satisfy all reasonable demands.

The Fall Term of his School will commence Wednesday the 3d day of Sept.

Tuition—For all English Studies $8.—Languages $10 per quarter of eleven weeks.

August 7, 1856. ISRAEL KIMBALL.

Classical & English Boarding School

FOR BOYS, IN YORK, ME.

THE next Term will commence Wednesday Aug. 15th and continue 14 weeks.

Terms—$2.75 per week for board and Tuition.

Particulars and References given on application to the subscriber.

jy17 6t ISAIAH P. MOODY.

CHARLESTOWN FEMALE SEMINARY.—The next Term of this School will open Sept. 1st, and continue fourteen weeks. The several departments of English Studies, Foreign Languages, Music, Painting and Ornamental Work, are now supplied with able and experienced Teachers, and every effort will be made to attain high and satisfactory results. The boarding accommodations are ample, and board will be charged at cost only. For admission, or catalogues, address the subscriber, or the Principal, Miss H. K. BRADBURY. For the Trustees,

NATHAN MERRIL, Sec'y.

Charlestown, Mass., Aug. 12.

"If you are Coming, Why don't you Come along?"

THAT is the "mot" now-a-days. Every locomotive on every Railroad shrieks it. It is daily rapped out on every Telegraphic Line in the country. The echoing blows of our Ship Carpenters hourly exemplify it. The smith at his anvil hammers it out. The clanking Press with breathless haste, sends the cry home to every family—"If you are coming, why don't you come along?"

It is uttered in an hundred tongues in a hundred lands. It has sounded like a slogan through the political world, and the "Old Fogies" are creeping along among the baggage wagons and the wounded. Thought, that moved at a funeral pace, now rushes on a tremendous charge; and all the old remedies for Liver Complaint have given way for

HOLMAN'S SPRING BITTERS.

"*If you are coming, why don't you come along?*"—Six paces to the front, is the word to everybody and everything that wants to be listened to or looked at. If you have anything to do, *do it*; if you wish any person to see anything, *show it*; if you have anything to be cured, CURE IT WITH

HOLMAN'S SPRING BITTERS.

"*If you are coming, why don't you come along?*"—If you have a Bottle of Holman's Bitters in your house, you need not suffer from

Biliousness, Weakness at the Stomach, Indigestion, Heartburn, Lowness of Spirits,

Nor any of the diseases incident to the season.

It used to take six men to make a pin; now one boy, a pull, a clip, and two strokes, and that's the way the pins are made. Once it took a Physician, lots of precious time, and quantities of nauseous drugs to cure some simple disease of the Blood.—Now, a quarter expended in

HOLMAN'S SPRING BITTERS

Brings Life and Health, flowing spirits and rosy cheeks.

"*If you are coming, why don't you come along?*"—If you are sick and weak, why don't you cure yourself? Here we offer you the article that will do it—there is no mistake about it. Every body knows about HOLMAN'S BITTERS; they have been tried and have "foed the mark straight."

They are a *good* medicine; they are *better* than anything else for all Spring Complaints; they are just the *best* Bitters that can be bought—and that's the best thing we can say about them. "*If you are coming, why don't you come along,*" before they are all gone?

Also, a lot of Remnants at Cost.

A great variety of Shades, Curtains, Fixtures, Tassels and Cord.

Please call and examine. 1y4

FREAK OF LIGHTNING. — Judge French, in the Exeter News Letter, says that on the 8th inst., the lightning struck a pine tree in his field, came down the top half way without doing damage, and then shattered in pieces the bottom half and scattered them for twelve rods around, so quickly that the top half fell down straight and lighted on the stump, and now stands up as straight as a candle on that stump! It is supported partly by splinters stuck into the ground. The tree was about 40 feet high.

The Manchester Mirror calls the above a good story—and so it is; yet by no means incredible.

When a little tornado, ten years ago or so, blew off the roof from the Portsmouth Steam Factory, a large slice of the roof sailed through the upper story of a brick barn 200 feet from the factory, cutting the story completely out; and the piece of factory roof passed across the street, and cut into a dwelling house where it stopped. The roof of the barn very naturally came down upon the chamber floor, and there rested. Being well built and substantial, the roof was lifted to its place again; the bricks were picked up, and the upper story of the barn rebuilt as before. Quite equal, we think, to the poise of the tree.

SHOW AND SUBSTANCE.—The Newport correspondent of the Providence Journal, repeats "Belle Brittain's" complaint of the scarcity of beaux at that celebrated watering place. The Newburyport Herald thinks that this is not surprising, when girls are covered with diamonds and jewelry and and flounces, no matter how beautiful nature has formed them.

A sensible man will inquire how he can maintain such style of life—whether he can support such a one, if he adds her to a household expense; and such an answer comes back upon the mind, that they will be avoided. It is quite evident, if he is not immensely rich, that a fashionable wife can live and indulge her fancies only by crime on his part or hers—by robbery or shame. The better class of young men, even in easy circumstances, will not visit the watering places for fear that in an unguarded moment, they may commit the indiscretion of contracting for such a useless article as a fashionable wife—they know it would be their ruin.

The follies of fashion, and the evils that spring from them, among which perhaps the greatest are celibacy or late marriages—are not confined to upper tendom, but have invaded all the ranks of life, and are to some extent, and perhaps more rapidly than we imagine, changing us from the old English to French modes of life. There is too much dress and show and extravagance—too much wasting away of life and the means of life, on all hands; and too much weakness and folly and crime as a consequence. Economy, virtue and happiness are inseparable; extravagance, vice and misery are their opposites, and always go hand in hand.

The foundation of all virtue is in home, and the cultivation of the social and moral powers by the fireside; and whatever will increase the number of happy homes, will increase the virtue and happiness of the nation. The habits of these times tend rather to decrease them. Many young men—and those the most sensible too—are making up their minds that marriage is an expensive affair, only to be indulged in when wealth has been secured—that wives are not "help meets" in any true sense of the word, as very many girls are now educated, and must be dispensed with at least till late in life; and that children instead of being blessings, as in all virtuous society of all ages they have been considered, are terrible burdens.

THOROUGHLY TANNED LEATHER.—In Lynn, yesterday, as a man was engaged in digging potatoes on Boston street, he struck with his hoe a hard substance, and on removing the earth found it to be the board cover of a vat or pit. He pursued his prospecting, and in a short time took out a large quantity of tanned leather, in good condition. It appears, on inquiry, that many years ago the spot was covered by a tannery, which was destroyed by fire; and on the same spot, some ten years since, a silk factory was destroyed by fire. Since that period the ground has been cultivated, but no signs of the "old tannery" were discovered until yesterday. It is calculated by that venerable individual, "the oldest inhabitant," that the leather in question must have been in the vat at least seventy-five years.—[Journal, 15th.

☞ It is said that during the late heavy rains in this neighborhood, there was not enough fell in the towns along Cape Cod to lay the dust; and that there has been none of consequence since the 4th of July, and vegetation is suffering much.

DISASTER—Late on Thursday evening, as a party of ten persons were returning from a pleasure trip down Boston Harbor in the yacht Star, they sailed near the East Boston shore. As they approached the ferry slip, a ferry boat was about entering the slip, and the party sailed immediately in the rear of the boat, which suddenly backed, on account of some scows which were ahead. The yacht was struck amidships, and immediately sunk The five women in the yacht were all drowned, but the men were saved, though some of them were much exhausted,

☞ The polygamists of Salt Lake City are very rabid against the Republicans, and talk about controlling several thousand votes in several States of the Union, and using them on the balance of power principle. They do not tell us which those States are.

CONGRESS.

FRIDAY, August 15.

The SENATE passed the House bill paying Vermont's expenses incurred to preserve the neutrality laws in 1838—39.

Civil appropriation bill.—Mr. Bayard's amendment appropriating half a million of dollars for continuation of the dome of the Capitol was discussed and adopted.—Mr. James's amendment providing for two principal and two assistant examiners in the Patent Office was adopted.

The HOUSE passed the Senate Consular and Diplomatic bill, and ordered 50,000 copies of Mr. Campbell's report on the tariff to be printed.—Passed the bill appropriating $200,000 for the establishment of a naval depot at Brunswick, Ga.

The Senate bill, regulating the pay of members, was taken up.

Mr. Orr offered a substitute: instead of paying $2,500 per year, he proposed $6000 for the entire Congress, covering the present one; the mileage to remain the same as now, deductions to be made for voluntary absence, and the books for members to be paid for out of their compensation.

Various ineffectual motions were made to lay the bill on the table, when the bill as amended by Mr. Orr, passed by 101 to 98.

A resolution, giving the usual extra compensation to the House employees was adopted.

The House passed the bill providing for the appointment in the Army of four surgeons and eight assistant surgeons.

Also, the bill for a survey of the southern boundary of Kansas, and the Senate bill amendatory of the act regulating fees, costs, and general exdenses of the judiciary.

The bill making appropriations for carrying the mail in the ocean steamers was then considered.

An amendment was adopted, in Committee, authorizing notice to be given for the termination of the arrangement of the additional allowance for the transportation of the mails between New York and Liverpool in the Collins line.

Without disposing of the bill, the House adjourned.

SENATE.—*Evening session—Continued.*—Mr. James' bill was then laid aside, to take up the substitute of the House for the Senate's, fixing the compensation of members of Congress.

Several Senators said it was a direct proposition to put two or three thousand dollars into the pockets of each member for past services, while others argued that the present compensation does not enable them to pay the reasonable expenses of gentlemen.

The substitute was adopted by 27 yeas to 12 nays.

The consideration of the civil bill was resumed, and an appropriation of nearly a million of dollars made to meet the requirements of the bill increasing the compensation of members.

Various amendments were acted on, and the bill was passed. Adjourned.

[Correspondence of the New York Herald.]

WASHINGTON, August 15. — Senator Pearce reported this morning in favor of sending an agent to Great Britain, on the subject of regulating coins between the two countries, and equalizing their value.

It is understood that Mr. Campbell's authority for announcing to the House the dismissal of those persons arrested in Kansas, on the charge of treason, without trial, was first from Wm. L. Marcy, and afterwards he received the assurance from the President himself. Upon this the new Governor has received instructions.

POISONING IN NEW YORK—ANOTHER EXTRAORDINARY CASE.—No sooner had the thrill of horror induced by the late alleged forcible poisoning of a female in the streets of New York partially subsided, than another case of a similar nature and more atrocious even in its management, has been brought to light. A young Irish woman named Margaret Montgomery, a domestic with Mr. Cram in Flatbush, visited New York, on Wednesday week, for the purpose of making some purchases and forwarding $50 to her parents in Ireland. In passing through Washington street in that city, she was accosted by an elderly woman standing at the door of a saloon, who pretended to know her, and invited her in. She was here invited to take a glass of beer, to which she foolishly consented, the woman sprinkling in it something which she thought was pepper. A few minutes after drinking it she became drowsy, and was carried by the woman up stairs, her clothes stripped off and put to bed.—On awaking, both clothes and money were gone. She came down staire in her chemise, and demanded her clothes from the woman, when she was seized hold of, beaten severely, and finally kicked into the street nearly in a state of nudity. From this she wandered, she hardly knows where, but was taken in by some person in the same street, where she was treated kindly during Friday night and the day of Saturday. Just after dark Saturday night she was provided with a skirt and sack, and in this plight started for Brooklyn, barefooted and bareheaded. Crossing the Fulton Ferry about 10 o'clock at night, her singular conduct—like a drunken person, as was then supposed—attracted the attention of several citizens, who handed her over to the police. It then appeared that she had been poisoned, and a surgeon was called, who has little hopes of her recovery. From the time she was kicked into the street up to the present, she has been in the greatest agony from cramps and sickness at the stomach, and the pyshicians in attendance suppose that both strychnine and laudanum were administered to her in the beer, and that the latter somewhat counteracted the effects of the former poison. This case has, as it should, attracted much attention, the sufferer having a good character for truthfulness.

TERRIFIC STORM.

NEW ORLEANS, Aug. 16th.

A terrific storm occurred in this vicinity on Sunday, which lasted all day on Monday. Its effects were most disastrous at Last Island, a great summer resort, which accounts represent to have been entirely inundated.

Every building on the Island is said to have been swept away, and 137 lives lost.

Steamer Star, which left New Orleans on Saturday, encountered the storm before she reached the Island, and was soon a total wreck. The scene was terrible, 250 persons clinging to the fragments.

Whether any were lost, is not known, but a steamer went to their immediate relief.

Cecillion Island was also been submerged; and the meagre accounts received state an immense loss of property, and many lives.

On the lake and river, numerous steam and flatboats and other craft are injured.—Nearly all the wharves at the watering places have been inundated, and the bath-houses, &c. swept away. The crops also suffered much.

THE HABEAS CORPUS FOR THE KANSAS PRISONERS.—The telegraph, yesterday, with its usual accuracy, contradicted a statement which had never been made, by an assertion which has no foundation in fact. It stated in a dispatch from Washington, that Judge McLean had refused to allow the writ of habeas corpus which had been applied for by Gov. Robinson, Brown and others. This is not so. We are informed that the affidavits have been returned to the parties to be modified according to the suggestion of Judge McLean himself, who, when the papers have been amended, will hear the application. Of course, we cannot say how much probability there is of the issuance of the writ.

The Detroit Tribune says, (but whether on its own authority or the Cleveland Leader's?) that another United States Judge has been spoken to upon the subject, and that he will allow a writ in case of its refusal by Judge McLean.—[Cincinnati Gazette, 13th.

NOVEL DEER HUNTING.—Herr Driesbach, while travelling in Indiana, near La Porte, observed, a short distance from the road, under the shade of a cluster of trees, a fine fat buck, whose dainty form was sufficient to whet the appetite of the most *passe gourmand* that ever played freaks with an inordinate appetite. Now, at the present season there is a law prohibiting the shooting of deer, so Herr, who is said to be "some" with the rifle, had to abandon the idea of bringing him down by that method. What was to be done? Such a luscious feast could not be passed by, and there were none of the canine species about to hunt him down. A lucky thought glanced across the imagination of the great lion-king; his pet leopard was at hand, and he could easily convert him into, not a lion's provider, but a provider for the lion's master. Unbarring the cage in which his dangerous pet was confined, he pointed to the unconscious tenant of the forest, who was calmly browsing upon the green herbage, not dreaming of the proximity of his dangerous foe. In a minute afterward the beautiful but treacherous animal was stealthily creeping toward his prey; who, failing to detect the faintest noise, so cat-like was the approach, was first made conscious of his hapless fate by feeling the fangs of the leopard after the fatal spring. Herr Driesbach was almost immediately upon the spot, and with his hunting knife soon completed the work so successfully commenced by his spotted companion.

SINGULAR CAUSE OF DEATH.—Mr. Lewis Kent, son of Dea. Seba Kent, of Pawtucket, Mass., died on Tuesday last, from the loss of blood occasioned by the extraction of two teeth. Mr. Kent has been engaged for a number of years in the western country, and although naturally of great physical powers, he returned home much reduced by that scourge of the West, fever and ague. To this fact is undoubtedly to be attributed the fatal result of a dental operation.—*Pawtucket Gazette.*

Two writing school masters travelling under the names of Wallis and Tifft, accompanied by ladies, have visited Andover and Haverhill, and after having collected advance pay for a course of lessons in penmanship "vamosed," swindling the public and the printer.

FAN PARASOLS.—Alexander Forot, of Paris, has secured a patent for making a parasol that can be folded into the form of a fan, instead of folding it in the common manner.

From the Boston Saturday Evening Gazette.

A PERFUMED BREATH.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A BEAUTIFUL COMPLEXION may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and roseate hue. Wet a towel, pour on two or three drops, and wash the face night and morning

SHAVING MADE EASY.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," rub the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

W. P. Fetridge & Co. Proprietors, 328 Pearl street, New York, and 100 Washington street, Boston. For sale in Portsmouth by William R. Preston. 6mje16

Clark's Female Pills.

The Great English Remedy.

Prepared from a prescription of Sir Jas. Clarke, M.D., Physician Extraordinary to the Queen.

THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

It is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION.

These Pills should not be taken by females during the FIRST THREE MONTHS *of Pregnancy, as they are sure to bring on Miscarriage, but at every other time and in every other case they are perfectly safe.*

Sole Agents for the United States and Canada,

I. C. BALLWIN & CO., Rochester, N.Y.

"Try me, and I'll do you Good."

DR. LANGLEY'S

Root and Herb Janndice Bitters.

The Great Spring and Summer Medicine.

THIS Medicine, composed of the best roots, herbs and barks in the world, has constantly increased in public favor for six years, until by its wonderful success, it is acknowledged to be the best and cheapest medicine in the world. It acts with magic-like power upon the strong holds of disease—cleanses the bowels, purifies the blood, gives vitality to an inactive, torpid liver, cures Jaundice in all its forms, Dyspepsia, Costiveness, Indigestion, Headache, Dizziness, Piles, Heartburn, Languor, Weakness, Pain in the Side and Bowels, all Billious Diseases and Foul Stomach, and especially Humors of the Blood and Skin; —strengthening, healing, purifying, building up, and keeping in order the whole system. All persons ought to use them during the spring and summer.

Only 25 cents for a pint, and 37½ cents for a quart bottle. Office 99 Union St., Boston. Sold by all dealers in medicine, everywhere. mh13 6mr

Whalebone Skirts.

THE only object of a Whalebone Skirt is to give a proper, graceful and elegant form to a lady's dress. Unless this is accomplished, the article is entirely worthless. The Ladies, by referring to Frank Leslie's Gazette of Fashions for April, will notice that E. & J. HOLMES have from actual experience been successful in producing this most desirable article, and that their IMPROVED SEAMLESS SKIRT meets the unanimous approbation of the ladies. They are light, pliable, and easily adjusted, and the only Skirt which is equally adapted to the street and the crowd; are made in one piece or breadth, and in our opinion, and in the opinion of thousands of ladies who have bought them, the most reliable goods of the kind in the market. We were the first to introduce a Whalebone Skirt, and from our experience in the manufacture and retail of these goods, we have found that all kinds of cotton cord, and nearly all kinds of cord, and all starched goods, cannot be used satisfactorily, as they will not recover their place when pressed out of shape. We consider all

WHALEBONE SKIRTS

as worthless, of whatever material made, unless there is something of sufficient stiffness and elasticity, and at the same time yielding and pliable, to keep the dress in proper shape below the bones. To accomplish this we have our cord made under our own direction, and expressly for our goods, and from the only material that can be used that will recover its proper place when pressed out of shape, and are so twisted in manufacturing that they will not roll or curl when wet, and warranted to wash without injury. The public are cautioned against all worthless goods, as the market since our goods have become popular and extensively known, has been flooded with goods of all kinds, and put together without form or comeliness, or any other object but to sell, and of course are called Whalebone Skirts. Some imitators, in their efforts to profit by our reputation, have gone so far as to copy almost exactly our trade mark upon their goods.

Please Notice.—Every genuine article stamped, *E & J. HOLMES'S IMPROVED SEAMLESS WHALEBONE SKIRT*, and may be found by the trade in many of the largest Jobbing Houses in New York and Boston, and at retail in the principal Dry Goods stores.

June 6, 1856. eo2m E. & J. HOLMES, Boston.

Great American and Foreign Office

For Securing Patents for Inventions.

Agency for business with US Patent Office, Washington

R. H. EDDY,

No. 76 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey so Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington—Patents secured in Great Britian, France, and other foreign countries, through Agents of the highest respectability.

R. H. EDDY.
Solicitor of Patents.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

CHAS. MASON,
Commissioner of Patents.

Boston, Jan 11 1856. d7eod1y

Hartford Fire Insurance Co.

HARTFORD, CONN.

INCORPORATED IN 1810.

Capital $300,000—all paid in and invested.

THIS long established and well known Institution, has transacted a most extensive insurance business for more than forty years, throughout the United States and the British North American Provinces. It has aimed to secure public confidence, by an honorable and faithful fulfilment of its contracts; and owners of property are assured that all fair claims for loss under its policies will be liberally adjusted and promptly paid. Public Buildings, Manufactories, Mills, Machinery, Dwelling Houses, Stores, Merchandise, Household Furniture, Vessels on the Stocks or while in port, &c. will be insured as low as the risk will admit. The following gentlemen constitute the

Board of Directors.

H. Huntington, Charles Bowell, Job Allyn,
Albert Day, Henry Kenney, John P. Brace,
James Goodwin, Calvin Day, Chas. J. Russ.

C. B. Bowers, *Sec.* H. Huntington, *Pres.*

Having been appointed Agent of the above reliable Company, Policies will be issued at the usual rates, on application to

JOHN SISE, Agent,

City Fire Insurance Co.

With a Capital of

$150,000,

All paid in and invested,

INSURE against hazards by Fire, on Buildings, Merchandize, Household Furniture, and other property not exceeding fifteen thousand dollars on one risk.

DIRECTORS:

S. P. Heywood, Abraham T. Lowe,
James Cheever, David Kimball,
John H. Wilkins, Isaiah Bangs,
Warren White, E. P. Tileston,
William Dehon, Edward A. Raymond,
Frederick Perkins, Geo. C. Richardson,
James Brown.

A. W. Benton, Sec. S. P. Heywood, Pres.

Office, No. 55 State street, Boston.

Howard Fire Insurance Co.

OF LOWELL, MASS.

CAPITAL, $106,100.

J. W. Daniels, Sec'y. Nathan Allen, Pres.

INSURES against loss or damage by Fire on Stocks of Goods, Stores, Dwelling Houses, Furniture and other property upon as favorable terms as other sound companies, not exceeding five thousand dollars on one risk.

Marine Insurance.

THE subscriber is authorized to receive applications for Marine Insurance in one of the first Boston Offices, on Vessels, Cargoes, and Freights, by special or open policies not exceeding $15,000 in any one risk.

JOHN SISE, Insurance Agent.
j1 5 Market Square, Portsmouth, N.H.

Marine Risks.

THE subscriber is prepared to make INSURance upon approved Vessels, Cargoes and Freights. J. P. BARTLETT.

Cochecho Mutual Fire Insurance Co.

THE subscriber having been appointed Agent for the above named Company, will receive applications for Insurance of Real or Personal Estate. The risks are divided into Three Classes, viz: 1st, or Farm Class; 2d, or Village Class; 3d, or Union Class. The average assessment in the Farm Class from April 1850 (the time of the Classification) to Jan. 1856, has been less than ¼ of 1 per cent. annually on the amount insured. In the Village Class for the same the average yearly assessment has been less than 1 10 of 1 per cent. on the amount insured. In the 3d, or Union Class, from Oct. 1846 to Jan 1856, the yearly average of assessments has been less than 1-5 of 1 per cent. on the amount insured.

H. F. WENDELL, Agent,
Office No. 70 State street.

He hopes to merit a share of public patronage, by strict attention and fair dealing, to his patrons. Orders promptly attended to.

Please give me a call, at 21 Daniel st.

A. C. MANN

FARM LANDS FOR SALE.

The Illinois Central Railroad Company

IS NOW PREPARED TO SELL

OVER TWO MILLION ACRES

OF

FARMING LANDS,

In Tracts of 40 acres and upwards, on long credit, at low rates of interest.

THESE lands were granted by the Government to aid in the construction of this Railroad, and include some of the richest and most fertile Prairies in the State, interspersed here and there with magnificent groves of oak and other timber. The Road extends from Chicago, on the north-east, to Cairo at the south, and from thence to Galena and Dunleith, in the north-west extreme of the State, and as all the lands lie within fifteen miles on each side of this Road, ready and cheap means are afforded by it for transporting the products of the lands to any of those points and from thence to Eastern and Southern markets. Moreover, the rapid growth of flourishing towns and villages along the line, and the great increase in population by immigration, etc. afford a substantial and growing home demand for farm produce.

The soil is a dark, rich mould, from one to five feet in depth, is gently rolling and peculiarly fitted for grazing cattle and sheep, or the cultivation of wheat, Indian corn, etc.

Economy in cultivating and great productiveness are the well known characteristics of Illinois lands. Trees are not required to be cut down, stumps grubbed, or stone picked off, as is generally the case in cultivating new land in the older States. The first crop of Indian corn, planted on the newly broken sod, usually repays the cost of plowing and fencing.

Wheat sown on the newly-turned sod is sure to yield very *large profits*. A man with a plow and two yoke of oxen will break one and a half to two acres per day. Contracts can be made for breaking, ready for corn or wheat, at from $2 to 2.50 per acre. By judicious management, the land may be plowed and fenced the first, and under a *high state of cultivation* the second year.

Corn, grain, cattle, etc. will be forwarded at reasonable rates to Chicago, for the Eastern market, and to Cairo for the Southern. The larger yield on the cheap lands of Illinois over the high priced lands in the Eastern and Middle States, is known to be much more than sufficient to pay the difference of transportation to the Eastern market.

Bituminous coal is mined at several points along the Road, and is a cheap and desirable fuel. It can be delivered at several points along the Road at $1.50 to $4 per ton; Wood can be had at the same rates per cord.

Those who think of settling in Iowa or Minnesota, should bear in mind, that lands there of any value, along the water courses and for many miles inland, have been disposed of;—that for those located in the interior, there are no conveniences for transporting the produce to market, railroads not having been introduced there. That to send the produce of these lands, one or two hundred miles by wagon to market, would cost much more than the expense of cultivating them; and hence Government lands thus situated, at $1.25 per acre are not so good investments as the lands of this company at the prices fixed.

The same remark holds good in relation to the lands in Kansas and Nebraska, for although vacant lands may be found nearer the water courses the distance to market is far greater, and every hundred miles the produce of those lands are carried either in wagons or interrupted water communications, increases the expense of transportation, which must be borne by the settlers, in the reduced price of their products; and to that extent prevent, or are the incomes from their farms, and of course on their investments, annually and every year reduced.

The great fertility of the lands now offered for sale by this company, and their consequent yield over those of the Middle and Eastern States, is much more than sufficient to pay the difference in the cost of transportation, especially in view of the facilities furnished by this Road, and others with which it connects, the operations of which are not interrupted by the low water of summer, or the frosts of winter.

PRICES AND TERMS OF PAYMENT.

The Price will vary from $5 to $25, according to the quality, location, &c. Contracts for Deeds may be made during the year 1856, stipulating the purchase money to be paid in five annual installments; the first to become due in two years from the date of contract, and the others annually thereafter. The last payment will become due at the end of the sixth year from the date of the contract.

Interest will be charged at only 3 per ct. per ann.

As a security to the performance of the contract the first two years' interest must be paid in advance, and it must be understood that at least one tenth of the land purchased shall yearly be brought under cultivation. Twenty per cent. from the credit price will be deducted for cash. The Company's construction bonds will be received as cash.

READY FRAMED FARM BUILDINGS,

Which can be set up in a few days, can be obtained from Responsible Persons.

They will be 12 ft. by 20 ft. divided into one living and three bed rooms, and will cost complete set up on ground chosen anywhere along the road $150 in cash, exclusive of transportation. Larger buildings may be contracted for at proportionate rates. The Company will forward all the materials for such buildings over the Road promptly.

Special arrangements with dealers can be made to supply those purchasing the Company's lands with fencing materials, agricultural tools, and an outfit of provisions in any quantity, at the *lowest wholesale prices.*

It is believed that the price, long credit, and low rate of interest, charged for these lands will enable a man with a few hundred dollars in cash, and ordinary industry, to make himself independent before all the purchase money becomes due. In the mean time, the rapid settlement of the country will probably have increased their value four or five fold. When required an experienced person will accompany applicants, to give information, and aid in selecting lands.

Circulars containing numerous instances of successful farming, signed by respectable and well known farmers living in the neighborhood of the Railroad lands, throughout the State—also the cost of fencing, price of cattle, expense of harvesting, threshing, &c. by contract—or any other information—will be cheerfully given, on application, either personally or by letter, in English, French or German, addressed to

JOHN WILSON,
Land Commissioner of Ill. Central R. R. Co.,

Office up to the 1st of May, 52 Michigan Avenue, Chicago, Ill.; after that date in the New Stone Passenger Depot, So. Water st. a8 6m
